

THE JING-ZHANG AI MERIDIAN

京张智脉 · Open-source urban design for the Centennial Jing-Zhang AI Innovation Belt · Board 1 · The Line

Herringbone double track
AI begins from the human origin

One-line proposal

Upgrade the rail-left linear space into a rideable, testable, memorable urban meridian: six loops stitch the city, three hubs drive innovation, ten stations carry memory and scenarios.

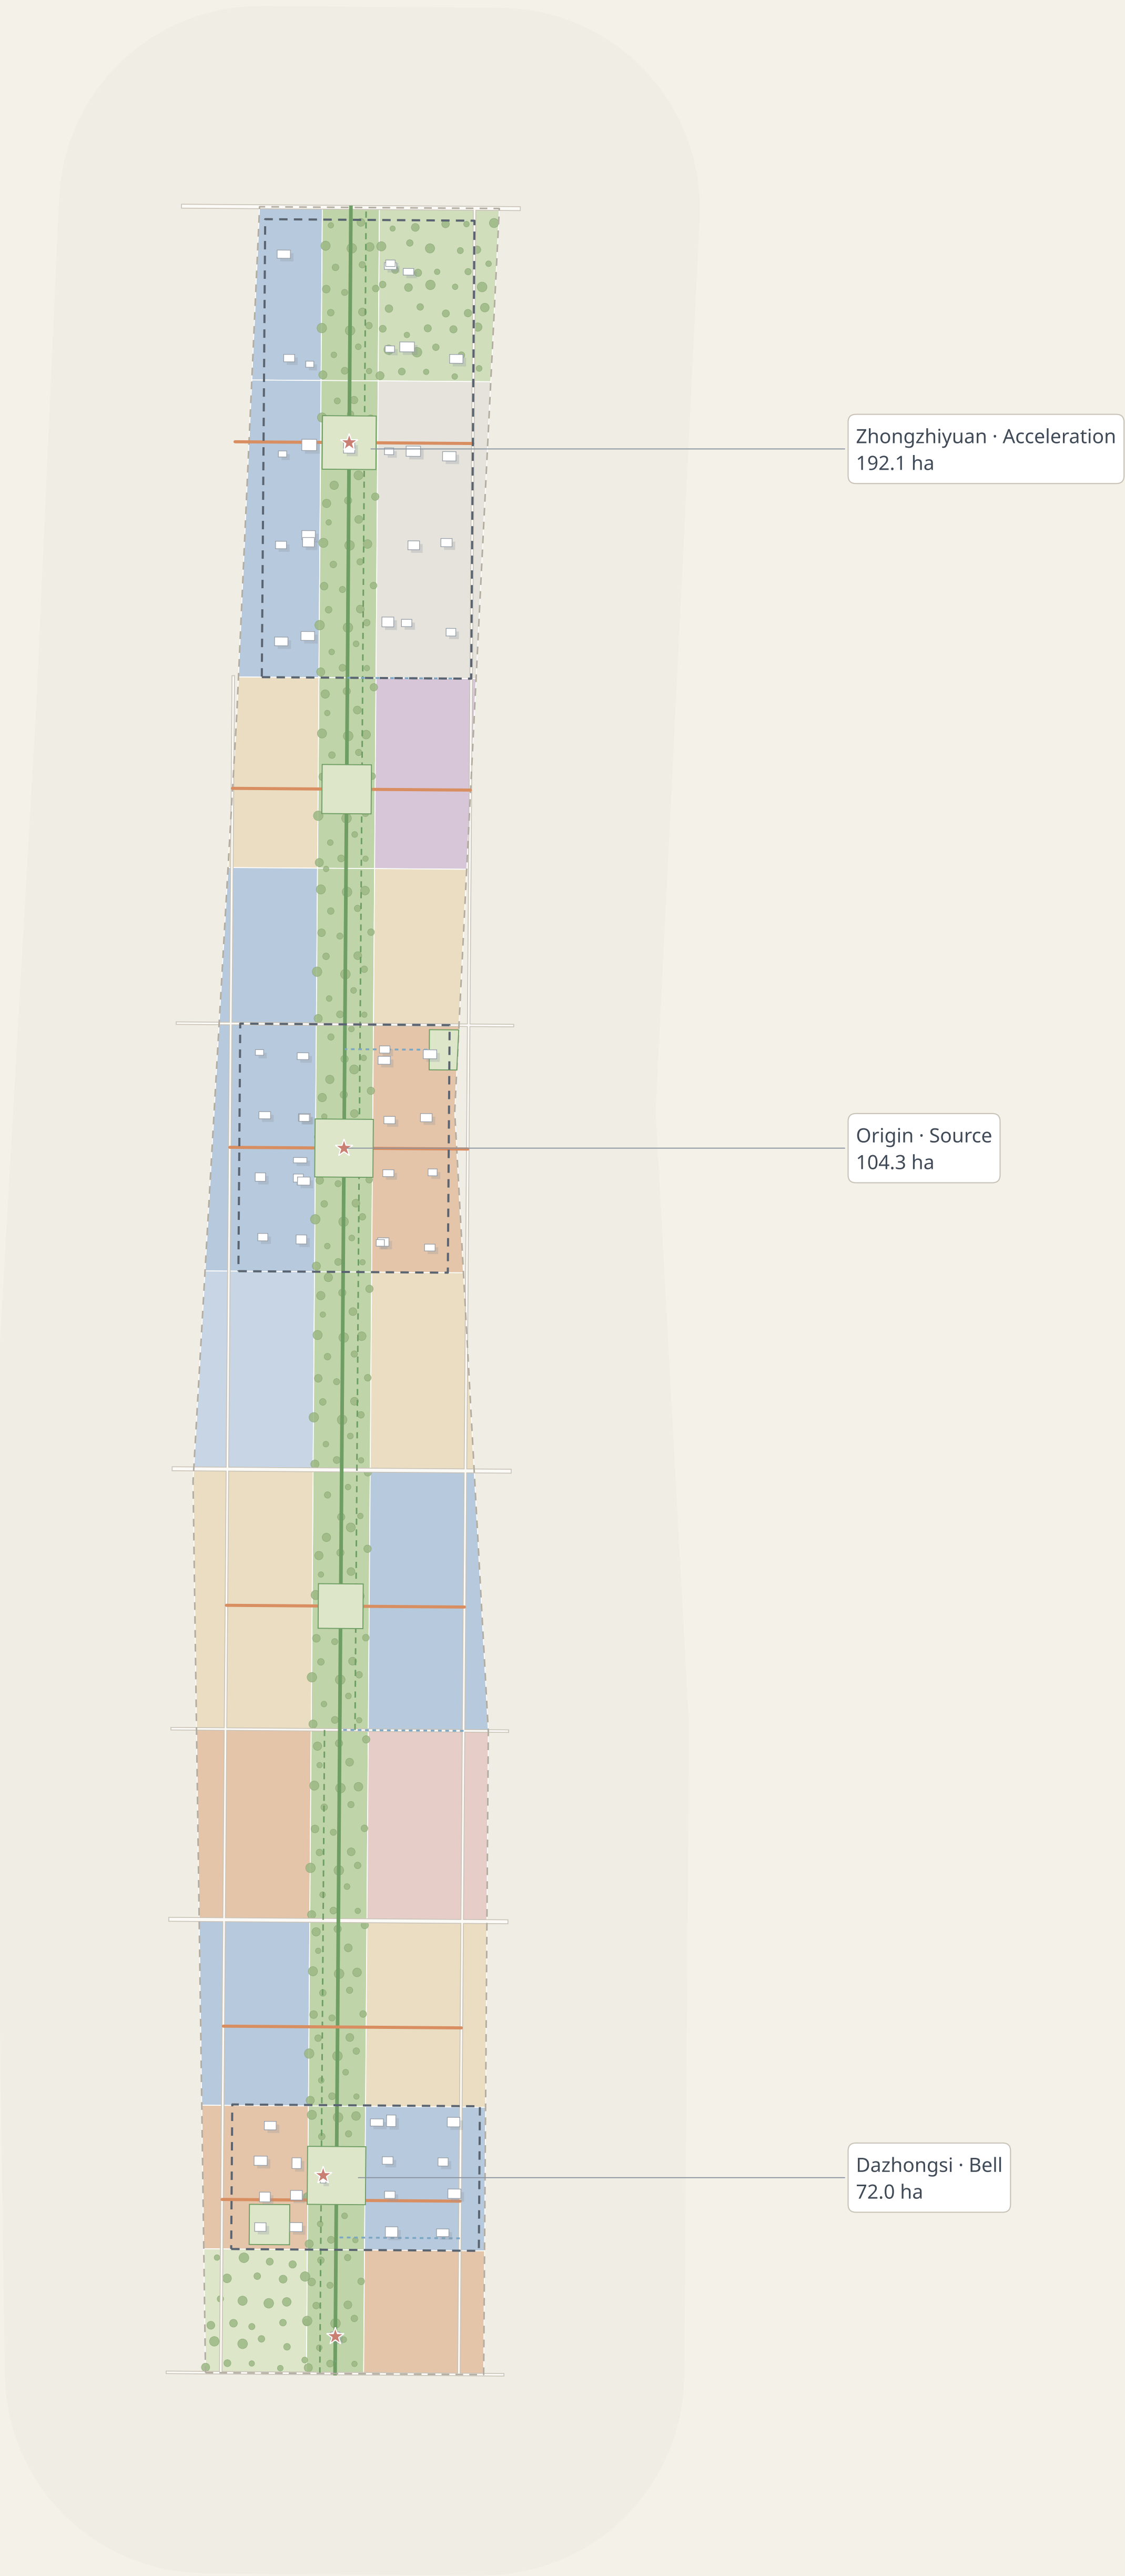

Three positionings

Centennial culture belt · urban AI life-experience belt · AI fusion-innovation belt — heritage on one track, scenarios on the other, a bell for milestones.

Five-function loop

Source (Origin) 加速与治理

The Jing-Zhang AI Meridian · Board 2 · Key-area detailed design & operations evidence

