

JING-ZHANG HANDOVER LINE

Turn the disused railway into a civic comb: AI production space and an enterable, stoppable, staffed public service grow in pairs along one continuous spine.

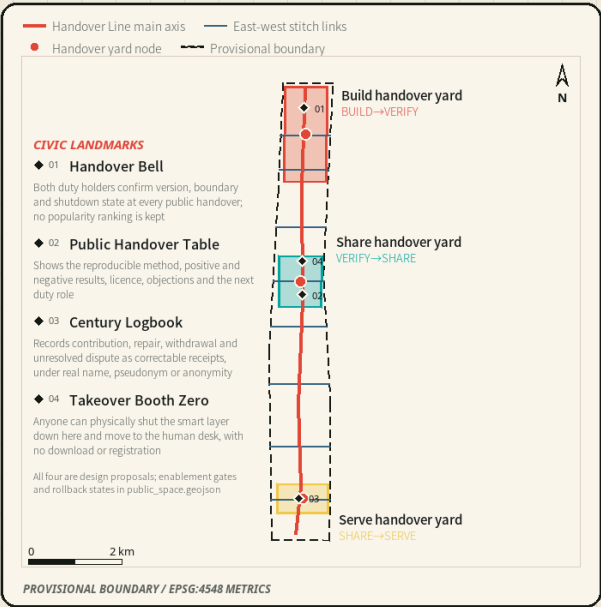

ONE COMB • THREE YARDS • EIGHT TEETH • TWENTY PAIRED CELLS

URBAN FRAME / ONE PUBLIC SPINE STITCHES BOTH SIDES

F / 01

JING-ZHANG HANDOVER LINE

Intelligence moves. Responsibility stays visible.

- HANDOVER PROTOCOL**
- 01 / BUILD TO VERIFY: Models, robots, compute and data enter tests with versions, risks and shutdown rules.
 - 02 / VERIFY TO SHARE: Results, licences, failures and limits travel together; open source never means exposing personal data.
 - 03 / SHARE TO SERVE: Civic services retain a human desk, a no-AI equivalent, appeal and exit records.
 - 04 / RETURN THE PROBLEM: Complaints, repairs and shutdown causes travel back to research as public learning.

Human takeover is not a fallback feature. It is civic infrastructure.

KEY DESIGN / THREE YARDS, THREE URBAN CHARACTERS

F / 03

THREE YARDS • THREE SECTIONS

FROM CONTROLLED TESTING TO A CIVIC ROOM • MACHINE SPACE RECEDES AS THE HUMAN EDGE DEEPENS

CONCEPT DIMENSIONS • REDLINES, GRADIENT, ACCESSIBILITY, FIRE, HERITAGE AND STRUCTURE REQUIRE AUTHORISED PROFESSIONAL REVIEW

