Twin-Track Jing-Zhang

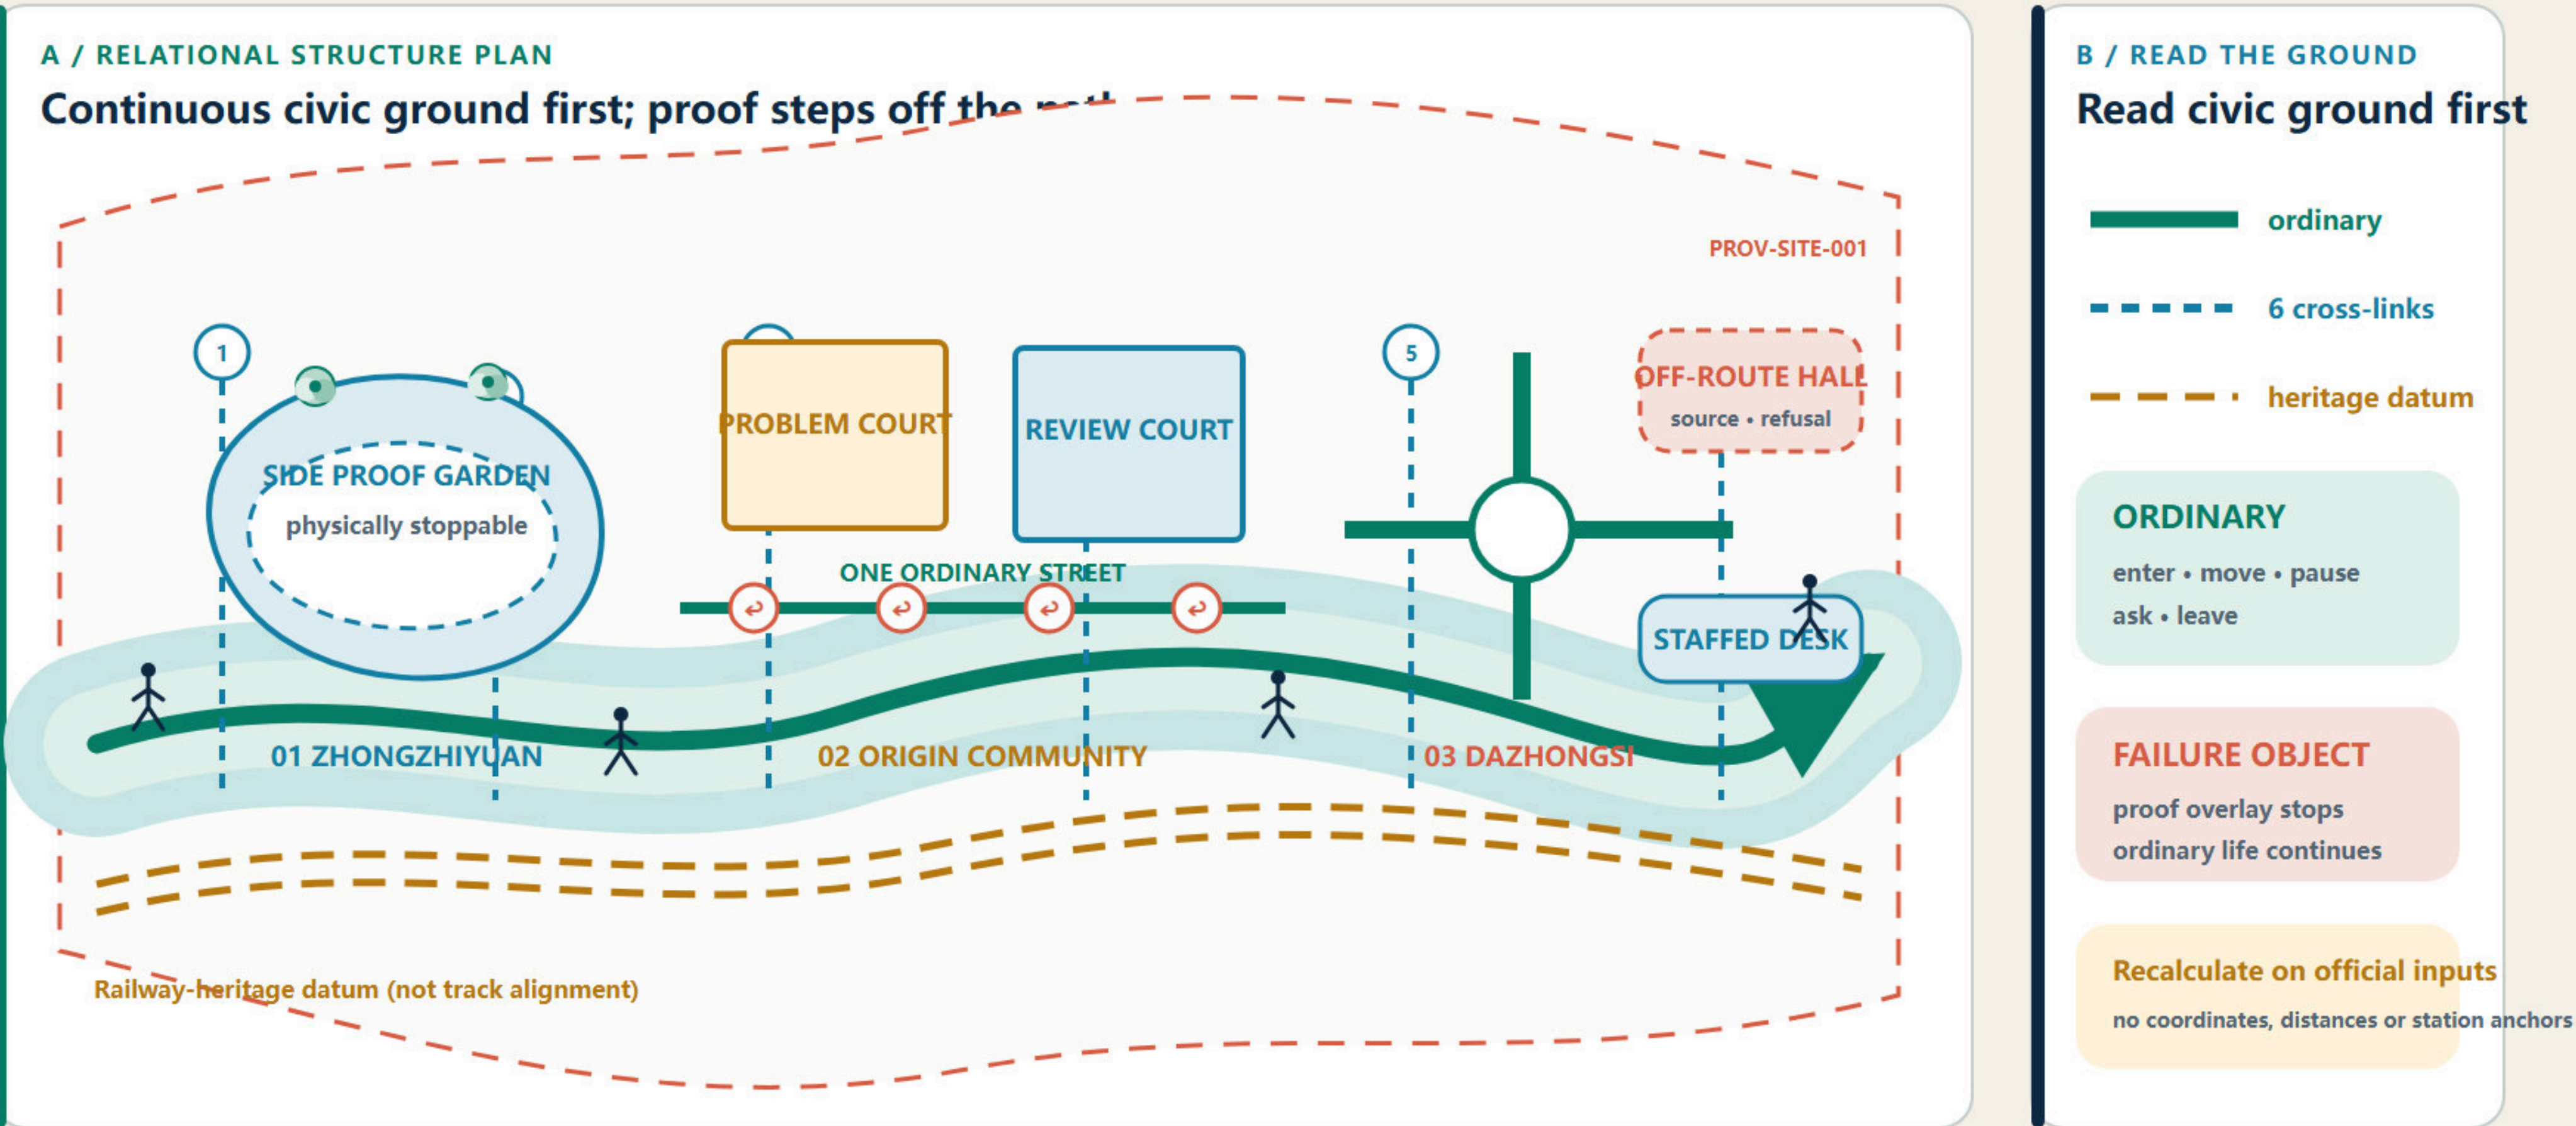

30 seconds: proof may not take ordinary ground; three places answer beside, stepped back, and off-route.

G0 · provisional geometry · not field evidence or approval.

S01 / CIVIC-GROUND STRUCTURE / SITE OVERVIEWG0 • PROVISIONAL • NOT TO SCALE

One civic-ground spine links three non-interchangeable spatial prototypes

Read the continuous ordinary route and six cross-links first, then side proof, staffed handoff and failure siding; this is provisional relational structure, not a precise m