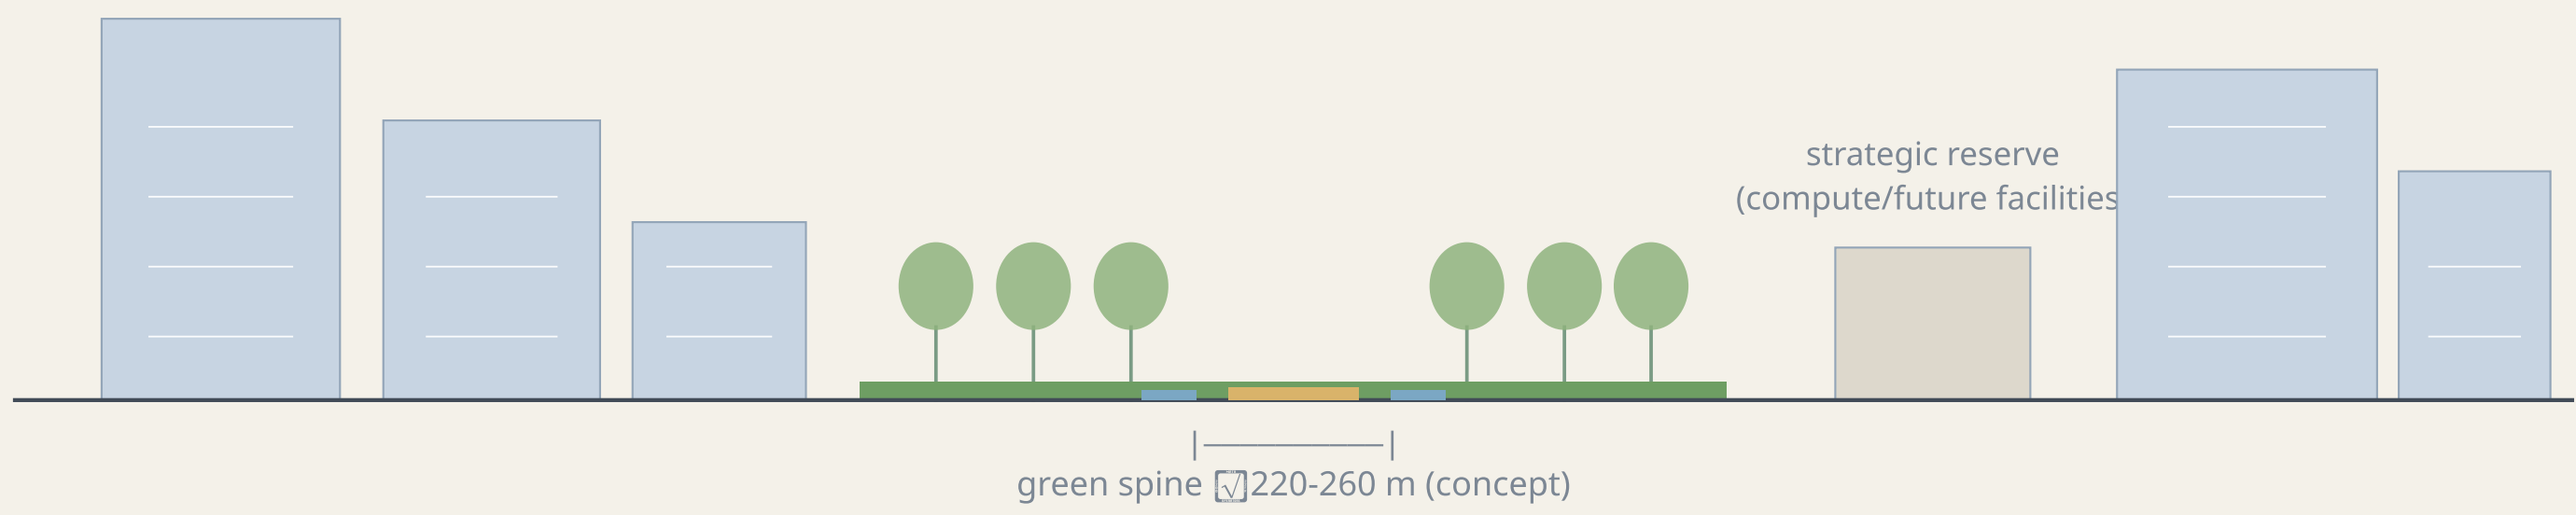

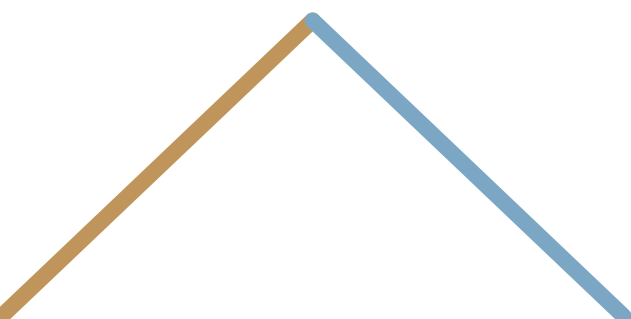

Zhongzhiyuan · Acceleration

K7-K8 · 192.1 ha

- the Ring: forum + full-stack clusters
- 63.6 ha reserve, flexible activation
- edge compute × energy micro-grid ☒
- Fifth Ring Gate launch stage

Section A-A · Zhongzhiyuan (K7-K8): low-rise R&D courts × 240 m green spine × reserve units

