

AI can change services; it cannot rewrite the ordinary civic route.

不绕行的 AI 城市
INVARIANT CIVIC ROUTES

v0.14.s

1 SPINE · 6 SEGMENTS · 6 STITCHES · 3 CO

Ordinary civic routes come first; AI attaches from the side. The three orange routes are the first everyday journeys written into proposal geometry.

ROAD-009 TEST WITHOUT BLOCKING
CAMPUS COURTS
AI-OFF: same route still completes the ordinary task

ROAD-010 CARE WITHOUT ACCOUNT
NEIGHBORHOOD BLOCKS
AI-OFF: same route still completes the ordinary task

ROAD-011 ARRIVE WITHOUT APP
STATION-CITY HALL
AI-OFF: same route still completes the ordinary task

Dazhongs: **REAL LEVEL DATA REQUIRED**; no fabricated station entrance, bridge/tunnel or deck.

三种城市，不是三个合同框
THREE URBAN TYPES, NOT THREE CONTRACT BOXES

v0.14.s

ZHONGZHIYUAN | campus courts + R&D ground floor
ROAD-009 · TEST WITHOUT BLOCKING

TEST OFF: work—rest—common
life stays on the same route

AI/robots enter lateral test pockets, never the public main route.

AI = SIDE INTERFACE / OPTIONAL / REVERSIBLE

AI ORIGIN | neighborhood blocks + public ground floor
ROAD-010 · CARE WITHOUT ACCOUNT

NO ACCOUNT: home—care—living
room stays on the same route

AI only augments navigation/matching; human help and public ground floors come first.

AI = SIDE INTERFACE / OPTIONAL / REVERSIBLE

DAZHONGSI | station-city hall + waiting commerce +
ROAD-011 · ARRIVE WITHOUT APP

NO APP: wayfind—ask—wait—leave
stays on the same route

Dynamic information overlays fixed wayfinding; real levels remain to verify.

AI = SIDE INTERFACE / OPTIONAL / REVERSIBLE

C7 功能邻接，而不是“AI 用地”
C7 FUNCTION ADJACENCY, NOT “AI LAND USE”

v0.14.s

HOME LEARN CARE
MOVE GREEN WORK
COMMON LIFE

AI does not create a new statutory land-use class. Orange ordinary routes cross real functional adjacencies, reconnecting research, housing, care, commerce, education and green space to everyday life.

- HOME
- CARE
- WORK / R&D
- CULTURE
- LEARN
- COMMON LIFE
- GREEN

普通路径连续性 + 绿脊 + 六缝
ORDINARY ROUTE CONTINUITY + GREEN SPINE + SIX STITCHES

v0.14.s

LEGEND

- PUBLIC GREEN SPINE
- CYCLE CONTINUITY
- 6 EAST-WEST STITCHES
- 3 INVARIANT CIVIC ROUTES

The six stitches remain connection intentions, not new roads or bridges/tunnels. The three orange routes prove conceptual continuity of ordinary-city tasks only.

DAZHONGSI | REAL LEVEL DATA REQUIRED
Station entrances, roads, railway levels and vertical continuity require verified evidence.

设计证据闭环：3 条主路径 · 6 类接口 · 2 条实施路径
DESIGN EVIDENCE CLOSURE: 3 ROUTES · 6 INTERFACES · 2 IMPLEMENTATION PATHS

v0.14.s
