

JING-ZHANG LEARNLINE

TEACH-BACK CITY

LEARNLINE: Spatial Framework and Teach-Back Contract

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Tea = governance Gold = learning
Cora = pause / takeover

A learning line that requires urban AI projects to teach back responsibility before deployment.

11.413 km² · 9.54 km

3 COURTS · 12 POINTS

Design basis and data boundary

PROVISIONAL / AUDITABLE / RECOMPUTABLE

LEARNLINE: Spatial Framework and Teach-Back Contract

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Tea = governance Gold = learning

Cora = pause / takeover

Every area and ratio uses the repository provisional rough boundary; none is an official redline, approval basis, or statutory control.

Three-level scope framework

43.6 km² / 11.4 km² / 3 KEY AREAS

Topology-safe Concept Land-use Structure

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

- 1 Problem
- 2 Minimum data
- 3 Named human reviewer
- 4 No-AI task path
- 5 Pause / exit conditions
- 6 Public course receipt

3 Handover Courts · 12 public course points
Team governance Gold teaming
Coral pause/takeover

Research frames the ecosystem, overall design organizes space, and three key areas test responsibility and operation.

Six-field Teach-Back Contract

REGISTER · TEST · TAKE OVER · EXIT · REVIEW

Shared-source Metrics and Six-field Course Contract

Provisional design model · Not an official redline · Recalculate when official polygons arrive

11.413 km²

provisional model

9.54 km

Teach-Back Line

32.75%

concept green spine

4.33%

course public space

SIX-FIELD CONTRACT

- 1 Problem
- 2 Minimum data
- 3 Named human reviewer
- 4 No-AI task path
- 5 Pause / exit conditions
- 6 Public course receipt

3 Handover Courts · 12 public course points
Team governance Gold Learning
Coral pause / takeover

Problem, minimum data, named human reviewer, no-AI task path, pause/exit conditions, and a public course receipt.

Topology-safe concept land use

FULL COVERAGE / NO GAP / NO OVERLAP

Topology-safe Concept Land-use Structure

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

- 1 Problem
- 2 Minimum data
- 3 Named human reviewer
- 4 No-AI task path
- 5 Pause / exit conditions
- 6 Public course receipt

3 Handover Courts · 12 public course points
Tea = governance Gold = learning
Coral = pause / takeover

Six land-use bands share topology, fully cover the boundary, and express a concept rather than statutory zoning.

Three Handover Courts

EVALUATION / TRANSFER / EXCHANGE

Three Handover Courts: Three Areas, Three Responsibilities

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Tea = governance Gold = learning

Coral = pause / takeover

Zhongzhiyuan evaluates, the Origin Community transfers open-source work, and Dazhongsi hosts native-AI exchange.

Six international mechanism references

TRANSPARENCY / TESTING / PARTICIPATION

LEARNLINE: Spatial Framework and Teach-Back Contract

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Tea = governance Gold = learning

Coral = pause / takeover

Helsinki, Amsterdam, Singapore, Canada, New York, and Barcelona inform registration, testing, participation, and exit mechanisms.

Twelve course scenario cards

3 INDUSTRIAL VALIDATION SCENARIOS

Shared-source Metrics and Six-field Course Contract

Provisional design model · Not an official redline · Recalculate when official polygons arrive

11.413 km²

provisional model

9.54 km

Teach-Back Line

32.75%

concept green spine

4.33%

course public space

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Tea = governance Gold = learning

Coral = pause / takeover

Twelve course points share one contract; three are industrial validation cases; every case keeps a human and no-AI path.

Teach-Back Line and blue-green public space

9.54 km / 32.75% / 4.33%

9.54 km Teach-Back Line and Blue-Green Public Space

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Teal = governance Gold = learning
Coral = pause / takeover

A 9.54 km line links three courts;
the concept green spine is 32.75%
and course public space is 4.33%.

11.413 km² · 9.54 km

3 COURTS · 12 POINTS

Culture, landmarks, and contribution receipts

FIRST RECEIPT WALL / TAKEOVER BELL / SIGNAL POST

Three Handover Courts: Three Areas, Three Responsibilities

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Tea = governance Gold = learning

Coral = pause / takeover

The First Receipt Wall, Human Takeover Bell, and Centennial Signal Post make contribution, failure, and explainability public memory.

Phasing and long-term operation

CONTRACT FIRST / SPACE SECOND / SCALE LAST

9.54 km Teach-Back Line and Blue-Green Public Space

Provisional design model · Not an official redline · Recalculate when official polygons arrive

SIX-FIELD CONTRACT

1 Problem

2 Minimum data

3 Named human reviewer

4 No-AI task path

5 Pause / exit conditions

6 Public course receipt

3 Handover Courts · 12 public course points

Tea = governance Gold = learning

Cora = pause / takeover

Run the contract and low-risk cases first, add reversible spaces second, and study permanent work only after official conditions arrive.

Metrics, risks, and recalculation trigger