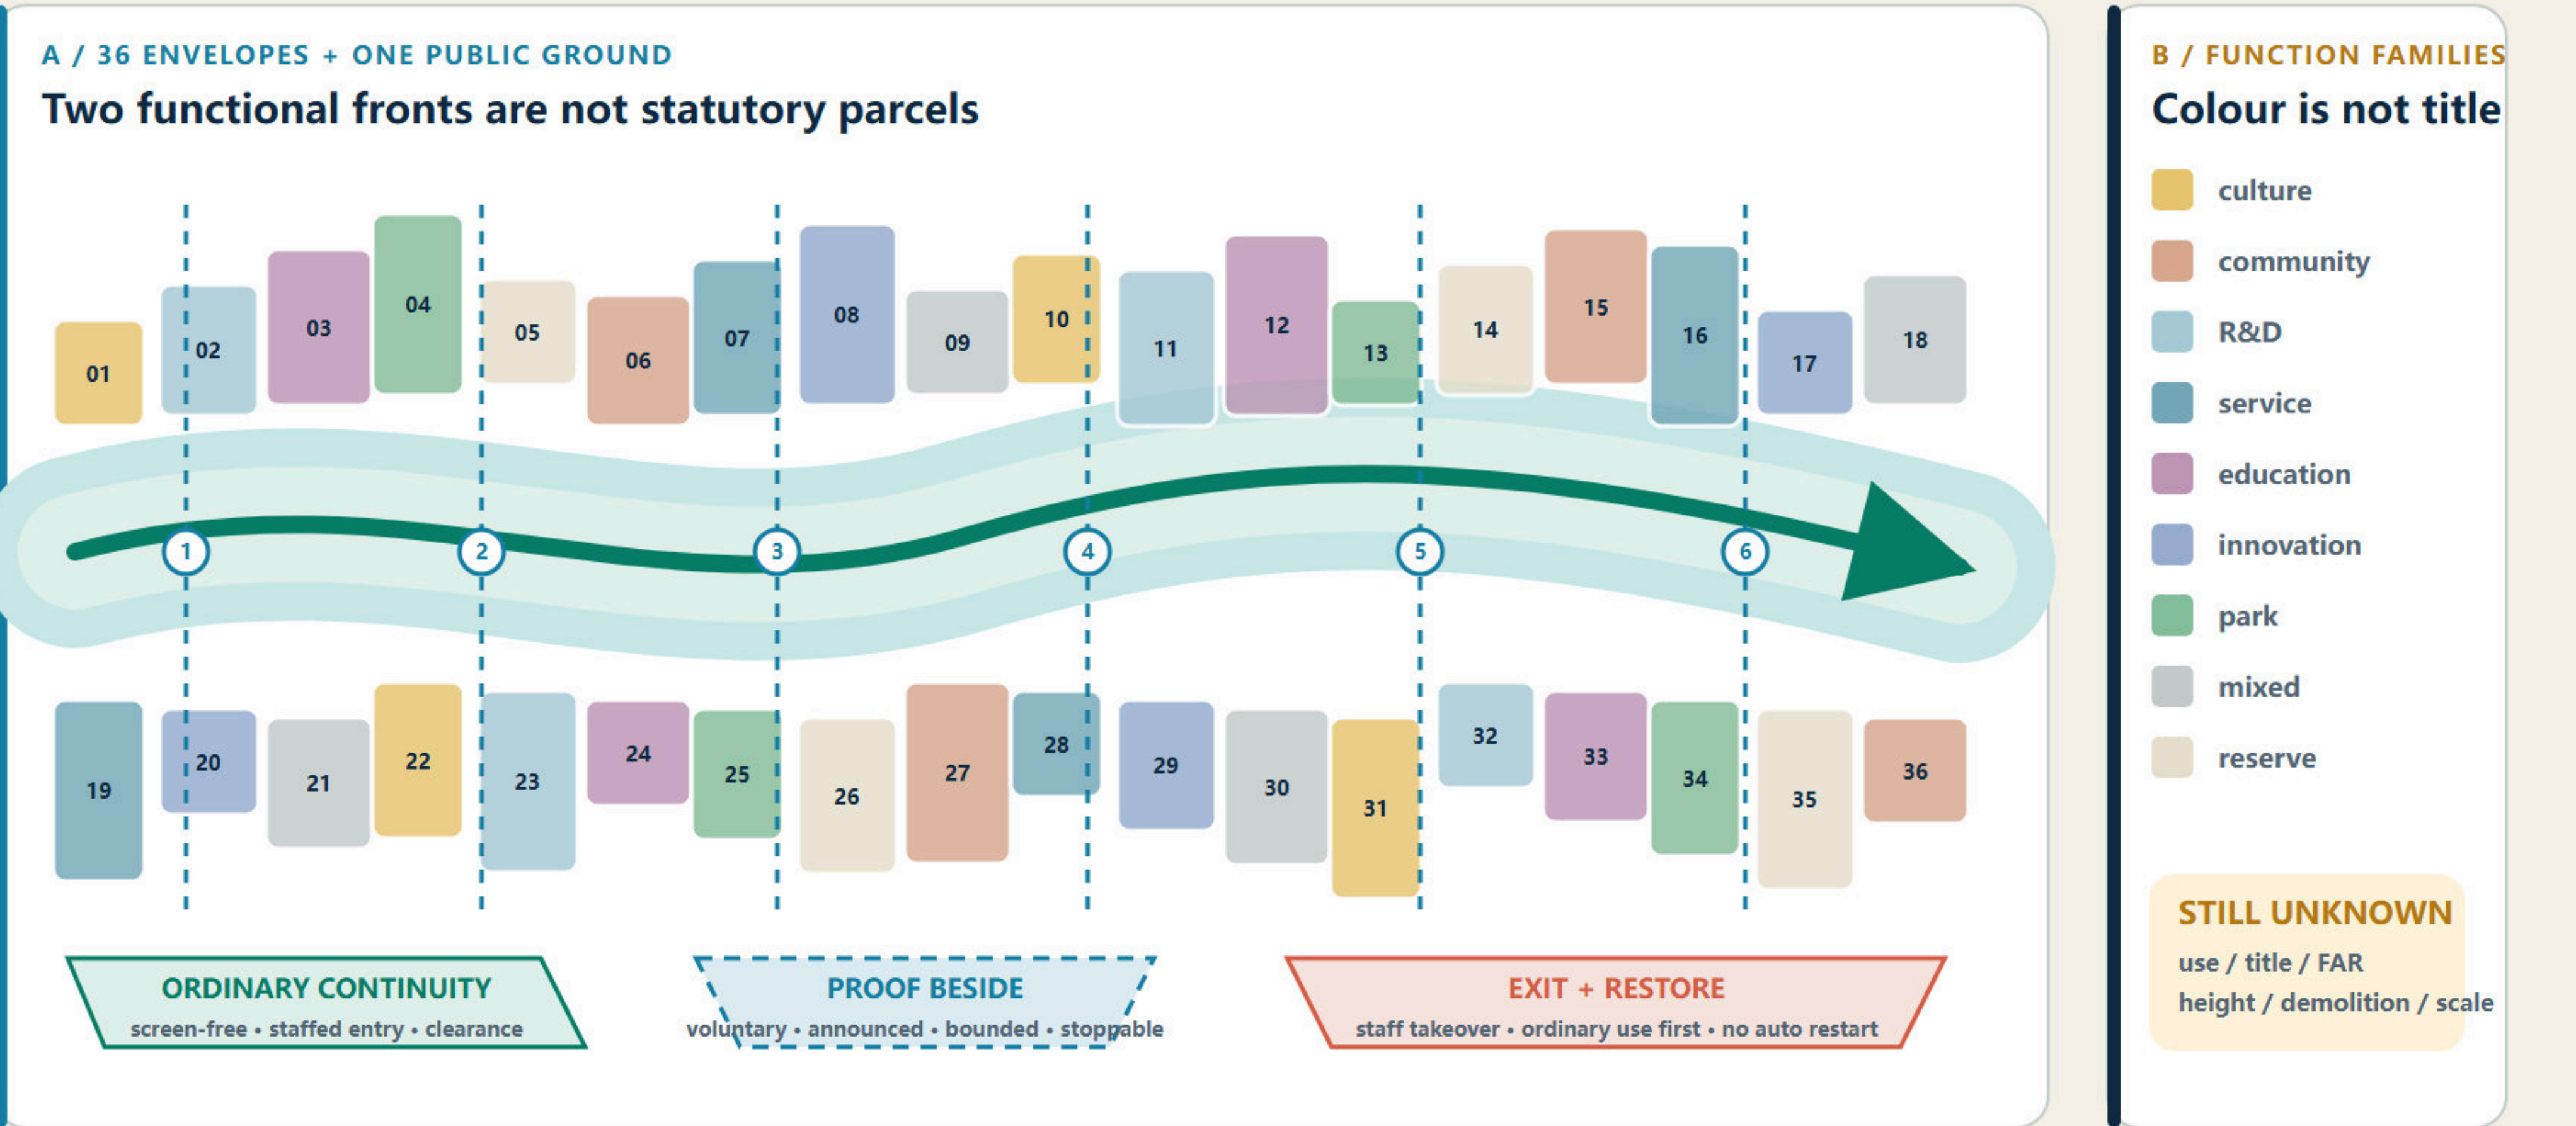

G0 spatial relations • provisional geometry • not to scale • proves no official redline, exact alignment, station, dimension, footfall, approval, built state, recovery time, or G1

S02 / FUNCTIONAL CORRIDOR / LAND-USE STRUCTUREG0 • PROVISIONAL • NOT TO SCALE

Thirty-six concept envelopes grow along civic ground instead of forming a parcel checklist

Colours denote function families only; irregular envelopes, six cross-links and three ground-level duties describe urban structure without creating statutory land use

G0 functional envelopes • 36 concept units frozen • six cross-links are relational • creates no statutory use, precise area, FAR, height, demolition decision, or implementation conclusion

JUDGMENT

One continuous spine, six cross-links, three prototypes and two functional fronts work together.

LIMIT

Cross-links, envelopes, colours and areas are no official alignment, statutory parcel or intensity.

S03 / THREE PLAN PROTOTYPES / KEY AREAS

G0 • PROVISIONAL • NOT TO SCALE

One spatial decision, three non-interchangeable answers

Common ruling: proof may not take ordinary ground. Each place answers with beside, stepped-back courts or off-route service. G0 • provisional • not approved.

