

真实空间证据总览

Human City OS / Spatial evidence overview

三处重点区、六层分区、五条概念廊道与十六个场景节点同源显示 · three focus areas, six bands, five conceptual corridors and sixteen scenario nodes from one source

PACKAGE v1.7
CONCEPT / PROVISIONAL

01 / spatial relationships

What this figure makes checkable

Provisional site
11.41 km2
official polygon still required

Key areas
03
each has a spatial zoom and action

Scenario nodes
16
A/B/C/D node families remain visible

Green space
11.12%
1,269,257 m2 from EPSG:4548

pixel layout is display-only; no area or length is read from the image

六层分区

Six-layer spatial operating system

相邻多边形共享边界；面积与占比只来自 GeoJSON / EPSG:4548 · shared edges; areas and shares come only from GeoJSON / EPSG:4548

PACKAGE v1.7

CONCEPT / PROVISIONAL

02 / six bands

six reversible units

H01 Community retention / service
2.09 km2 · 18.28%
D01 International / OPC
2.02 km2 · 17.68%
C01 Skills / public data
1.95 km2 · 17.06%
B01 Reversible meanwhile
1.72 km2 · 15.09%
B02 City API / embodied
1.77 km2 · 15.48%
C02 Screen-free resilience
1.87 km2 · 16.40%

100% coverage · zero overlap · shared coordinates

concept allocation, not FAR, height, construction or demolition

三处重点区

Three focus areas

每个放大框都回指同一临时 geometry, 并把动作、人工边界与机器边界并列 · each zoom returns to the same provisional geometry; actions sit beside human and machine boundaries

PACKAGE v1.7
CONCEPT / PROVISIONAL

03 / location + relation

Spatial action / Zhongzhiyuan

bounded test → stop → blue-green retreat

provisional anchor · no operating claim

Spatial action / AI Origin Community

staffed access → skill transition → quiet recovery

provisional anchor · no operating claim

Spatial action / Dazhongsi

public data desk → OPC → version replay

provisional anchor · no operating claim

四条概念廊道与三处节点交叉；人行优先、人工接管、退避与回放并列 · four conceptual corridors meet three nodes; pedestrian priority, human takeover, retreat and replay are explicit

04 / corridors + crossing nodes

four spatial rules

SKILL / skill transition
5.919 km
retraining → new work

SILICON / silicon right-of-way
4.586 km
human priority + controlled test

LOW-AIR / vertical layer
2.015 km
conceptual layer; later review

SPONGE / Xiaoyue River
area / line
floodway + sponge inspection

At every crossing: visible state, low-speed pause, staffed takeover, incident replay.

concept corridor; not an engineering alignment or approved route

05 / geometry → metric → gap

replayable values

Site area 11.41 km2 site_boundary.geojson · EPSG:4548	Land-use coverage 100.00% six polygons · shared edges
Green space 11.12% 1,269,257 m2	Public space 1.06% 121,447 m2
Skill corridor 5.919 km ROAD-A-SKILL	Scenario nodes 16 constraints.geojson

unknown / 待补数据

official boundary · FAR/height controls · resident retention · employment transition · manual-service equivalence · PUE · green electricity · recovered heat

Every unknown is a gate, not a hidden assumption.

Seven-dimension review evidence map

七维评审证据地图

Reviewer order: question → evidence → boundary → next verification

7 dimensions · registered workflow questions

01 Brief alignment	20% template	Provisional boundaries, design partitions, and conceptual deliverables are not official redlines, statutory controls, or an implementation scheme.
evidence: proposal.md		
02 Originality	10% template	Contract-level replay proves reviewable structure, not real service performance, public acceptance, or deployed capability.
evidence: proposal.md		
03 AI + planning innovation	15% template	Local scripts cover offline structure and negative tests only; they do not call external systems or replace professional models, permits, or field tests.
evidence: assets/run-human-city-ordinary-journey....		
04 Implementation feasibility	20% template	Suggested roles are not confirmed operators; missing data, insurance, approvals, budget, real OD, and field baselines remain for authorized parties to establish.
evidence: assets/implementation-operation-matrix....		
05 Public interest + inclusion	10% template	The package provides design requirements and an offline contract; real coverage, group experience, consent, and outcomes require walk-throughs, sampling, and independent evaluation.
evidence: assets/personas-and-fairness.json		
06 Risk + compliance	10% template	Source registration and usage boundaries are not permits, rights clearance, data authorization, or safety review.
evidence: assumptions.json		
07 Expression completeness	15% template	Navigation completeness does not raise evidence level; HTML, drawings, and ledgers cannot replace formal data or field validation.
evidence: proposal.md		

PACKAGE v1.8

EVIDENCE / NO SCORE

read this map

1 · Start

Open the proposal section named by the dimension.