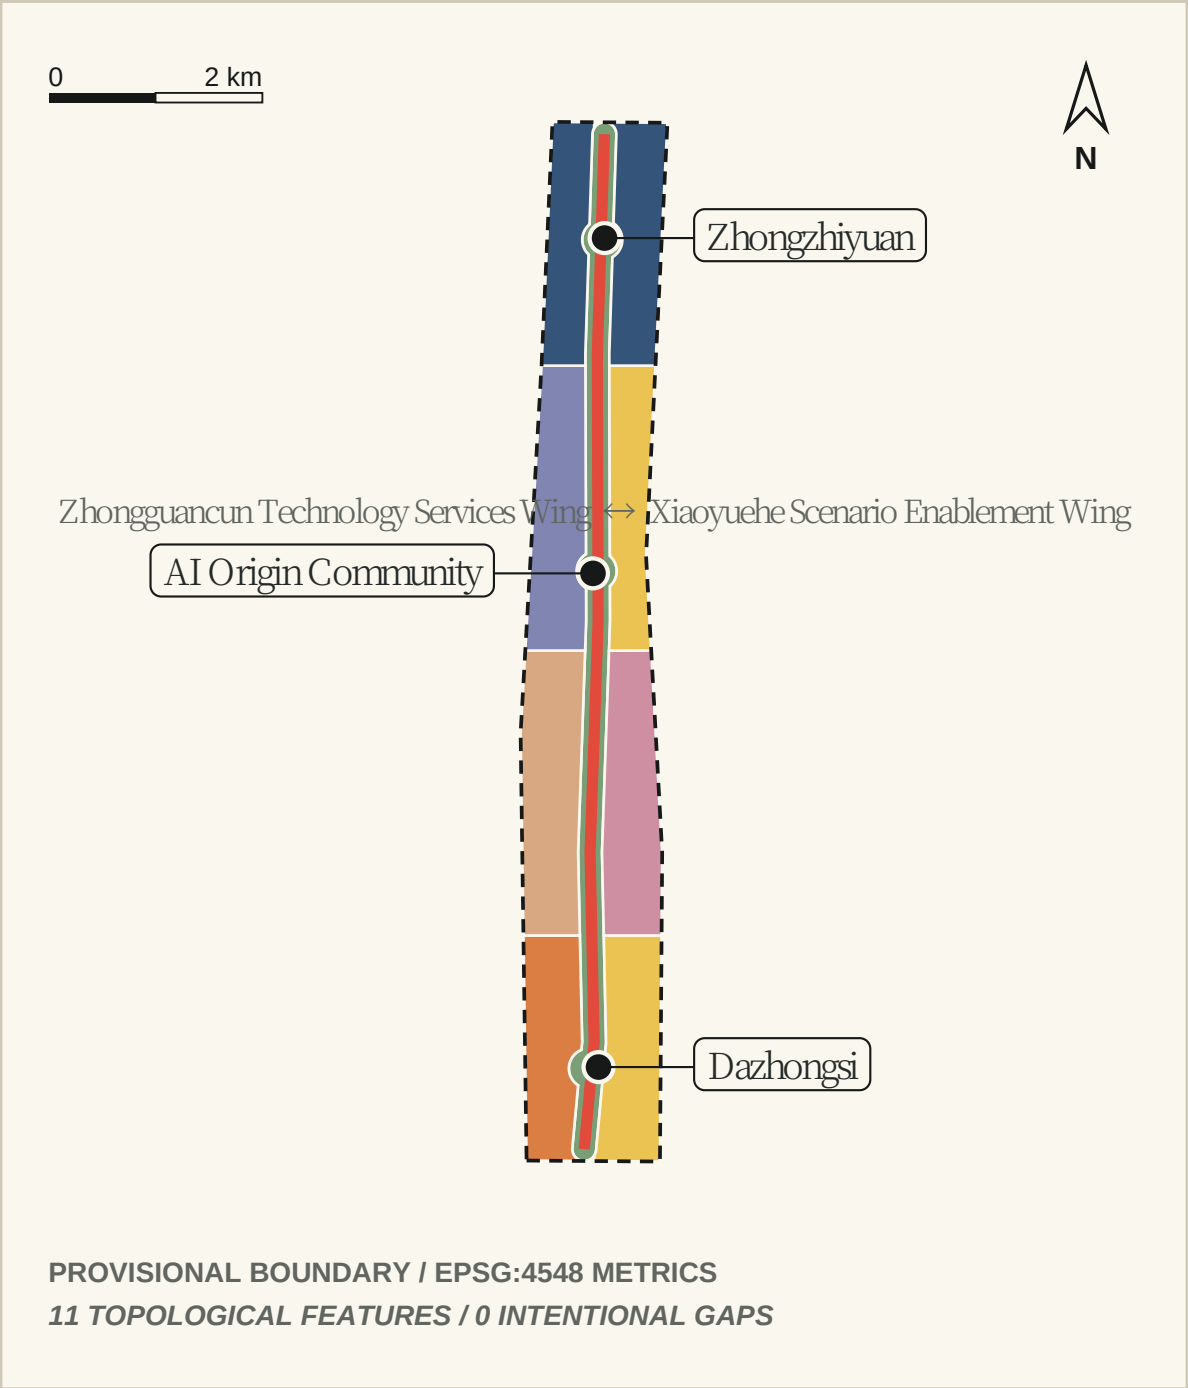

9.5 km continuous public spine	8 east-west stitch links	20 industry / civic paired cells	12 / 12 offline tasks passed	48 / 48 takeover assertions passed	0 / 12 field tasks; authority pending
-----------------------------------	-----------------------------	-------------------------------------	---------------------------------	---------------------------------------	--

Machine space recedes from north to south; the staffed counter, continuous path, rail trace and shade remain.

PROVISIONAL EXTENT / CONCEPT DIMENSIONS / NOT A REDLINE, TITLE, APPROVAL OR AS-BUILT CLAIM

Full coverage, no statutory fiction

Topological land-use partition + three scopes + three areas, two wings

LAND USE

- 0802 R&D / validation
- 0804 Learning / open source
- 09 Tech services / business
- 0701 Talent living
- 0702 Community service
- 0803 Culture / civic service
- 1401 Continuous parkland
- Handover Line main axis
- Handover yard node

43.6 km²

Industry + future city

11.4 km²

OVERALL DESIGN
Spatial + delivery system

3 YARDS

KEY AREAS
Detailed validation

Design recommendation: all zones recalculate when official boundaries arrive; no ownership or statutory land-use claim.

Data: land_use.geojson and site_boundary.geojson; codes from the public MNR subset

Official positions land in space, synergy lands in interfaces

Three positions, five functions, three areas and two wings x within belt-within city-municipal-regional

POSITION 01

Centennial Jing-Zhang Culture Belt

Century Logbook, oral-history booth and the Tsinghuayuan Station anchor form one continuous public record.

POSITION 02

Urban AI Life Experience Belt

Twelve reversible scenarios sit on continuous public handover ground: enterable, refusable, exitable.

POSITION 03

AI Integrated Innovation Belt

Eight shared stacks interface across the three areas in a build-verify-share-serve-feedback loop.

WITHIN BELT

Three areas and two wings organise the research-validation-service loop; objections and shutdown reasons travel back north.

WITHIN CITY

Connects to the official "two zones and one belt" framework, matching Zhongguancun technology supply to this belt's validation and scenario demand.

MUNICIPAL

Future Science City, Huairou Science City and BDA form an original-research / engineering-validation / scale-delivery division; this belt is the public-validation output end.

REGIONAL

Compute, energy and scenario interfaces reserved toward Zhangjiakou and other Beijing-Tianjin-Hebei nodes; feasibility to be confirmed by authorities.

FIVE FUNCTIONS x SPATIAL CARRIER

Source: proposal.en.md taskbook-response table, overall research scope section

F01

Full-stack self-reliant AI system

→ Zhongzhiyuan Build-Verify Yard: red-team desk, robot right-of-way sandbox, edge-compute energy station

F02

World-class AI innovation ecosystem

→ AI Origin Community Verify-Share Yard plus the Zhongguancun technology-services wing

F03

AI+ scenario empowerment paradigm

→ Four controlled validation sandboxes and eight civic scenarios under one launch-review-exit rule

F04

Intelligent, vibrant AI city

→ Xiaoyuehe scenario-enablement wing carrying civic, environmental and everyday-life tests

F05

Global voice in AI governance

→ Public duty logbook, four ledgers and Global Handover Week as a reviewable governance record

Mark, colour and brand application

Two rails, a baton and a signal bracket; five fields must always appear together

F / 08

Mark, colour and brand application system

Two rails, a handover baton, a signal bracket; missing any of the five fields makes the mark incomplete