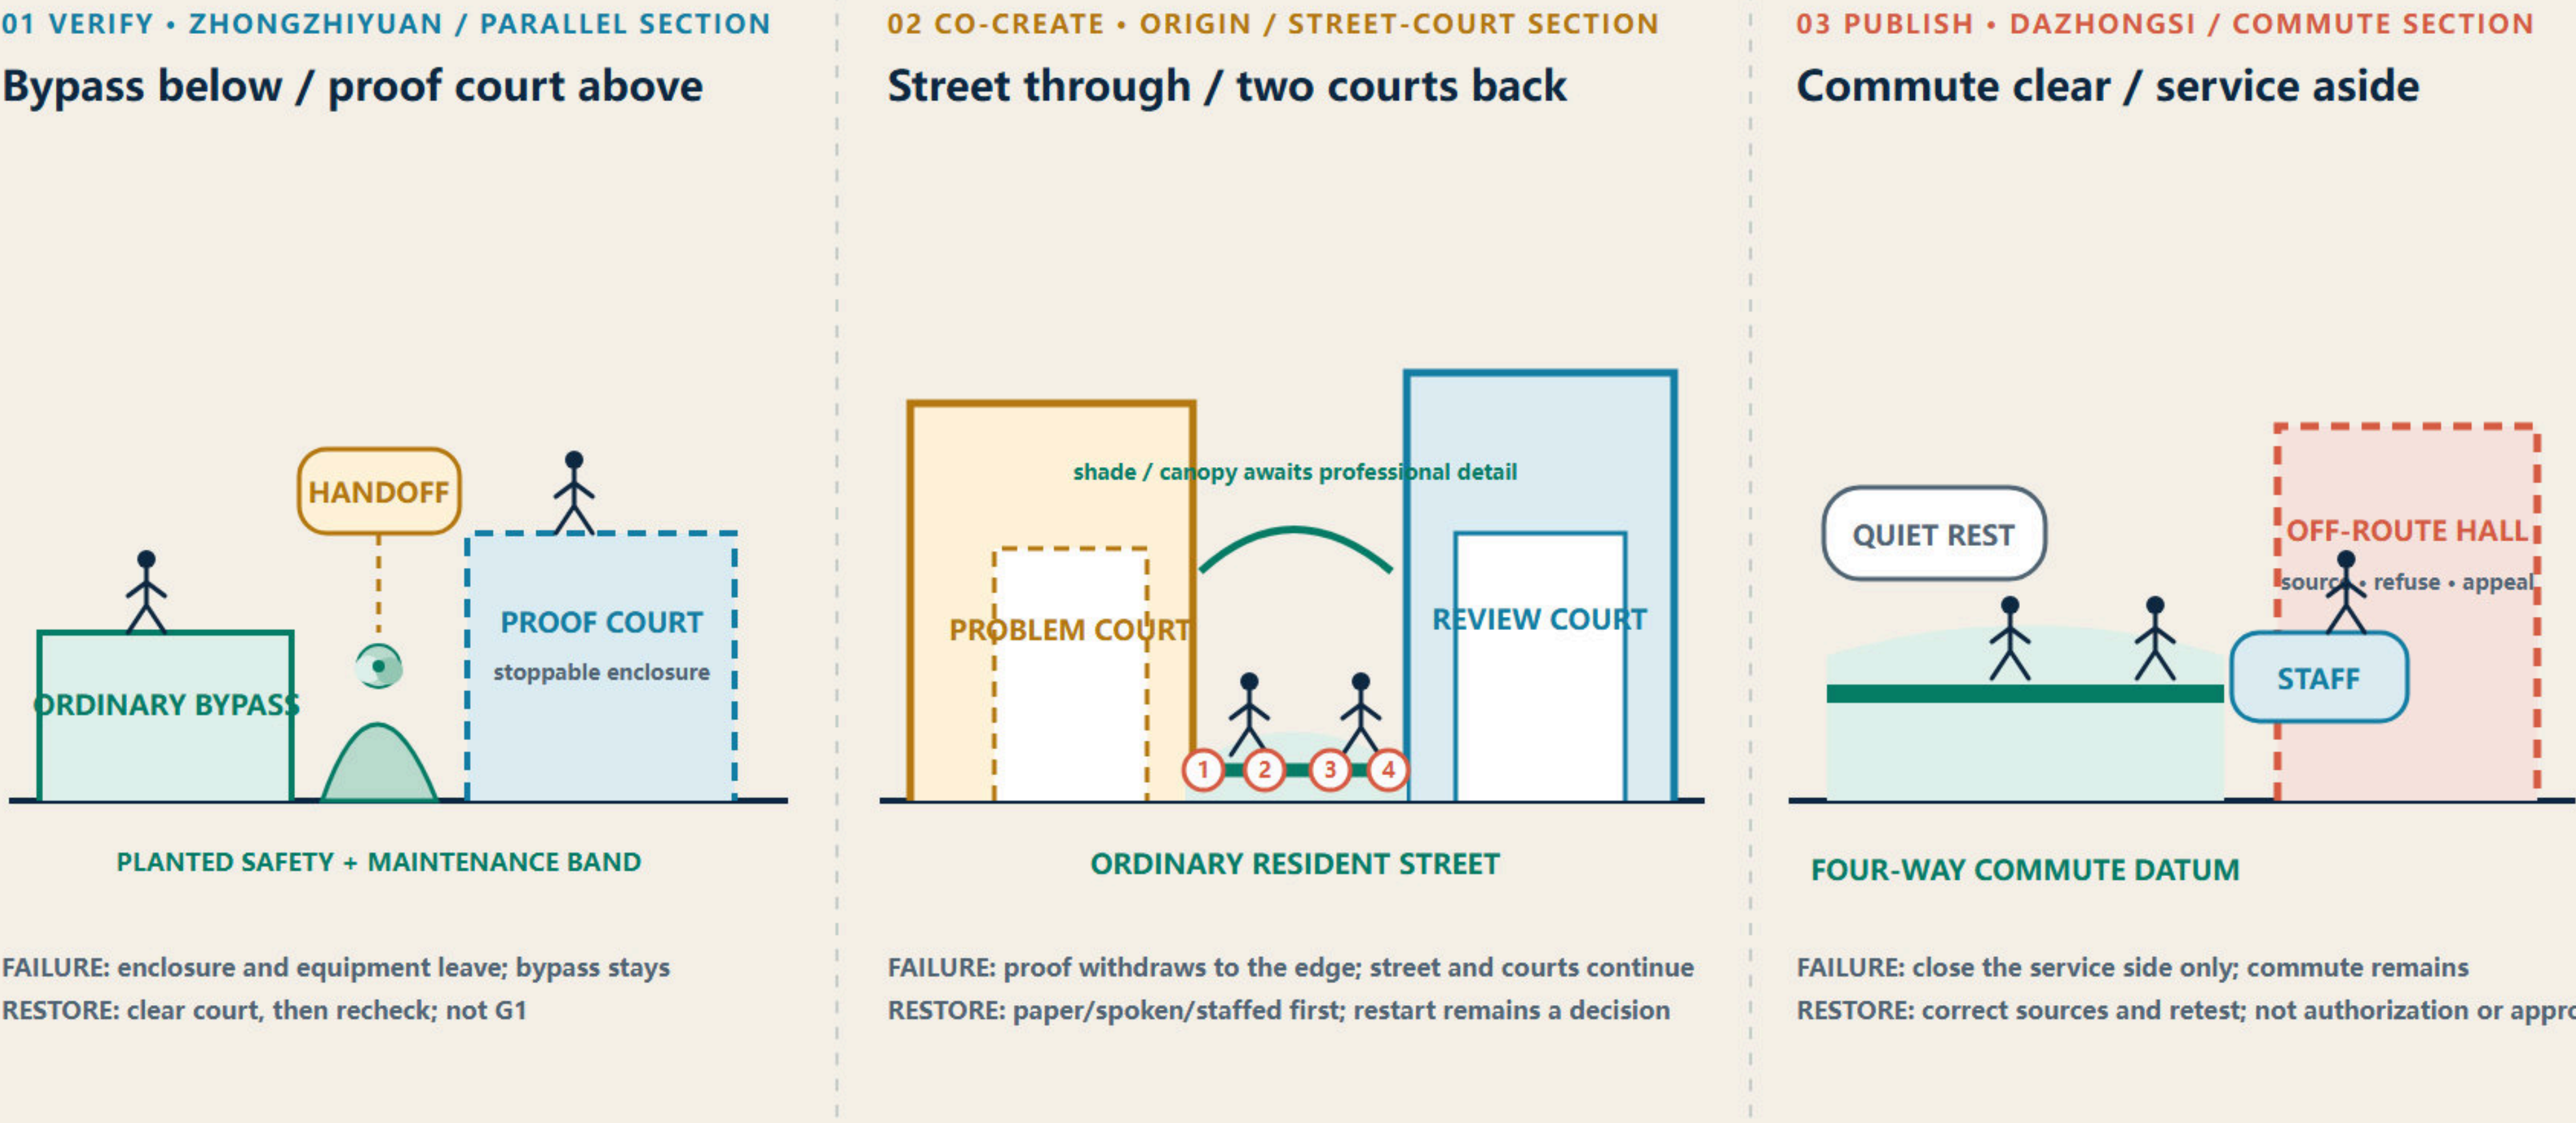

All three keep ordinary paths and non-AI entry first • failure stops proof objects only • restoration returns the ground before recheck and is not approval, authorization or G1 • FIELD / GO / RIGHTS remain gated

S04 / GROUND-THRESHOLD SECTIONS / KEY-AREA SECTIONS

G0 • PROVISIONAL • NOT TO SCALE

Three sections clarify stop objects, staff positions and restoration

Sections express spatial responsibility only and claim no unverified dimensions, materials, slopes, fire safety, railway protection or accessibility acceptance.

G0 conceptual sections • not to scale • levels, dimensions, materials, structure, fire safety, railway protection, accessibility outcomes, staffing and recovery duration remain unverified / unknown / 0

