

Qinghe Smart Shore · AI Innovation Commons

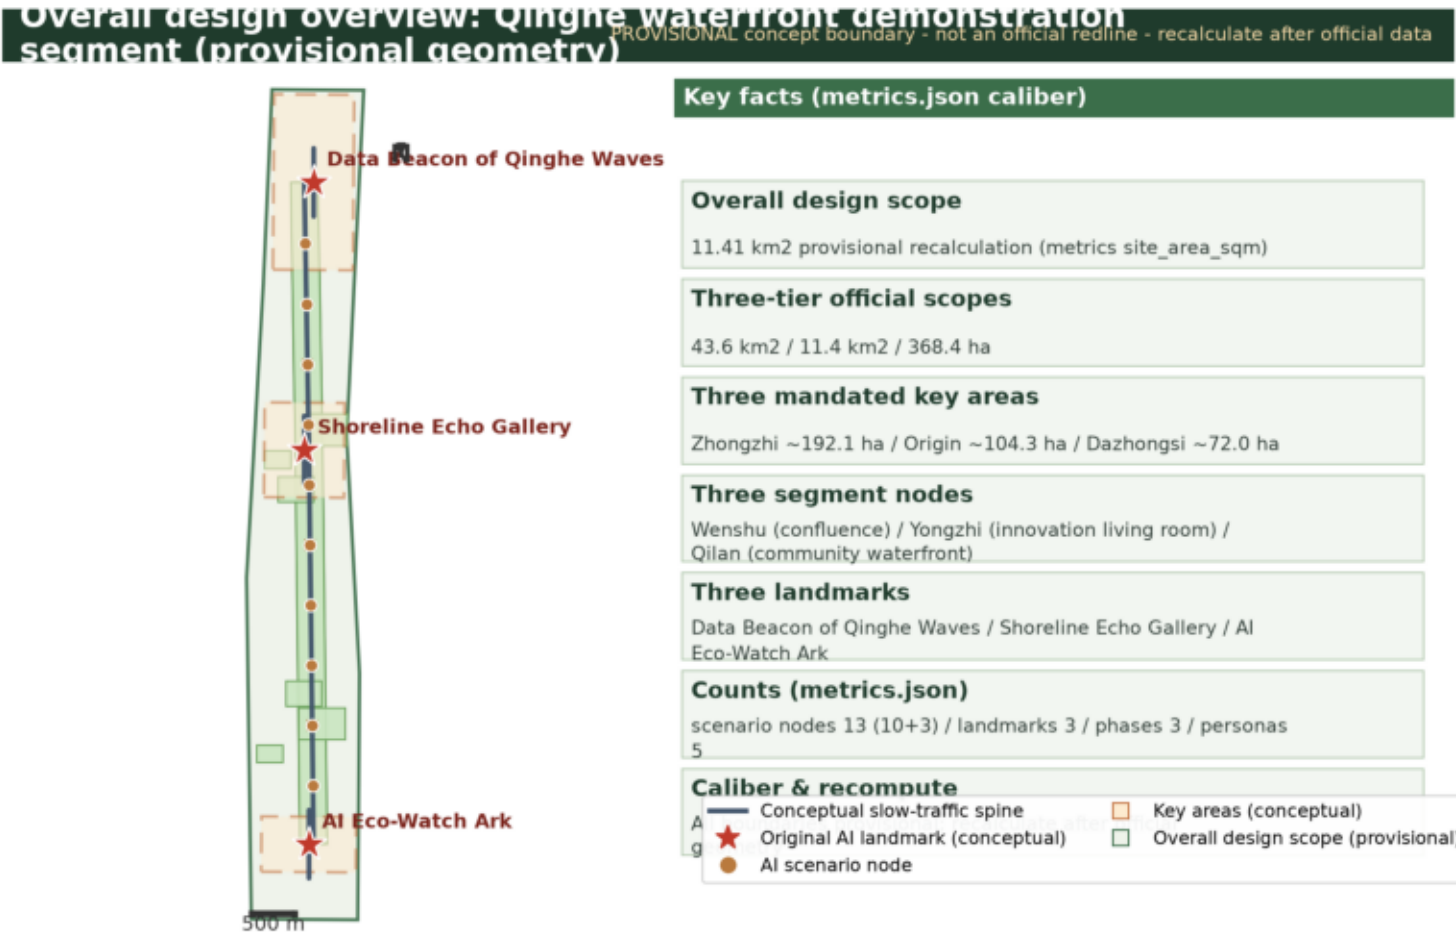

QSS-AIC

Centennial Jing-Zhang AI Belt · Qinghe Waterfront Demonstration Segment (A3 booklet)