主标识 / PRIMARY MARK

JING-ZHANG HANDOVER LINE
Jing-Zhang Handover Line

Mark rule: five fields, any one missing makes it incomplete

JING-ZHANG HANDOVER LINE / PACKAGE v1.15

PROVISIONAL BOUNDARY / CONCEPT ADVICE / PENDING PROFESSIONAL REVIEW

JING-ZHANG HANDOVER LINE / PACKAGE v2.0 / 04-13

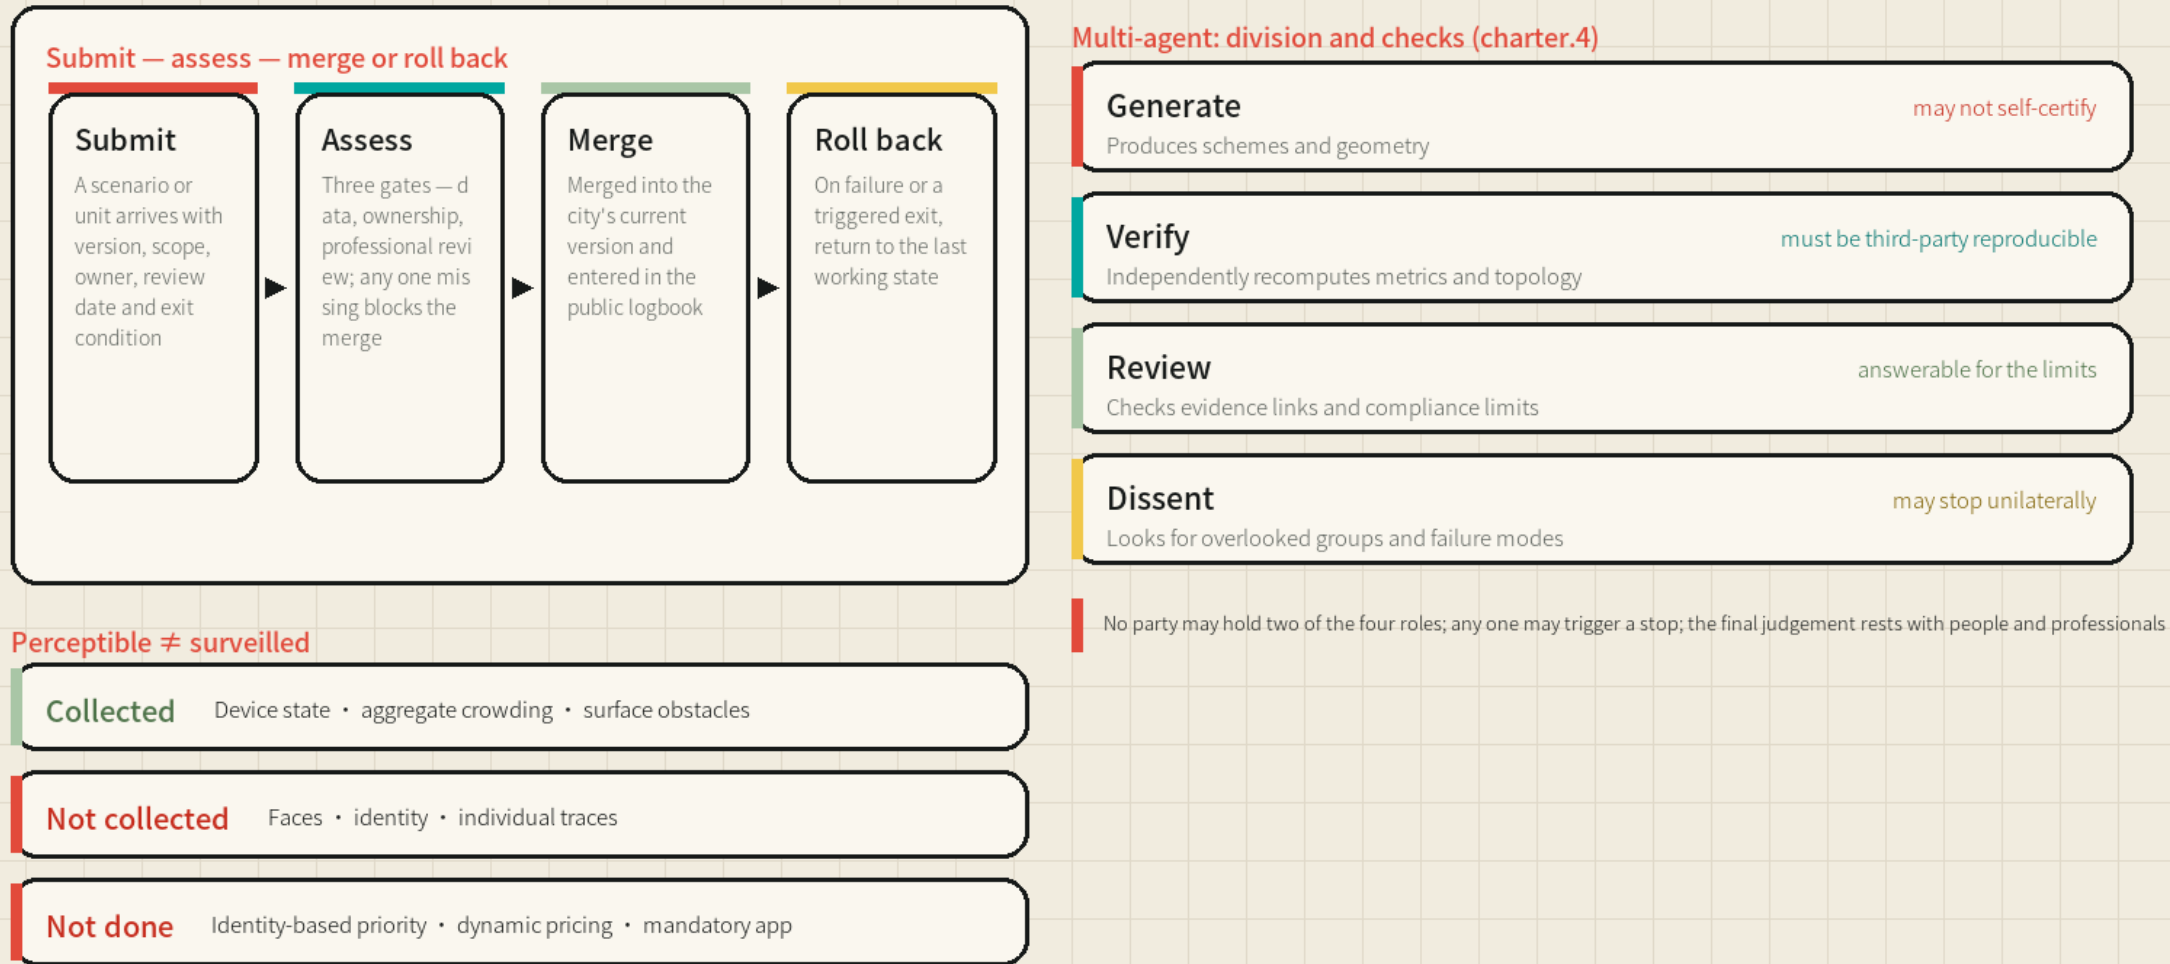

A reversible city: versioned renewal and agent separation

Reversibility precedes adaptivity; perceivable is not surveillance

F / 09

A rollbackable city: versioned change and multi-agent checks

Adaptation presupposes rollback; the three phases are merge gates, not a timetable

Source: agent_taskbook.json co-creation charter and announcement 1.5(1); a method proposal, not a substitute for statutory procedure

