

JZ / 01

Handover Line: responsibility as civic infrastructure

A global AI highland and pilgrimage made by reproducible protocols, useful landmarks and reversible public service

32

versioned objects

6

delivery packages

3

conditional gates

JZ / 10

SPATIAL PROTOTYPE: MAKE HUMAN TAKEOVER VISIBLE

The axon derives from current GeoJSON; one civic scene is anchored in each key area

v1.5

EVIDENCE

Source: local GeoJSON layers; no-AI equivalents derive from each scenario rollback_state; provisional and conceptual

JING-ZHANG HANDOVER LINE / v1.5

JZ / 02

Three yards: enlarged plans, civic interfaces and exit gates

All three extents are provisional; dimensions, ownership, fire, heritage and engineering await survey

JZ / 03

THREE REAL CLOSE-UPS, ONE HAND-BACK INTERFACE

Rough key-area limits recede; spatial action, duty and opening gates lead

v1.5
EVIDENCE

From concept to receipt: duty, acceptance, takeover and rollback

P01–P06 are gated pilot contracts after authorisation, not promises to build

REGIONAL INTERFACES

JZ / 11

DELIVERY CONTRACT: DUTY, ACCEPTANCE, RESPONSE + ROLLBACK

v1.5
EVIDENCE

P01–P06 bind to spatial IDs; RACI, KPI and SLO are calibration targets after authorisation

Mark, colour and brand application

Two rails, a baton and a signal bracket; five fields must always appear together

JZ / 08

Mark, colour and brand application system

Two rails + a baton + a signal bracket; five fields must always appear together

PRIMARY MARK

JING-ZHANG HANDOVER LINE

SIGNAGE RULE: FIVE FIELDS MUST APPEAR TOGETHER

Readable public record

Licence: non-commercial public, academic and community use; commercial use by separate grant; no implied endorsement

Source: identity direction original to this submission; no third-party font, mark or protected layout

JING-ZHANG HANDOVER LINE / v1.0

A reversible city: versioned renewal and agent separation

Reversibility precedes adaptivity; perceivable is not surveillance

JZ / 09

A reversible city: versioned renewal and agent separation

Reversibility precedes adaptivity; three phases are merge gates, not a timetable

COMMIT - REVIEW - MERGE OR ROLL BACK

PERCEIVABLE IS NOT SURVEILLANCE

Sensed	Device status - aggregate crowding - surface obstacles
Never sensed	Faces - identities - individual traces
Never done	Identity priority - dynamic pricing - mandatory app

MULTI-AGENT SEPARATION (CHARTER 4)

GENERATE	Produces proposal and geometry	May not self-certify
VALIDATE	Recomputes metrics and topology	Must be reproducible
REVIEW	Checks evidence and compliance edges	Owns the boundary
DISSENT	Finds overlooked groups and failures	May trigger shutdown alone
No party holds two roles; any role may trigger shutdown; final judgement rests with people		

Source: agent_taskbook co-creation charter and clause 1.5(1); method advice, not statutory process

JING-ZHANG HANDOVER LINE / v1.0

Eight shared stacks, handed to the next shift

Land, space, industry, finance, talent, compute, data, scenarios: interface and duty owner visible

JZ / 06

Eight shared stacks, handed to the next shift

Land / space / industry / finance / talent / compute / data / scenarios x three areas, two wings

Source: agent_taskbook.json three-areas-two-wings and eight-element mechanisms; concept advice only

JING-ZHANG HANDOVER LINE / v1.0

Three yards, three shifts of duty

Each key area answers programme, space, scenario, human takeover and delivery gate

JZ / 03

THREE HANDOVER YARDS, THREE SHIFTS OF DUTY

Each key area links programme, space, scenario, human takeover and delivery gates

01

BUILD?VERIFY YARD

- Public validation street
- Model red team / robot sandbox
- Physical stop by safety staff

PROVISIONAL KEY AREA

02

VERIFY?SHARE YARD

- Public handover table
- Research relay / translation
- Licence, withdrawal, human desk

PROVISIONAL KEY AREA

03

SHARE?SERVE YARD

- Century logbook
- Oral history / AI-native service
- Non-commercial access / no-AI service

PROVISIONAL KEY AREA

Key-area geometry is provisional; detailed strategies are directions for professional development

JING-ZHANG HANDOVER LINE / v1.0

Twelve reversible AI scenarios

Four controlled validation sandboxes; every scenario keeps human takeover and a no-AI equivalent

SCN-01 Model red-team desk Human review + paper risk log	SCN-02 Robot right-of-way sandbox Safety staff + physical stop	SCN-03 Edge energy test station Manual shutdown + offline meter	SCN-04 Data-consent rehearsal Paper consent + deletion desk
SCN-05 Accessible-route copilot Tactile map + human direction	SCN-06 Public translation desk Human desk + multilingual paper	SCN-07 Campus research relay Human curation + open catalogue	SCN-08 Visible maintenance stop Phone report + human dispatch
SCN-09 Community care roster Staff telephone roster	SCN-10 Night-shift safety light Fixed light + human patrol	SCN-11 Jing-Zhang oral-history book Human guide + paper catalogue	SCN-12 Global Handover Week route Fixed signs + volunteers

Movement and blue-green public ground

The smart layer is removable; ordinary movement and human service stay online

Renewal structure and priority areas

One spine, eight stitches, three yards; priority areas in three tiers

JZ / 07

Renewal structure and priority areas

One spine, eight stitches, three yards; priority areas in three tiers

RENEWAL SPATIAL STRUCTURE

Handover Line / organising spine
East-west stitch links x8
Handover yards x3

PRIORITY RENEWAL AREAS

TIER 1

Three yards and their walkable surroundings
One lead body, owners join by agreement

TIER 2

Stitch-spine junctions and low-efficiency park edges
Packaged renewal units, unified public edge

TIER 3

Remaining frontage along the line
Wayfinding, shade and edge tidying only

TWENTY TYPOLOGY TEST CELLS (10 EACH SIDE)

Validation workshop	Shared service stack	Open R&D court	Community room
5 26.6%	5 26.6%	5 23.4%	5 23.4%

Retain-first adaptive reuse 14 - awaiting survey 6

Source: submitted buildings/roads/key_areas/phasing geometry; conceptual, no demolition conclusion

JING-ZHANG HANDOVER LINE / v1.0

Building renewal and condition-triggered phasing

Inventory first, temporary use second, fixed work last

R / RETAIN Keep in use Keep in use and complete the condition record.	A / ADAPT Low-impact repair Fire safety, energy, accessibility and open ground floor first.	I / INSERT Removable trial Removable elements and short-term use only.	D / INVESTIGATE Not demolition Awaits survey, structure, ownership, fire and heritage review.
--	--	---	--

PHASE 01	Return to baseline: official data, inventory, wayfinding and three low-risk human-led pilots.
PHASE 02	Open-source yard: ground floors, research relay and community service after ownership and community review.
PHASE 03	Belt-wide operation: complex validation networks only after transport, utilities, heritage, privacy and safety conditions.

Core metrics and the evidence chain

Known values recompute; FAR, height, AI innovation index, talent density and output scale stay unknown

Risk, copyright and the next shift

Open co-design advice; it does not replace statutory planning or professional approval

DATA	Full recalculation once official boundaries, controls, ownership, roads, utilities, fire and heritage data exist.
PUBLIC	People without a phone, without Chinese, with disabilities, older people and those declining AI keep equivalent service.
COPYRIGHT	Original graphics, text and layout; external cases paraphrased only, no reused image, mark or protected chart.

Intelligence moves. Responsibility stays visible.
