

# JZ-AI Origin Belt · Centennial Jing-Zhang AI Innovation Belt Concept

A3 booklet | Concept, provisional boundary, material for professional deepening

Name: JZ-AI Origin Belt | Structure: one heritage axis, three cores, two loops, 13 scenario/landmark concept nodes.

Compliance: no claim of official approval, approved plans, ownership, construction scale, or implementation guarantee.

# Overall concept

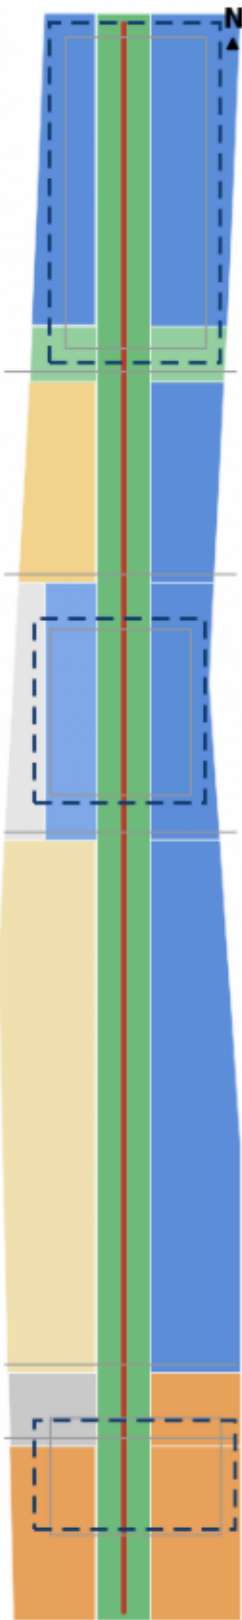

JZ-AI Origin Belt · Overall Concept (One Axis, Three Cores)

