

Jing-Zhang Intelligence Vein Belt

Civic Agent Governance · Neural Governance · conceptual · provisional boundary

Jing-Zhang Intelligence Vein Belt

Civic Agent Governance · Neural Governance · Site Overview

△ Conceptual · provisional boundary · not approval basis · not existing-site evidence · full recomputation on official geometry

Three Key Areas · Conceptual Functional Layout

conceptual zones / public space / scenario nodes / JZ anchors (provisional rough, not plot redlines)

Zhongzhiyuan · Source Vein — AI Independent Innovation

R&D + pilot

Safety sandbox

Compute/energy

Core public space: Recomputable Square

- 1 Recomputable Sq.
- 2 Permission sandbox
- 3 Safety zone

green spine

JZ-05 edge-computing

AI Origin Community · People Vein — Talent & Open Source

Talent/open source

Incubation

Life services

Core public space: Feedback Garden

- 1 Feedback garden
- 2 Transfer street
- 3 Contribution wall

green spine

JZ-03 transfer street

Dazhongsi · Data Vein — Data-Factor Cluster

Data factors

Governance/public

Industry cluster

Core public space: Data Lounge

- 1 Data lounge
- 2 Gov. library
- 3 Risk screen

green spine

JZ-04 connectivity · JZ-06 AI week

□ Conceptual functional layout · provisional rough range · not existing conditions / plot redlines / approval basis

Core Metrics · Recomputable Verification Wall

All values recomputable from geometry/* .geojson (see spatial_review)

Overall Design Area (provisional)

11,412,825 m²

geometry recomputation · confidence=low · provisional boundary

Green Ratio

25.05 %

= green area / site area · confidence=medium

Public Space Ratio

5.06 %

= public space / site area · confidence=medium

Building Footprint

250,868 m²

geometry recomputation · confidence=medium

Verification wall: geometry → recompute → compare → disclose (recomputable = refutable)
