

JingZhang Intelligence Loop

An AI Innovation Belt on the Century-Old Railway

Open Call · Urban Design Submission

provisional geometry · intake only

Overview: a belt along the heritage railway linking three key areas.

Green ratio ~12.3%, public-space ratio ~7.3%, site ~11.4 km² (provisional).

Framework: 3 tiers + Xiaoyuehe wing + 3 key areas + AI mobility spine.

Key Areas

1. Zhongzhiyuan AI Acceleration Area

Role: open-source model & chip适配 testbed; open-release hall + dev community.

2. Beijing AI Origin Community

Role: public AI experience & inclusive service node for citizens.

3. Dazhongsi AI Industry Cluster

Role: industry-service mixed & annual-event venue.

Metrics & Evidence

蓝绿率 Green ratio

公共空间率 Public-space ratio

FAR: pending zoning control

site_area $\approx$ 11.4 km² (provisional, recalc on official polygon)

Inclusion & Phasing

Inclusion: elders, PwD, caregivers, low-digital users get non-smart equivalents.

Accessibility: physical paths, legible signage, on-site assistance, stop conditions.

Phasing: near-term pilot → mid-term scale → long-term ops

Each phase has owner, entry gate, acceptance metric, exit mechanism.