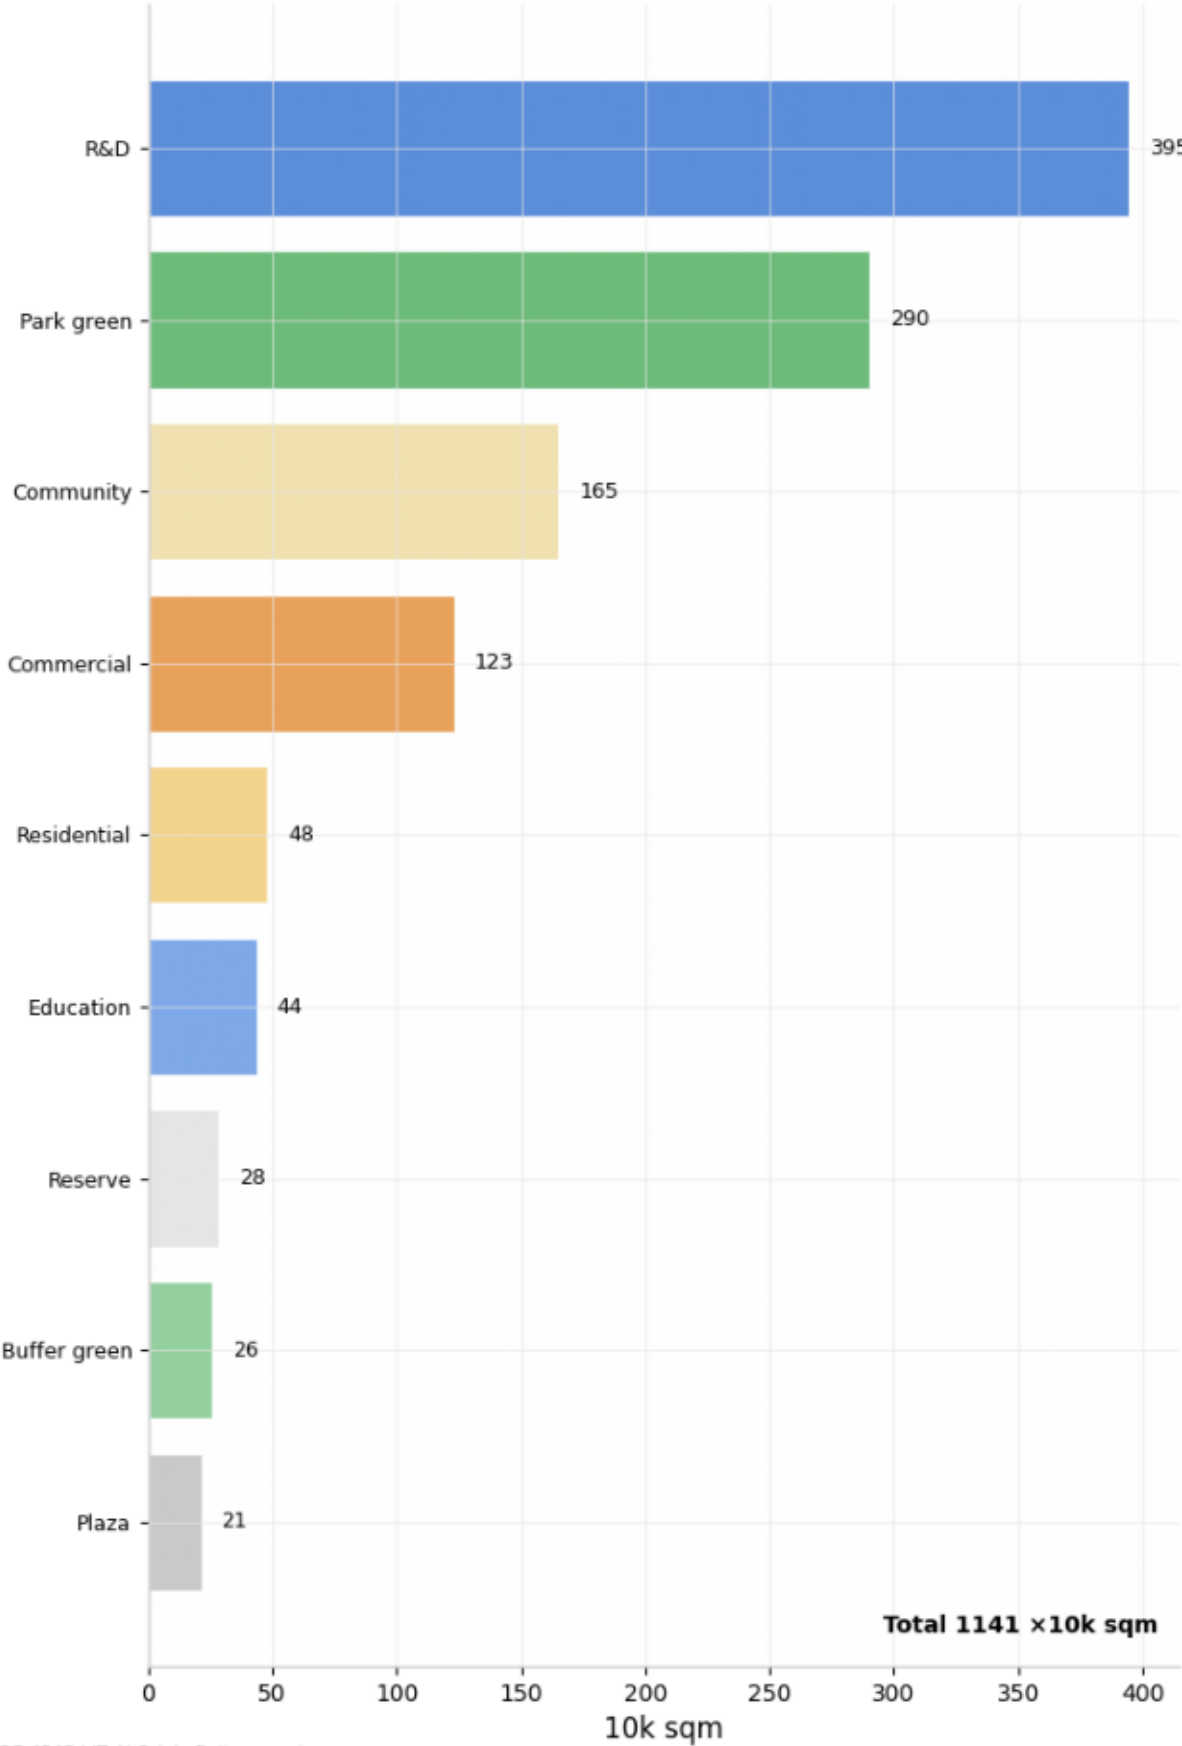

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG:4548 | JZ-AI Origin Belt concept