JUDGMENT

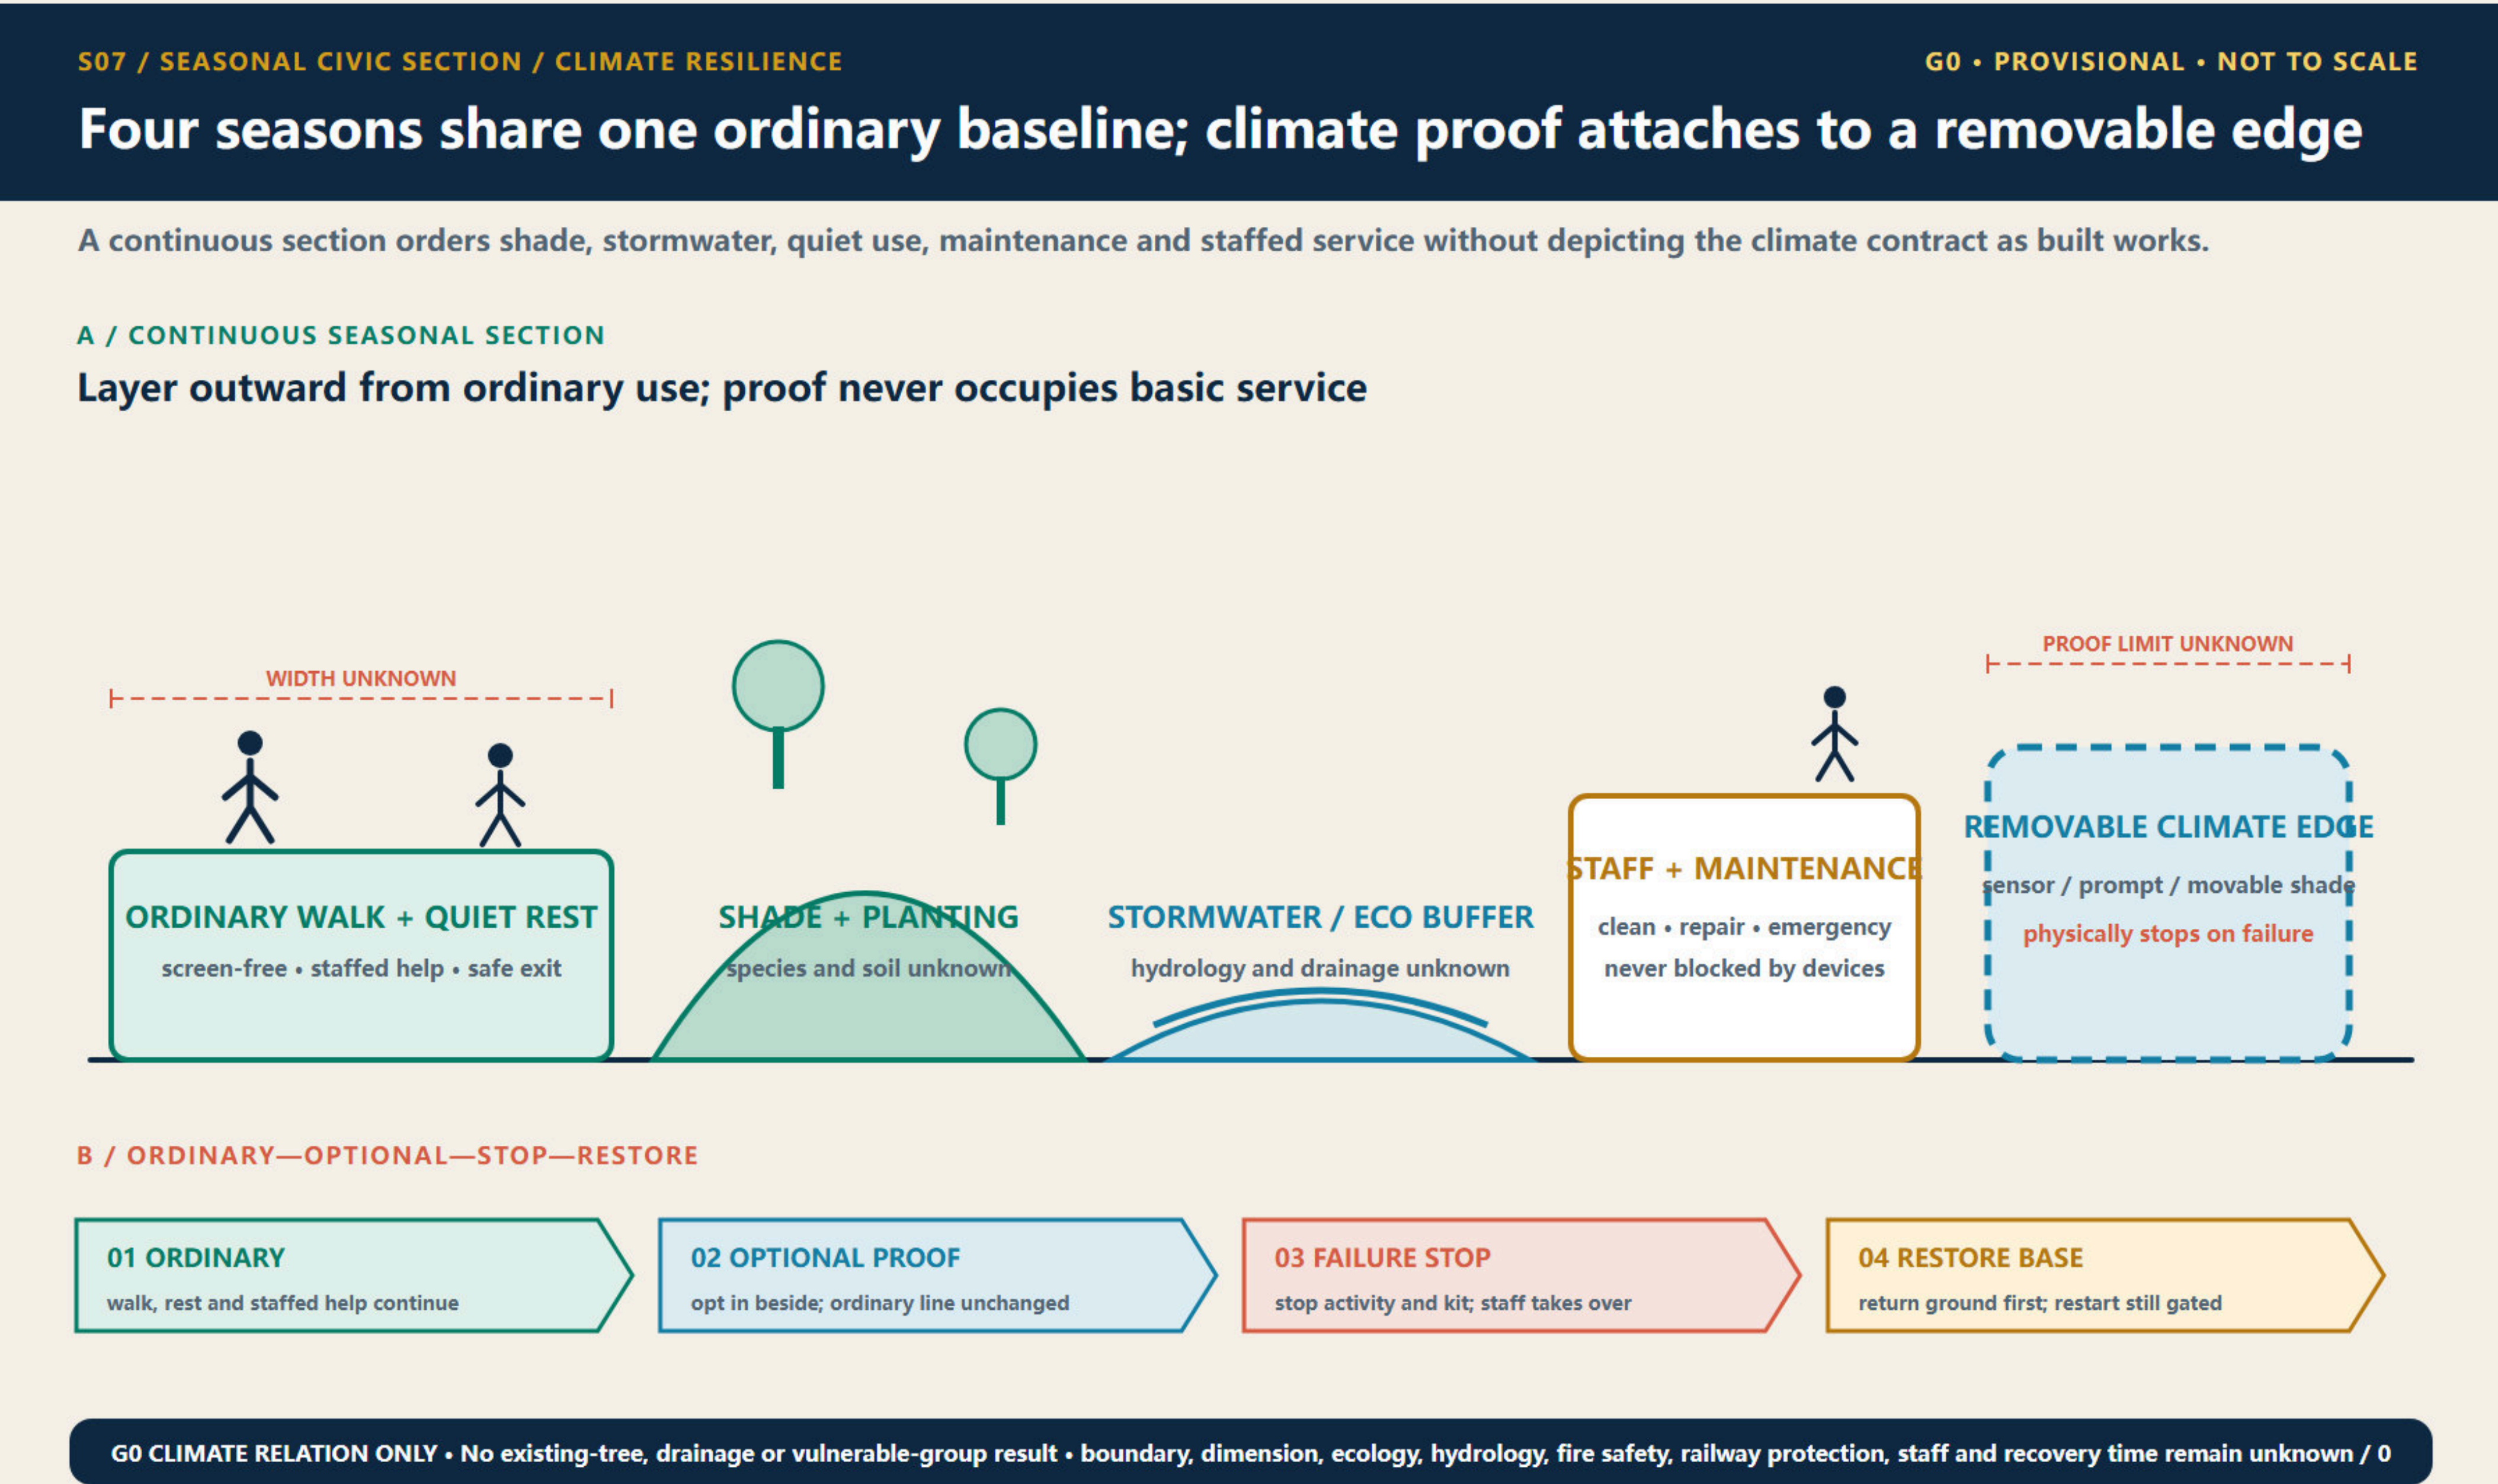

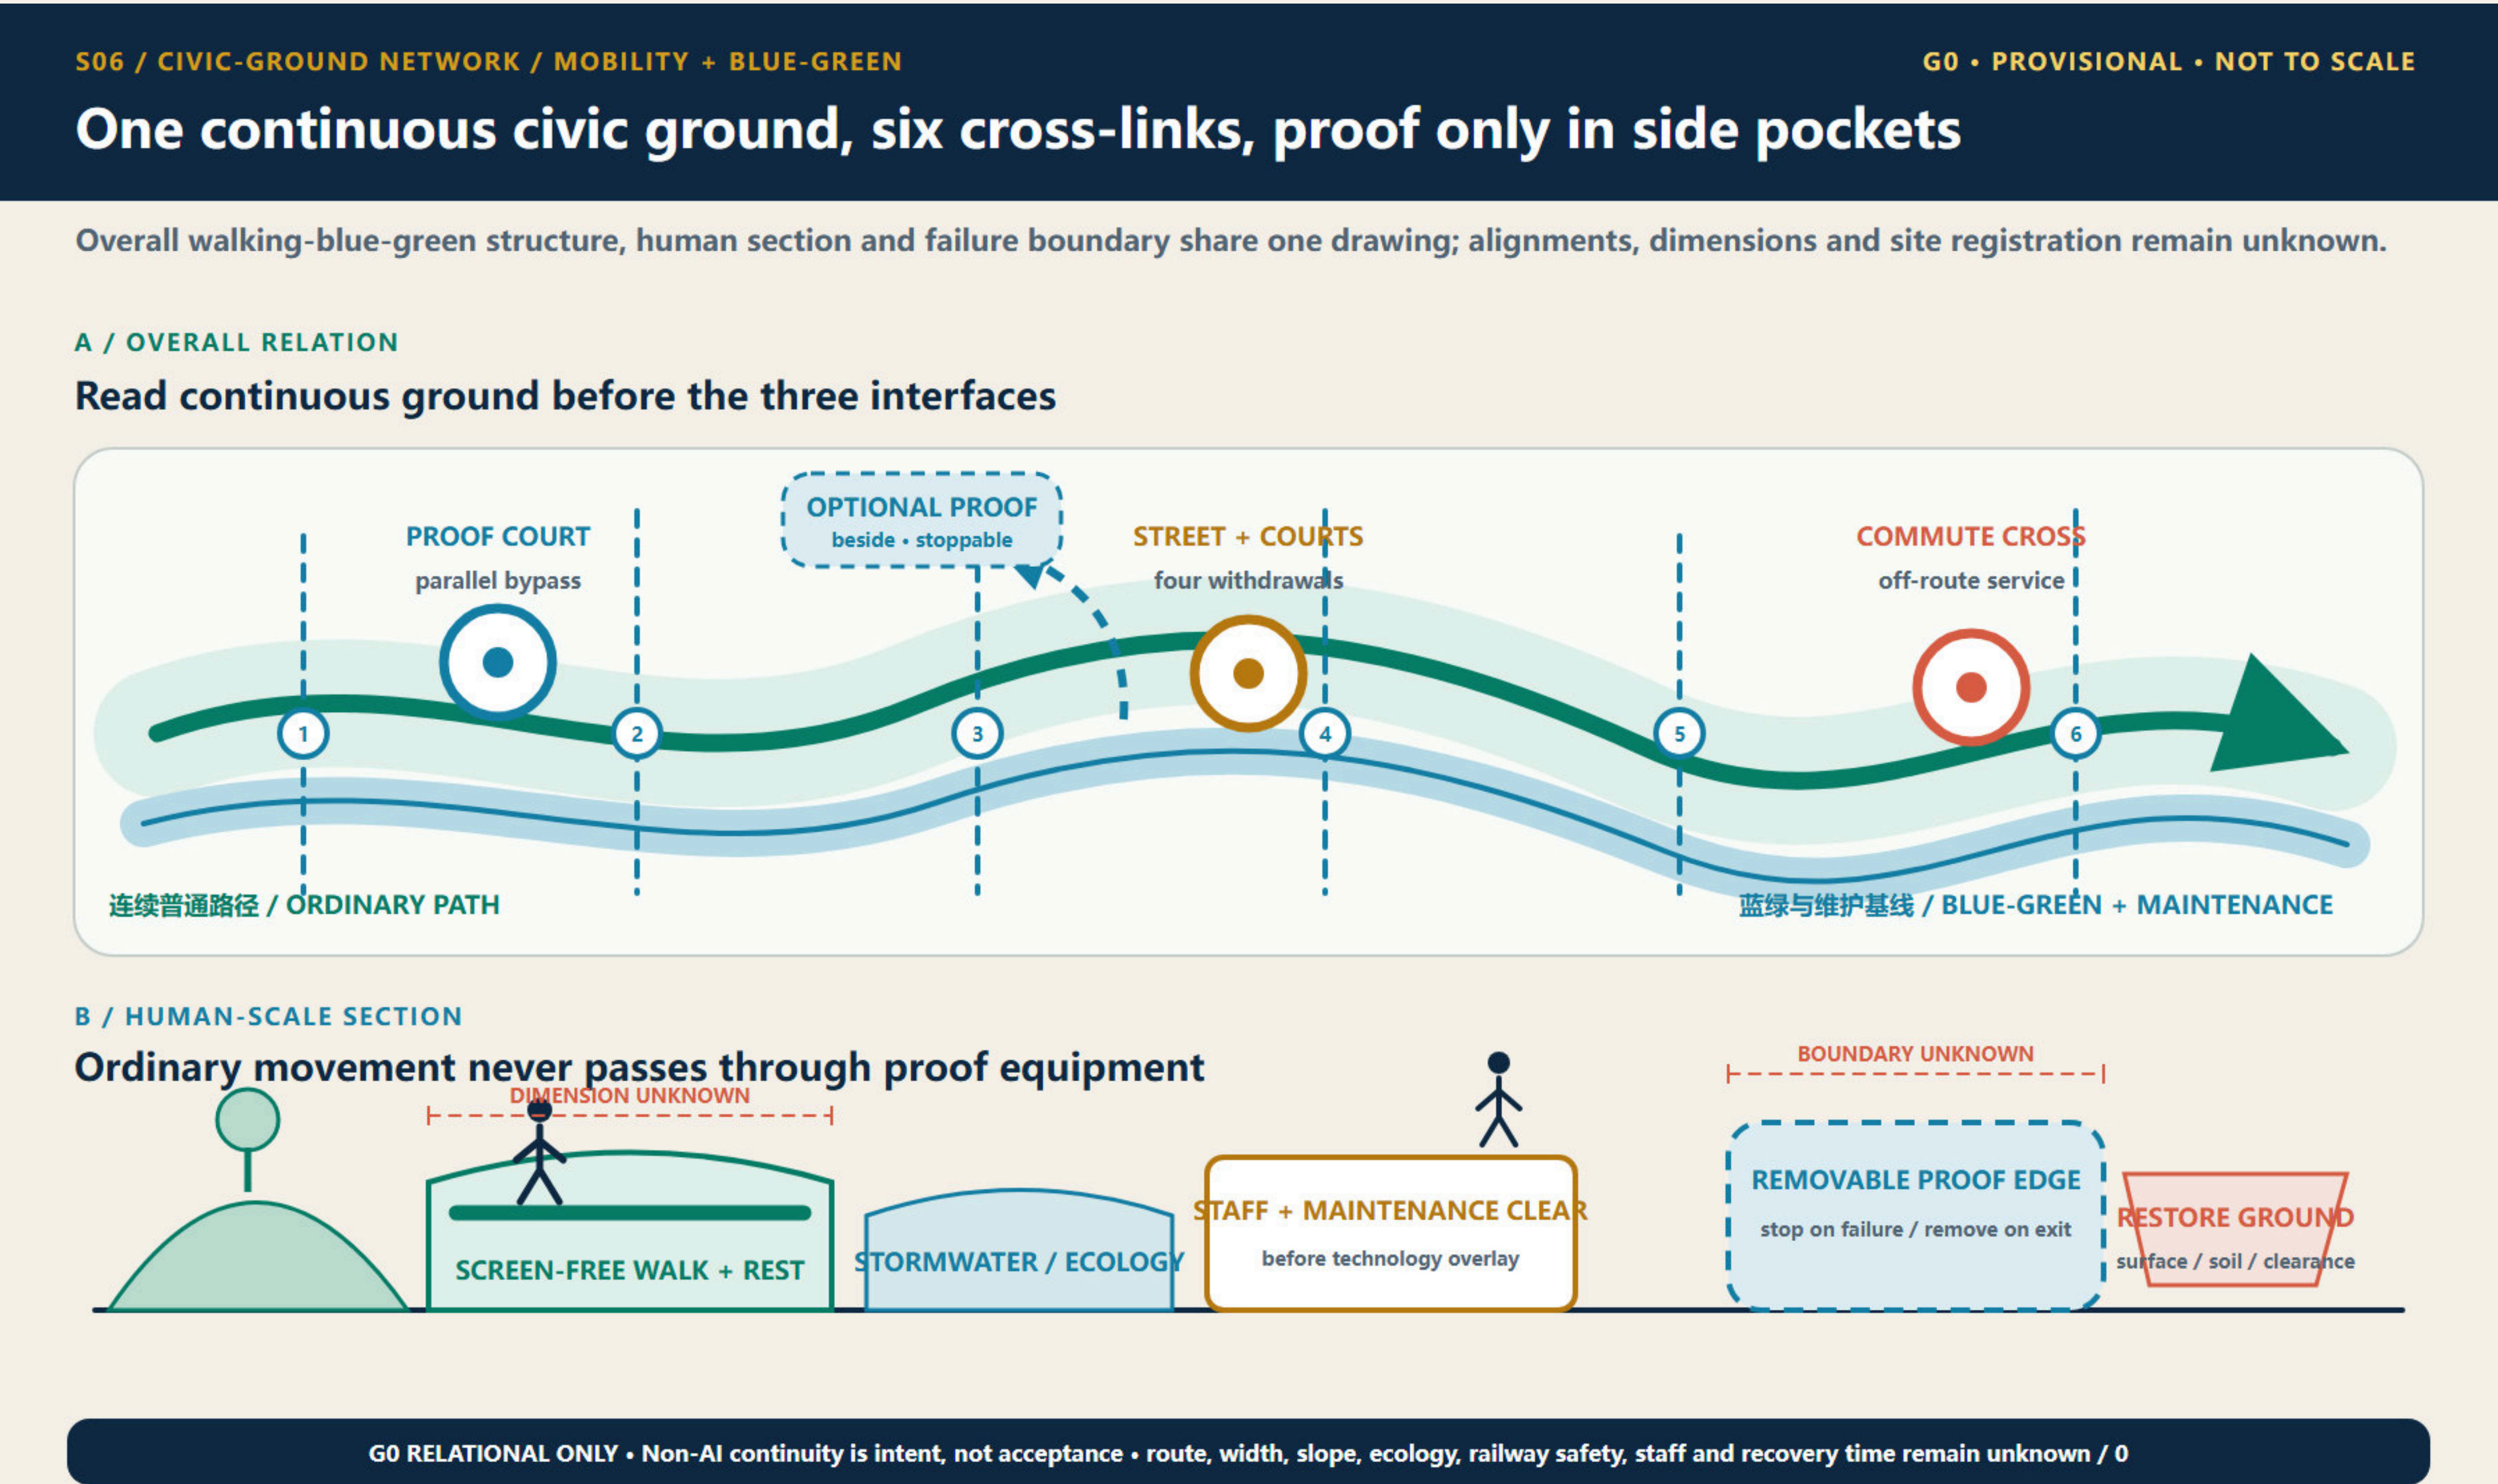

Reject crossing, street occupation, and a blocked centre; proof beside, courts stepped back, and service off-route remain distinct from plan to threshold.

LIMIT

Every container is provisional; dimensions, materials, connections, fire, railway protection and specialist findings are unknown.

BACKLINK

visual/assets/key-area-evidence-matrix.json

JUDGMENT

Civic ground, six cross-links, screen-free walking, stormwater ecology, staffed maintenance and removable proof are layered by duty.

LIMIT

Non-AI continuity is intent; climate, access, hydrology and railway findings lack field and professional verification.

