

Vision and Overall Structure

01 JINGZHANG ENCOUNTER COMMONS

One Spine • Three Commons • Two Wings • Six Seams

Turn talent density into public tasks, open time, and shared output

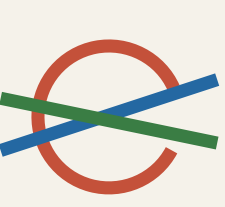

Provisional boundary • conceptual urban-design diagram • not for surveying, approval, or construction

site_boundary • key_areas • roads • green_space • public_space • v1.0 / 2026-08-09 • Agent-generated original diagram

- 01 One Spine, Three Commons, Two Wings, Six Seams, Twelve Scenes
- 02 AI matches public tasks and resources, never people
- 03 Provisional geometry supports concepts and checks only

Boundary: provisional rough • Location: concept only • Decision: human final

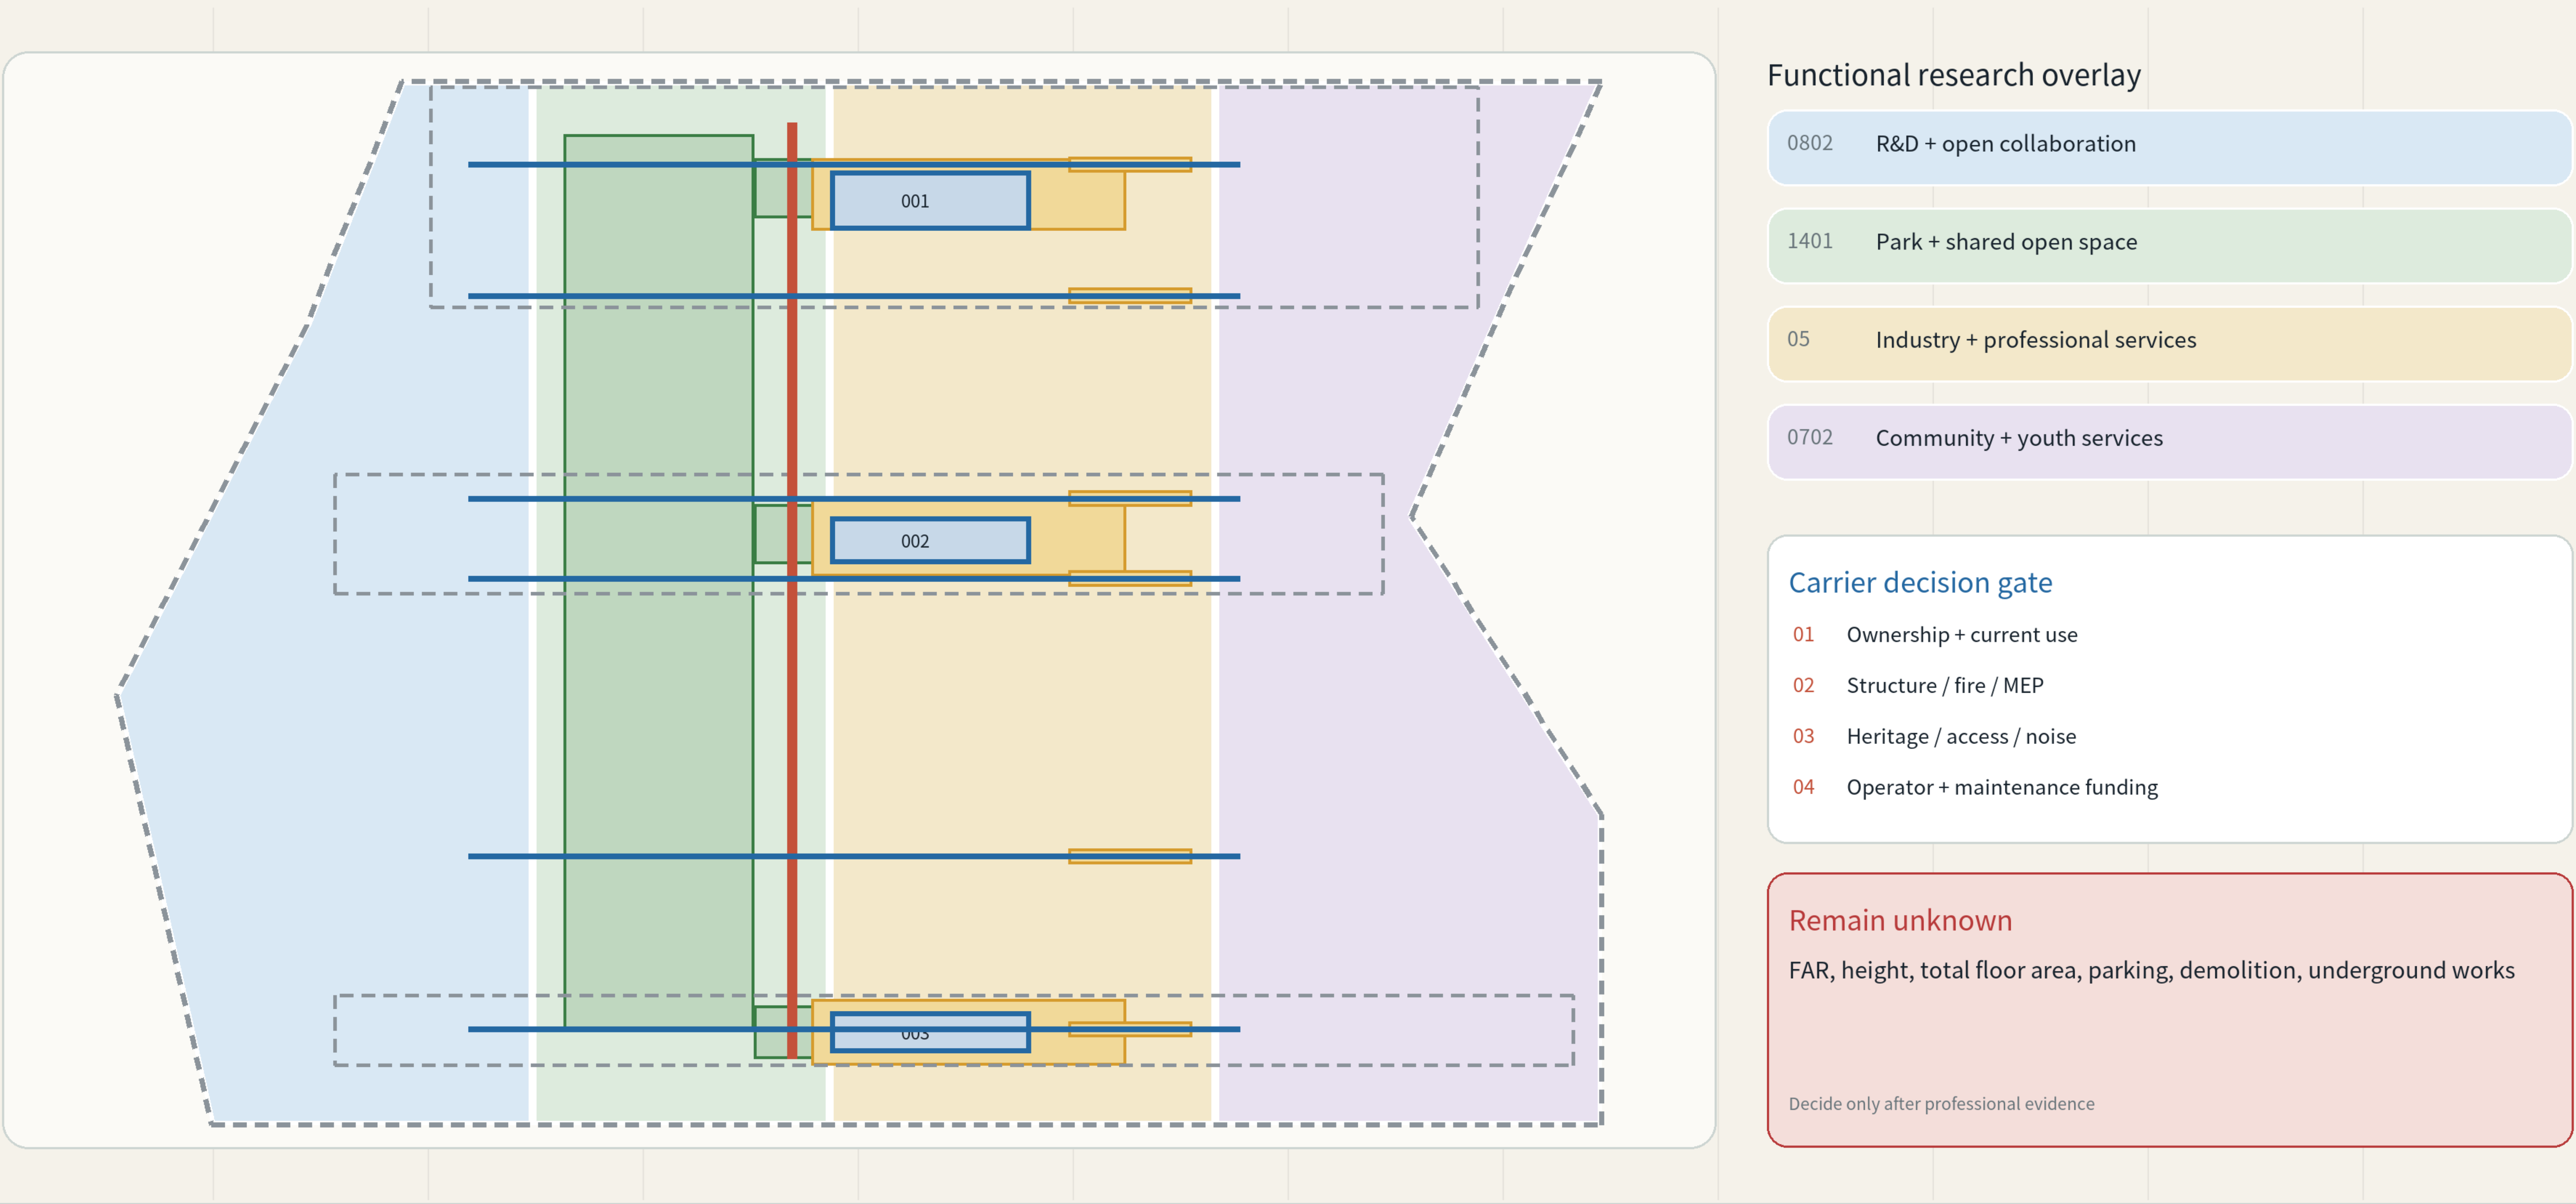

Land Use, Buildings, and Renewal

Functional Overlay and Adaptive Reuse

Complete coverage for topology checks; not existing, ownership, or statutory land use

Provisional boundary • conceptual urban-design diagram • not for surveying, approval, or construction

Functional research overlay

- 0802 R&D + open collaboration
- 1401 Park + shared open space
- 05 Industry + professional services
- 0702 Community + youth services

Carrier decision gate

01

Ownership + current use

02

Structure / fire / MEP

03

Heritage / access / noise

04

Operator + maintenance funding

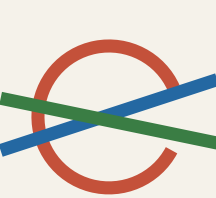

Remain unknown

FAR, height, total floor area, parking, demolition, underground works

Decide only after professional evidence

- 01 Complete overlay is not existing/statutory land use
- 02 Building envelopes are unverified carrier types
- 03 Protocol first, light kit second, professional works later

