

CMP · JZ Compute - Energy Loop

AI Compute Infrastructure & Compute-Energy Synergy Loop · Concept Proposal (Package 37)

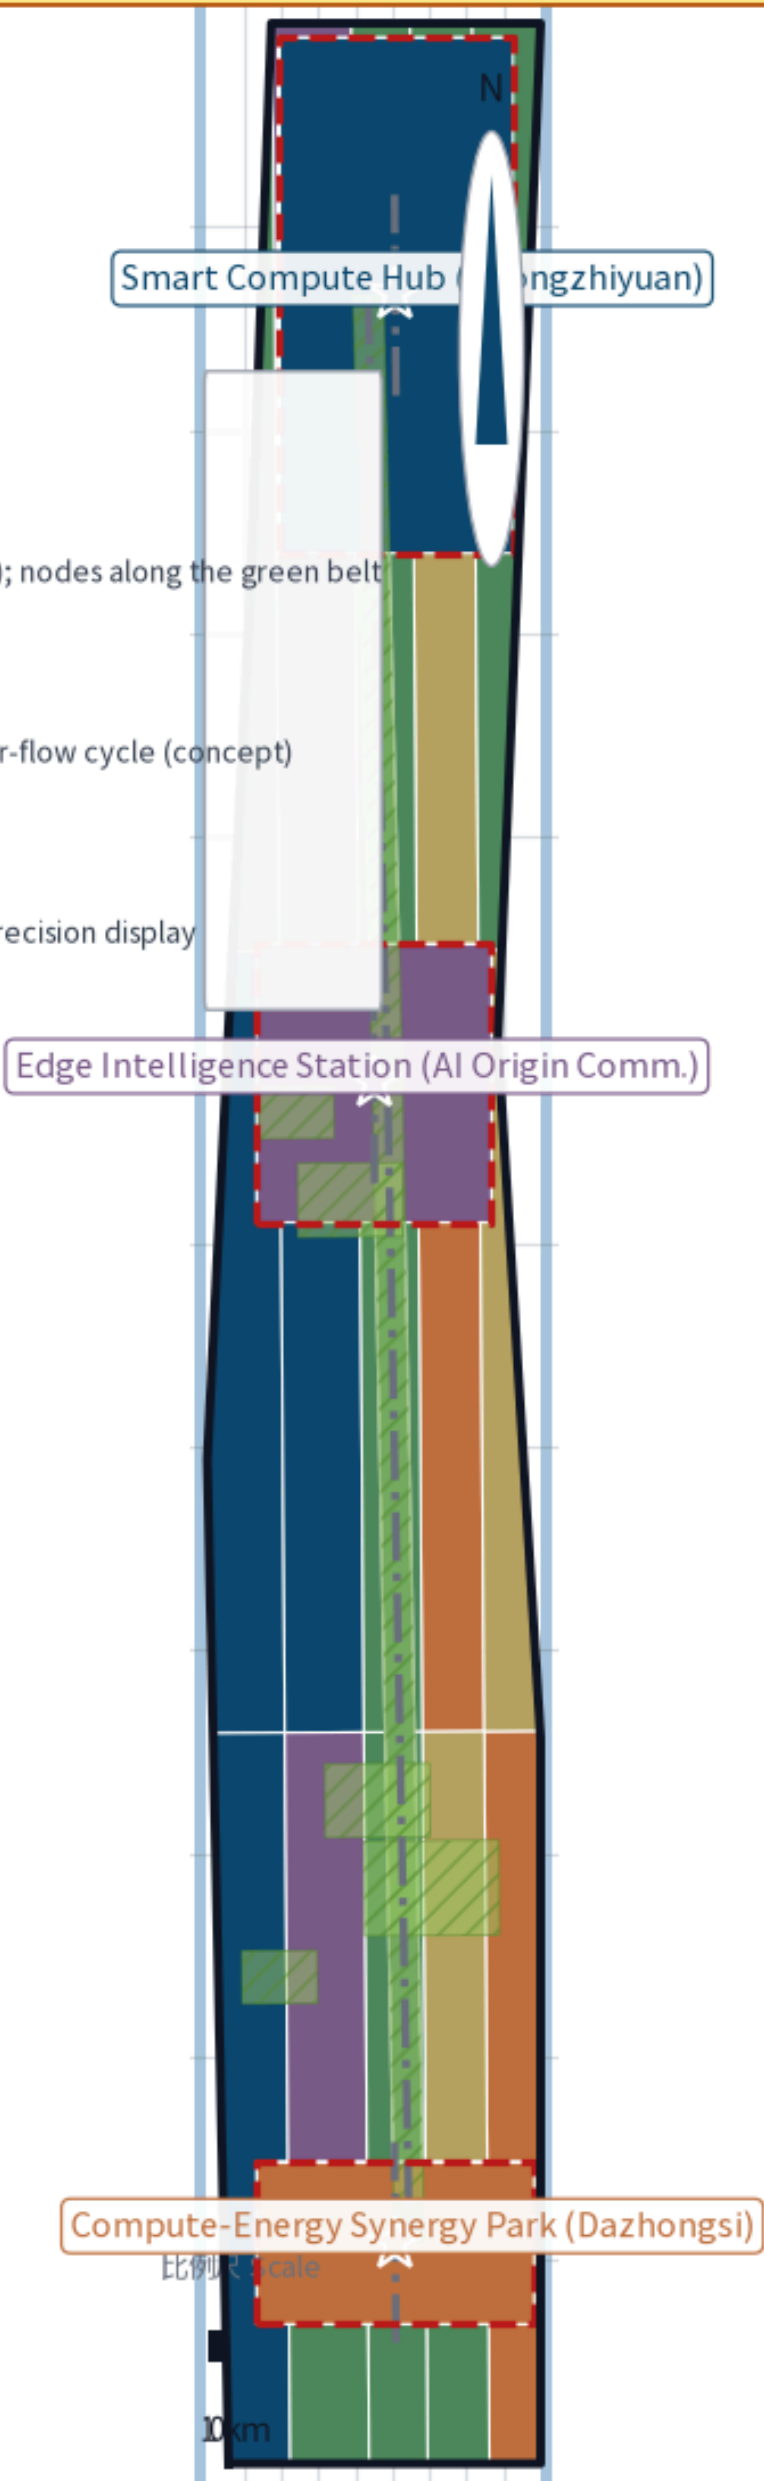

PROVISIONAL: conceptual geometry; not an official red line / ownership / engineering location; recompute on official boundary/regulatory plan.