JING-ZHANG HANDOVER LINE / PACKAGE v1.15

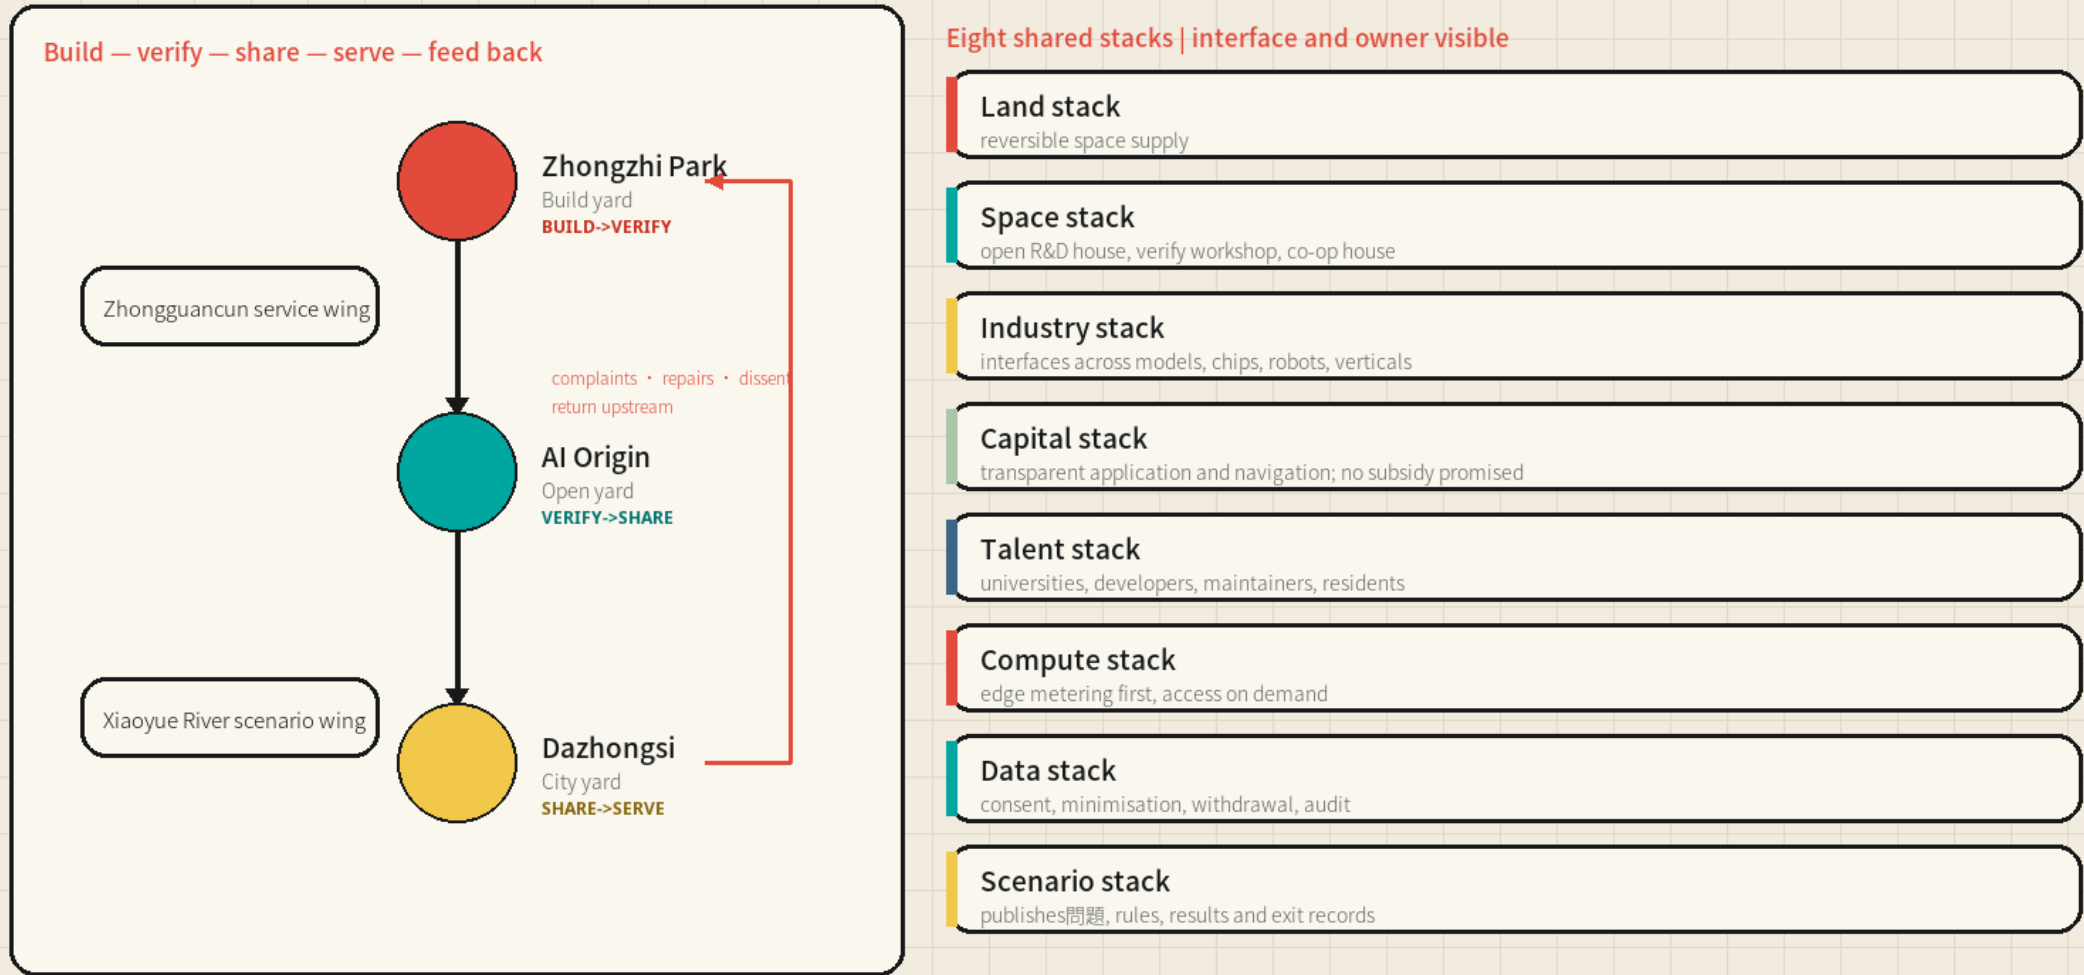

Eight shared stacks, handed to the next shift

Land, space, industry, finance, talent, compute, data, scenarios: interface and duty owner visible

F / 06

Eight shared stacks hand capability to the next shift

Land, space, industry, capital, talent, compute, data, scenarios — interfaces and owners stay visible