Boundary: provisional rough • Location: concept only • Decision: human final

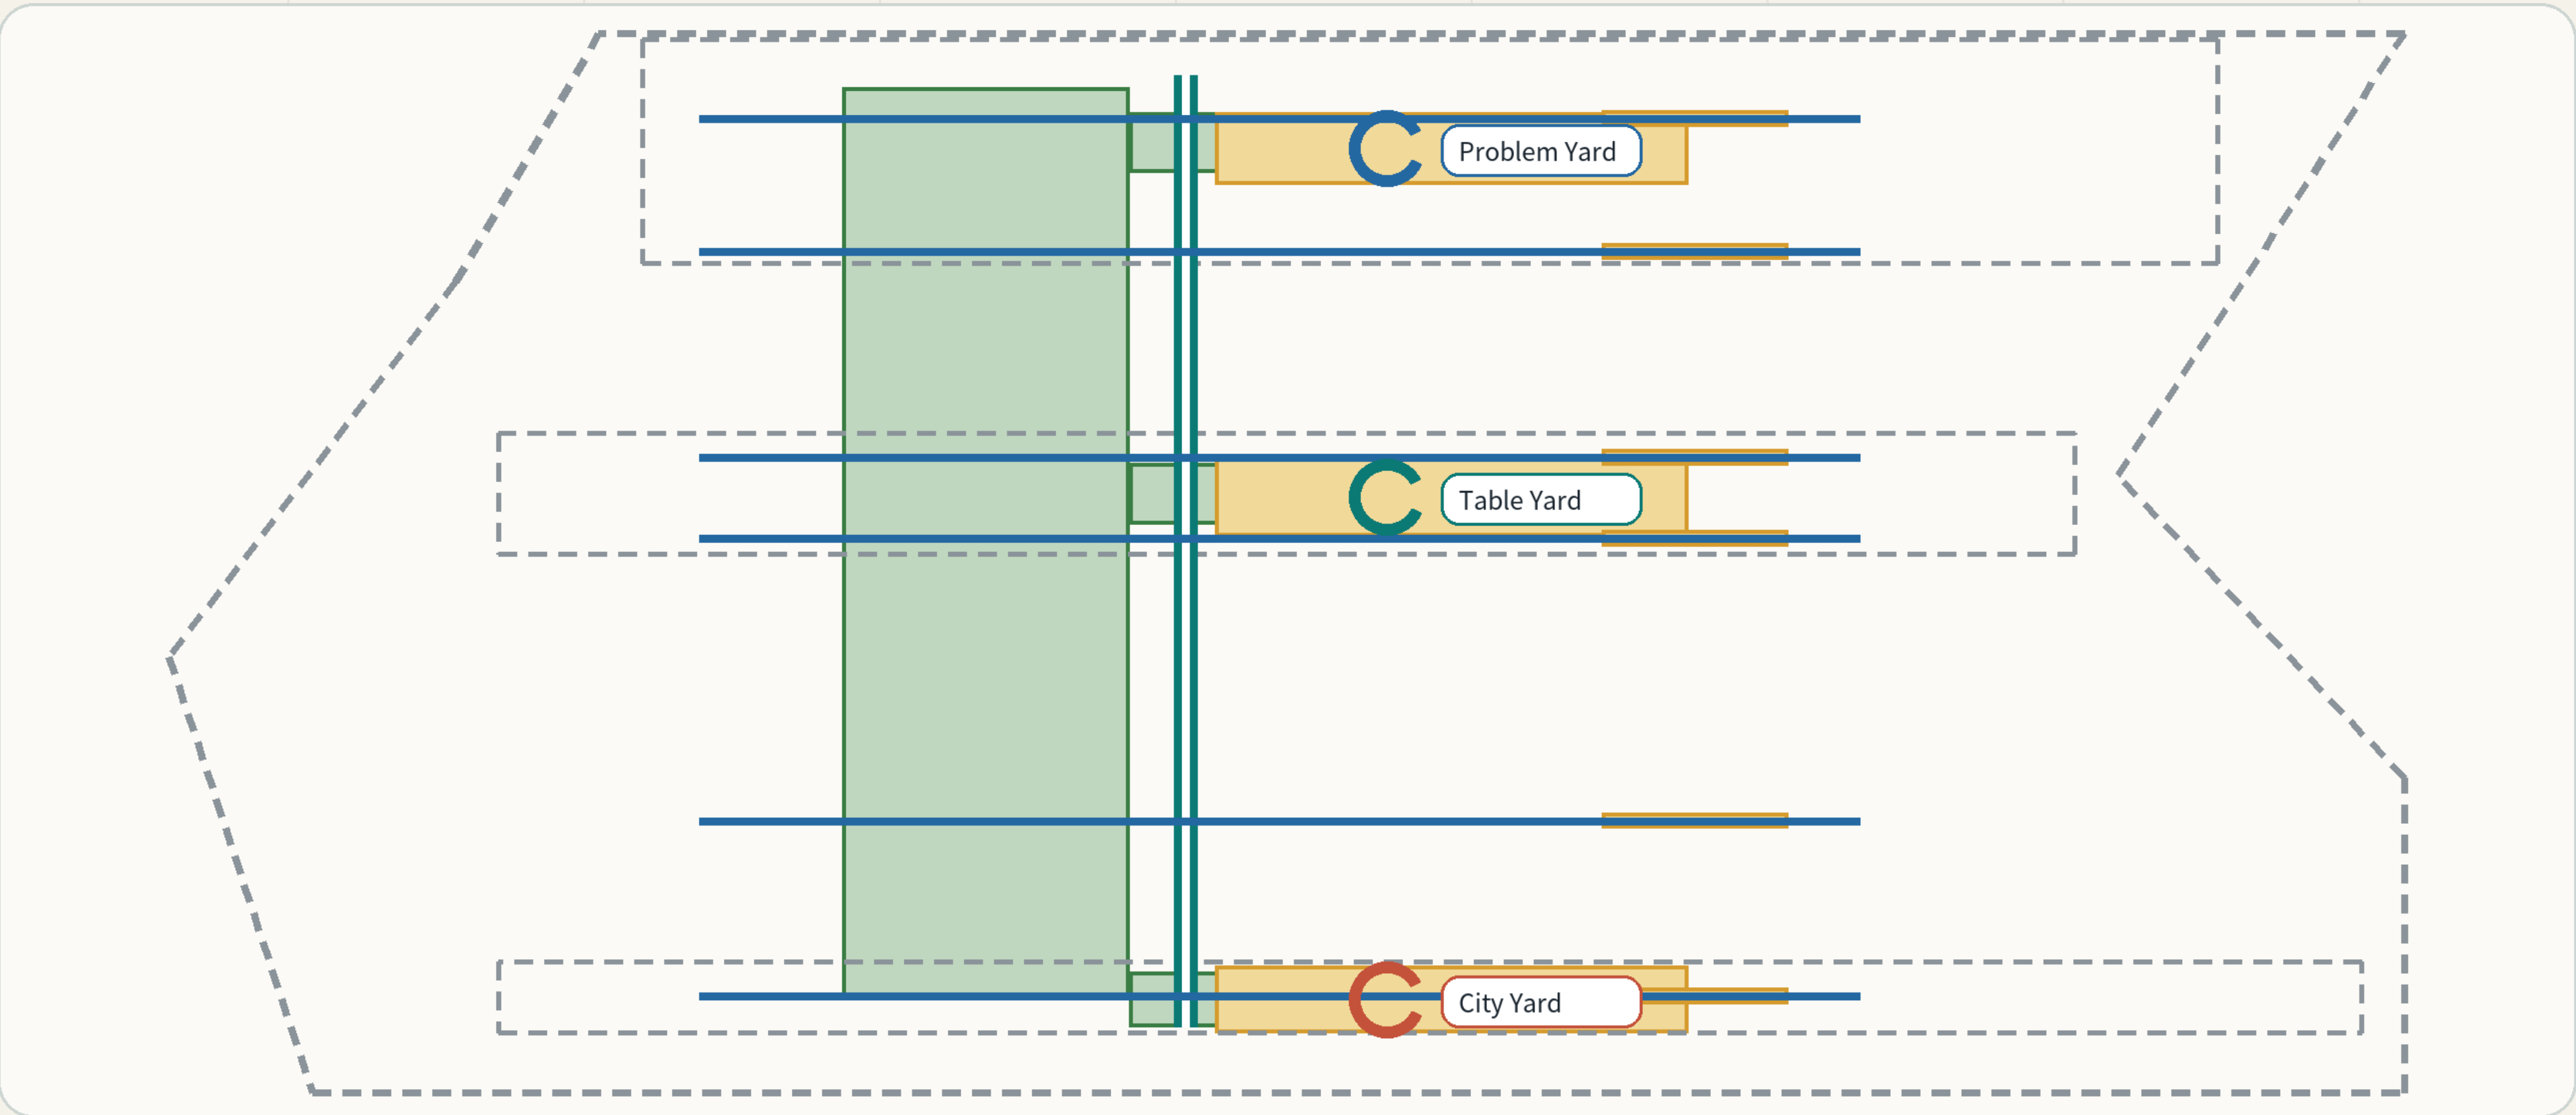

Transport, Rail, Walking, and Municipal Systems

Arrive—Cross—Enter—Stay—Exit

One audit combines walking, blue-green comfort, accessibility, and event safety

Continuity chain

- 01 ARRIVE
station / district entry
- 02 CROSS
safe wait + alternative
- 03 ENTER
legible wayfinding
- 04 STAY
shade, quiet, access
- 05 EXIT
visible exit + dispersal

概念剖面 / CONCEPT SECTION

No camera prerequisite • offline capable • shrink or close when capacity is exceeded

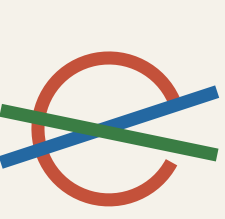

Provisional boundary • conceptual urban-design diagram • not for surveying, approval, or construction

roads • green_space • public_space • constraints • risk.json • v1.0 / 2026-08-09 • Agent-generated original diagram

- 01 Six connections are access audits, not engineering alignments
- 02 Stations are service-transfer interfaces
- 03 Offline capable, human master control, close on overload