Overall Design Overview · Three Nodes & One Loop Network (provisional)

PROVISIONAL: conceptual geometry, not an official red line / ownership / engineering location; recompute on official data

图面说明 Notes

- Scope: Overall design area (provisional); nodes along the green belt
- Structure: Three nodes & one loop: four-flow cycle (concept)
- Data: Areas/shares in EPSG:4548, low precision display

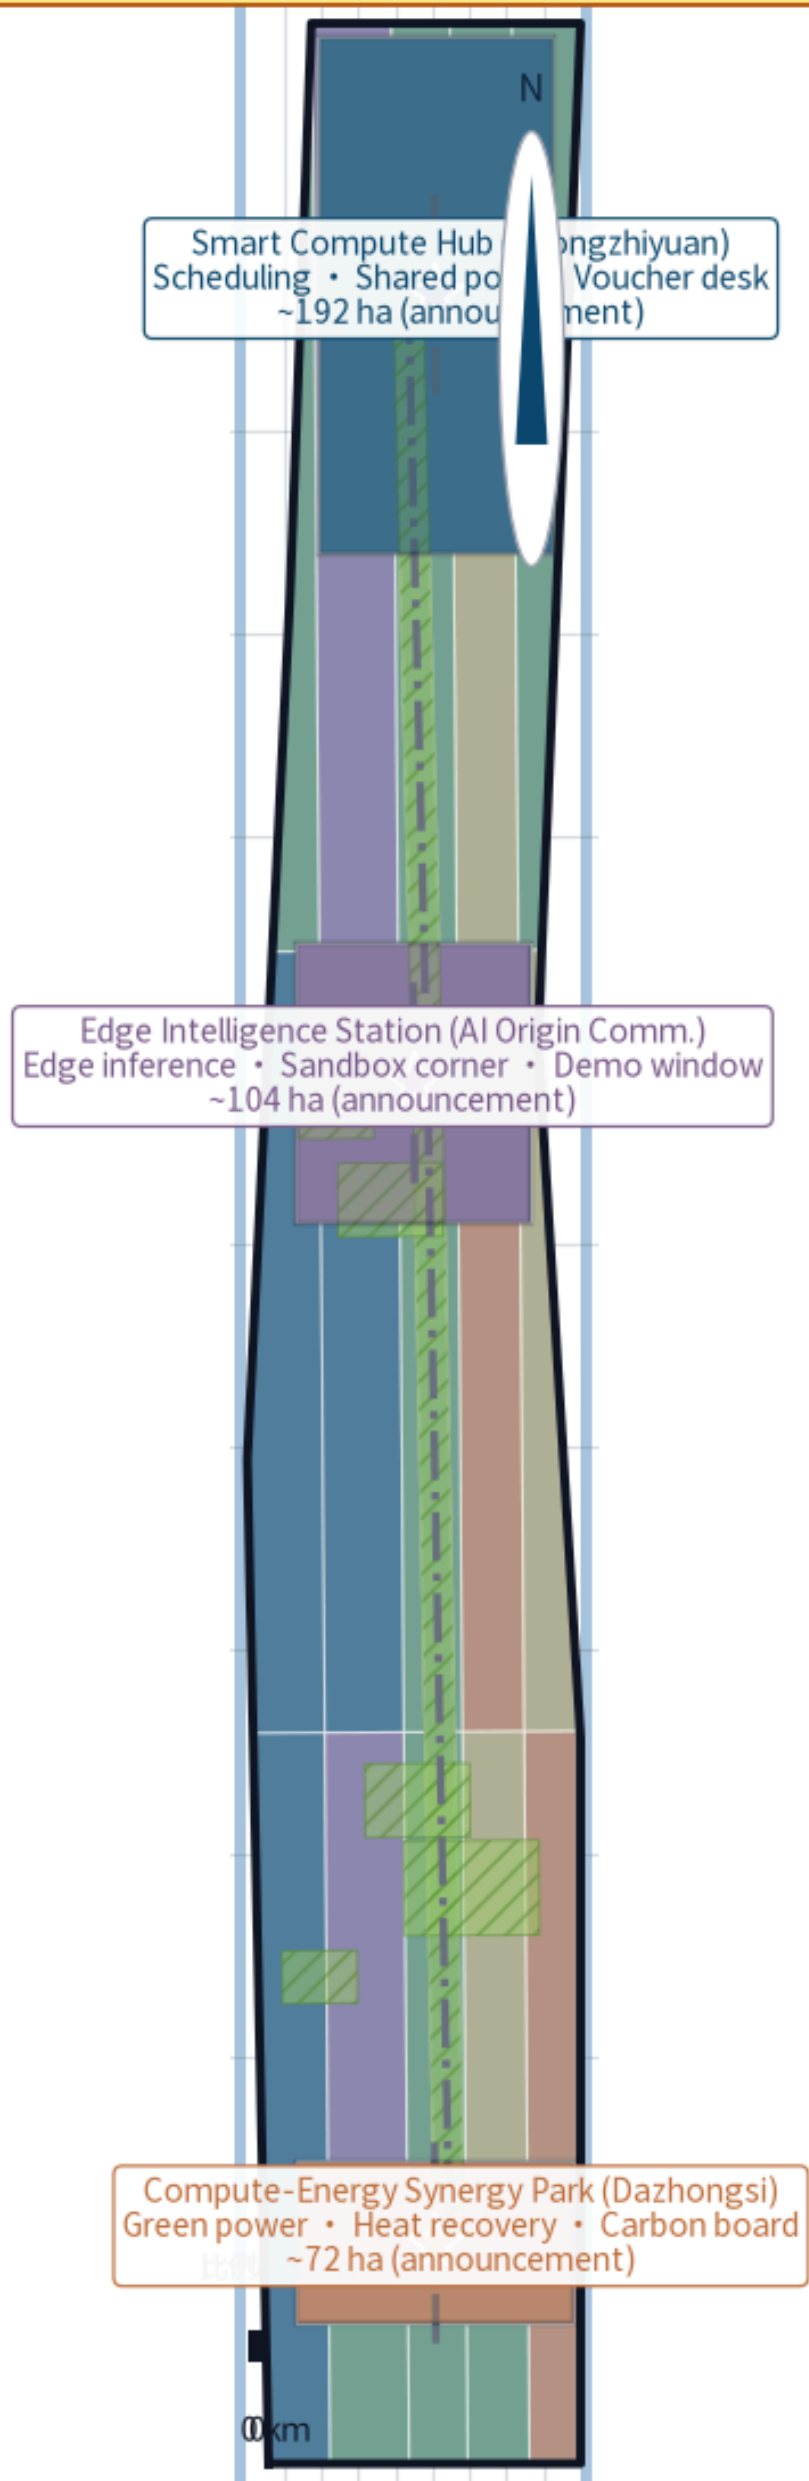

图例 Legend

- | | |
|------------------------|------------------------|
| Research (0802) | Residential (0701) |
| Park green (1401) | Roads (freight / slow) |
| Business & fin. (0902) | Blue-green overlay |
| Commercial (0901) | |
- base (provisional geometry) / geojson (provisional conceptual geometry, EPSG:4548); scale schematic, not official.