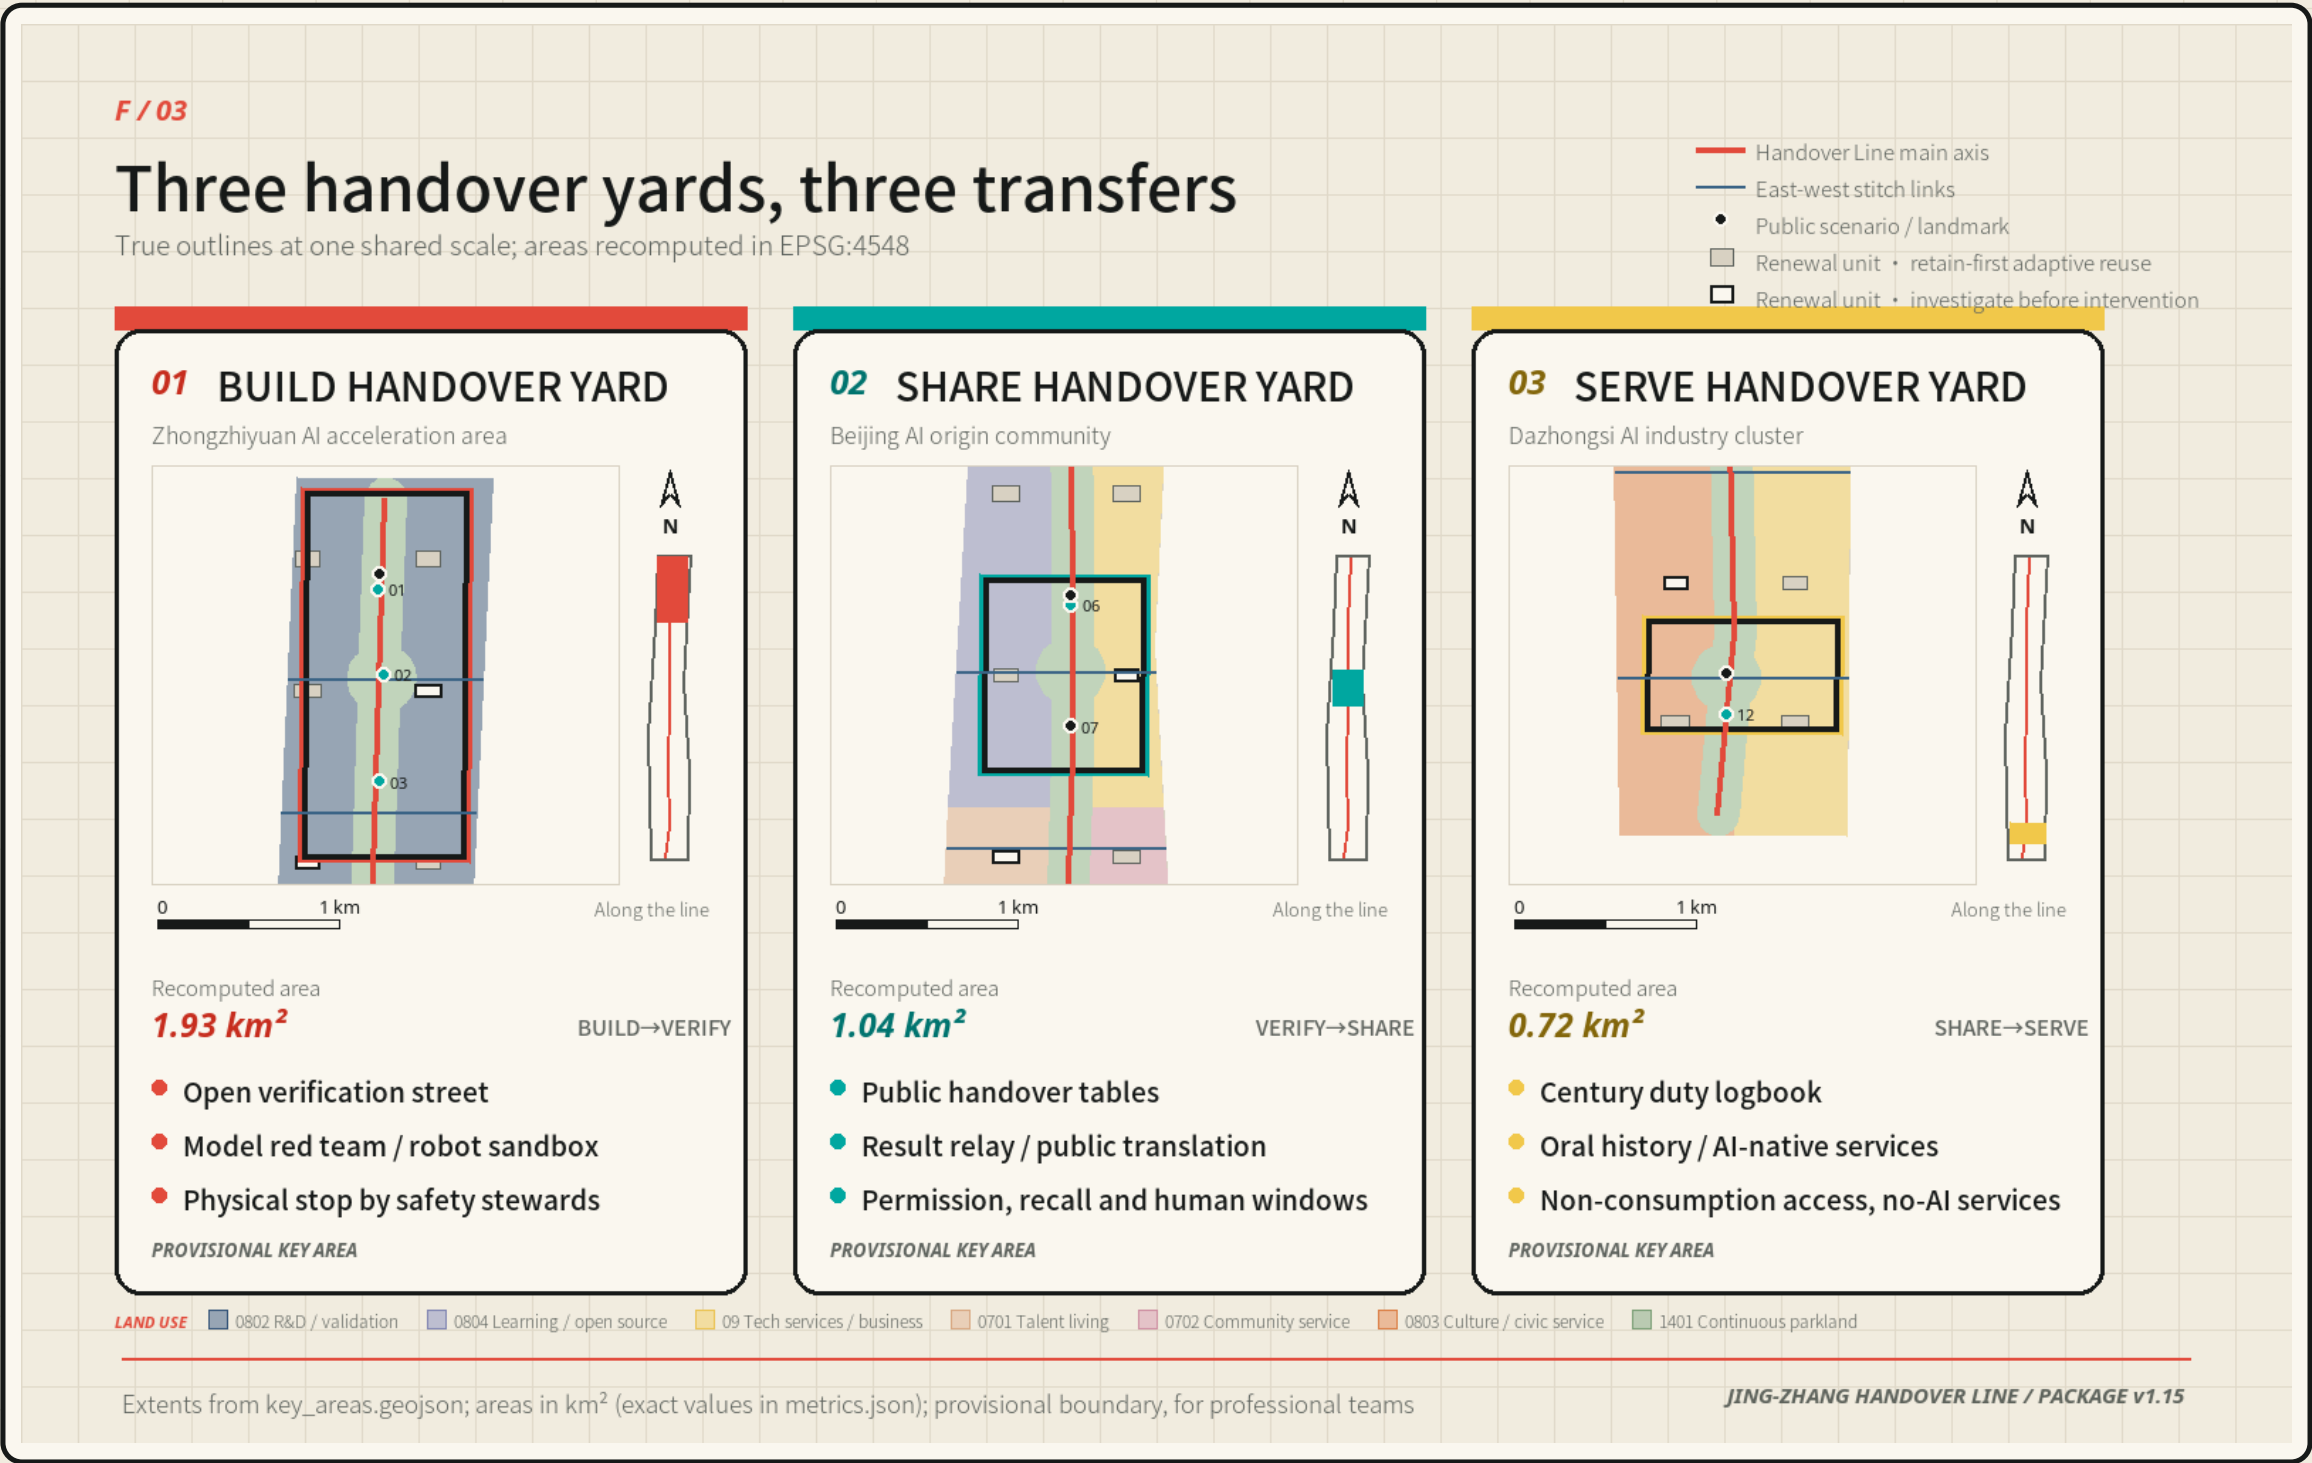

Source: agent_taskbook.json three-area two-wing and eight-element mechanism; a conceptual proposal, not investment promotion or policy

JING-ZHANG HANDOVER LINE / PACKAGE v1.15

Three yards, three shifts of duty

Each key area answers programme, space, scenario, human takeover and delivery gate

Twelve reversible AI scenarios

Four controlled validation sandboxes; every scenario keeps human takeover and a no-AI equivalent

SCN-01 Model red-team desk Human review + paper risk log	SCN-02 Robot right-of-way sandbox Safety staff + physical stop	SCN-03 Edge energy test station Manual shutdown + offline meter	SCN-04 Data-consent rehearsal Paper consent + deletion desk
SCN-05 Accessible-route copilot Tactile map + human direction	SCN-06 Public translation desk Human desk + multilingual paper	SCN-07 Campus research relay Human curation + open catalogue	SCN-08 Visible maintenance stop Phone report + human dispatch