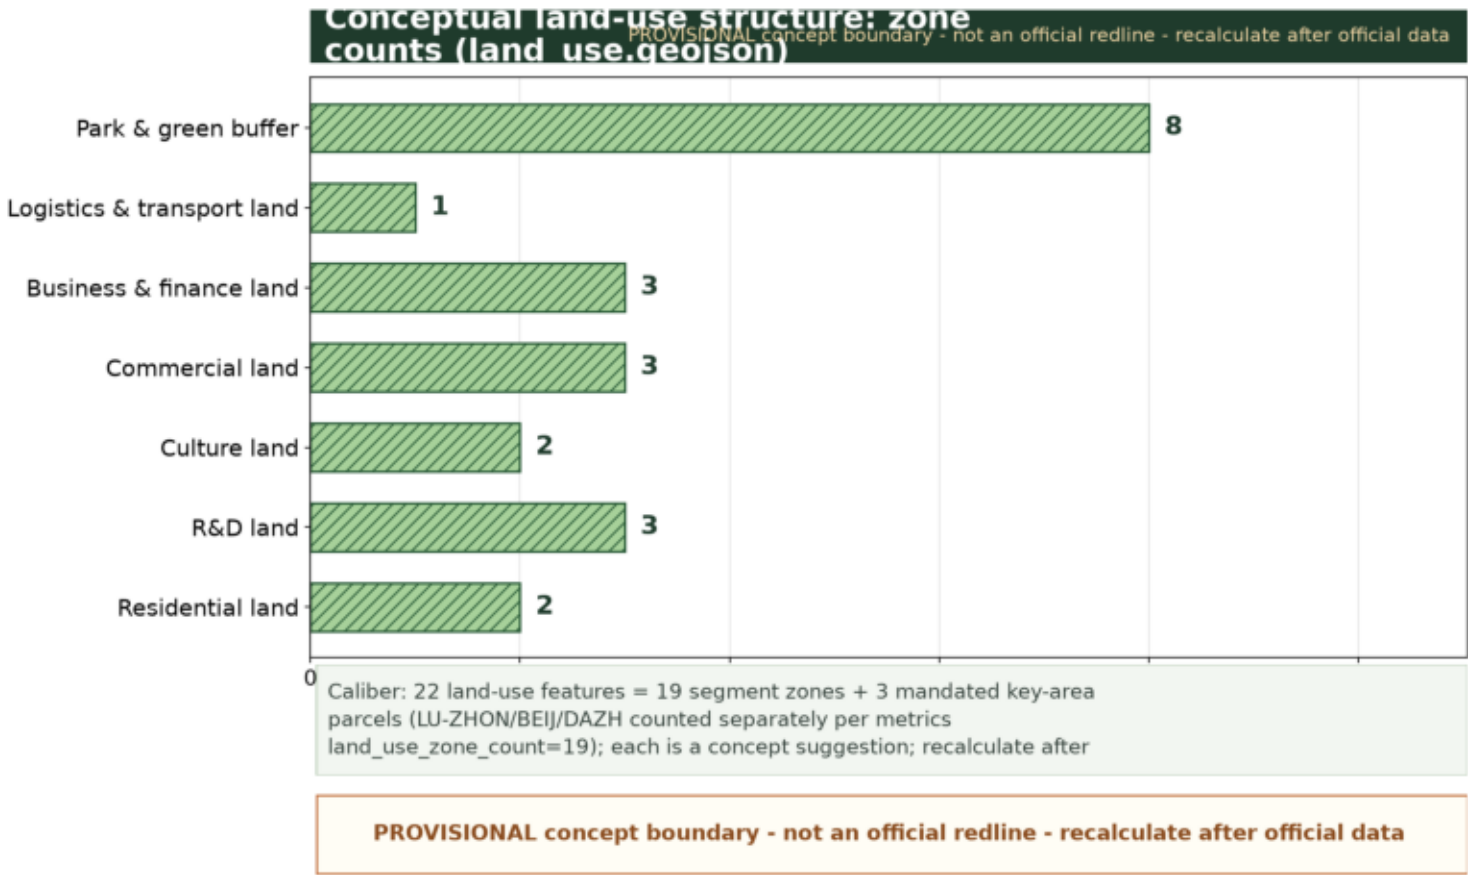

Waterfront AI ecological restoration + innovation living room + peacetime-emergency dual-use space (concept)

PROVISIONAL concept boundary - not an official redline - recalculate after official data

