

A0 Evidence Spine v2 | 1/3

Centennial Jing-Zhang AI Innovation Belt | formal AI package | provisional geometry disclosed

A0-1 Overall Structure

Evidence Spine stitches heritage park logic with AI production and community life
West verify/learn, center public spine, east convert/service, south live/care
Three cores align required key detailed design areas
Dual wings: university knowledge wing + rail-hub service wing

EVIDENCE SPINE v2 / SITE OVERVIEW

A0 Evidence Spine v2 | 2/3

Centennial Jing-Zhang AI Innovation Belt | formal AI package | provisional geometry disclosed

A0-2 Key Areas + Public Evidence Nodes

Zhongzhiyuan: open eval courts, pilot street, contribution plaza
AI Origin: 15-min care loop, community living room, family-safe streets
Dazhongsi: roadshow dome, enterprise service corridor, night-safe frontage
Public nodes form pilgrimage circuit for residents, builders, visitors

KEY AREAS + THREE CORES

Zhongzhiyuan = VERIFY campus edge
AI Origin = LIVE 15-min care/community loop
Dazhongsi = CONVERT roadshow/service front
Dual wings: university knowledge + rail-hub service (concept)

Provisional key polygons · callouts emphasize program, not bbox

A0 Evidence Spine v2 | 3/3

Centennial Jing-Zhang AI Innovation Belt | formal AI package | provisional geometry disclosed

A0-3 Mobility Blue-Green + Evidence Board

Walk-first corridor with transit edge conditions
Blue-green continuous park + pocket network
Metrics board discloses known/unknown and provisional precision limits
Implementation: open evidence update when official polygons arrive

MOBILITY + BLUE-GREEN NETWORK

Protocol: arrive by transit/edge parking -> walk the spine -> verify/live/convert nodes

- Blue-green open space
- Evidence plazas
- Greenway spine
- Secondary
- Transit link
- Cycleway

Walk-first evidence corridor · conceptual network, not road redline