BACKLINK

visual/assets/climate-resilience-contract.json · geometry/public_space.geojson

JUDGMENT

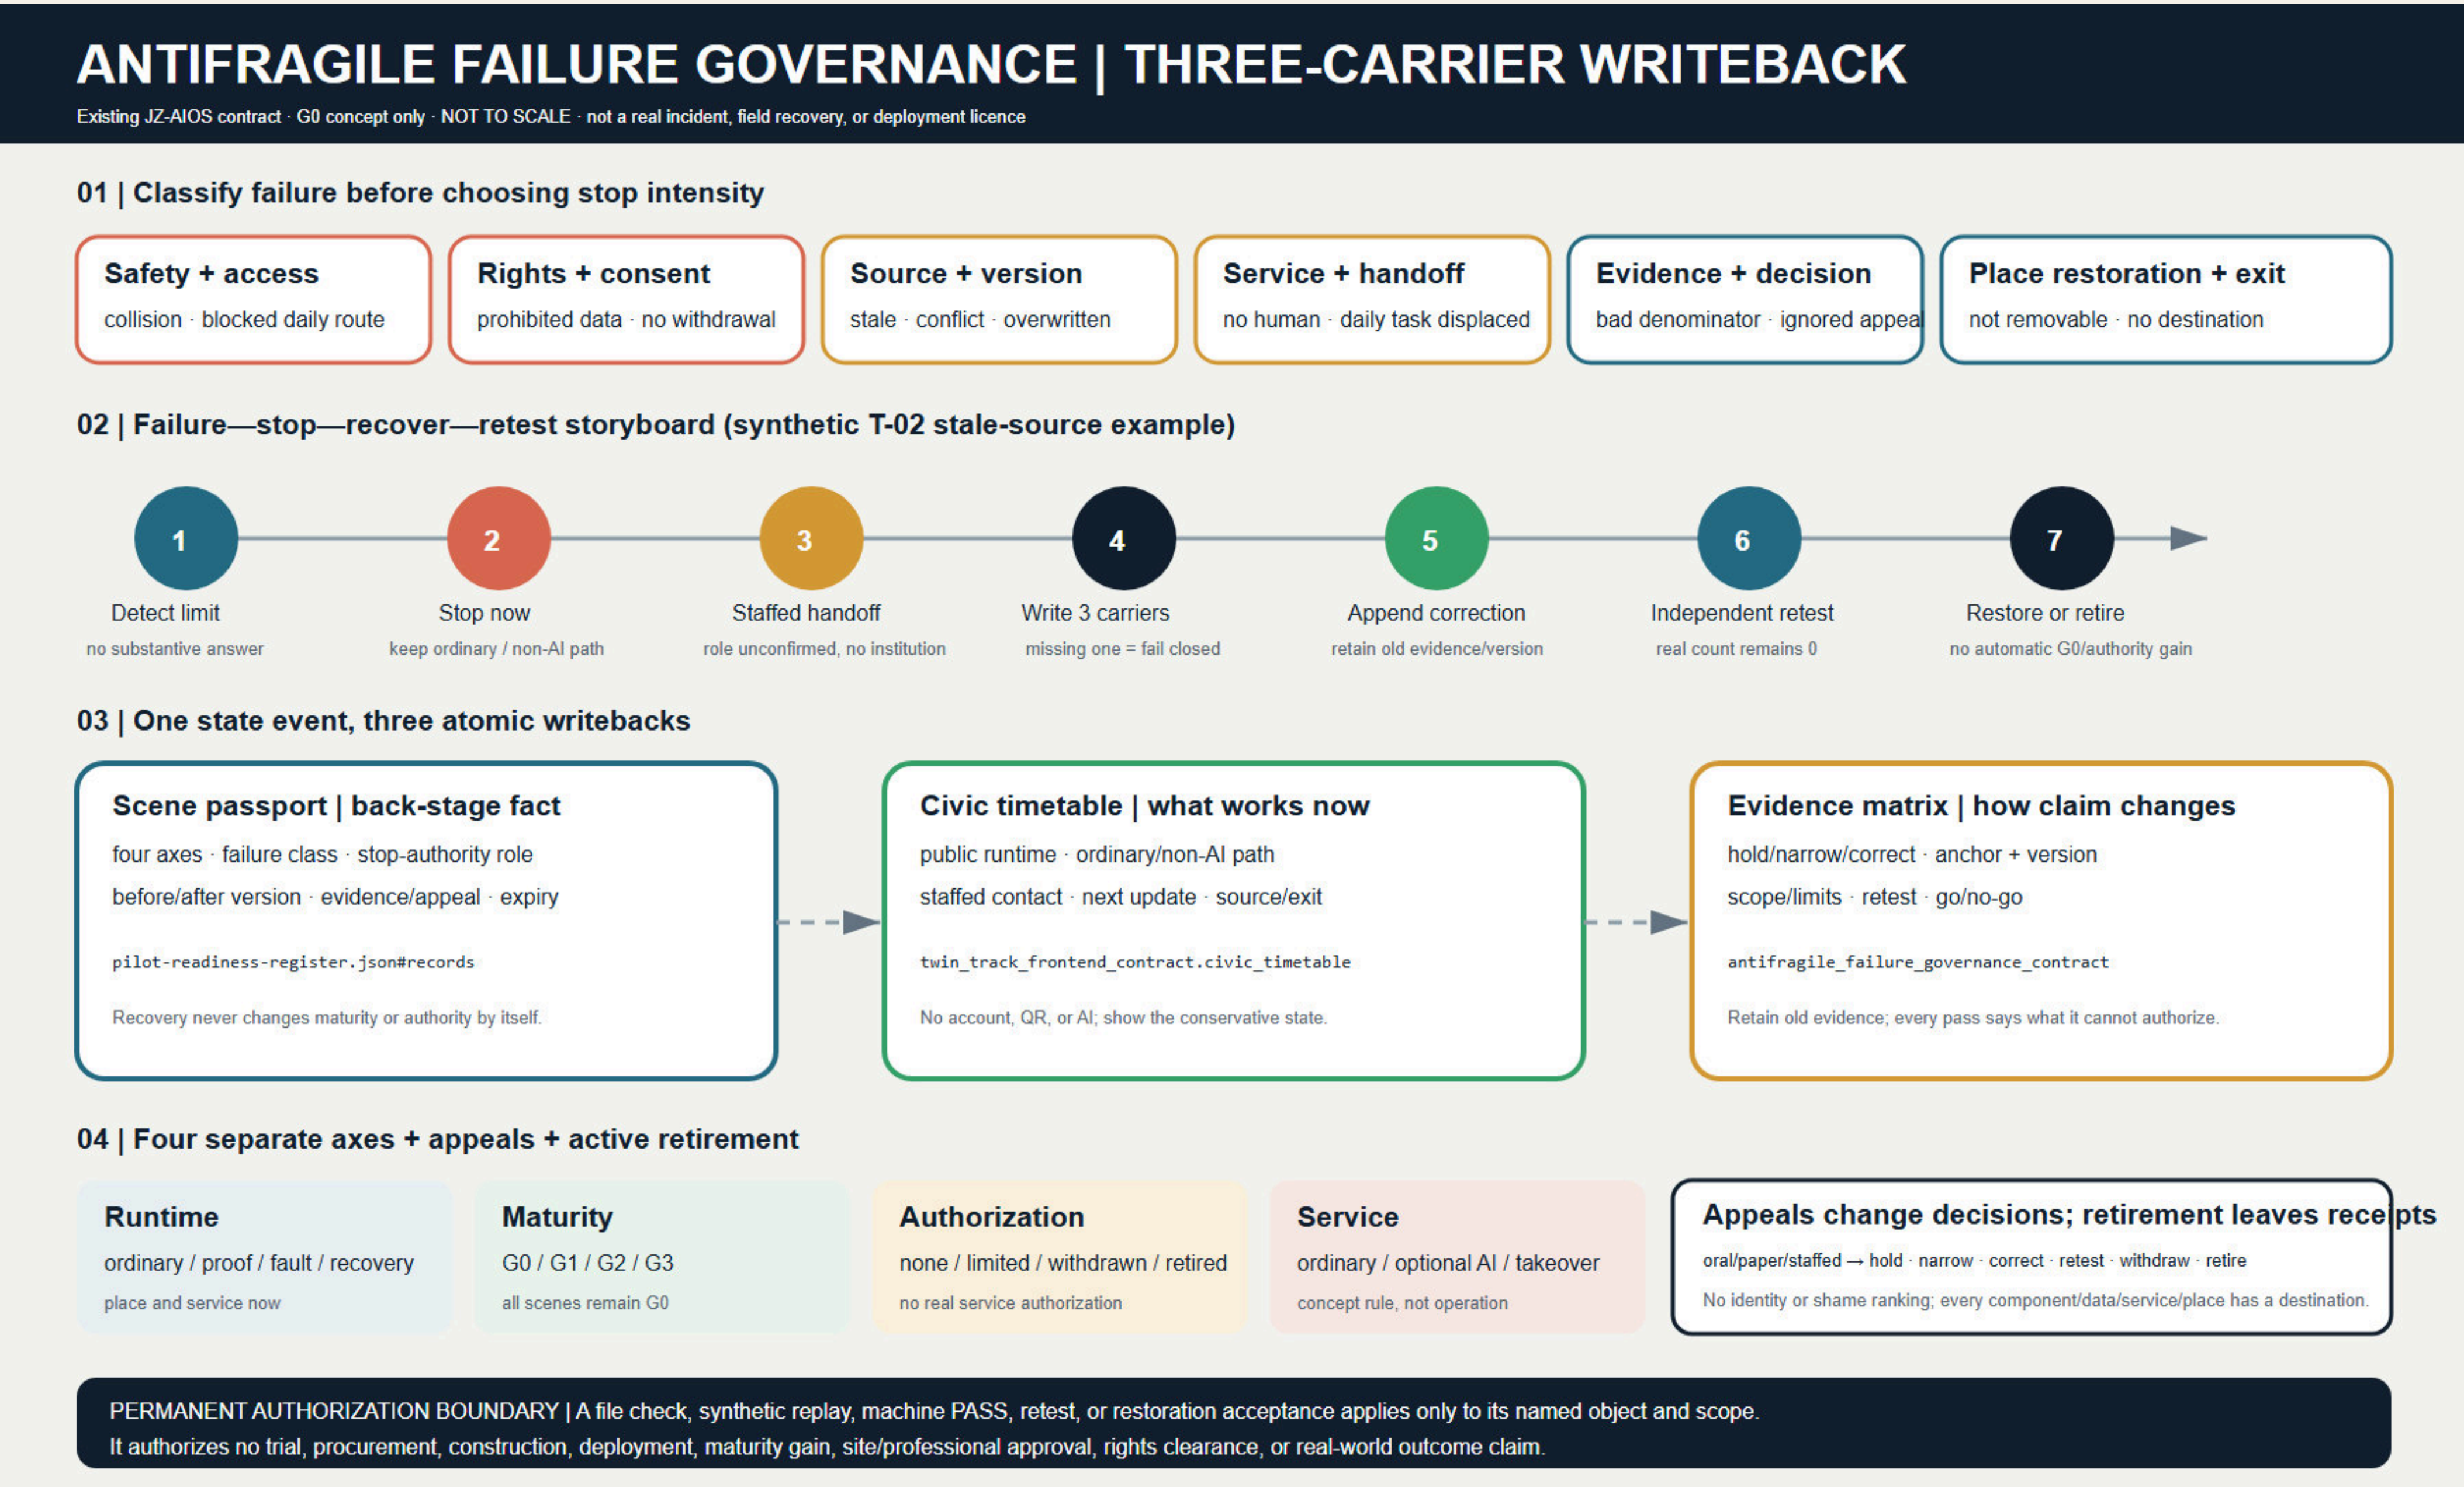

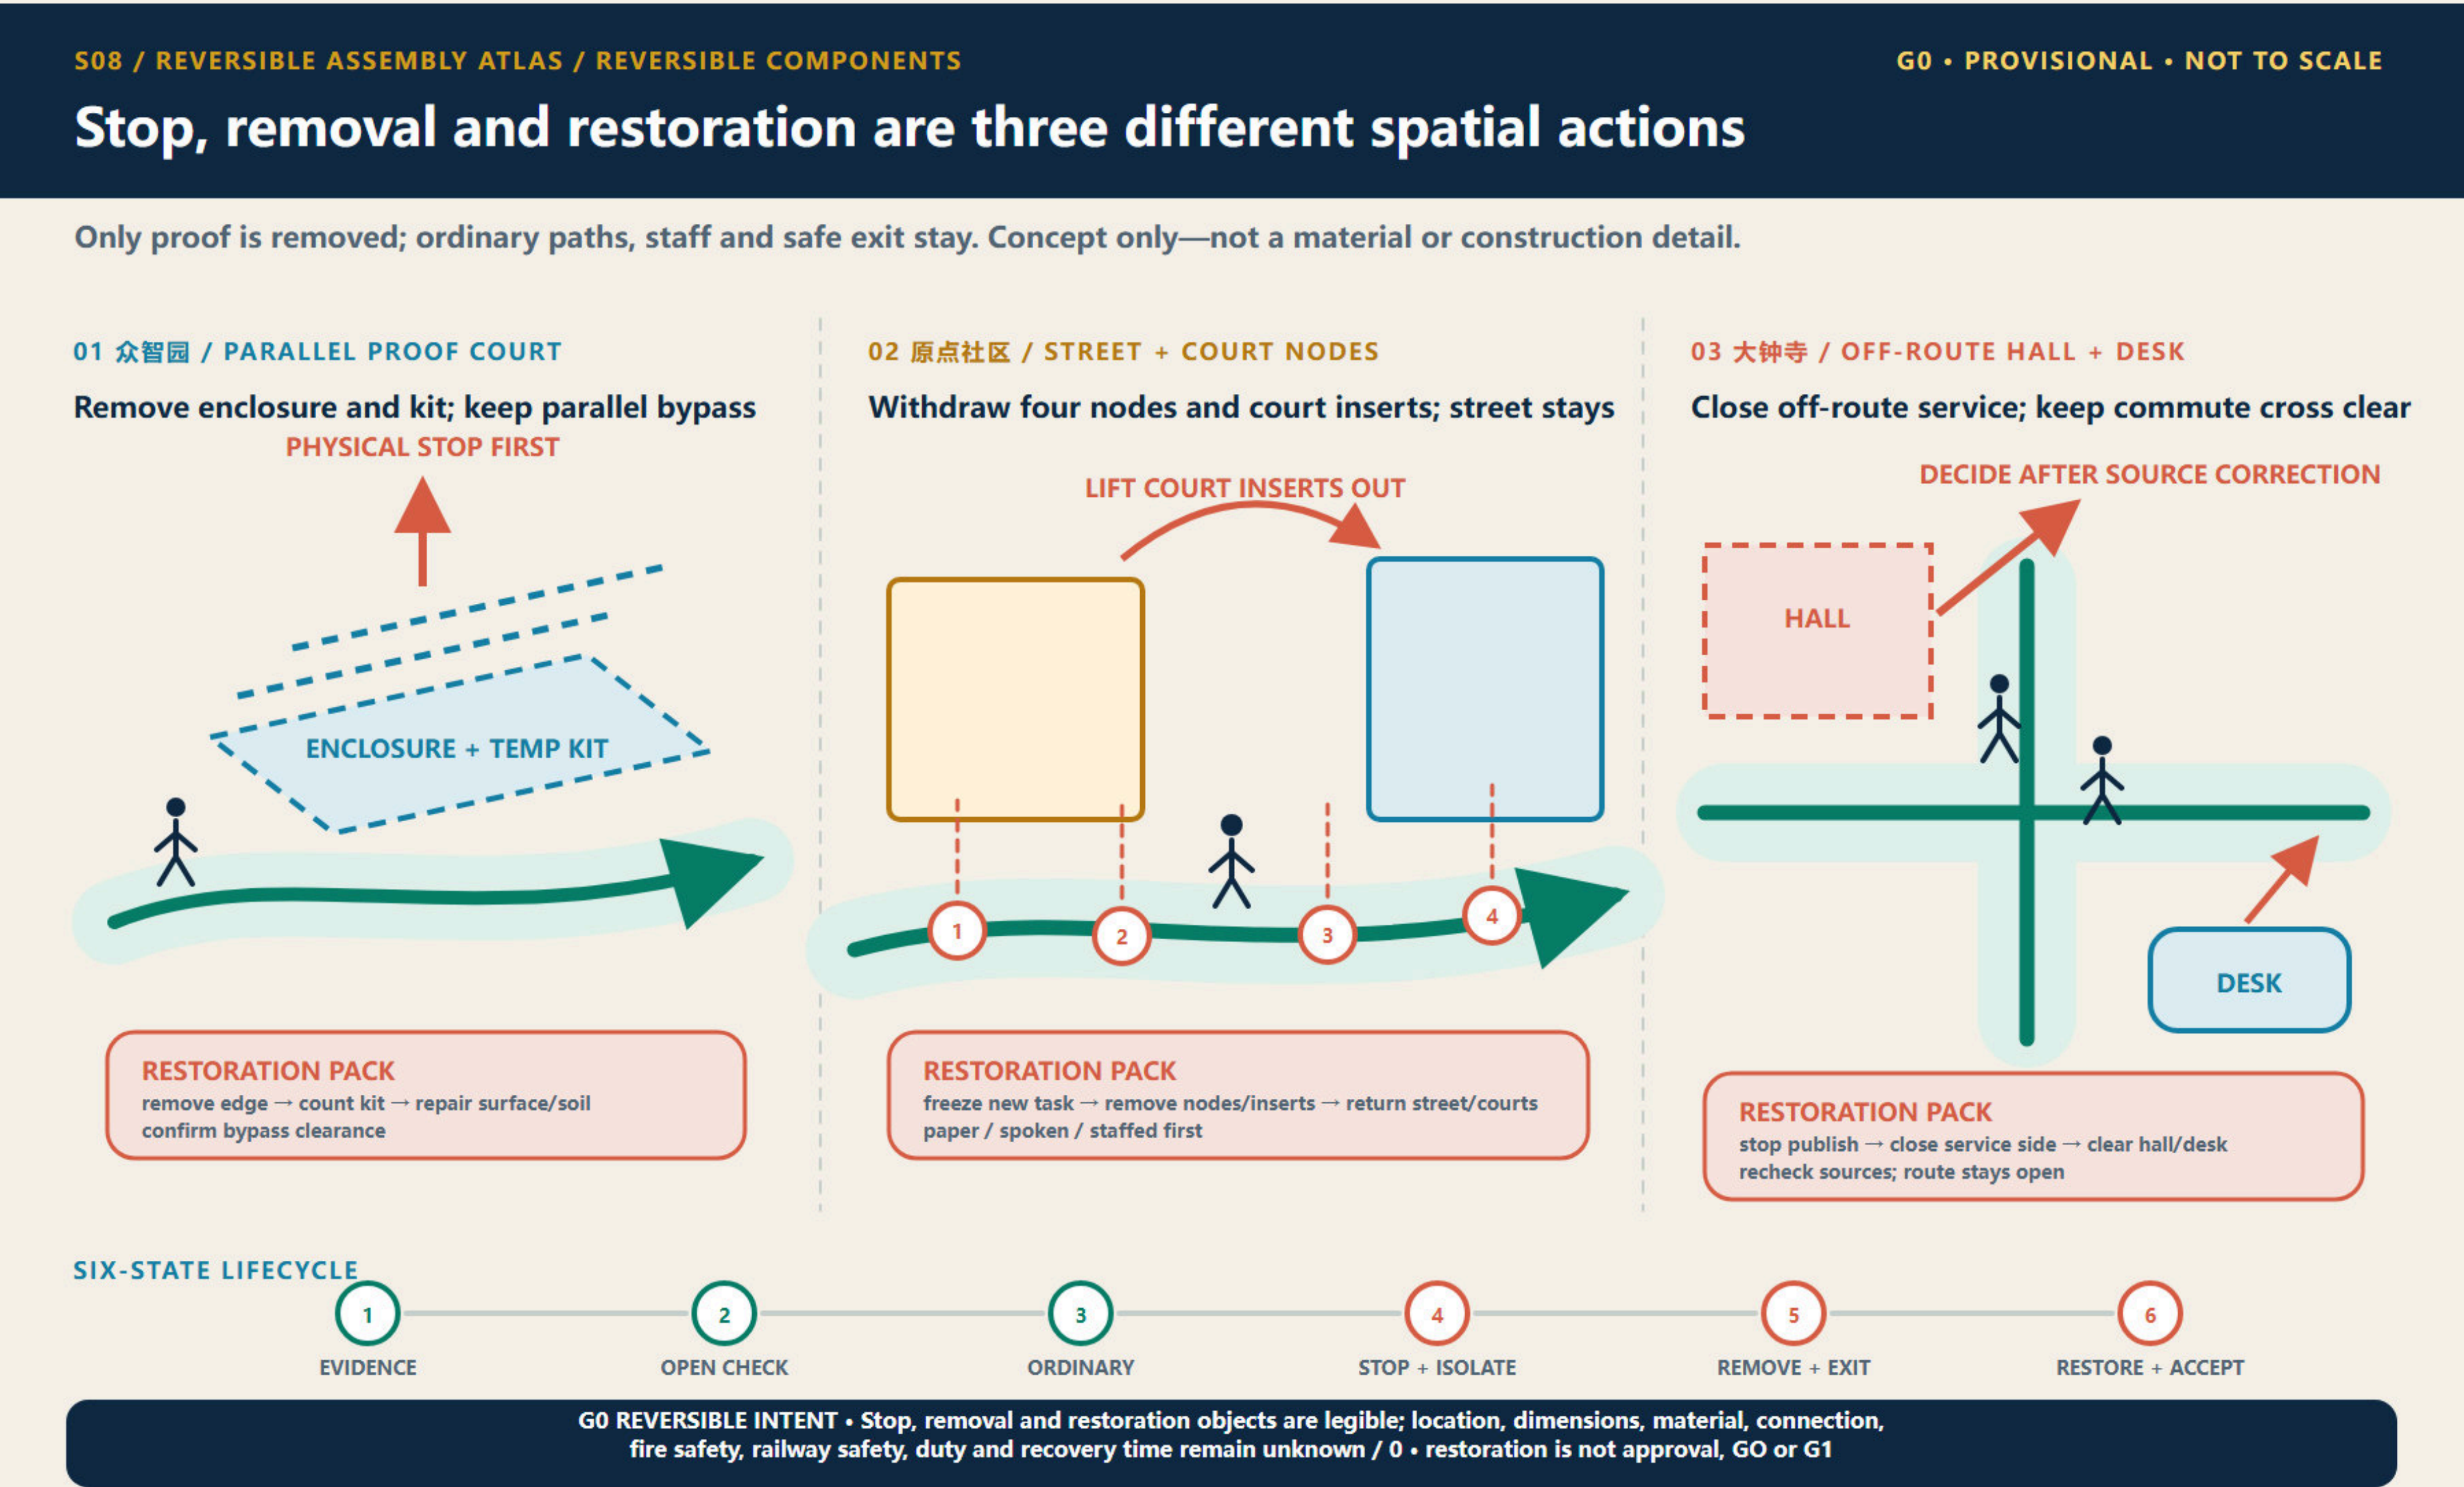

The ordinary task stays complete; proof is voluntary and adjacent, failure stops and isolates, recovery returns ordinary service first.

LIMIT

Synthetic media are no site, resident opinion, operating result or real recovery time.