Three Key Areas: Index & Design Task Map (provisional)

PROVISIONAL: conceptual geometry, not an official red line / ownership / engineering location; recompute on official data

图例 Legend

| Edge Intelligence Station (AI Origin Comm.) |
| Compute-Energy Synergy Park (Dazhongsil) |

Nodes are conceptual locations subject to site survey, public consultation and statutory procedures; coordinates in EPSG:4548.

Fig. 1 Overall Design Overview (provisional)

Overall design area

site_area_sqm · EPSG:4548 · recompute

Green ratio

green_ratio · low confidence

Fig. 2 Three Key Areas & Design Tasks

Public-space ratio

public_space_ratio · low confidence

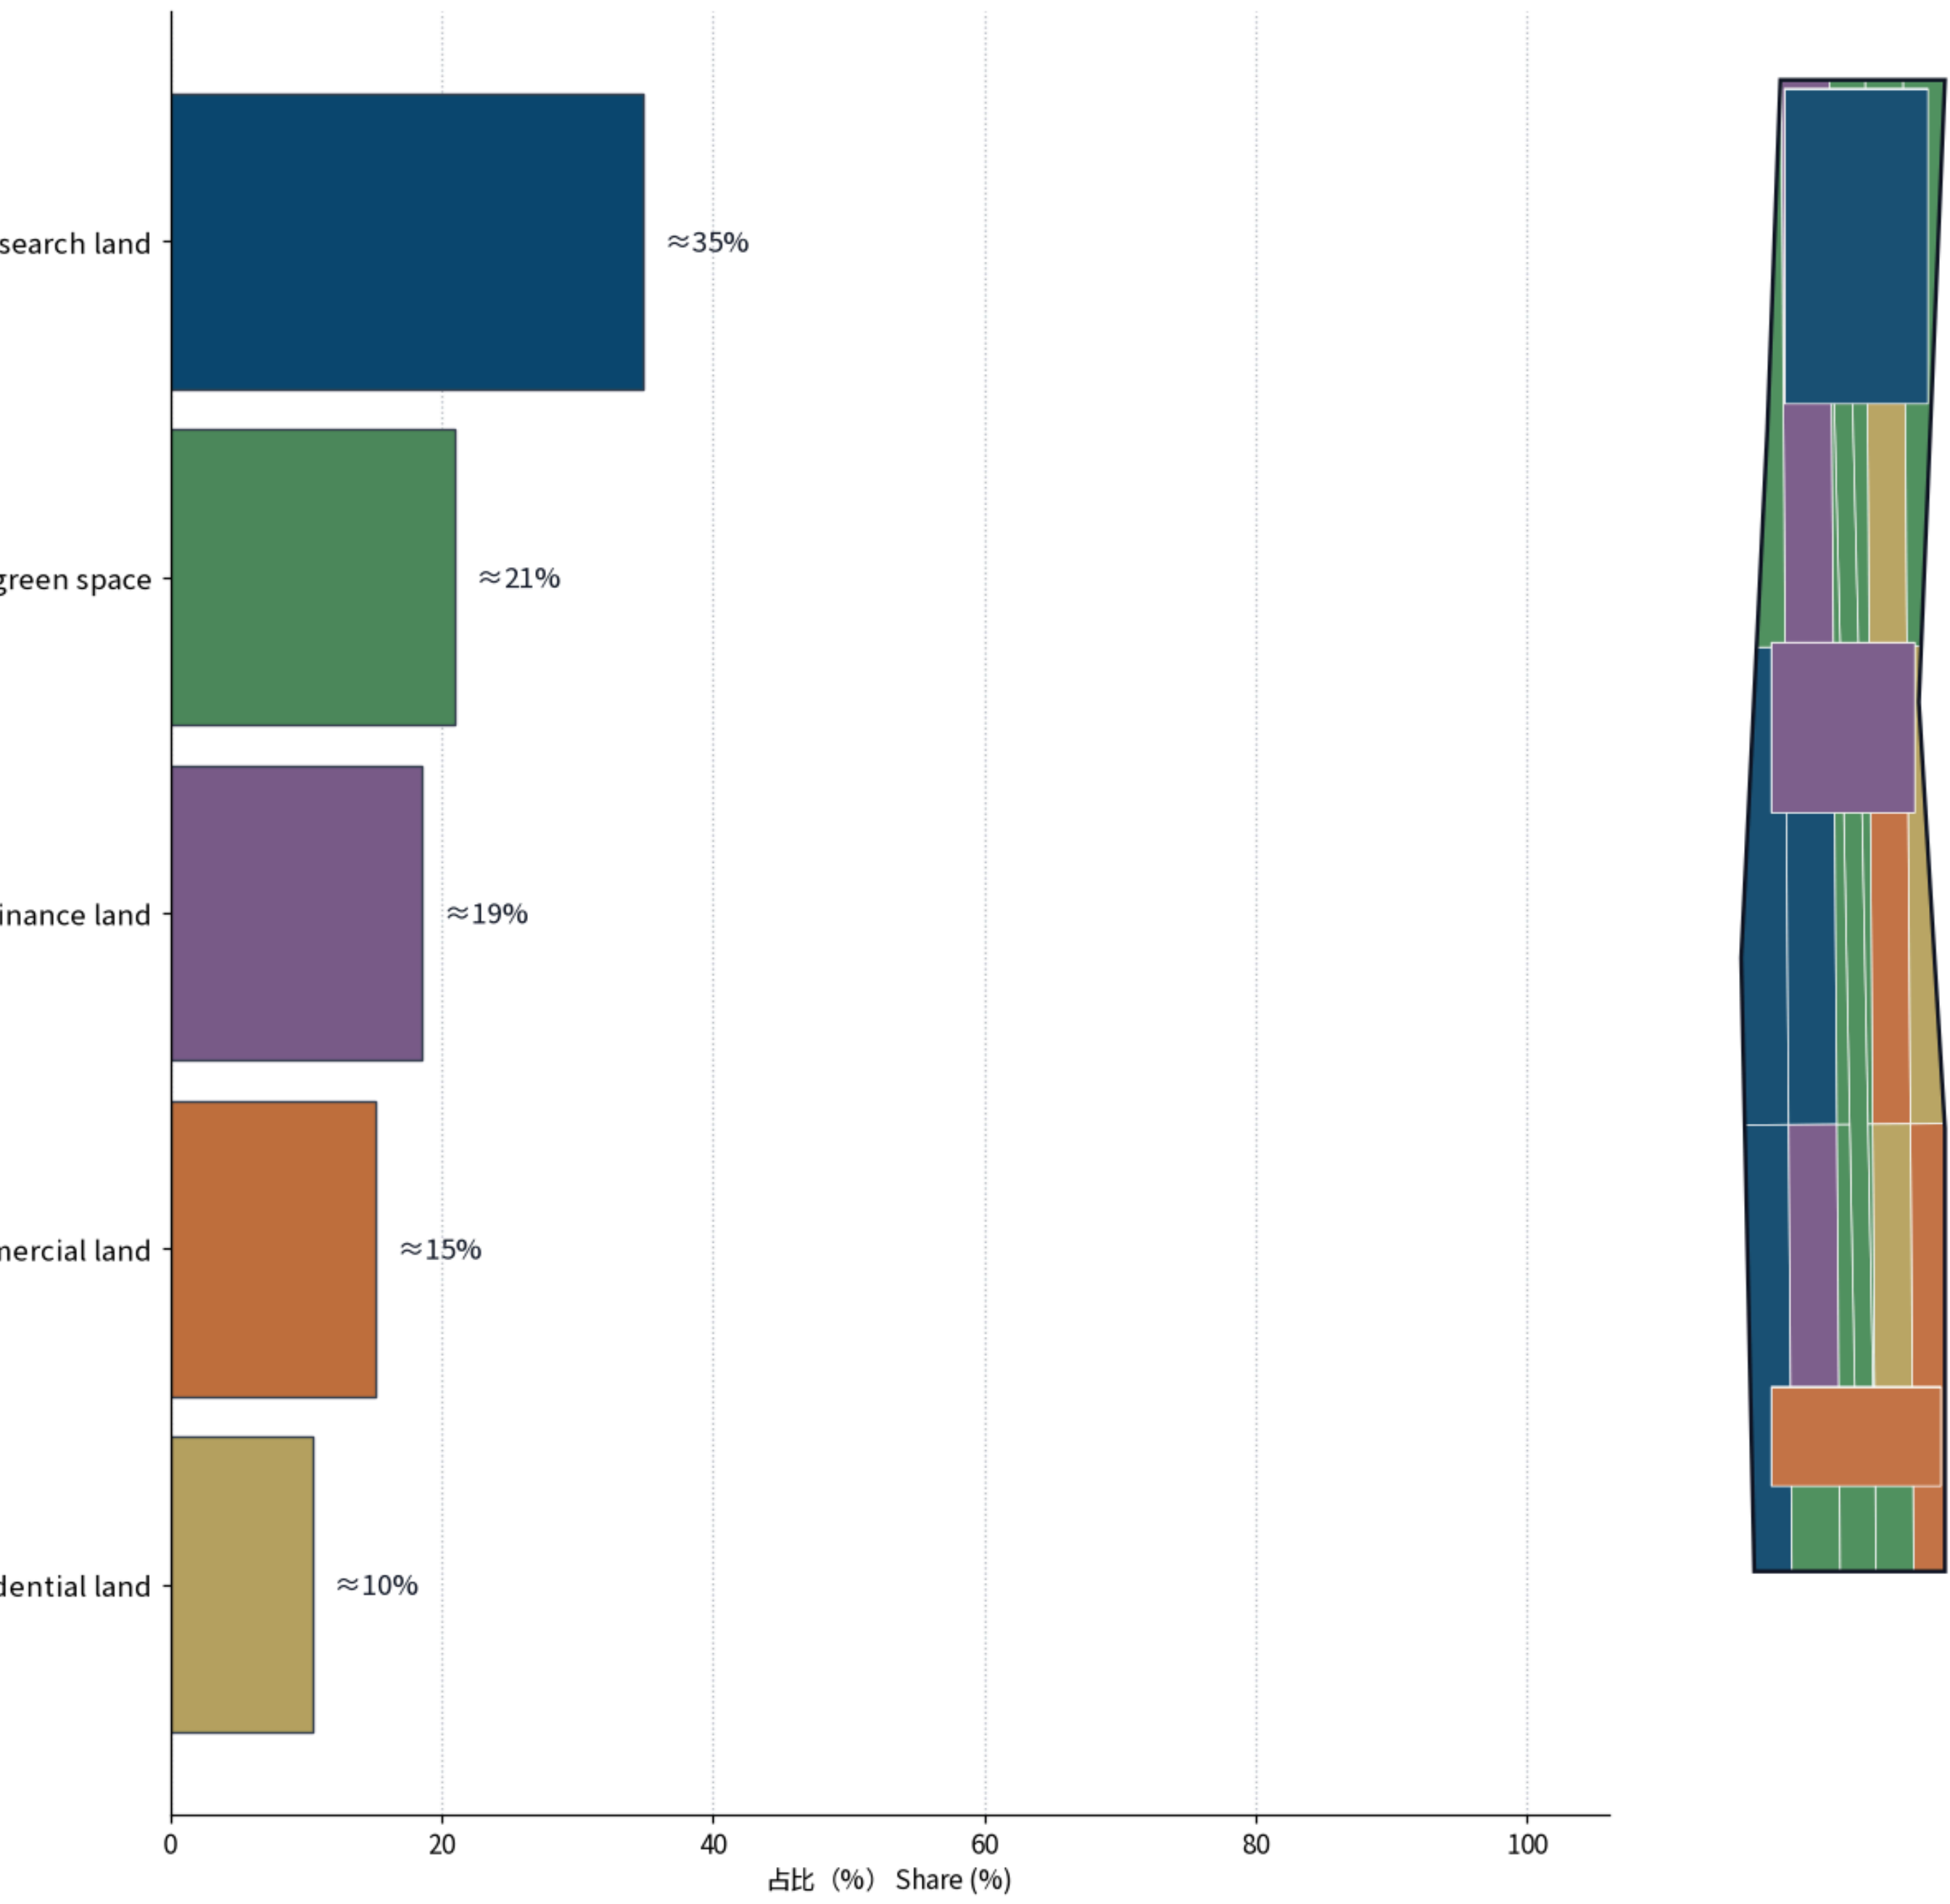

CMP · JZ Compute - Energy Loop

AI Compute Infrastructure & Compute-Energy Synergy Loop · Concept Proposal (Package 37)

PROVISIONAL conceptual geometry: not an official red line / ownership / engineering location; recompute on official boundary/regulatory plan.