# Land-use structure

Land-Use Structure (16 seamless zones)

Recomputed areas (provisional boundary)

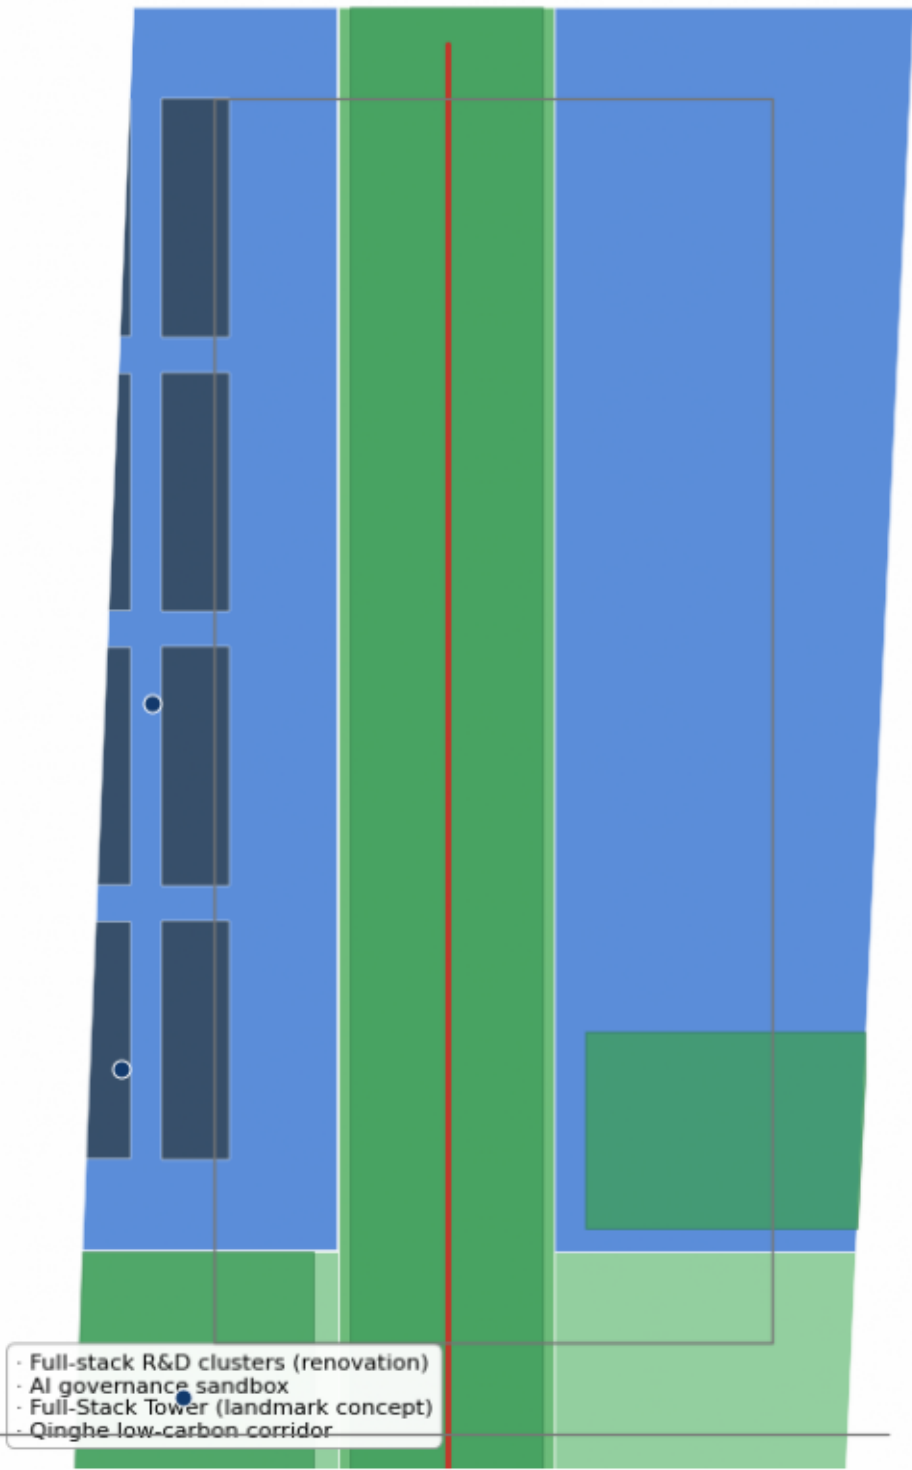

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG:4548 | JZ-AI Origin Belt concept