SCN-09 Community care roster Staff telephone roster	SCN-10 Night-shift safety light Fixed light + human patrol	SCN-11 Jing-Zhang oral-history book Human guide + paper catalogue	SCN-12 Global Handover Week route Fixed signs + volunteers

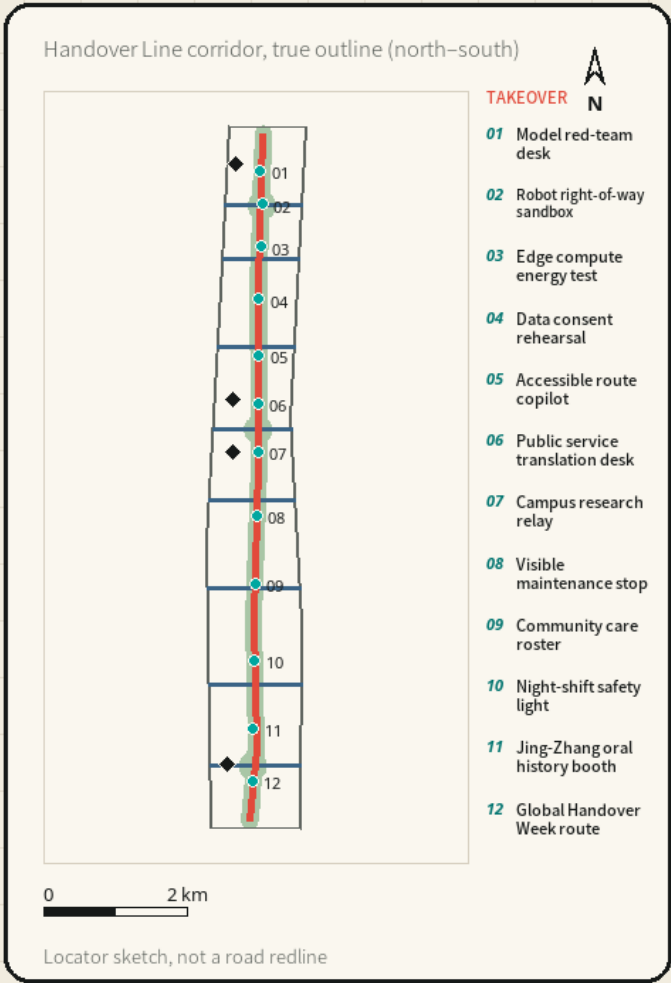

Movement and blue-green public ground

The smart layer is removable; ordinary movement and human service stay online

F / 04

One spine, eight stitch links, twelve takeover points

The smart layer is removable; basic access and human service stay available

MOVEMENT / SERVICE

- Continuous walk-cycle spine
- East-west stitch links (8)
- Blue-green comfort ground
- Human-takeover scenario node (SCN)
- Civic landmark point

A OFFLINE BY DEFAULT

Static signs, light, tactile maps and human help do not rely on a model.

B GRADED TAKEOVER

Low confidence, boundary breach, objection or outage calls the duty person.

C EXIT IS RECORDED

Shutdown cause, deletion and service continuity enter the public logbook.

