

JZ-AI Origin Belt · Board 1: Concept & Structure

JZ-AI Origin Belt · Overall Concept (One Axis, Three Cores)

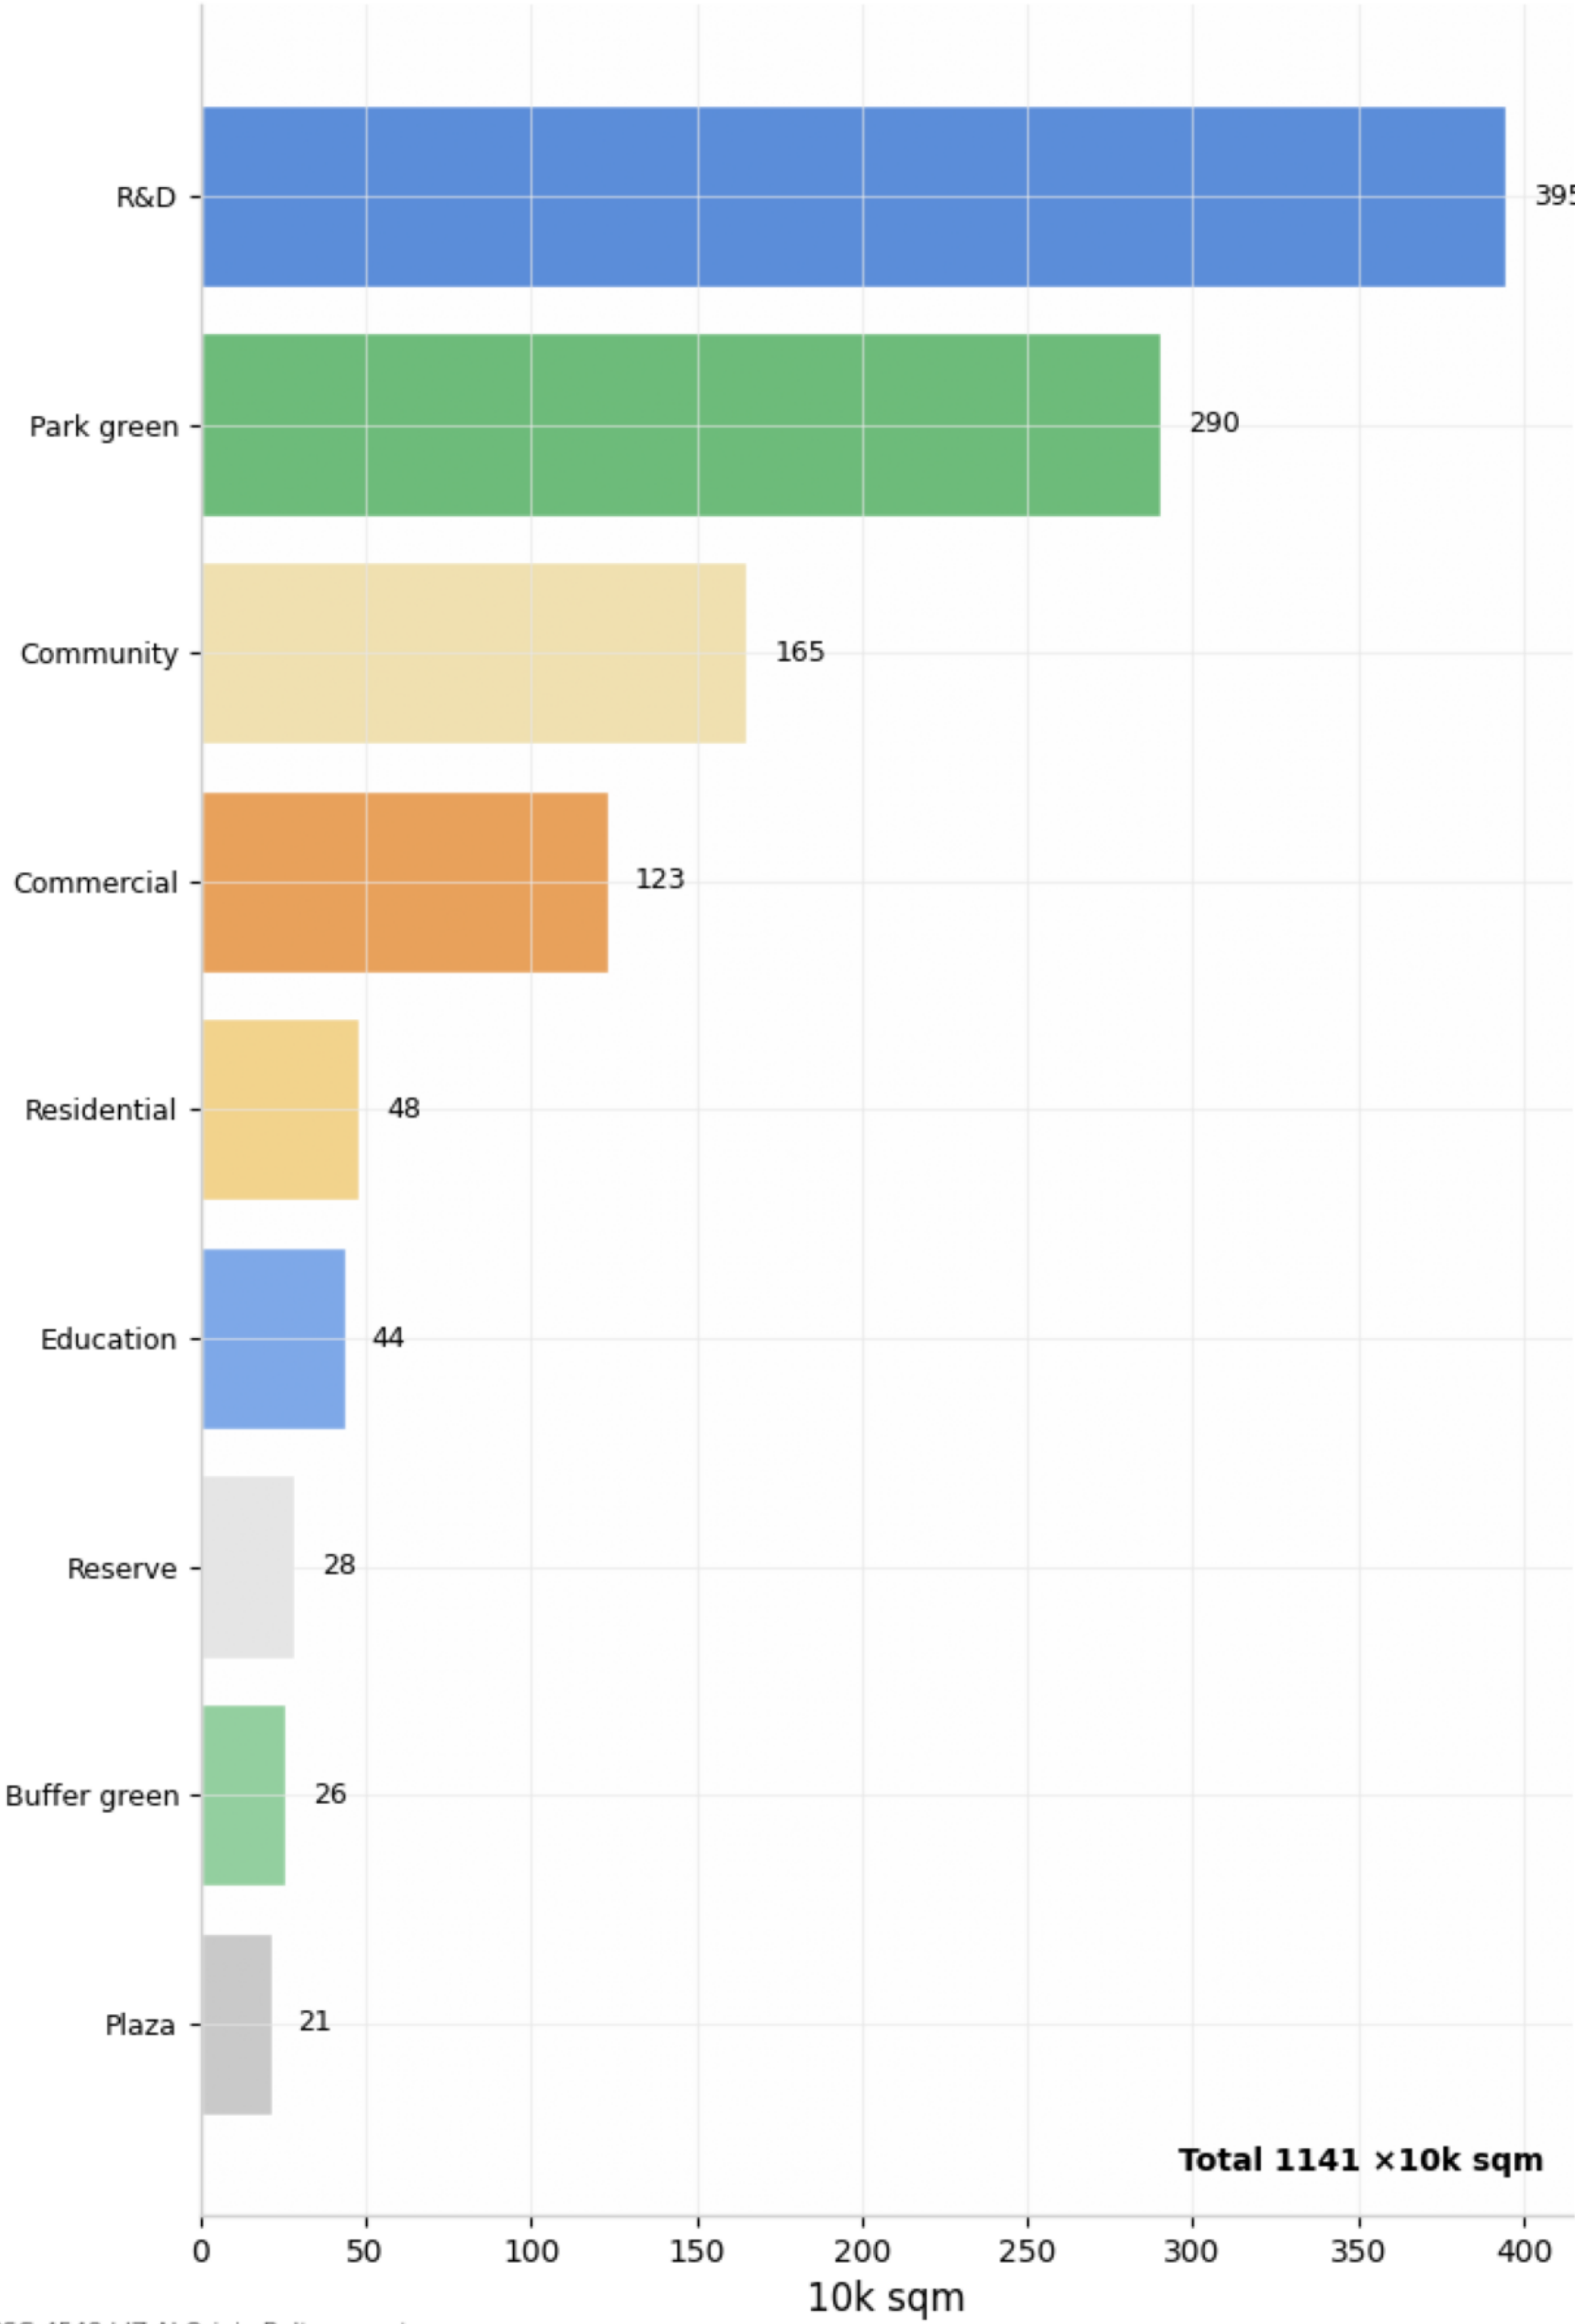

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG:4548 | JZ-AI Origin Belt concept