Conceptual Land-Use Structure · Single 5-Class Caliber (provisional)

PROVISIONAL: conceptual geometry, not an official red line / ownership / engineering location; recompute on official data

Total ≈ 100% (rounded). Classes: 0802 Research · 1401 Park green · 0902 Business & fin. · 0901 Commercial · 0701 Residential

Aggregation: share_j = sum(area of land_use_code=i) / site_area_sqm (EPSG:4548); low confidence; recompute triggers on official regulatory plan.

Fig. 3 Land-Use Structure (single 5-class caliber)

Code	Class (single caliber)	Share (rounded)
0802	Research land (科研用地)	≈35%
1401	Park green space (公园绿地)	≈21%
0902	Business & finance (商务金融用地)	≈19%
0901	Commercial (商业用地)	≈15%
0701	Urban residential (城镇住宅用地)	≈10%

Single caliber: five classes recomputed from land_use.geojson in EPSG:4548; aggregation share_i = class area / site area, low confidence; recompute triggers on official regulatory plan.

Mobility & Blue-Green Space Analysis (conceptual routes)

PROVISIONAL: conceptual geometry, not an official red line / ownership / engineering location; recompute on official data

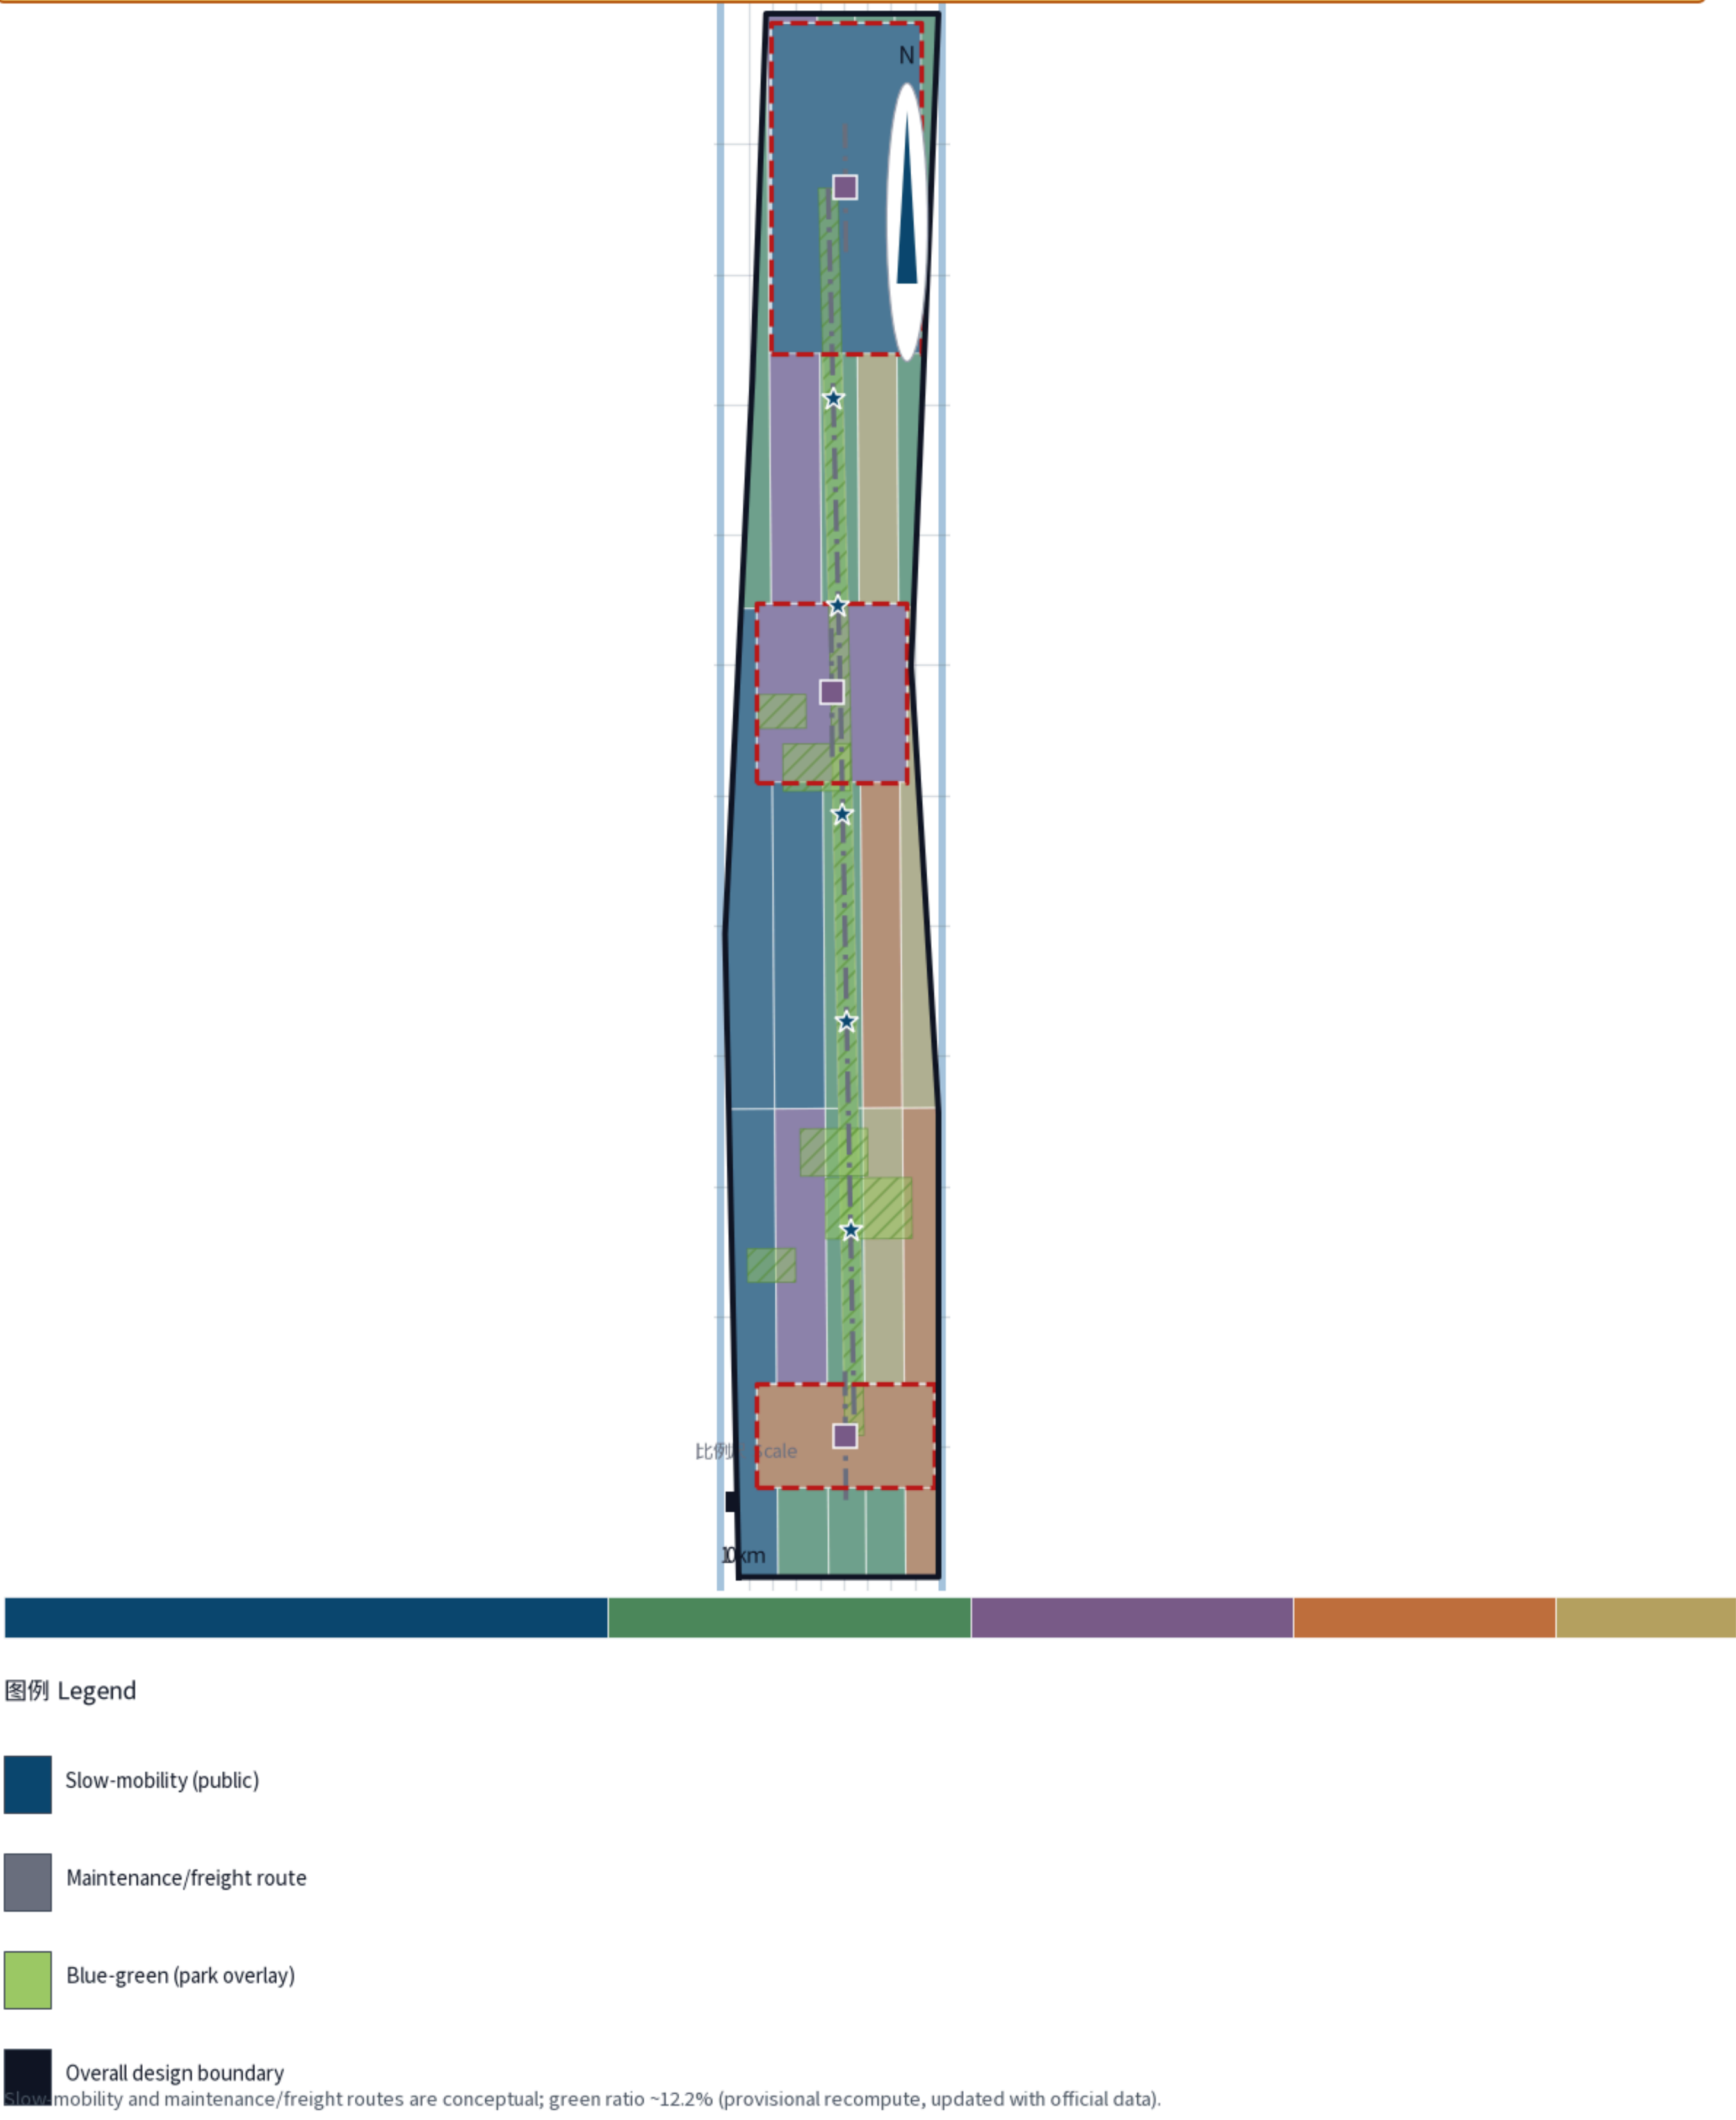

Fig. 4 Mobility & Blue-Green Space

CMP · JZ Compute - Energy Loop

AI Compute Infrastructure & Compute-Energy Synergy Loop · Concept Proposal (Package 37)