Boundary: provisional rough • Location: concept only • Decision: human final

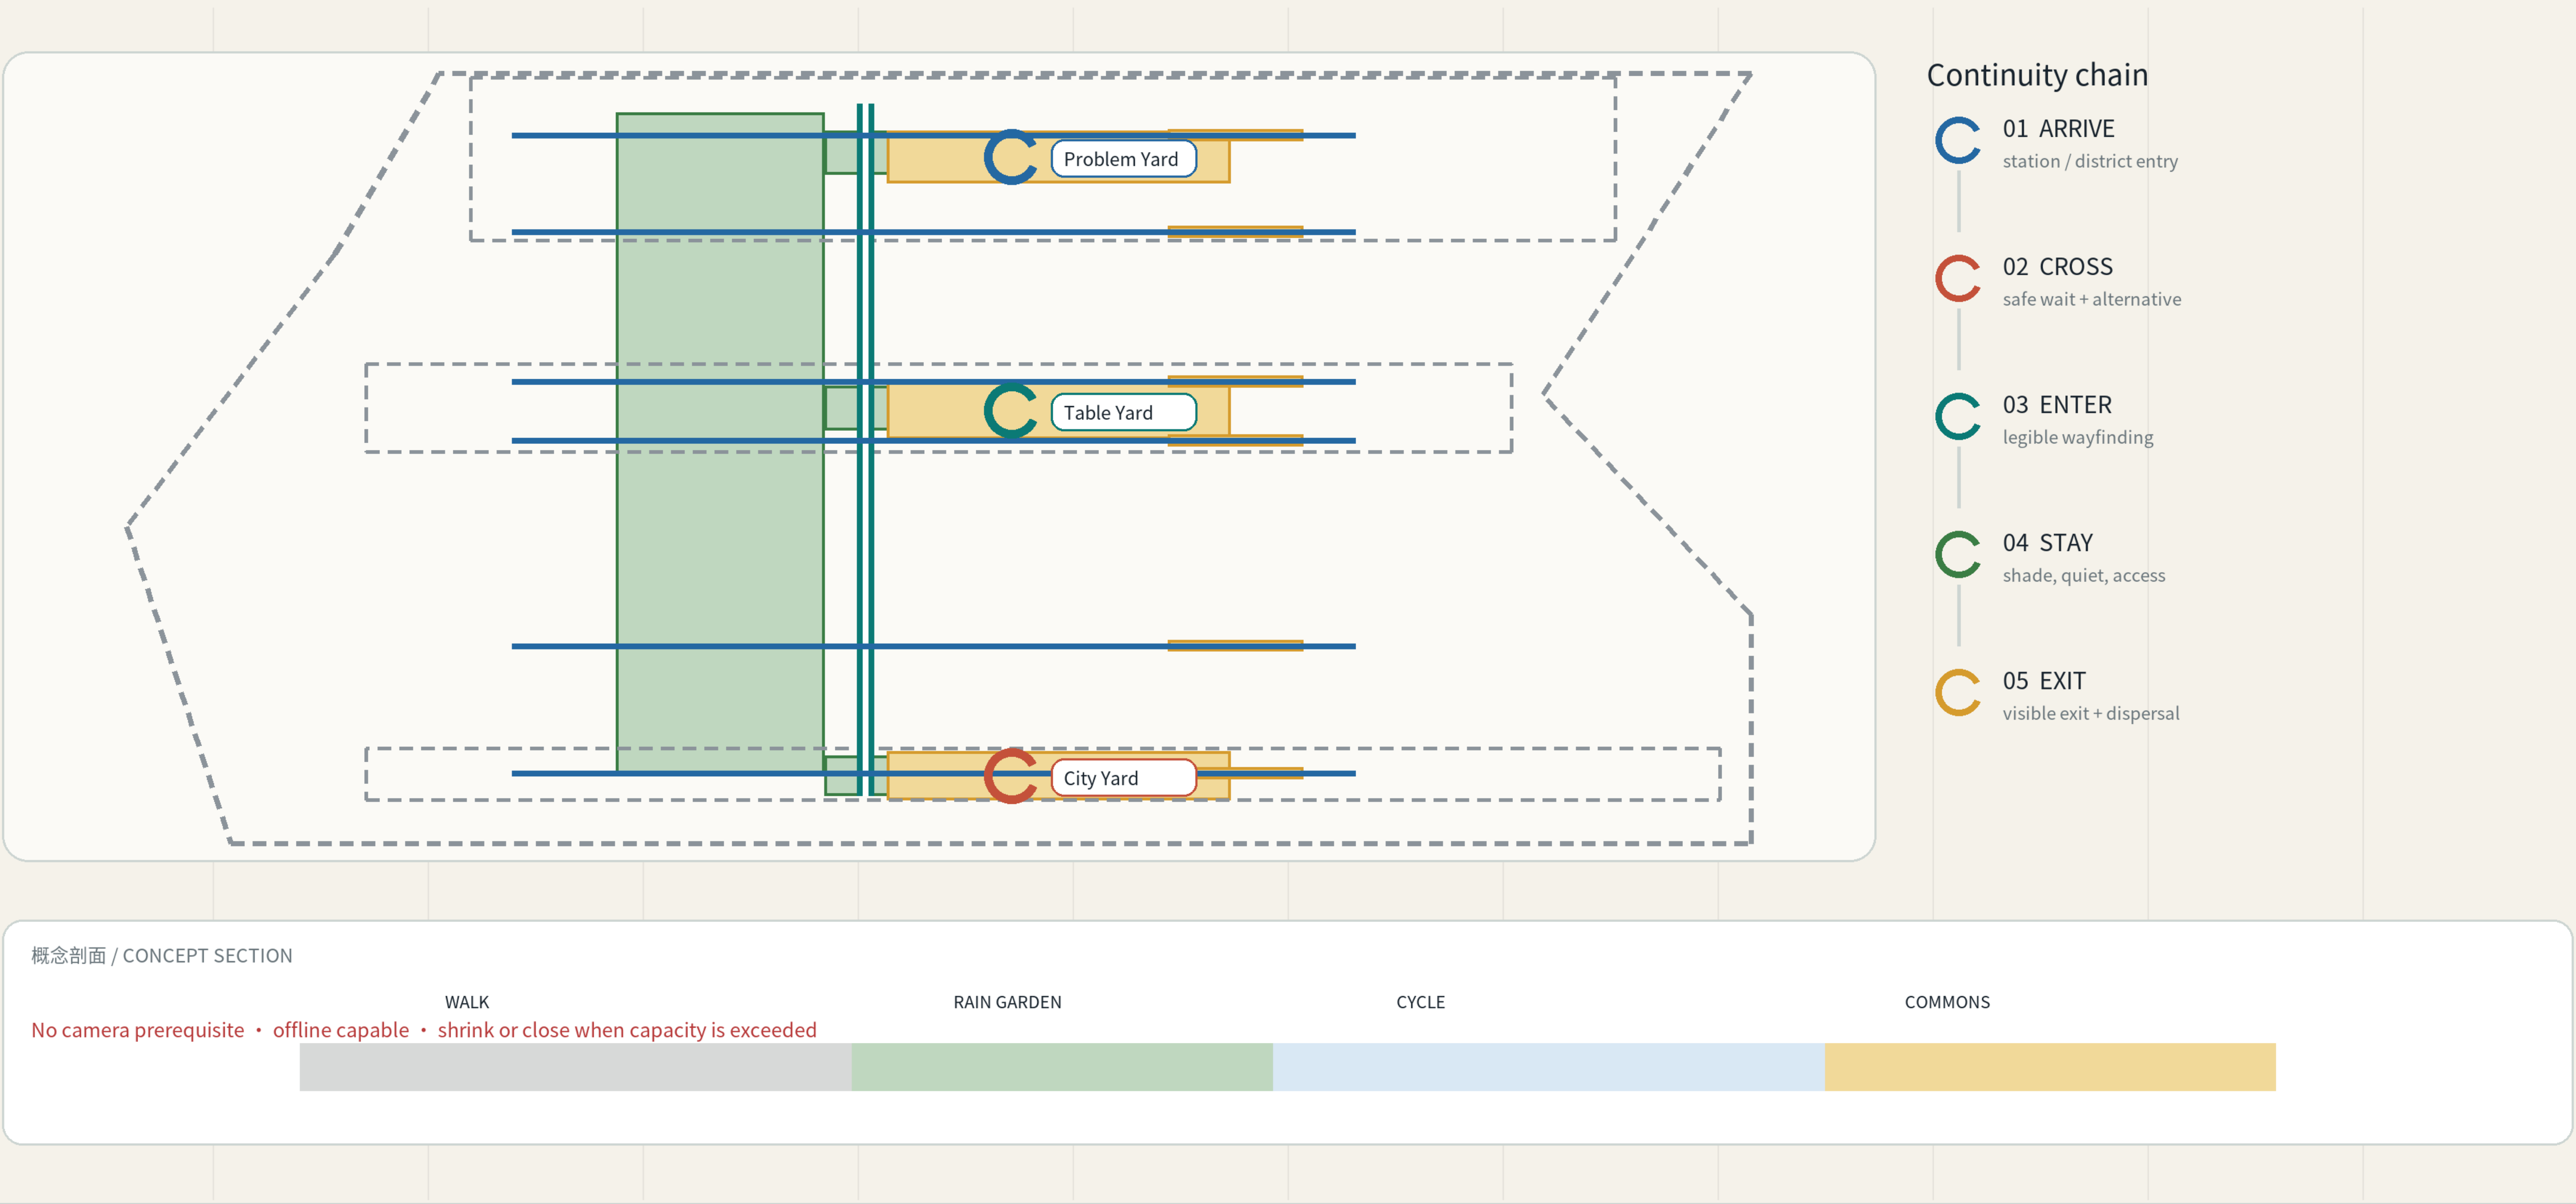

Jingzhang Park and Blue-Green Encounter Commons

04 JINGZHANG ENCOUNTER COMMONS

Arrive—Cross—Enter—Stay—Exit

One audit combines walking, blue-green comfort, accessibility, and event safety

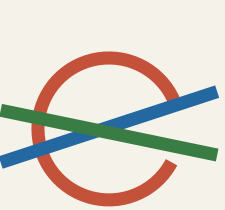

Provisional boundary • conceptual urban-design diagram • not for surveying, approval, or construction

roads • green_space • public_space • constraints • risk.json • v1.0 / 2026-08-09 • Agent-generated original diagram

- 01 Shade, wet-weather alternatives, quiet, and access enable encounter
- 02 Sensors do not substitute for public-space quality
- 03 Green/public ratios describe concept-layer coverage

Boundary: provisional rough • Location: concept only • Decision: human final

Three Key Areas: Verify, Co-create, Exchange

Three Commons • Three Innovation Prototypes

One Encounter Protocol, distinct validation roles; all sites await official geometry and field checks

01

COMMON PROBLEM YARD

验证 VERIFY

PROVISIONAL CONCEPT FRAME

C

01 Open problem wall

C

02 Controlled test table

C

03 Failure review bench

Contribution landmark

First Open Table

AI suggests; humans release; exit anytime; no private relationship record

02

COMMON TABLE YARD

