

01 OVERALL STRUCTURE

Heritage spine · three innovation anchors · two coordinating wings

Provisional design geography

Design logic

ONE SPINE

Rail heritage becomes a walking, exhibition, and civic innovation spine.

THREE AREAS

Full-stack R&D, near-campus transfer, and intelligent-native consumption.

TWO WINGS

Technology services to the west; urban scenario testing to the east.

OPEN NETWORK

Public-space scenarios connect parks, campuses, firms, and neighborhoods.

Provisional constraint geometry; replace and recalculate after official data release.

02 LAND USE AND RENEWAL

Complete partition · mixed innovation · retain-first renewal

Land-use partition

Renewal rules

RETAIN

Heritage and useful fabric

RETROFIT

Carbon, access, open ground floor

REUSE

Shared labs and talent services

INFILL

Only for verified service gaps

VERIFY

No demolition without survey

Land-use codes follow the repository enum; capacity and demolition require official planning and survey.

03 THREE KEY AREAS

Distinct roles · spatial moves · governed AI scenarios

XUEBEIYUAN

SPATIAL MOVES

Qinghe innovation edge
Open testing courtyards
Standards and safety display

AI SCENARIOS

Model safety sandbox
Low-carbon computing commons
Open standards workshop

192.9 ha · PROVISIONAL

AI ORIGIN

SPATIAL MOVES

Campus-park-neighborhood links
One-kilometer innovation circle
Shared ground floors and talent hub

AI SCENARIOS

Open-source release hall
Technology transfer street
AI daily-service prototype

104.3 ha · PROVISIONAL

DAZHONGSI

SPATIAL MOVES

Four-quadrant station walking links
Roadshow and consumption mix
Evening civic culture

AI SCENARIOS

Edge-device experience
Compliant data salon
Global roadshow commons

72.0 ha · PROVISIONAL

Area rectangles are provisional constraints and do not represent parcel or road redlines.

04 MOBILITY AND BLUE-GREEN NETWORK

Rail access · heritage walking · sponge landscape · civic scenarios

Composite network

Daily operation

- Rail nodes: public transport first
- Spine: walking, cycling, heritage
- Green: stormwater, cooling, low-carbon travel
- Civic edges: events, services, tests
- Governance: notice, access levels, human review

Crossings and utility capacity require separate transport and engineering review.

05 METRICS AND EVIDENCE

One geometry base · one metric ledger · four validation gates

SITE AREA

11.41 km²

GREEN RATIO

12.34%

PUBLIC SPACE

7.33%

BUILDING FOOTPRINT

31.1 ha

KEY AREAS

3

Evidence chain

Validation result

- ☒ Deterministic validation
- ☒ Spatial review
- ☒ Visual packaging
- ☒ Professional evidence

FORMAL-REVIEW-READY

Known values are recalculated from submitted geometry; statutory controls remain pending.