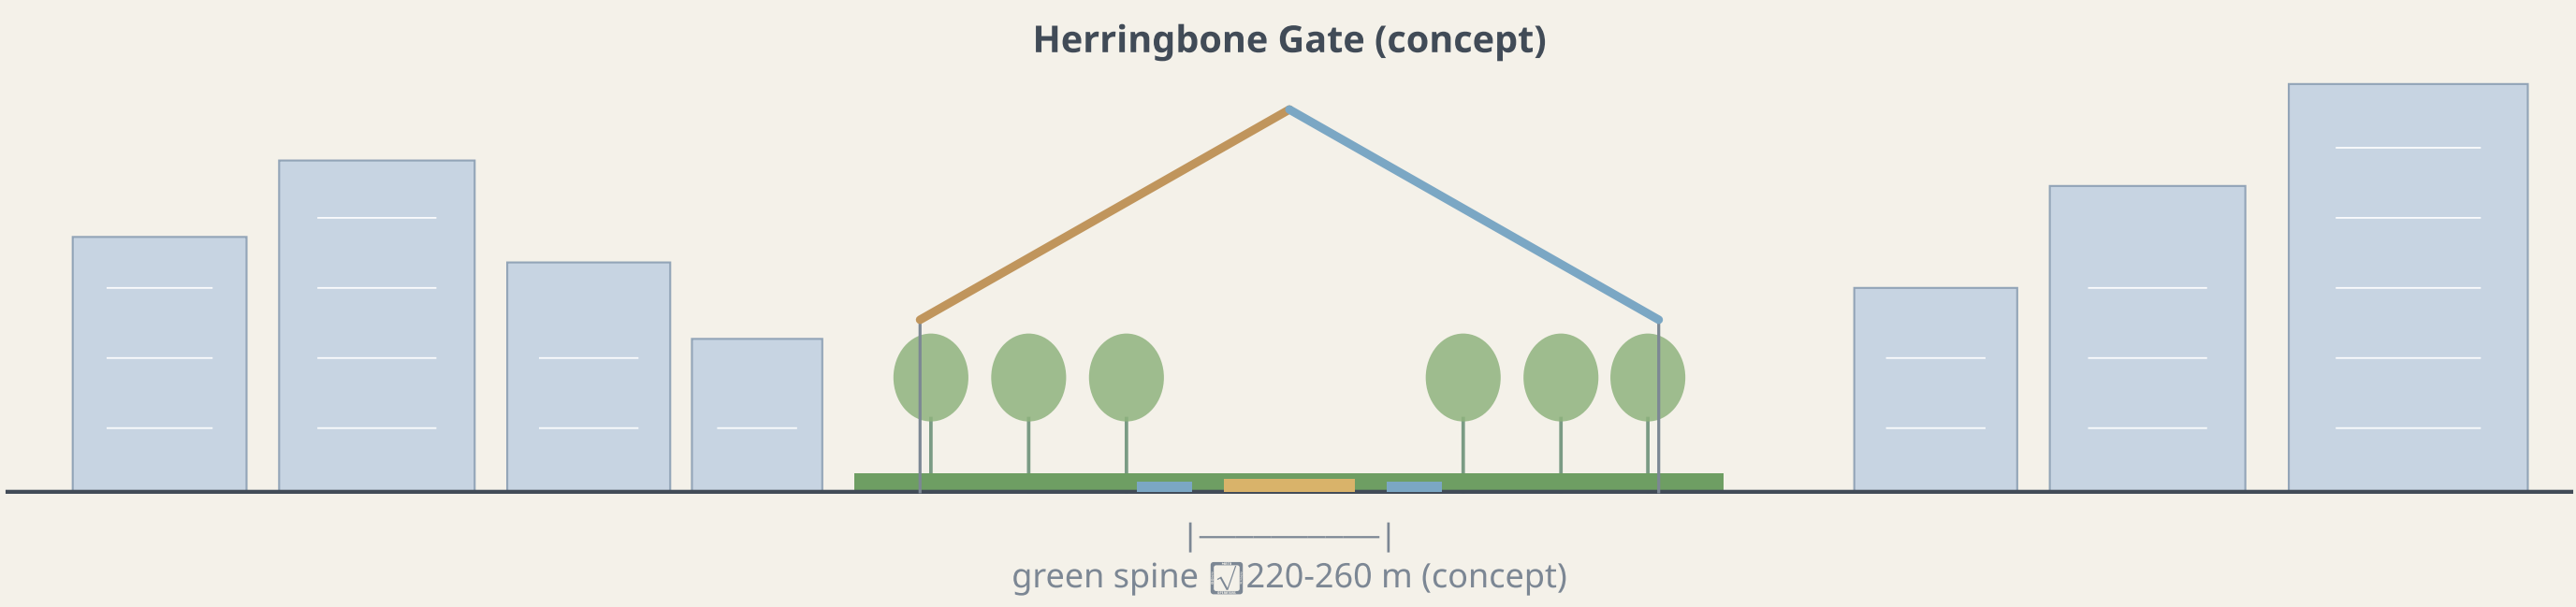

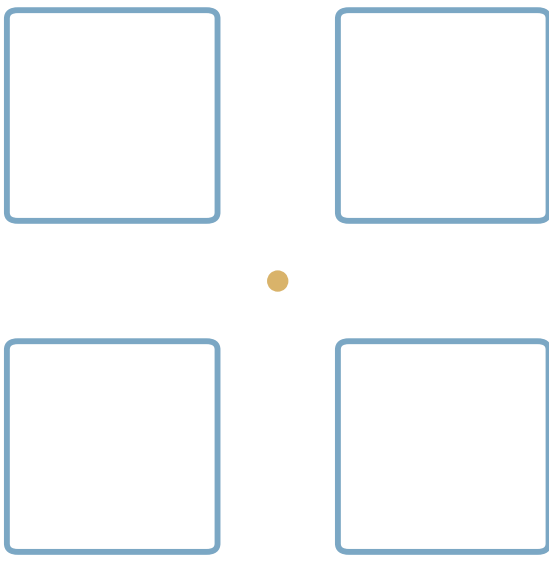

Origin · Source

K5 · 104.3 ha

- Herringbone Gate sutures campus-park-community
- low-disturbance renewal keeps the grain
- Wudaokou agent-native street
- heritage gallery (pending approval)