共创 CO-CREATE

PROVISIONAL CONCEPT FRAME

C

01 Cross-campus table

C

02 Multilingual newcomer desk

C

03 Mentor + OPC clinics

Contribution landmark

Contribution Moment Wall

AI suggests; humans release; exit anytime; no private relationship record

03

COMMON CITY YARD

交换 EXCHANGE

PROVISIONAL CONCEPT FRAME

C

01 First-use interface

C

02 Co-edited cultural guide

C

03 Citizen + enterprise review

Contribution landmark

Centennial Junction

AI suggests; humans release; exit anytime; no private relationship record

Provisional boundary • conceptual urban-design diagram • not for surveying, approval, or construction

key_areas • buildings • public_space • spatial.json • v1.0 / 2026-08-09 • Agent-generated original diagram

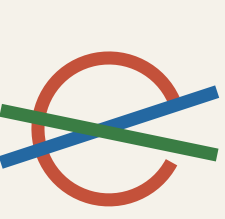

- 01 Problem Yard: public problems and controlled validation
- 02 Table Yard: ninety-day candidate pilot
- 03 City Yard: first use, culture, and feedback

Boundary: provisional rough • Location: concept only • Decision: human final

The diagram shows a 3x4 grid of 12 cards, each representing a different project. Each card has a title, a description, and a status bar at the bottom.

Card	Title	Description	Status
S01	Open Problem Table		testbed • human release
S02	Multilingual Host Agent		testbed • human release
