

Overall design area
11.4128 km²

Green-space ratio
12.3423%

Public-space ratio
7.3281%

Key areas
3 / 368.4 ha

Three-level framework
43.6 km² coordinated research: AI ecosystem and future urban form. 11.4 km² overall design: renewal, industry, movement, municipal systems and character. 368.4 ha key areas: buildings, public space, active travel and implementation projects.

Ten AI scenarios
Open-source hall, safety sandbox, edge-compute station, active-travel navigation, international pitching lounge, low-carbon corridor, commercialization street, data-element lounge, daily-service street and Global AI Activity Week route.

Evidence and implementation limits
Every proposition connects the calltaskbook, GeoJSON, metrics, matrices, drawings and self-check. Missing formal boundaries, controls, road redlines, ownership, municipal and heritage inputs remain pending conditions.
