

Jingzhang Silver-Age Accessibility Belt: AI-Assisted Medical, Civic and Barrier-Free Mobility Services for the Elderly

Centennial Jingzhang AI Innovation Belt • Open Call Concept Proposal
Iteration v9.2 • zachshi-ai

Site area	Green ratio	Public-space ratio	Building footprint
11.41 km ²	13.7 %	2.0 %	8.3 ×10 ⁴ m ²

Re-imagining the Jingzhang Railway Heritage Park as a 'silver-age service spine' for the elderly communities along the corridor: an AI-assisted public-service belt covering elderly medical visits, civic errands and barrier-free mobility. The proposal sets out the 'Jingzhang Silver-Age Accessibility Belt' concept, linking three key areas and 沿线 communities, hospitals, civic-service points and metro entrances via a ~9 km continuous barrier-free slow-mobility spine, with 10 AI elderly-service scenario cards (incl. 3 test/validation scenarios), 5 elderly personas, 3 warmth landmarks, 9 elderly-use

The provisional boundary is conceptual, not an official red line; all areas are EPSG:4548 union recomputes; unknown metrics await official data. This booklet is a concept design document and constitutes no government approval or implementation commitment.

Design Basis

Announcement indicators and agent.1-agent.6 requirements are each addressed; see the proposal for the current-conditions diagnosis.

Spatial Structure

A spine-three-areas-multi-node skeleton unfolds along the Jingzhang railway heritage corridor; see the proposal and figures for the three-level scope.

Key Areas

Key area	Area
众智园AI自主创新加速区（适老AI技术验证叠加区）	192.1 ha (officially announced)
北京AI原点社区（银龄智慧生活示范社区）	104.3 ha (officially announced)
大钟寺AI产业聚集区（适老服务产业转化区）	72.0 ha (officially announced)

AI Scenario Cards (excerpt)

ID	Scenario	Users
SCN-01	银龄就医导航	
SCN-02	无障碍代取件	
SCN-03	银龄健康驿站	
SCN-04	夜间安全巡逻	
SCN-05	无障碍全流程测试	
SCN-06	远程陪护演练	

Key Metrics

Site area 11.41 km ²	Green ratio 13.7 %	Public-space ratio 2.0 %	Building footprint 8.3 ×10 ⁴ m ²
---	------------------------------	------------------------------------	--

Boundary & Compliance

Provisional boundary is not an official red line; field metrics remain unknown; all scenarios are synthetic tabletop runs, unauthorized and not run on site; every AI service has a no-App/human equivalent path.

Four-gate self-check

All four gates PASS (deterministic / spatial / visual / professional evidence)