Land-Use Structure (16 seamless zones)

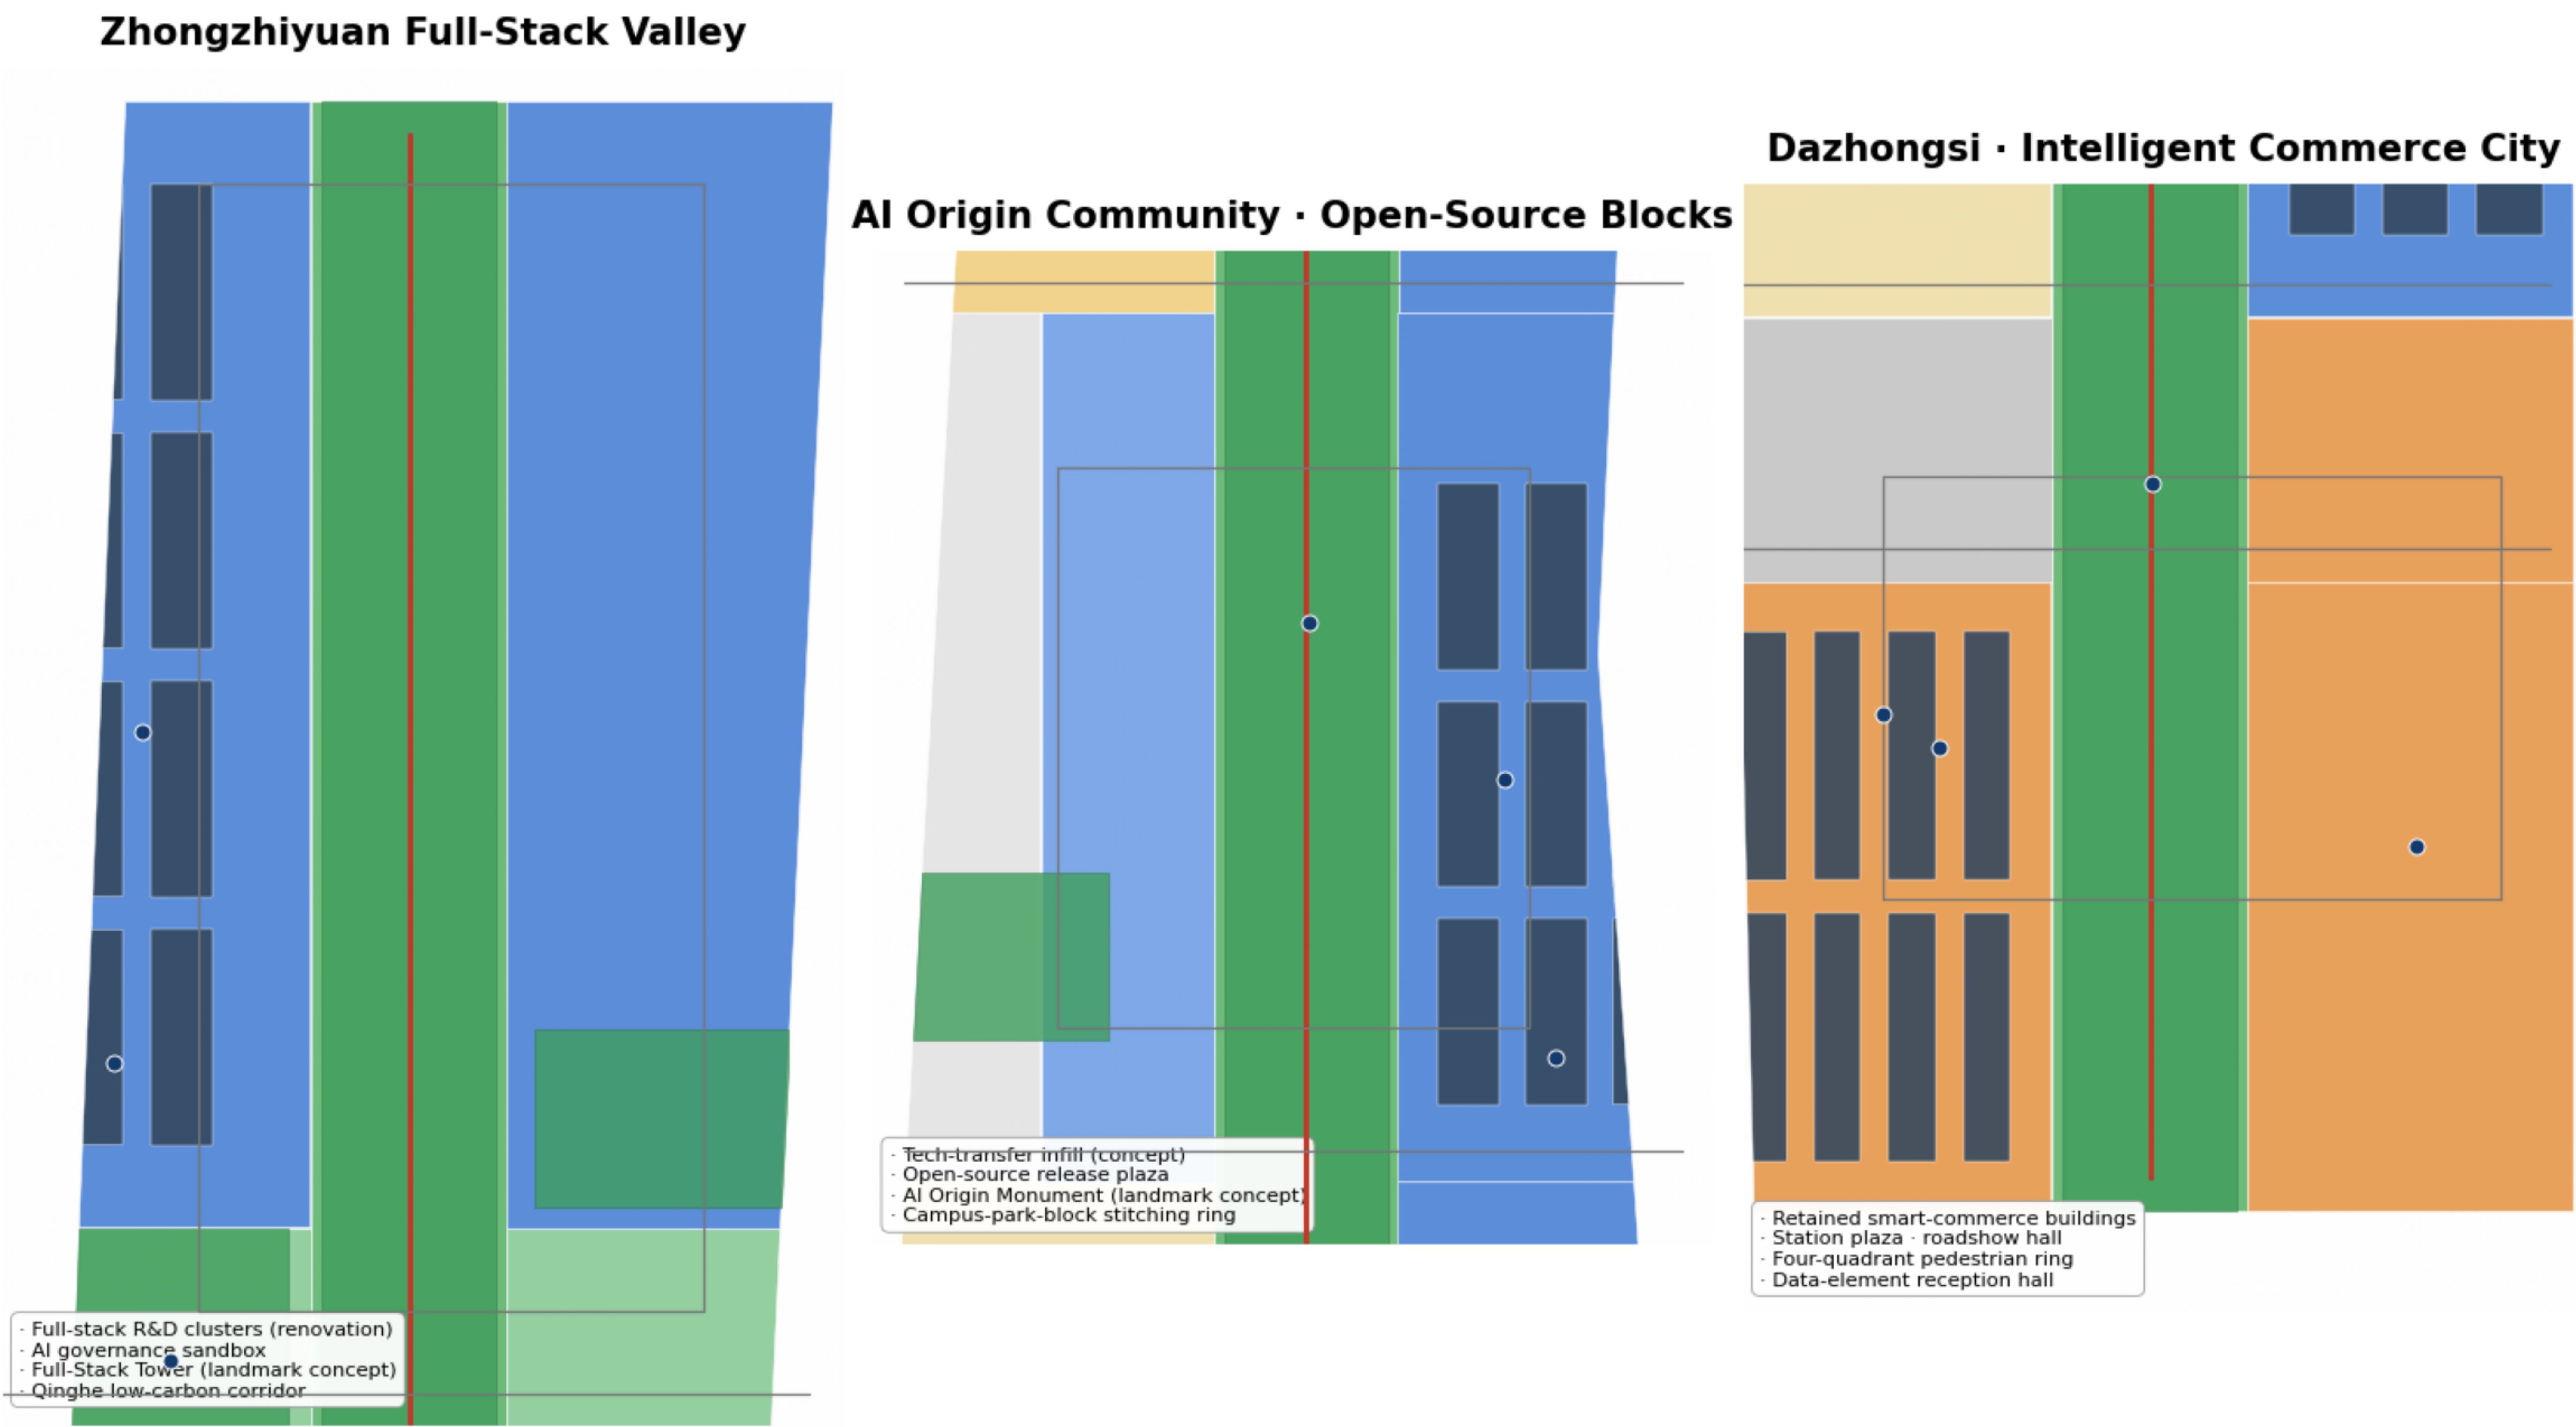

Recomputed areas (provisional boundary)

