

THE SLOW VARIABLES

Five ten-year measures govern whether AI may scale

FAST AI ITERATION

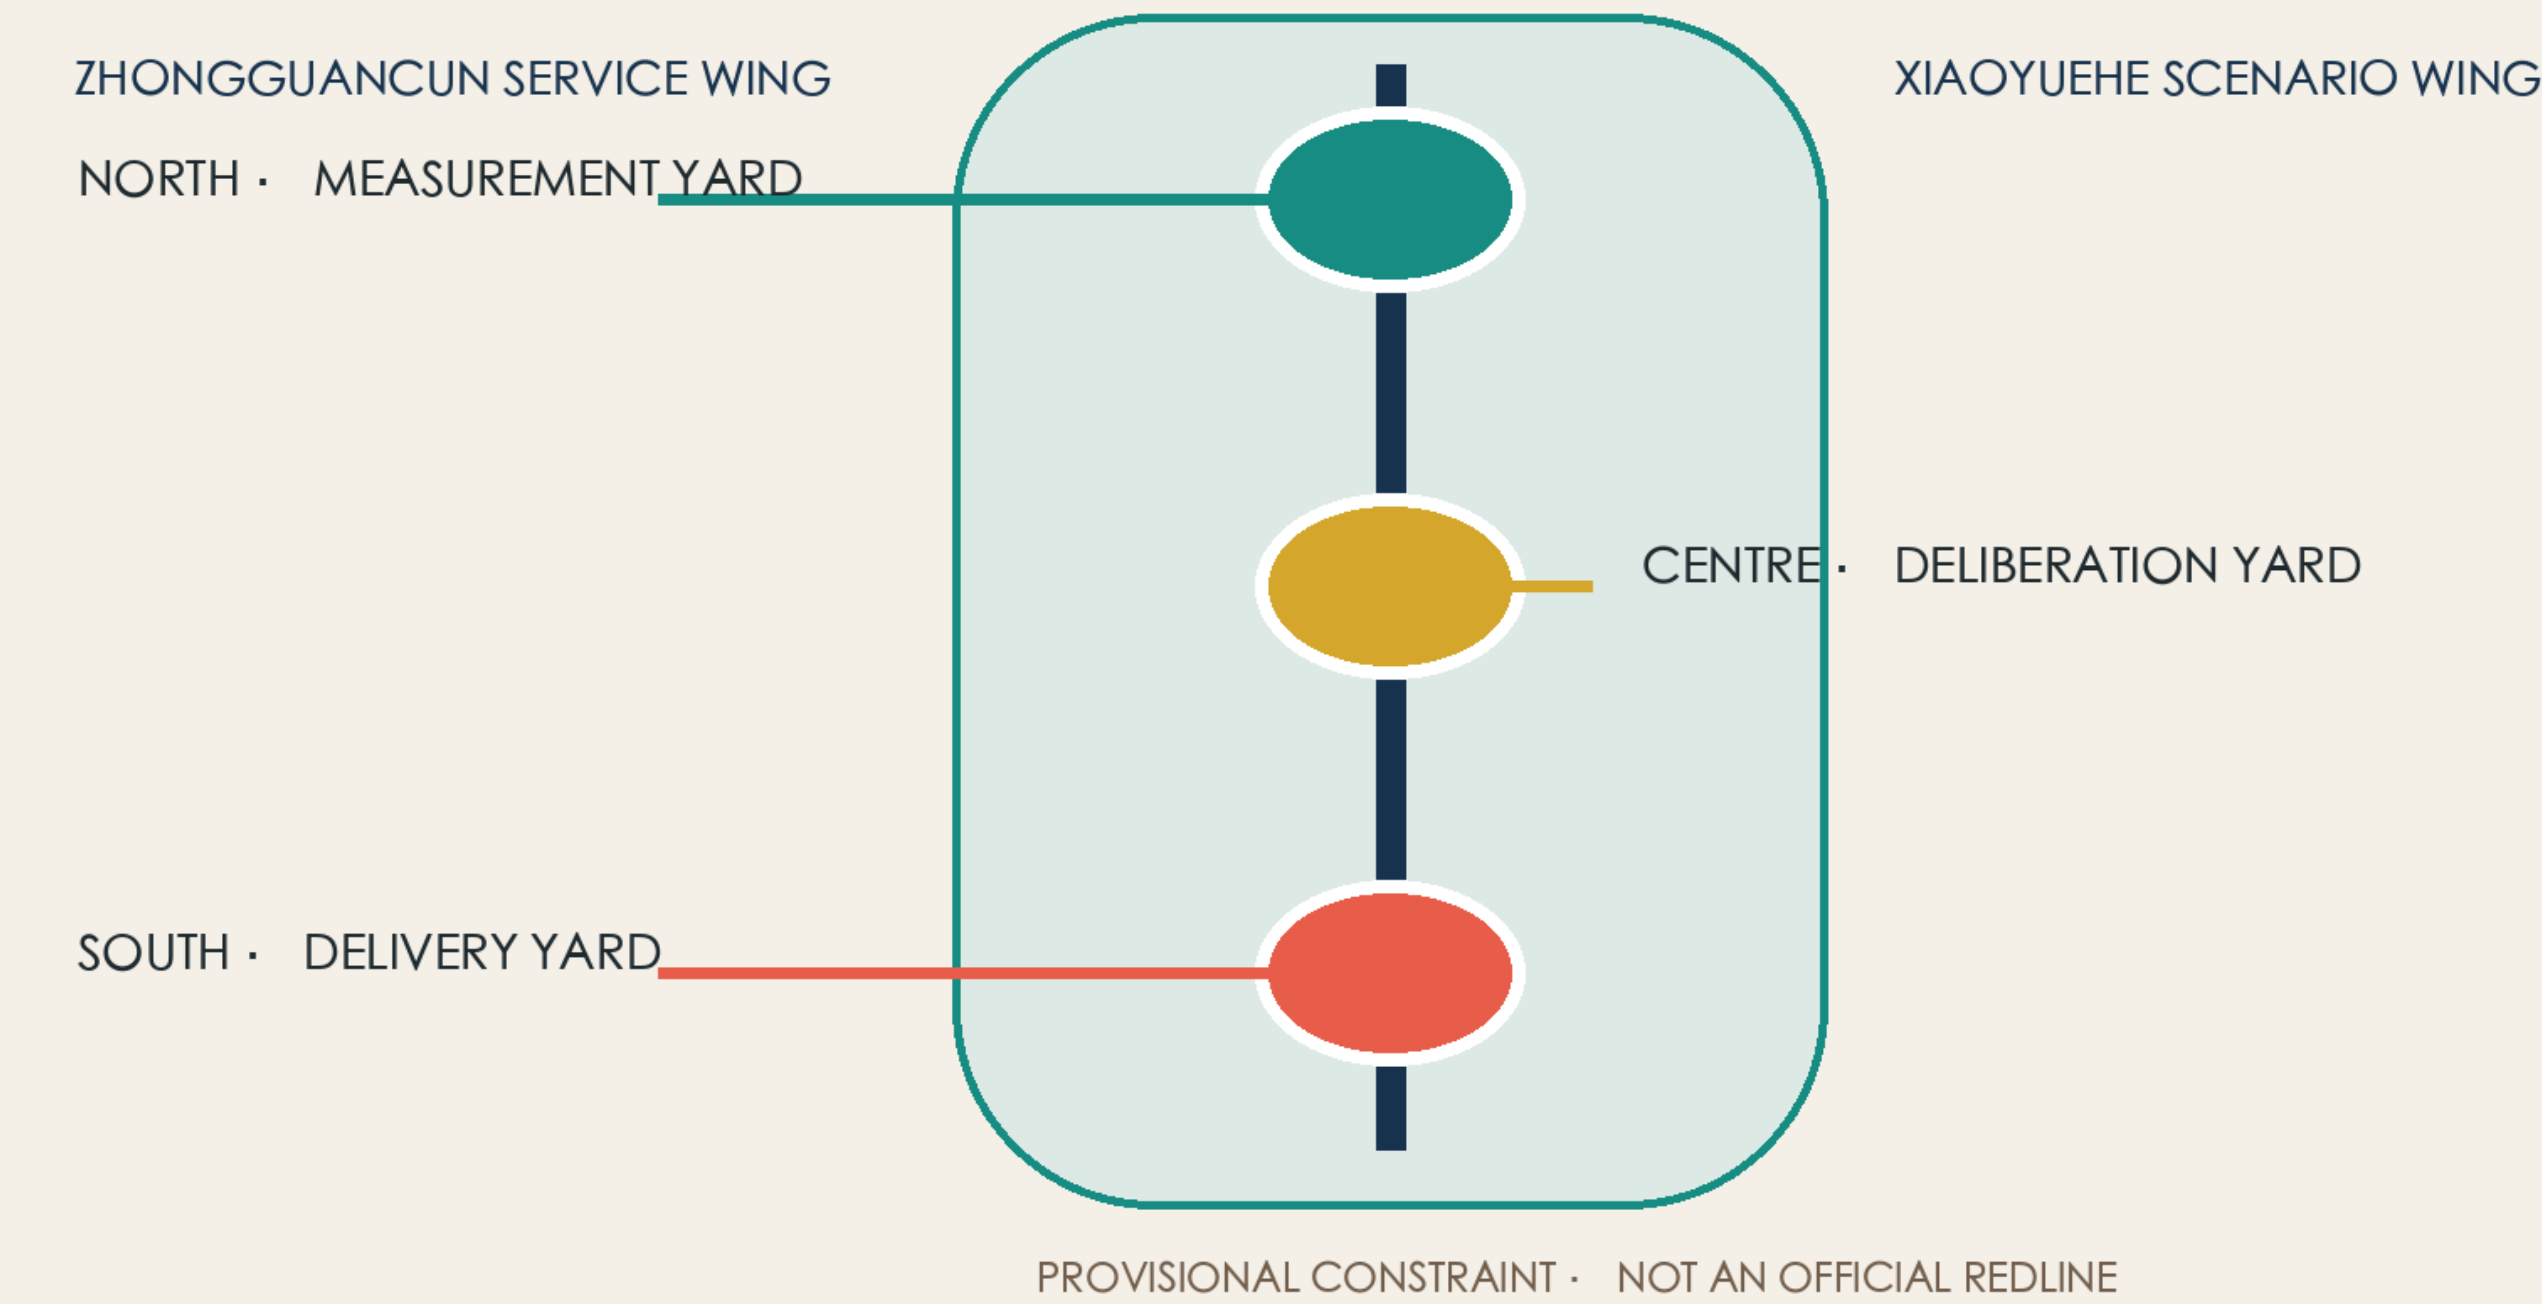

TEN-YEAR CITY HORIZON

Every pilot earns scale only after leaving durable public value.

DATA: SUBMISSION GEOJSON / METRICS · PROVISIONAL CONSTRAINT

ONE SPINE · THREE YARDS · TWO WINGS

A spatial loop of measure, deliberate, and deliver

DATA: SUBMISSION GEOJSON / METRICS · PROVISIONAL CONSTRAINT

THREE FOCUS AREAS · ONE PUBLIC LEDGER

Each yard carries human review, exit gates, and an annual ledger