Overall design overview & conceptual land-use structure

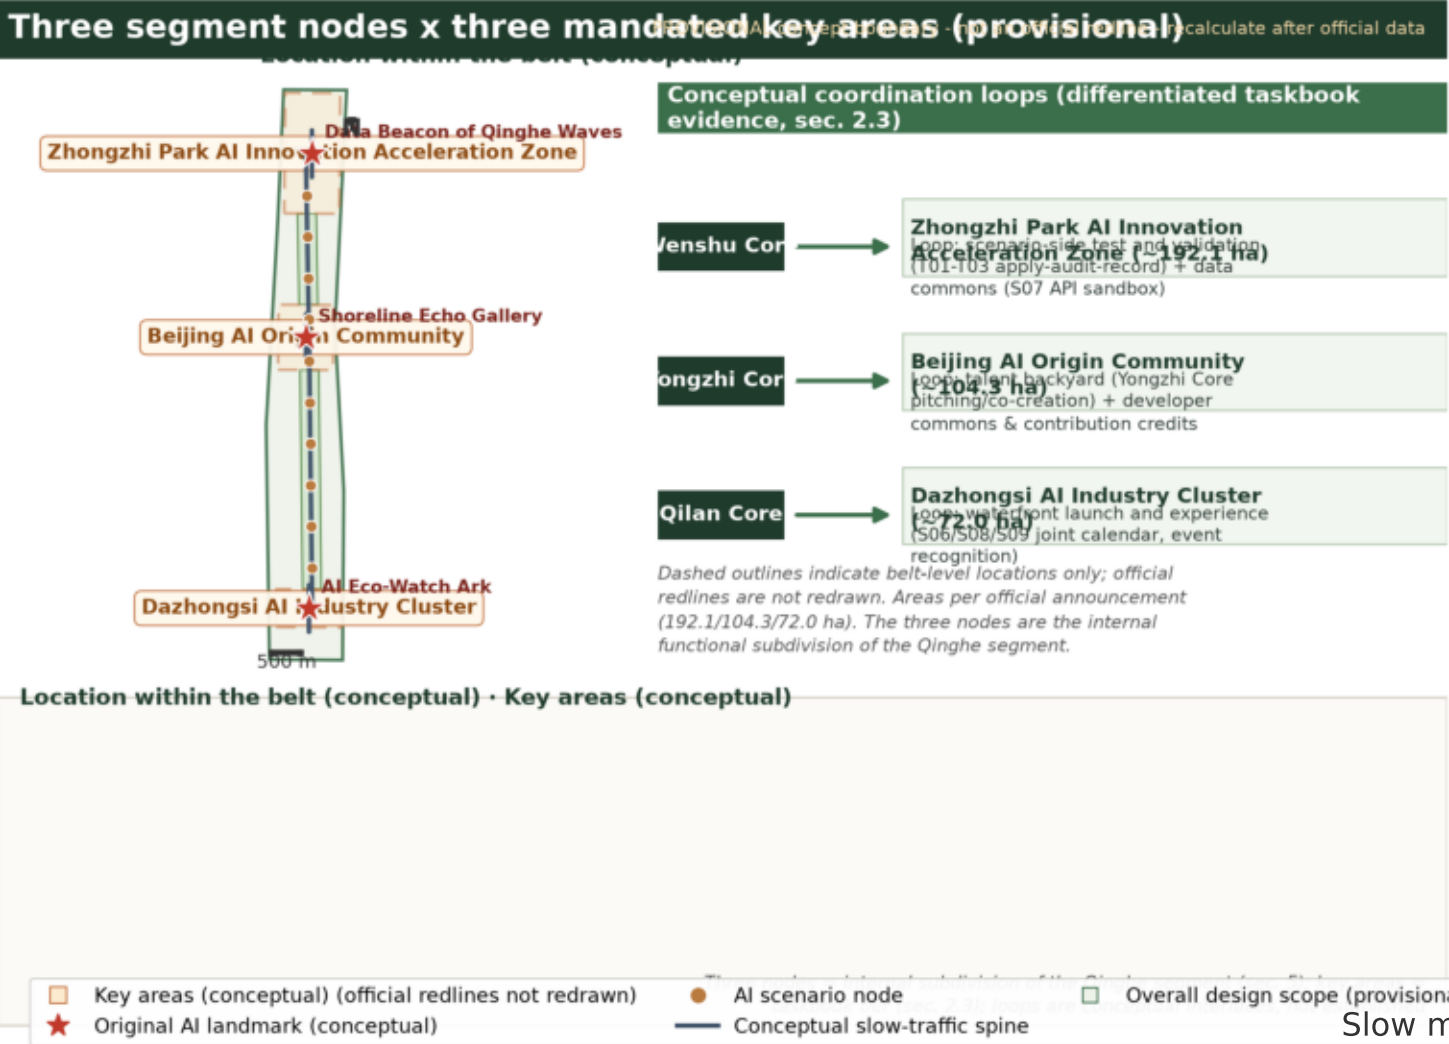

Overall design overview: Qinghe waterfront demonstration segment (provisional geometry)

Conceptual land-use structure: zone counts (land_use.geojson)