2 · Trace

Follow the shortest path to geometry, metrics, ledgers, or drawings.

3 · Bound

Do not turn a conceptual suggestion or unknown into a result.

4 · Verify next

Use the missing-input gate before any professional deepening.

No score is generated by this figure.

Brief → spatial response: one-page alignment atlas

3 positions · 5 functions · 3 areas + 2 wings · 4 differentiated value chains

PACKAGE v1.9

CONCEPT / PROVISIONAL

POSITIONING

P1 Jing-Zhang Centennial Heritage Belt

百年京张文化带

P2 Urban AI Everyday-Life Belt

都市 AI 生活体验带

P3 AI Integration and Innovation Belt

AI 融合创新带

FUNCTIONS

F1 Full-stack AI self-innovation system

research → prototype → review

F2 World-class AI innovation ecosystem

cases, talent, capital, compute, data

F3 AI+ scenario enablement paradigm

scenarios with human fallback

F4 Intelligent, vibrant AI city

public space, culture, mobility

F5 Global voice in AI governance

rights, standards, versioned learning

SPATIAL DELIVERY

A1 Zhongzhiyuan AI Self-innovation Accelerator

controlled tests · compute-energy audit · incident replay
PROV-KEY-001 · provisional constraint

A2 Beijing AI Origin Community

community retention · human channel · skill transition
· screen-free recovery
PROV-KEY-002 · provisional constraint

A3 Dazhongsi AI Industry Cluster

city API · OPC · public data
· international services
PROV-KEY-003 · provisional constraint

W1 Zhongguancun Technology-Service Wing

standards / data / compute interfaces; conceptual only
SC-D04 → conceptual interface

W2 Xiaoyuehe Scenario-Enablement Wing

human-machine sharing / sponge resilience / flood simulation; conceptual only
SC-C03 · conceptual interface

DIFFERENTIATION → EVIDENCE

A · Human dignity

People-first: AI Origin Community + ROAD-A-SKILL | Scenarios: SC-A01 / SC-A03 / SC-A05 | Metric: community_retention_support_area_ratio | gap: resident / shop / employment baselines missing

B · Machine usability

Machine-ready: Zhongzhiyuan + ROAD-B-SILICON | Scenarios: SC-B01 / SC-B02 / SC-B04 | Metric: silicon_right_of_way_length_m | gap: road / airspace / responsibility sections missing

C · Hard constraints

Guardrails: Xiaoyuehe wing + SC-C01—SC-C05 | Scenarios: energy, flood, sandbox, data authorization | Metric: operational_pue (unknown) | gap: energy / hydrology / insurance / authorization inputs missing

D · Spillovers

Spillovers: Dazhongsi + W1/W2 interfaces | Scenarios: SC-D01—SC-D04 | Metric: version_release_count | gap: actors / IP / cross-region cooperation unverified

All spatial moves are conceptual suggestions / reference schemes for professional teams. official_boundary=false; geometry_role=provisional_constraint. Evidence paths are package-local, not an official score, field result, or implementation approval.

Public space + culture + annual operation atlas

3 concept landmarks · 4-season operating rhythm · 5 project families

PACKAGE v2.0

CONCEPT / NO OPERATOR

LANDMARKS

L1 People's Version Hall

issue · change · retract
SC-C05
/ PROV-KEY-002 · conceptual anchor

L2 Rail Interface Clock

rail time · version change · public
explanation
SC-D02 / PROV-KEY-003
· conceptual anchor

L3 Screen-free Recovery Beacon

shade · sound · night safety ·
no forced interaction
GREEN-A-QUIET-1
/ PROV-KEY-002 · conceptual anchor

ANNUAL RHYTHM

SPRING Public problem open week

public questions, data
boundary, human answers

SUMMER City API + embodied test month

four-limit reversible
concept checks

AUTUMN Work transition + OPC co-creation

workers, mentors, small
teams, replay

WINTER City version conference

audit, issue response,
rollback, next gate

PROJECT FAMILIES → SPACE / GATE

PF-A Human buffer + community retention

A2 / v0.1 · conceptual scope

PF-B City API + reversible space

A3 / v0.2 · conceptual scope

PF-C Human-machine, climate + compute-energy gate

A1 + W2 / v0.2 · conceptual scope

PF-D Public-data authorization + version governance

L1 / v0.1 - v1.0 · conceptual scope

PF-E Small-team ecology + spillovers

A3 + W1 / v1.0 · conceptual scope

CULTURE GRAMMAR

Rail = Jing-Zhang continuity; time = annual version release; interface = public explanation and human authority.

All landmarks and operating rhythms are conceptual suggestions / reference schemes for professional teams. official_boundary=false; geometry_role=provisional_constraint; no operator, permit, funding, capacity, or field outcome is claimed.