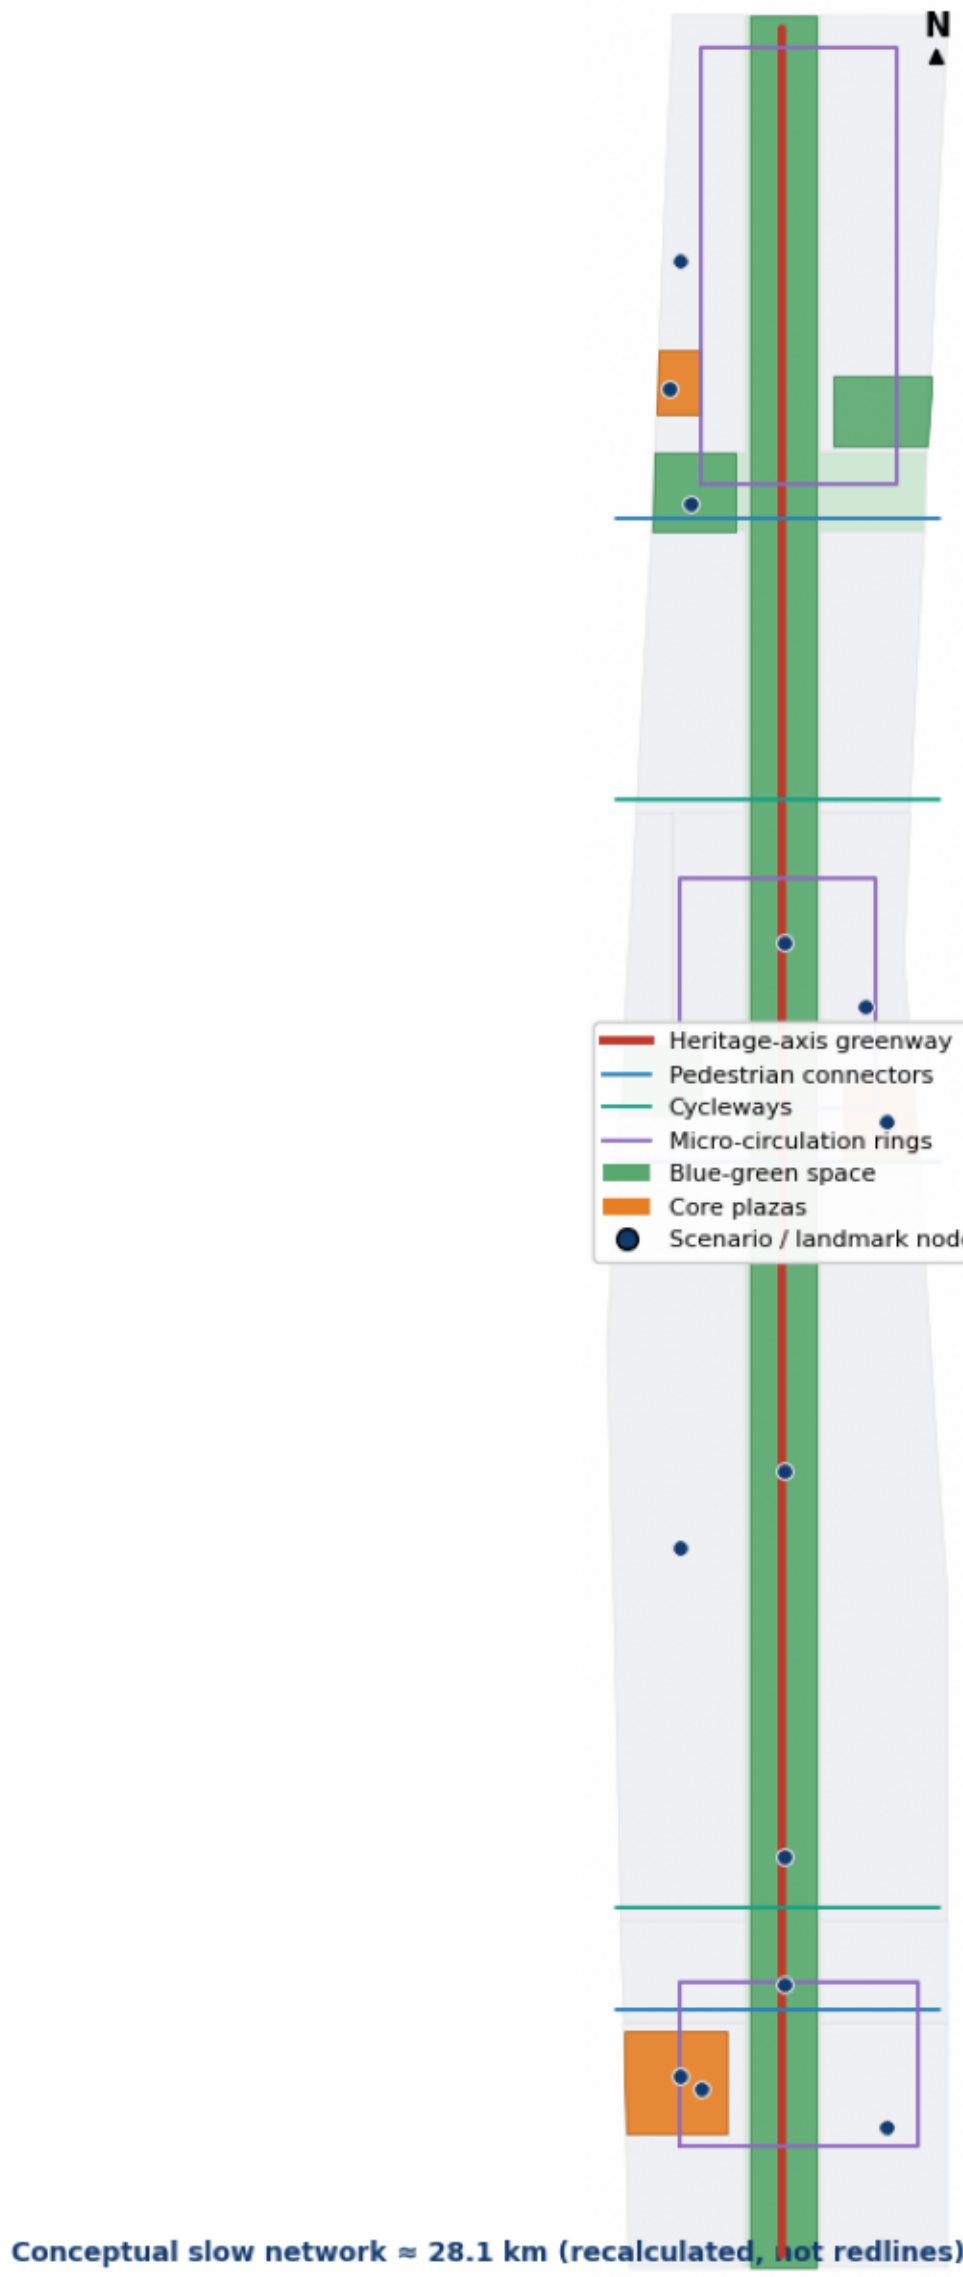

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG:4548 | JZ-AI Origin Belt concept

Detailed Design of Three Key Areas (provisional extents)

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG:4548 | JZ-AI Origin Belt concept

Slow Mobility × Blue-Green Public Space System

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG:4548 | JZ-AI Origin Belt concept

Core Metric Recalculation & Evidence Chain (EPSG:4548)

Pipeline: GeoJSON layers → EPSG:4548 projection → area/length aggregation → metrics.json (status/formula/confidence fully registered)

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG:4548 | JZ-AI Origin Belt concept
