

BellPivot AI Precinct - Concept Booklet

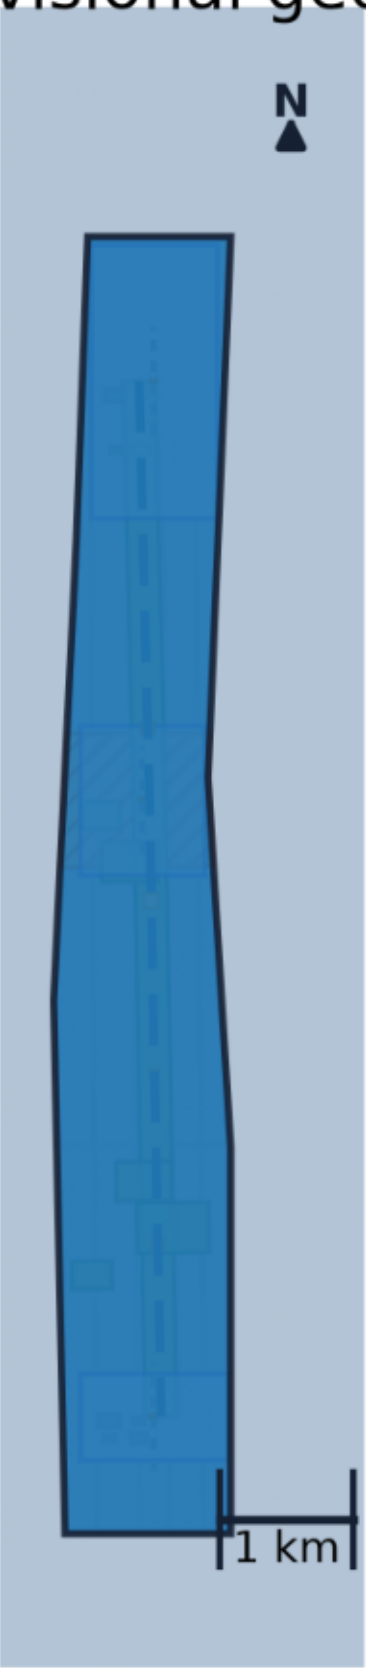

Concept proposal · provisional boundary · recompute after official data

BellPivot AI Precinct - Dazhongsi AI Industry Cluster

Overall Design Overview (provisional geometry)

Basemap: package provisional geometry (EPSG:4548 recompute caliber)

- Spine / stitch links
- Concept green
- Public/scenario nodes
- Three key areas
- Heritage zone (concept)
- Design boundary (provisional)