Section B-B · Origin Community (K5): fine-grain courts × Herringbone suture × station integration

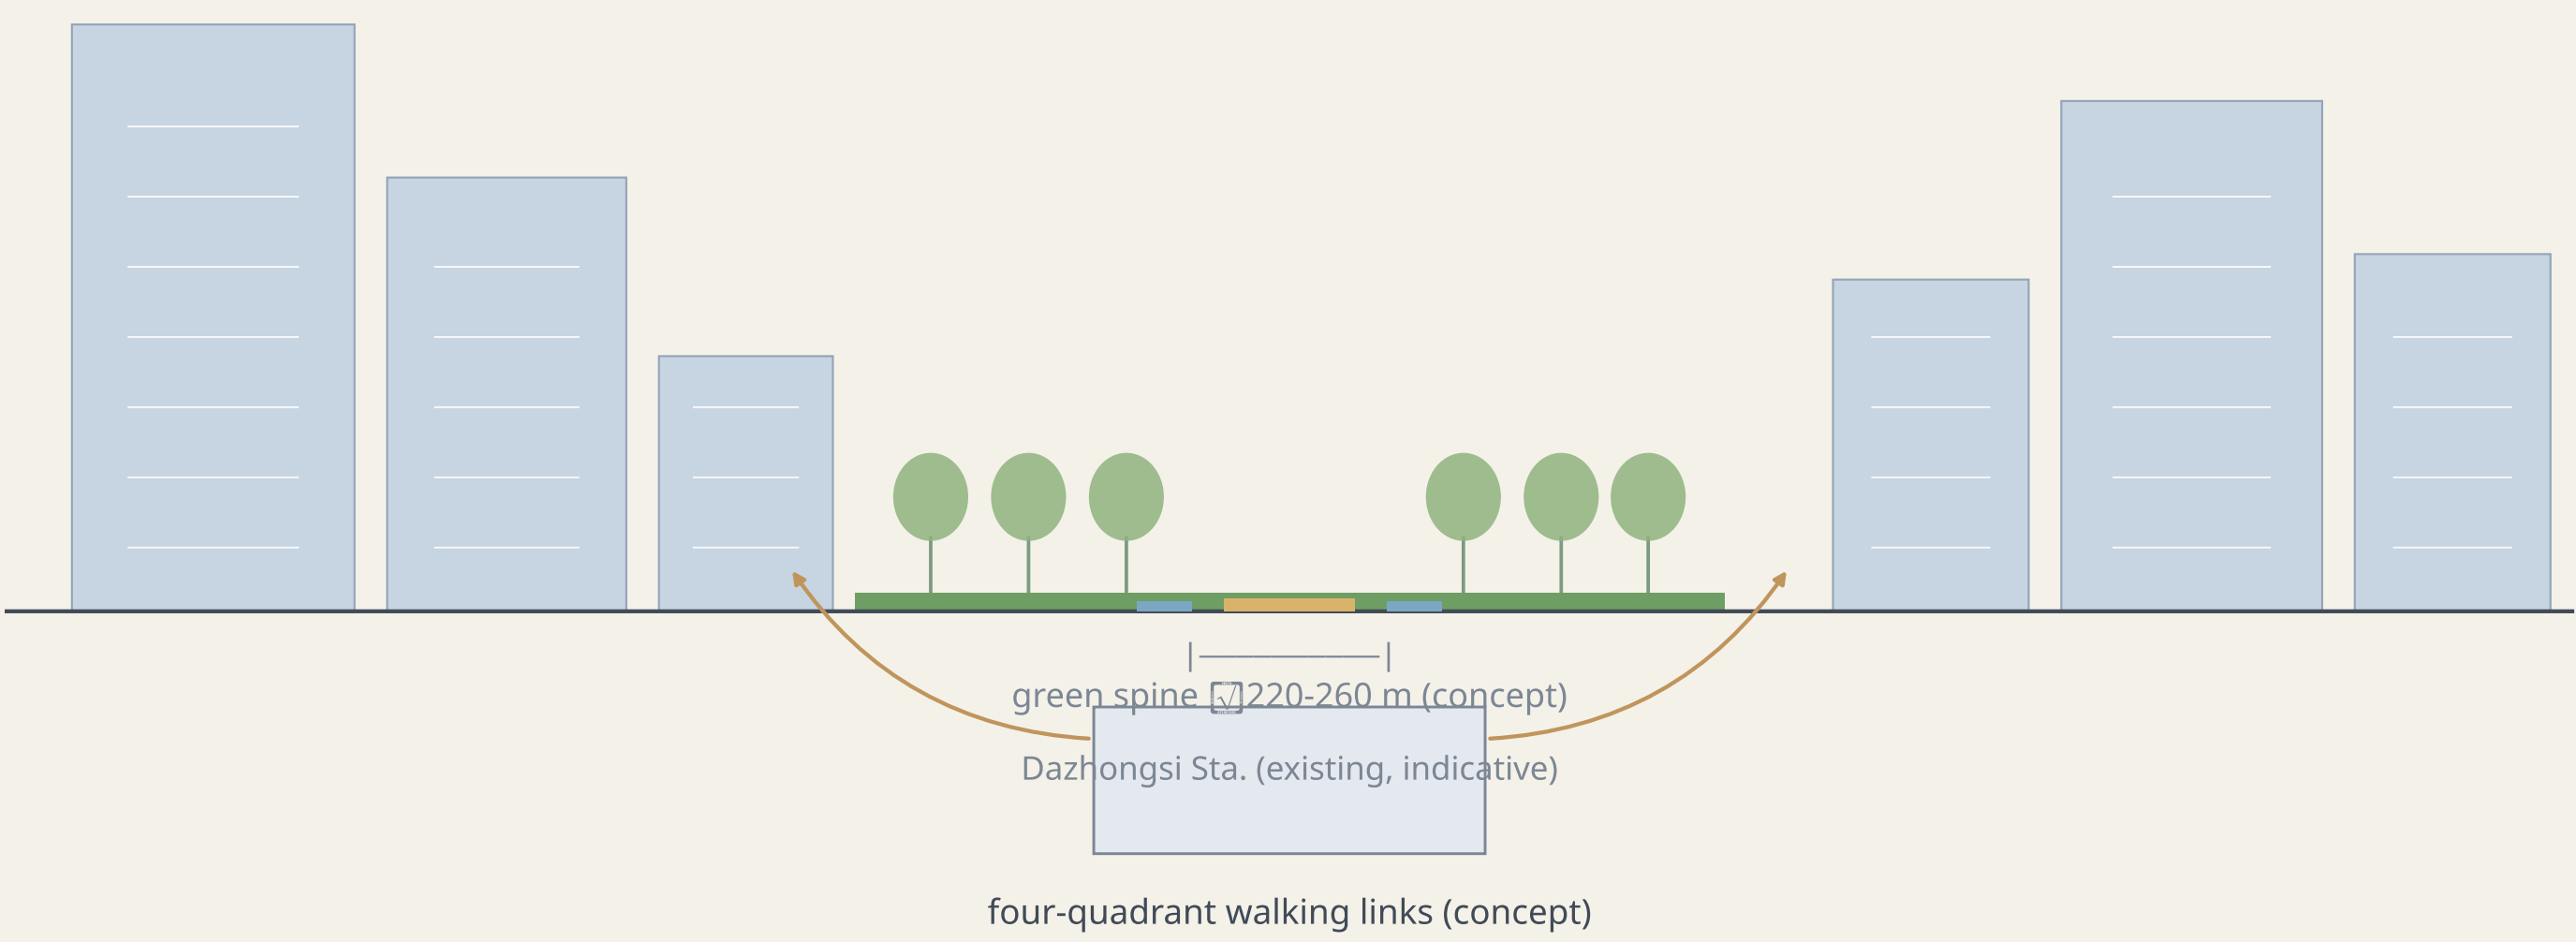

Dazhongsi · Bell

K2 · 72.0 ha

- four-quadrant station links
- intelligent retrofit of stock
- AV shuttle pilot line ☒
- the Bell tolls for open-source milestones

Section C-C · Dazhongsi (K2): retrofitted stock × four-quadrant station links

Scenario ticket wall (stamped = validation)