BACKLINK

[visual/assets/ordinary-life-media-register.json](#) · [visual/assets/jury-motion-journey.json](#)

JUDGMENT

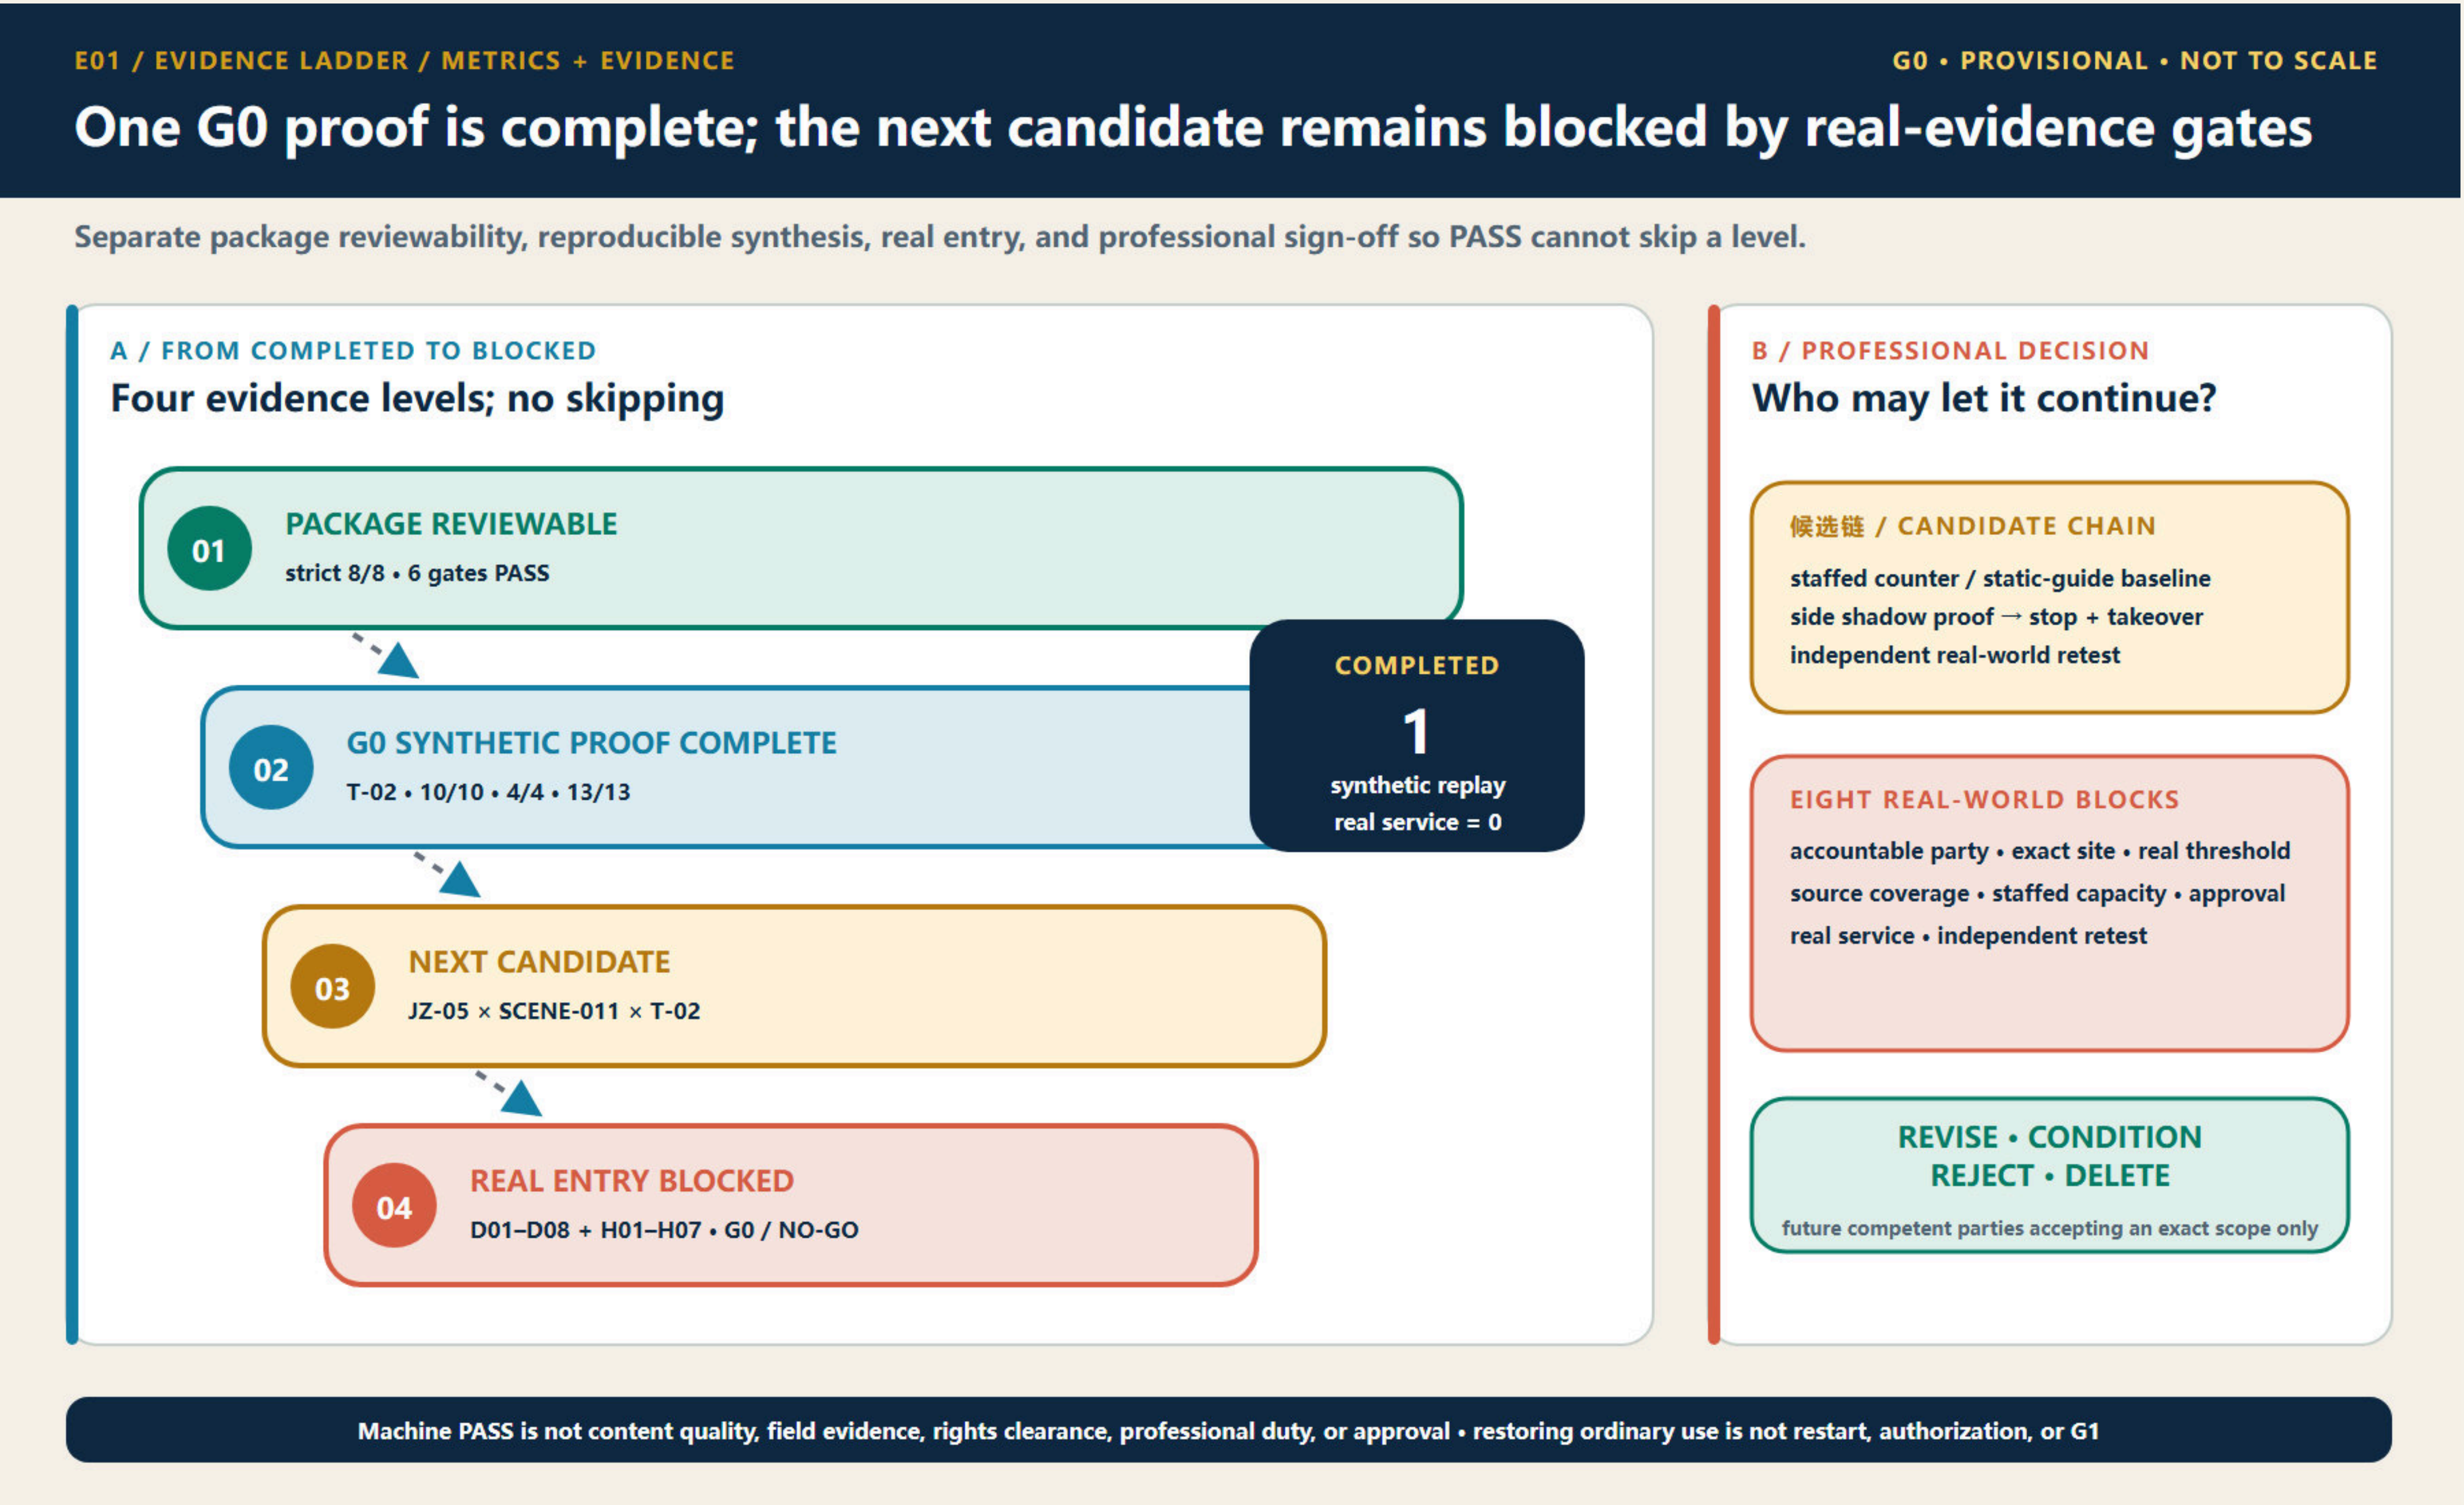

Removal objects differ at all three places, but only proof stops while staff and safe exit remain.

LIMIT

Recovery is not authorization, approval, GO, G1 or automatic restart; duties and acceptances remain 0.
