

Concept A heritage spine along the centennial Jing-Zhang Railway Park, forming one belt, three cores, two wings.	Structure Belt: heritage park; cores: Zhongzhiyuan / AI Origin / Dazhongsi; wings: Zhongguancun / Xiaoyuhe.	Key Metrics Total 11.41 km² · cores 3.69 km² · green 21.6% · public 17.3% · road 12.8 km
--	---	--

Three Key Areas

Zhongzhiyuan Garden-style full-stack innovation district: R&D acceleration + Qinghe waterfront + governance showcase.
AI Origin Community Campus-adjacent transfer & talent community: campus-park slow connection + open-source collaboration + demo launches.
Dazhongsi Urban smart-economy & international exchange district: station-city integration + 4-quadrant walkability + international roadshows.
Provisional Boundary The three key areas are provisional constraint boundaries; deepen and recalculate after official polygons are released.

Mobility & Blue-Green

Mobility Transit + slow-priority + station integration; north-south slow spine links three cores, three east-west connectors.	Blue-Green Heritage-park skeleton: north/mid/south green belts + core public spaces, blue-green + tech corridor.