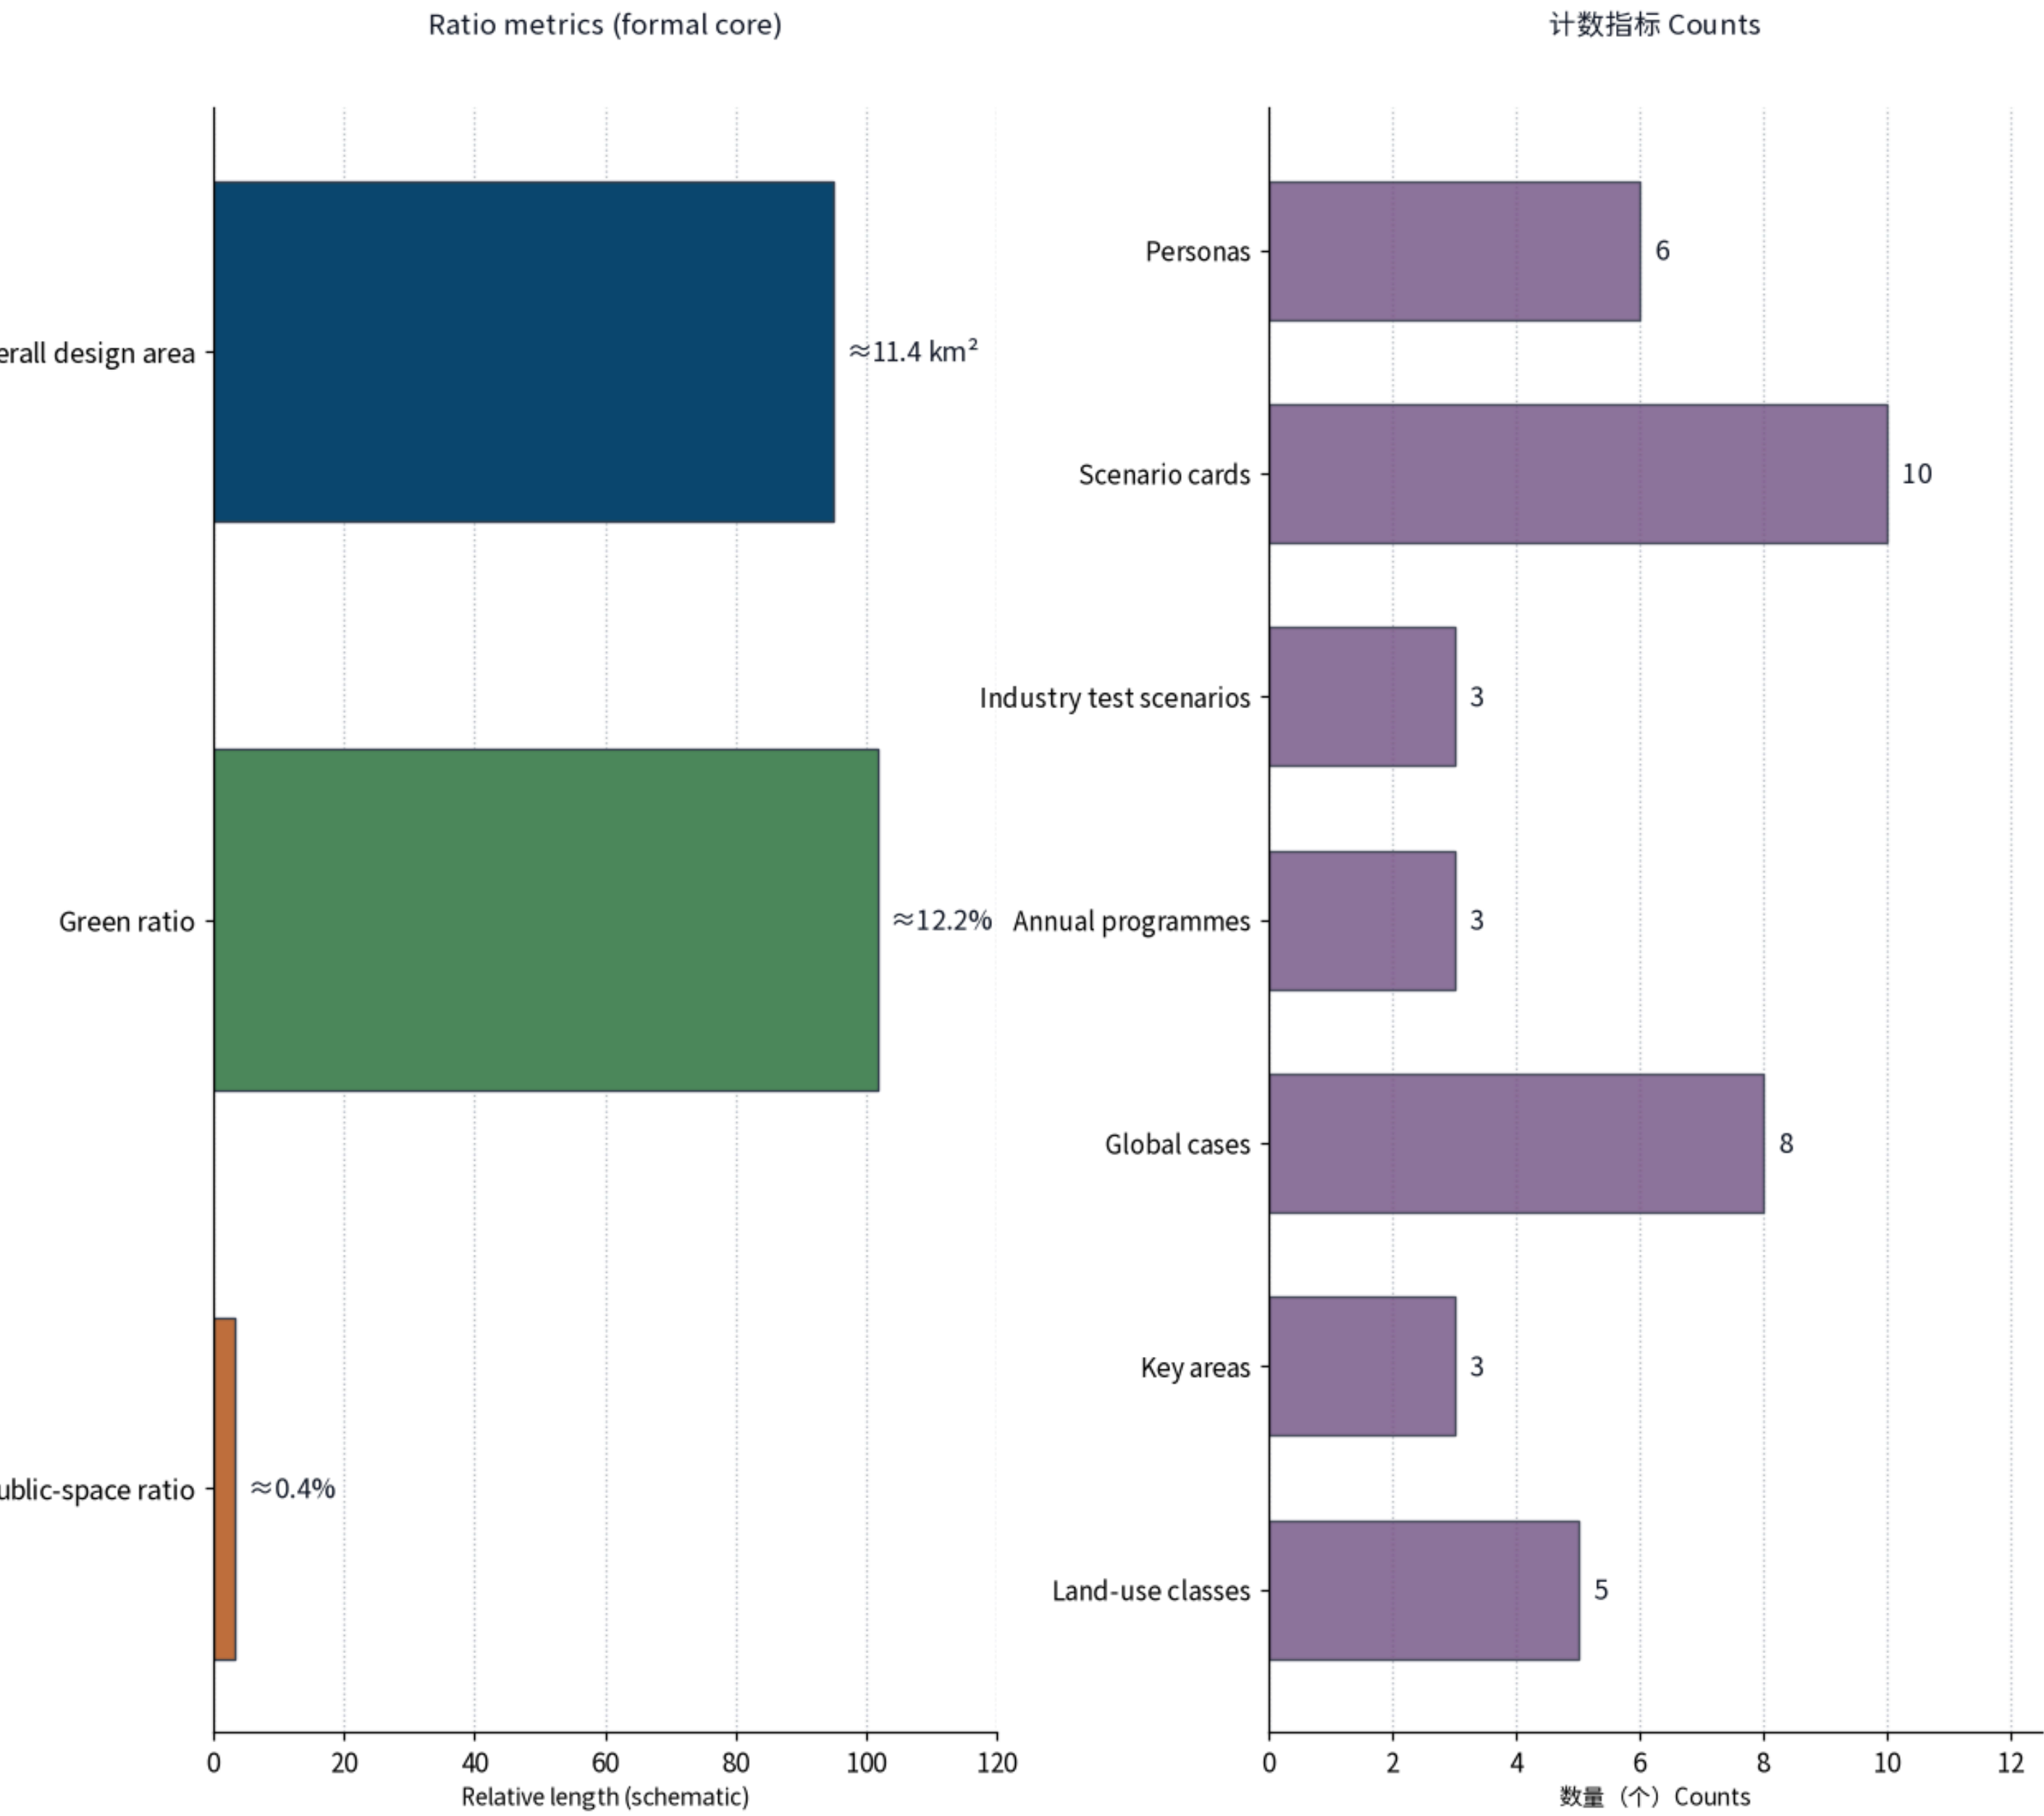

PROVISIONAL conceptual geometry: not an official red line / ownership / engineering location; recompute on official boundary/regulatory plan.

Overall design area	≈11.4 km ²	site_area_sqm
Green ratio	≈12.2%	green_ratio
Public-space ratio	≈0.4%	
Personas	6	persona_count
Scenario cards	10	
Industry test scenarios	3	
Annual programmes	3	
Global cases	8	
Key areas	3	
Land-use classes	5 (single caliber)	

Short (1-3y) mechanism pilots → mid (3-5y) loop connectivity → long (5-10y) full-loop synergy; minimum pilots, preconditions, responsibilities, stage gates, KPIs, maintenance, feedback and exit/recovery per proposal.md.

Core Metrics Evidence (ratios vs counts, low-precision display)

PROVISIONAL: conceptual geometry, not an official red line / ownership / engineering location; recompute on official data

data-value matches metrics.json; pages and figures show rounded low-precision figures only. Recompute on official data.

Fig. 5 Core Metrics Evidence

Whole package is a conceptual proposal / reference scheme: no FAR, heights, demolition, capacities, loads, investment or approvals; cases described only from public channels, registered per case (sources.json); figures, drawings, logo, HTML and geometry self-produced; font Noto Sans SC (SIL OFL 1.1) in report/copyright_statement.md; accessibility by human review only; these drawings are not government endorsement, approval, statutory planning or engineering conclusions.
