SLOW MOBILITY — BLUE/GREEN — PUBLIC INTERFACES | DAILY LIFE FIRST

Road, green-space and public-space expression retained; concept lines require field verification.

05 / EVIDENCE MATURITY

Move from field coverage to evidence maturity

Blue and green cards are auditable document states. Orange zeros are real-world evidence that does not yet exist.

EVIDENCE LADDER - ONLY THE G0 CONTRACT LAYER EXISTS

BOUNDARY / Coverage proves that a test can be inspected before it starts. It proves no approval, operator, participant, benefit, or safety performance.

A Verifiable Scenario Operating System · Four Gates

An urban problem must pass an auditable state machine; it cannot jump from a demo to public operation.

Mandatory fields in every scenario passport

Version · accountable role · risk tier	Minimum data · place and time boundary	Public-value gate · harmed-group check
Human takeover · appeal · non-AI option	Pass threshold · stop threshold · retest pack	Expiry review · active retirement · failure log

Graduation cube

technical maturity × public-value maturity × governance maturity

12 passport nodes · 3 service zones · passport completeness 100% · manual fallback 100%

EVIDENCE LIMIT Any failed dimension pauses, corrects, or retires the scenario; G3 still requires competent approval.