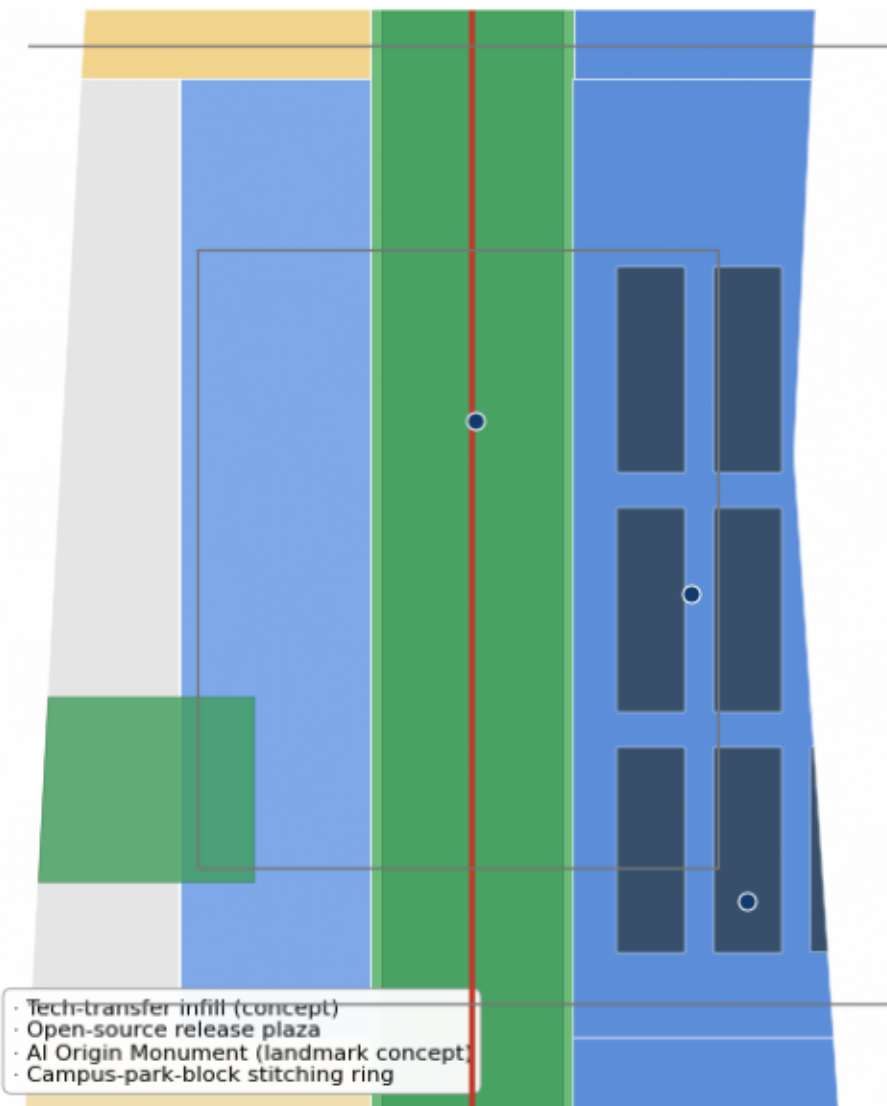

# Key-area detailed design

## Detailed Design of Three Key Areas (provisional extents)

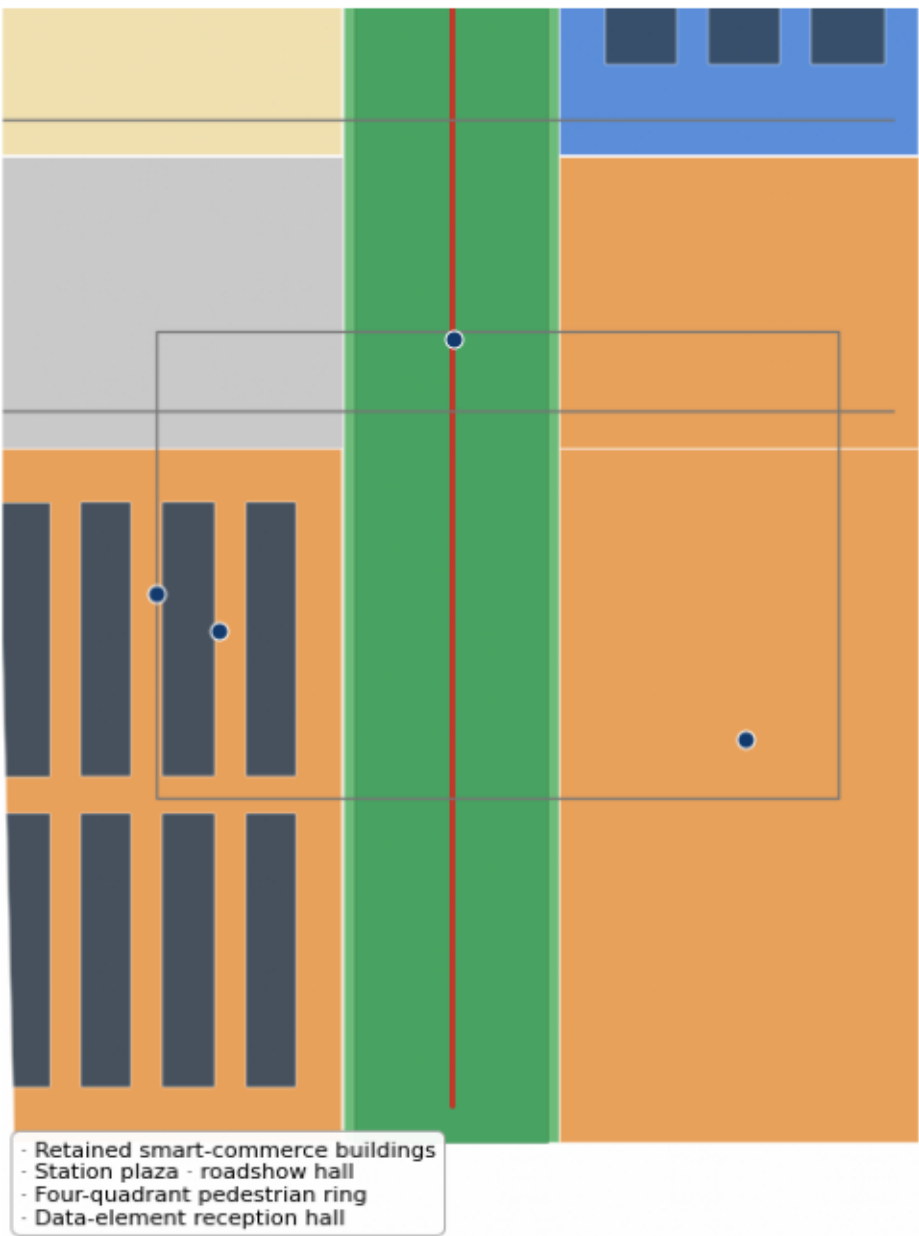

### Zhongzhiyuan Full-Stack Valley

### AI Origin Community · Open-Source Blocks

### Dazhongsi · Intelligent Commerce City

# Slow mobility × blue-green

Slow Mobility × Blue-Green Public Space System

Data: submission GeoJSON (provisional substitute boundary, not official redline) | Areas recomputed in EPSG-4548 | JZ-AI Origin Belt concept

# Metrics & evidence

## Core Metric Recalculation & Evidence Chain (EPSG:4548)

Pipeline: GeoJSON layers → EPSG:4548 projection → area/length aggregation → metrics.json (status/formula/confidence fully registered)