S03	Event Access/Risk Assistant		testbed • human release
S04	Cross-campus Project Clinic		exit anytime • minimum data
S05	Mentor Hour		exit anytime • minimum data
S06	OPC Compliance Clinic		exit anytime • minimum data
S07	Talent/Health Navigation		exit anytime • minimum data
S08	Public Test Partners		exit anytime • minimum data
S09	Community AI Co-design		exit anytime • minimum data
S10	Cultural Guide Co-editing		exit anytime • minimum data
S11	Evening Open Demo		exit anytime • minimum data
S12	Annual Encounter Week		exit anytime • minimum data

- Boundary: provisional rough • Location: concept only • Decision: human final

Phasing, Metrics, Evidence, and Risk

05 JINGZHANG ENCOUNTER COMMONS

Metrics Are Traceable Decisions, Not a Number Wall

GeoJSON → formula → metric → drawings/HTML → four review gates

Provisional boundary • conceptual urban-design diagram • not for surveying, approval, or construction

metrics.json • geometry/" .geojson • self_check • compliance matrices • v1.0 / 2026-08-09 • Agent-generated original diagram

- 01 Phase 1 Validate → Phase 2 Network → Phase 3 Embed
- 02 GeoJSON → formula → metrics → drawings/HTML → four gates
- 03 FAR, height, investment, and municipal capacity remain unknown

Boundary: provisional rough • Location: concept only • Decision: human final