SECTION The handover section: order and adjacency only, no dimensions

Handover counter	Accessible walk	Takeover Kiosk Zero	Retained track	Machine-only lane	Planting and rest
Walking surface (continuous, no level change) The staffed counter precedes the smart interface and still works once the smart layer is removed	Never interrupted by equipment, advertising, temporary occupation or charging posts	The physical stop control is reachable from the footway without downloading or registering	Set flush in the paving, a trace rather than an obstacle	Separated from walking; crossing the edge stops the machine, safety staff take priority	Non-commercial dwelling; seats and shade carry no spending condition

Adjacency rule: counter, walk and stop control stay continuously reachable; the machine lane never comes between them

Conceptual connectivity, not road redlines or engineering feasibility; lengths calculated in EPSG:4548

JING-ZHANG HANDOVER LINE / PACKAGE v1.15

Renewal structure and priority areas

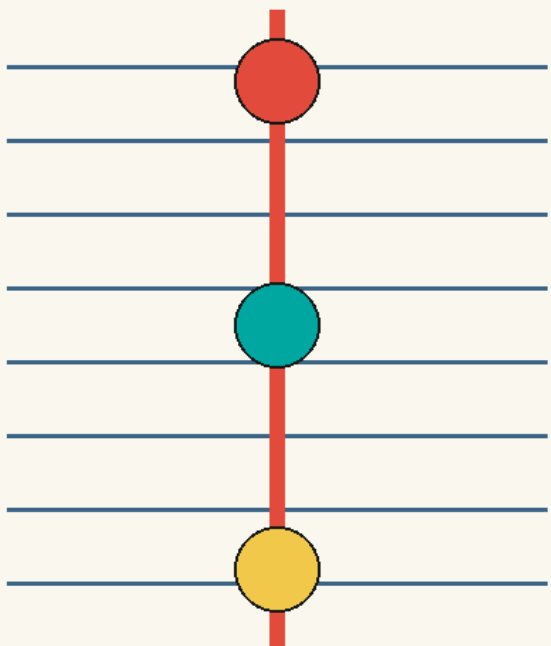

One spine, eight stitches, three yards; priority areas in three tiers

F / 07

Renewal structure and priority renewal areas

One spine, eight stitches, three yards; three tiers, operate first, reversible next, fixed last

Renewal spatial structure

Handover Line / renewal spine
East-west stitch links × 8
Handover yards × 3

Priority renewal tiers

Tier 1

The three handover yards and their walkable surrounds
Led by a coordinating body, multiple owners join by agreement

Tier 2

Stitch-spine junctions and low-efficiency space beside the heritage park
Renewal units bundled by district, one public interface

Tier 3

The remaining frontage along the line
Signage, shade and frontage tidying only; ownership untouched

Twenty typology test units (10 per side)

Verify workshop

Retain-first adaptive reuse 14 • investigate building by building 6

Source: submitted geometry buildings/roads/key_areas/phasing; conceptual structure, no demolish-or-keep conclusion