Key-area coordination & slow-mobility blue-green analysis

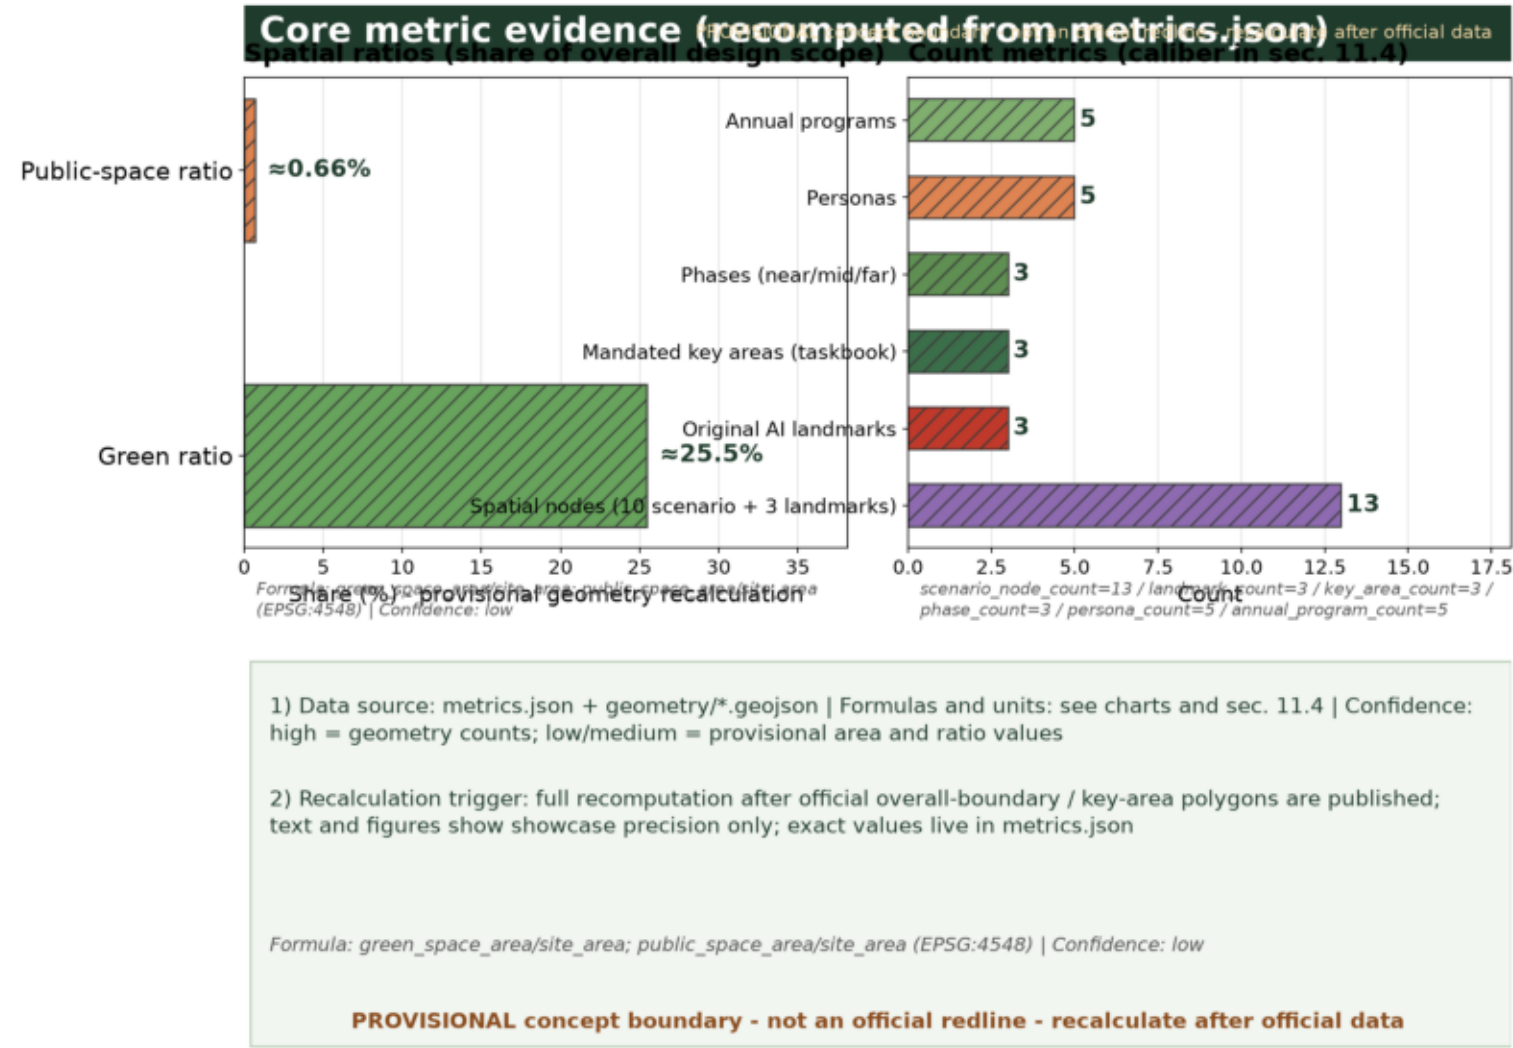

Three segment nodes x three mandated key areas (provisional)

Slow mobility and blue-green analysis: waterfront greenway + blue-green network + AI scenario points (provisional)

Core metric evidence & brand identity (concept)

Core metric evidence (recomputed from metrics.json)

Brand identity & visual identity system (concept draft)

QSS-AIC

Qinghe Smart Shore - AI Innovation Commons

Use boundary: internal working codenames pending trademark clearance; no external registration or commercial licensing

Sleeper pattern (heritage)

Rail polyline (mobility & continuity)

Data loop (AI & open source)

Water ripple (the Qinghe itself)

Water ripple: applied to waterside interfaces for low-illumination, ecology-first signage (concept)

Rules (concept)

• Lockup rule: QSS-AIC acronym + Chinese master name; nodes and events follow the water+innovation+space-type codenames pending trademark clearance; no external registration or commercial glyph proportions, superimpose government/park logos, or imply official endorsement

Brand identity & visual identity system (concept draft)
