

JING-ZHANG INTELLIGENCE SPINE

A3 BOOKLET

Overall spatial structure and metrics

Heritage spine

Railway memory and the heritage park form the public-space narrative spine.

Three innovation anchors

Zhongzhiyuan, AI Origin Community and Dazhongsi host indigenous innovation, open-source transformation and international industrial exchange.

Blue-green active-travel loop

Qinghe, Xiaoyuehe and rail stations connect daily travel, public activity and industry service.

Detailed design for key areas

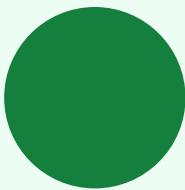

Zhongzhiyuan AI Indigenous-Innovation Accelerator

Qinghe frontage, industry display, open testing, standard governance and low-carbon exchange.

Programme · buildings · public space · movement · AI · delivery

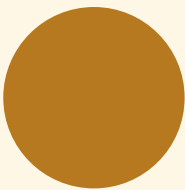

Beijing AI Origin Community

Near-campus commercialization, open-source collaboration, talent services, everyday amenities and active-travel stitching.

Programme · buildings · public space · movement · AI · delivery

Dazhongsi AI Industry Cluster

Station integration, four-quadrant connection, agent/terminal display and international pitching.

Programme · buildings · public space · movement · AI · delivery

AI scenarios, delivery and review limits

Open-source hall · Safety sandbox · Edge-compute station · AI active-travel navigation · International pitching lounge · Low-carbon corridor · Commercialization street · Data-element lounge · Daily-service street · Global AI Activity Week route

Near term

Light installations, open days, scenario pilots and human review.

Mid term

Renewal projects, active-travel gap stitching, service platforms and operating mechanisms.

Long term

Integrated delivery after formal boundary, regulatory, municipal, transport and ownership conditions are supplied.

Review boundary: this package claims no official approval, adopted regulatory plan, final ownership, final building scale or guaranteed delivery; every pending condition is traceable in assumptions.json and the self-check.