JING-ZHANG HANDOVER LINE / PACKAGE v1.15

Building renewal and condition-triggered phasing

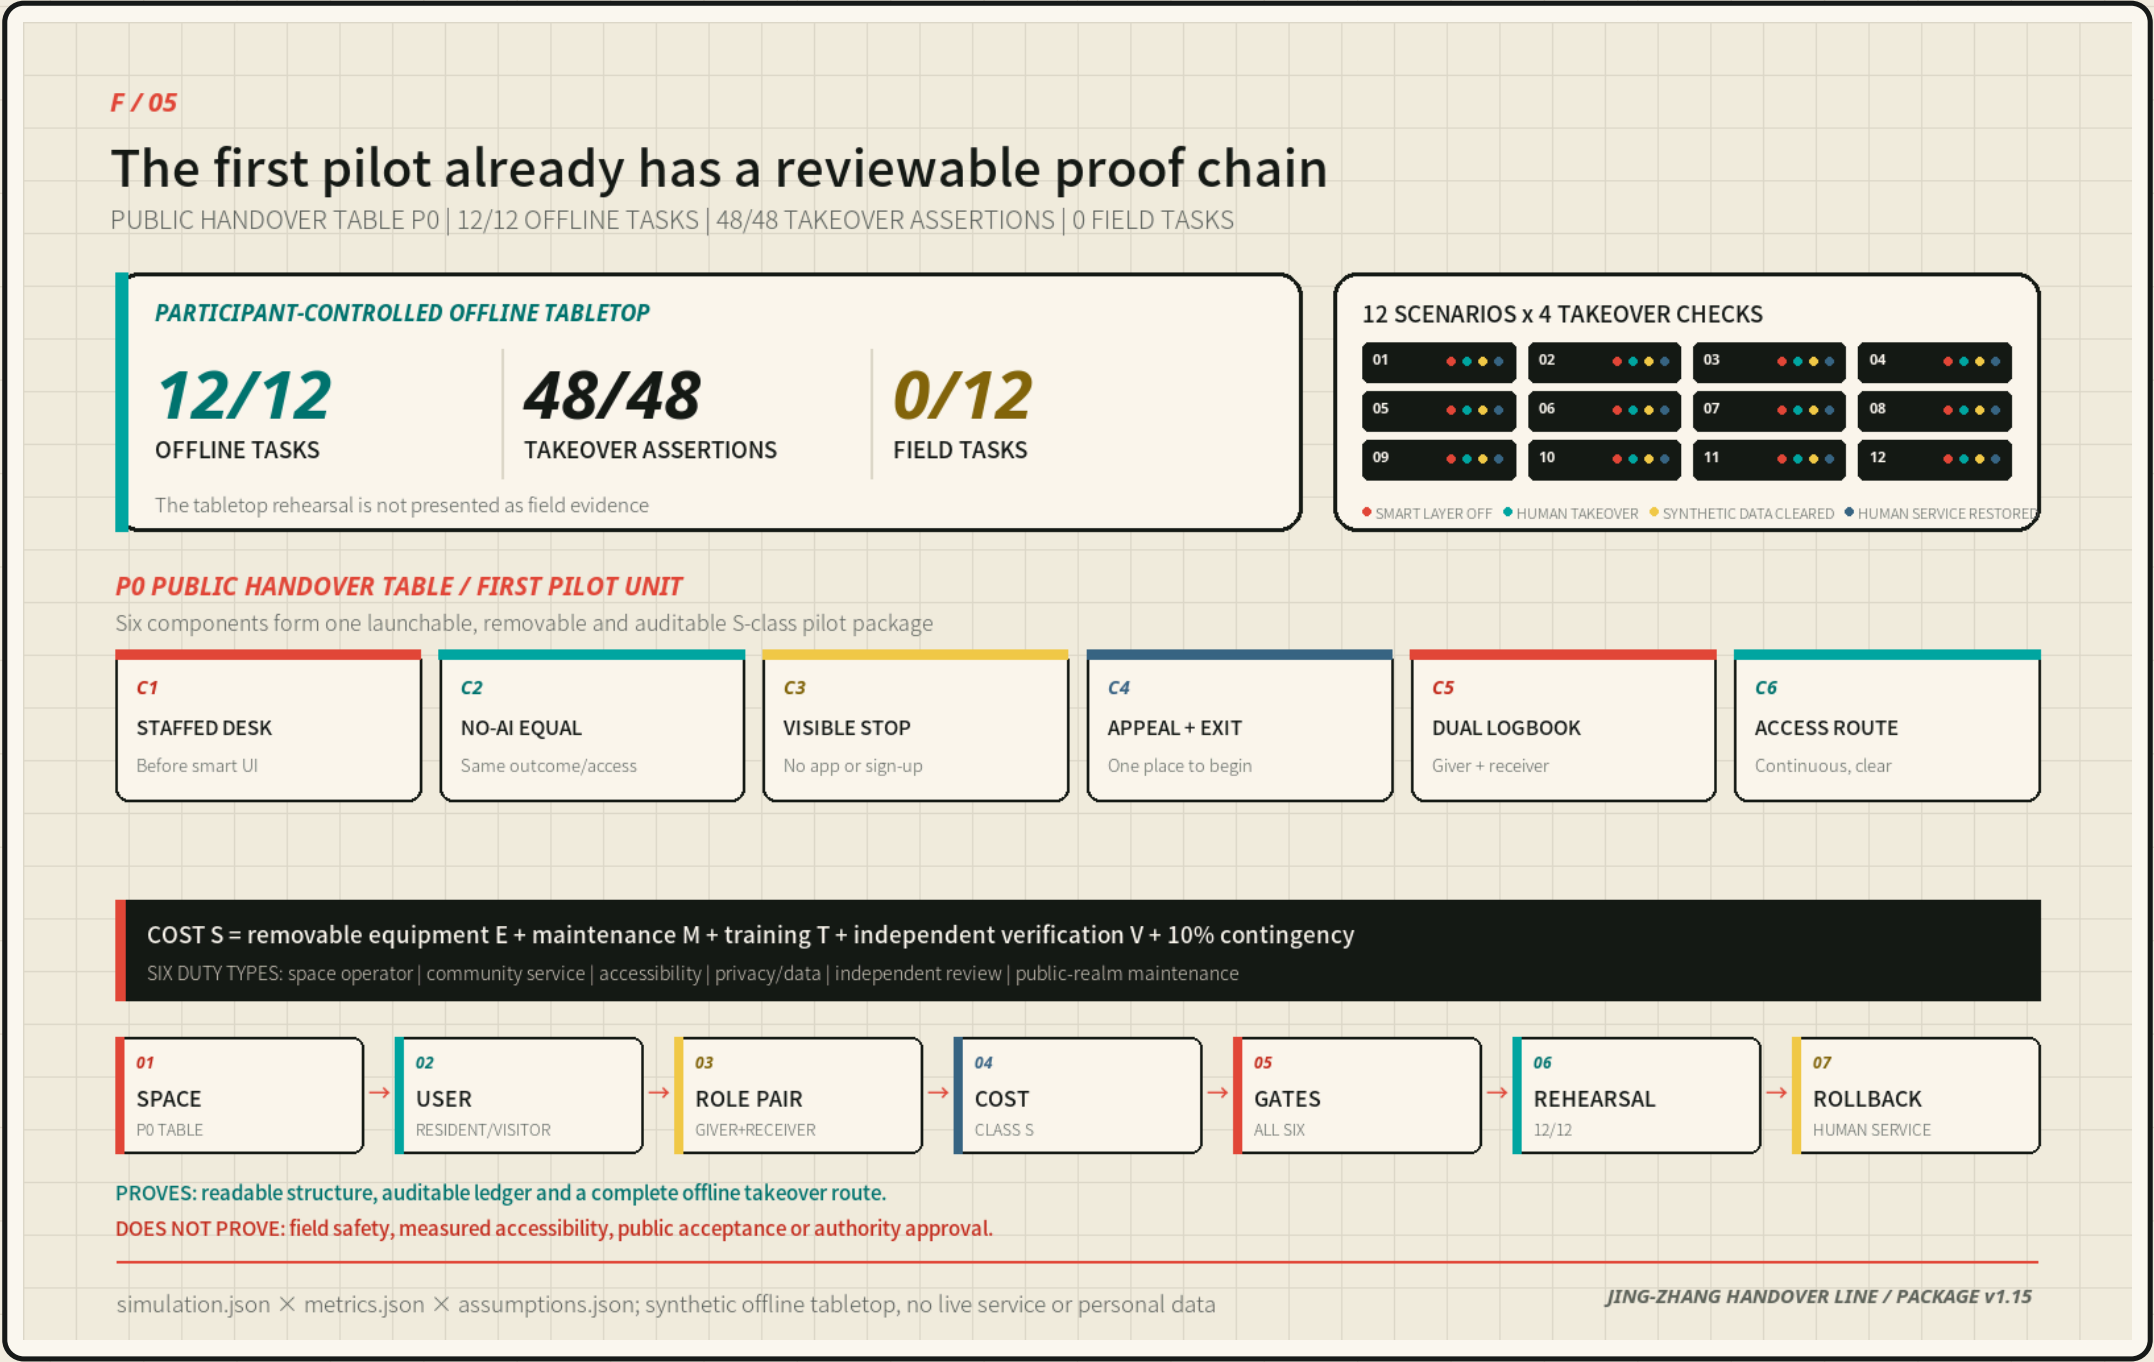

Inventory first, temporary use second, fixed work last

R / RETAIN Keep in use Keep in use and complete the condition record.	A / ADAPT Low-impact repair Fire safety, energy, accessibility and open ground floor first.	I / INSERT Removable trial Removable elements and short-term use only.	D / INVESTIGATE Not demolition Awaits survey, structure, ownership, fire and heritage review.
--	--	---	--

PHASE 01	Return to baseline: official data, inventory, wayfinding and three low-risk human-led pilots.
PHASE 02	Open-source yard: ground floors, research relay and community service after ownership and community review.
PHASE 03	Belt-wide operation: complex validation networks only after transport, utilities, heritage, privacy and safety conditions.

Core metrics and the evidence chain

Known values recompute; FAR, height, AI innovation index, talent density and output scale stay unknown

The planning indicator system gives definitions and data preconditions only; one model assigns them once official data exists.

Risk, copyright and the next shift

Open co-design advice; it does not replace statutory planning or professional approval

DATA	Full recalculation once official boundaries, controls, ownership, roads, utilities, fire and heritage data exist.
PUBLIC	People without a phone, without Chinese, with disabilities, older people and those declining AI keep equivalent service.
COPYRIGHT	Original graphics, text and layout; external cases paraphrased only, no reused image, mark or protected chart.

Intelligence moves. Responsibility stays visible.