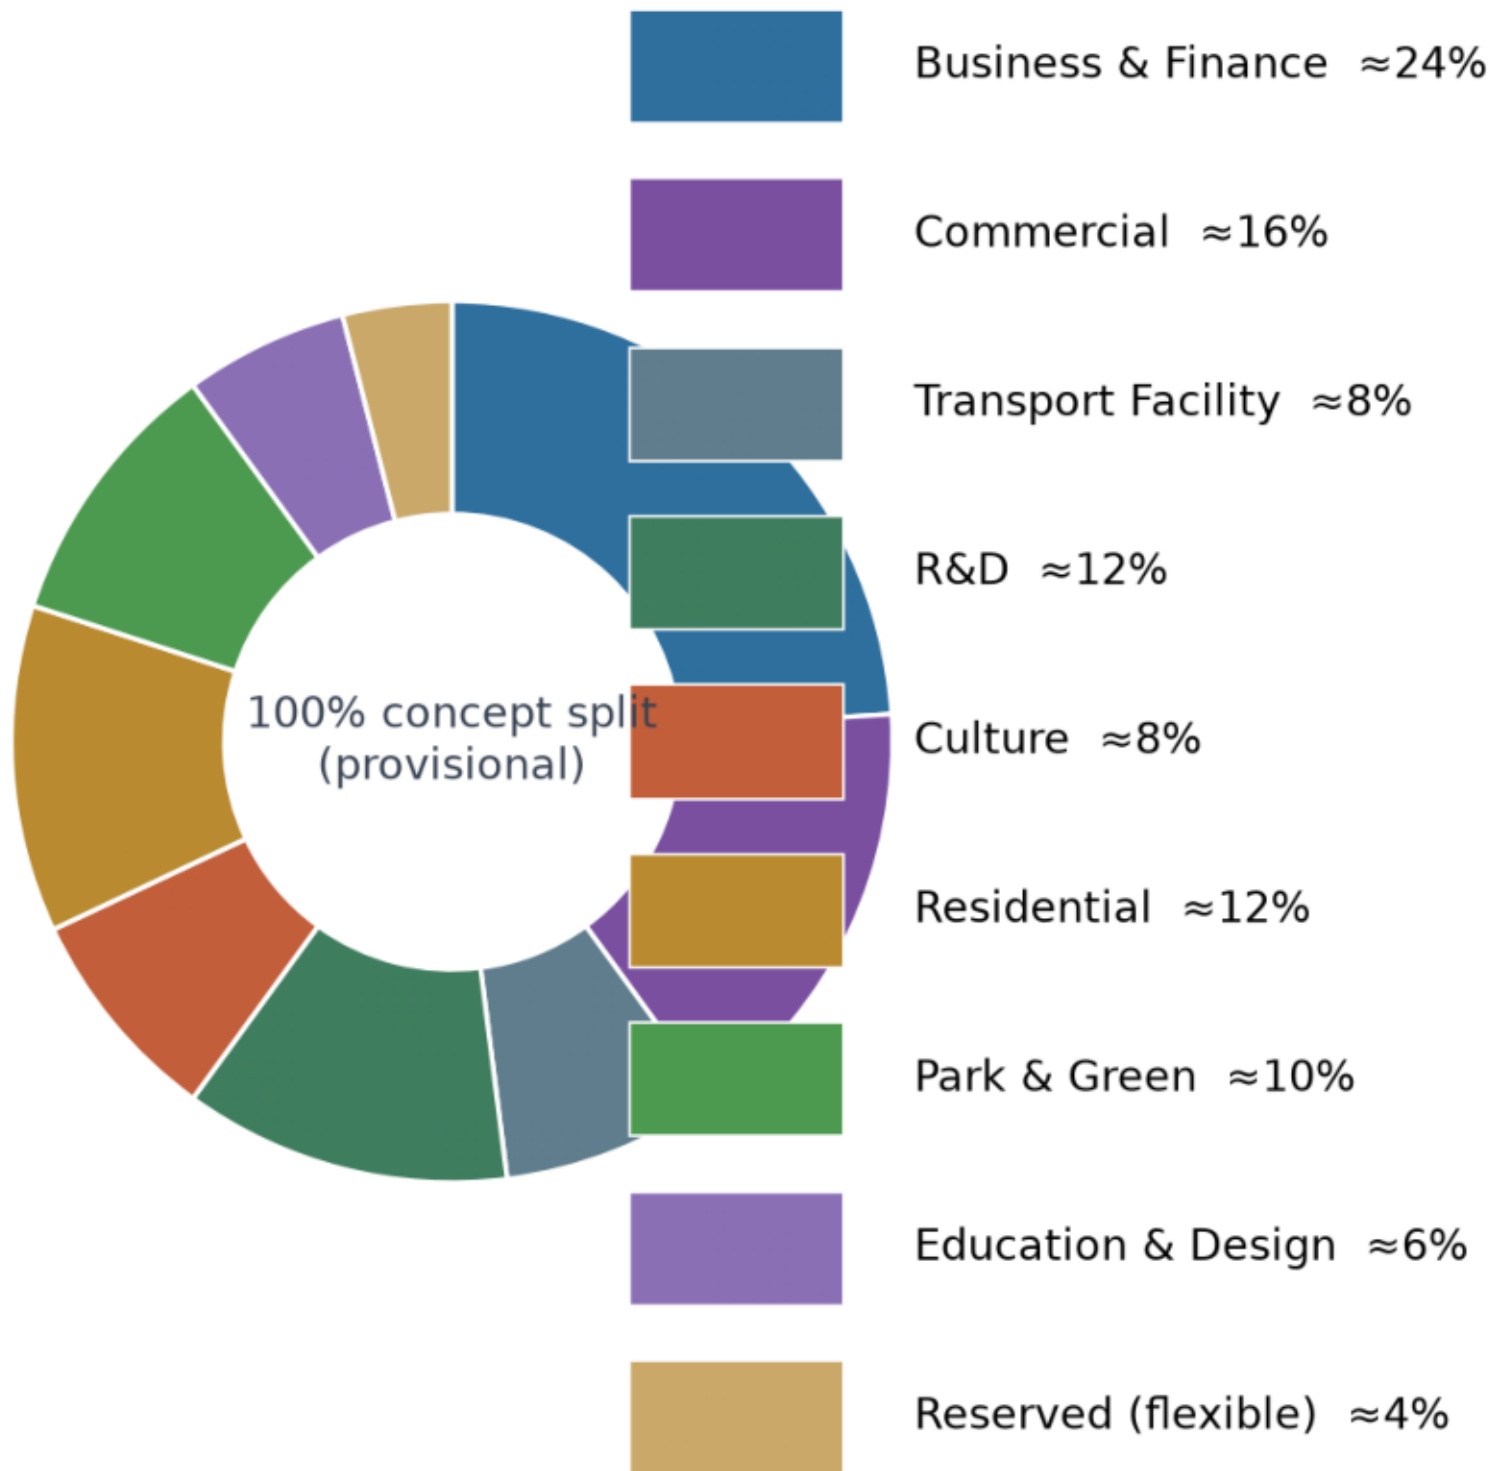

Official wording: 43.6 km² / 11.4 km² / 368.4 ha; provisional geometry

Provisional - non-official - recompute on official data

Overall Design Overview (provisional geometry)

Provisional concept - non-official - recompute after official data

Land-Use Structure (single-caliber concept shares)

Concept land-use split = 100% (provisional); recompute after official data

Provisional - non-official - recompute on official data

Land-Use Structure (single-caliber concept shares)

Provisional concept - non-official - recompute after official data

Three Key-Area Nodes Index (concept)

Basemap: package provisional geometry (EPSG:4548 recompute caliber)

Zhongzhiyuan AI Acceleration Area

Three Key-Area Nodes Index (concept)

Provisional concept - non-official - recompute after official data

Mobility & Blue-Green Network (concept)

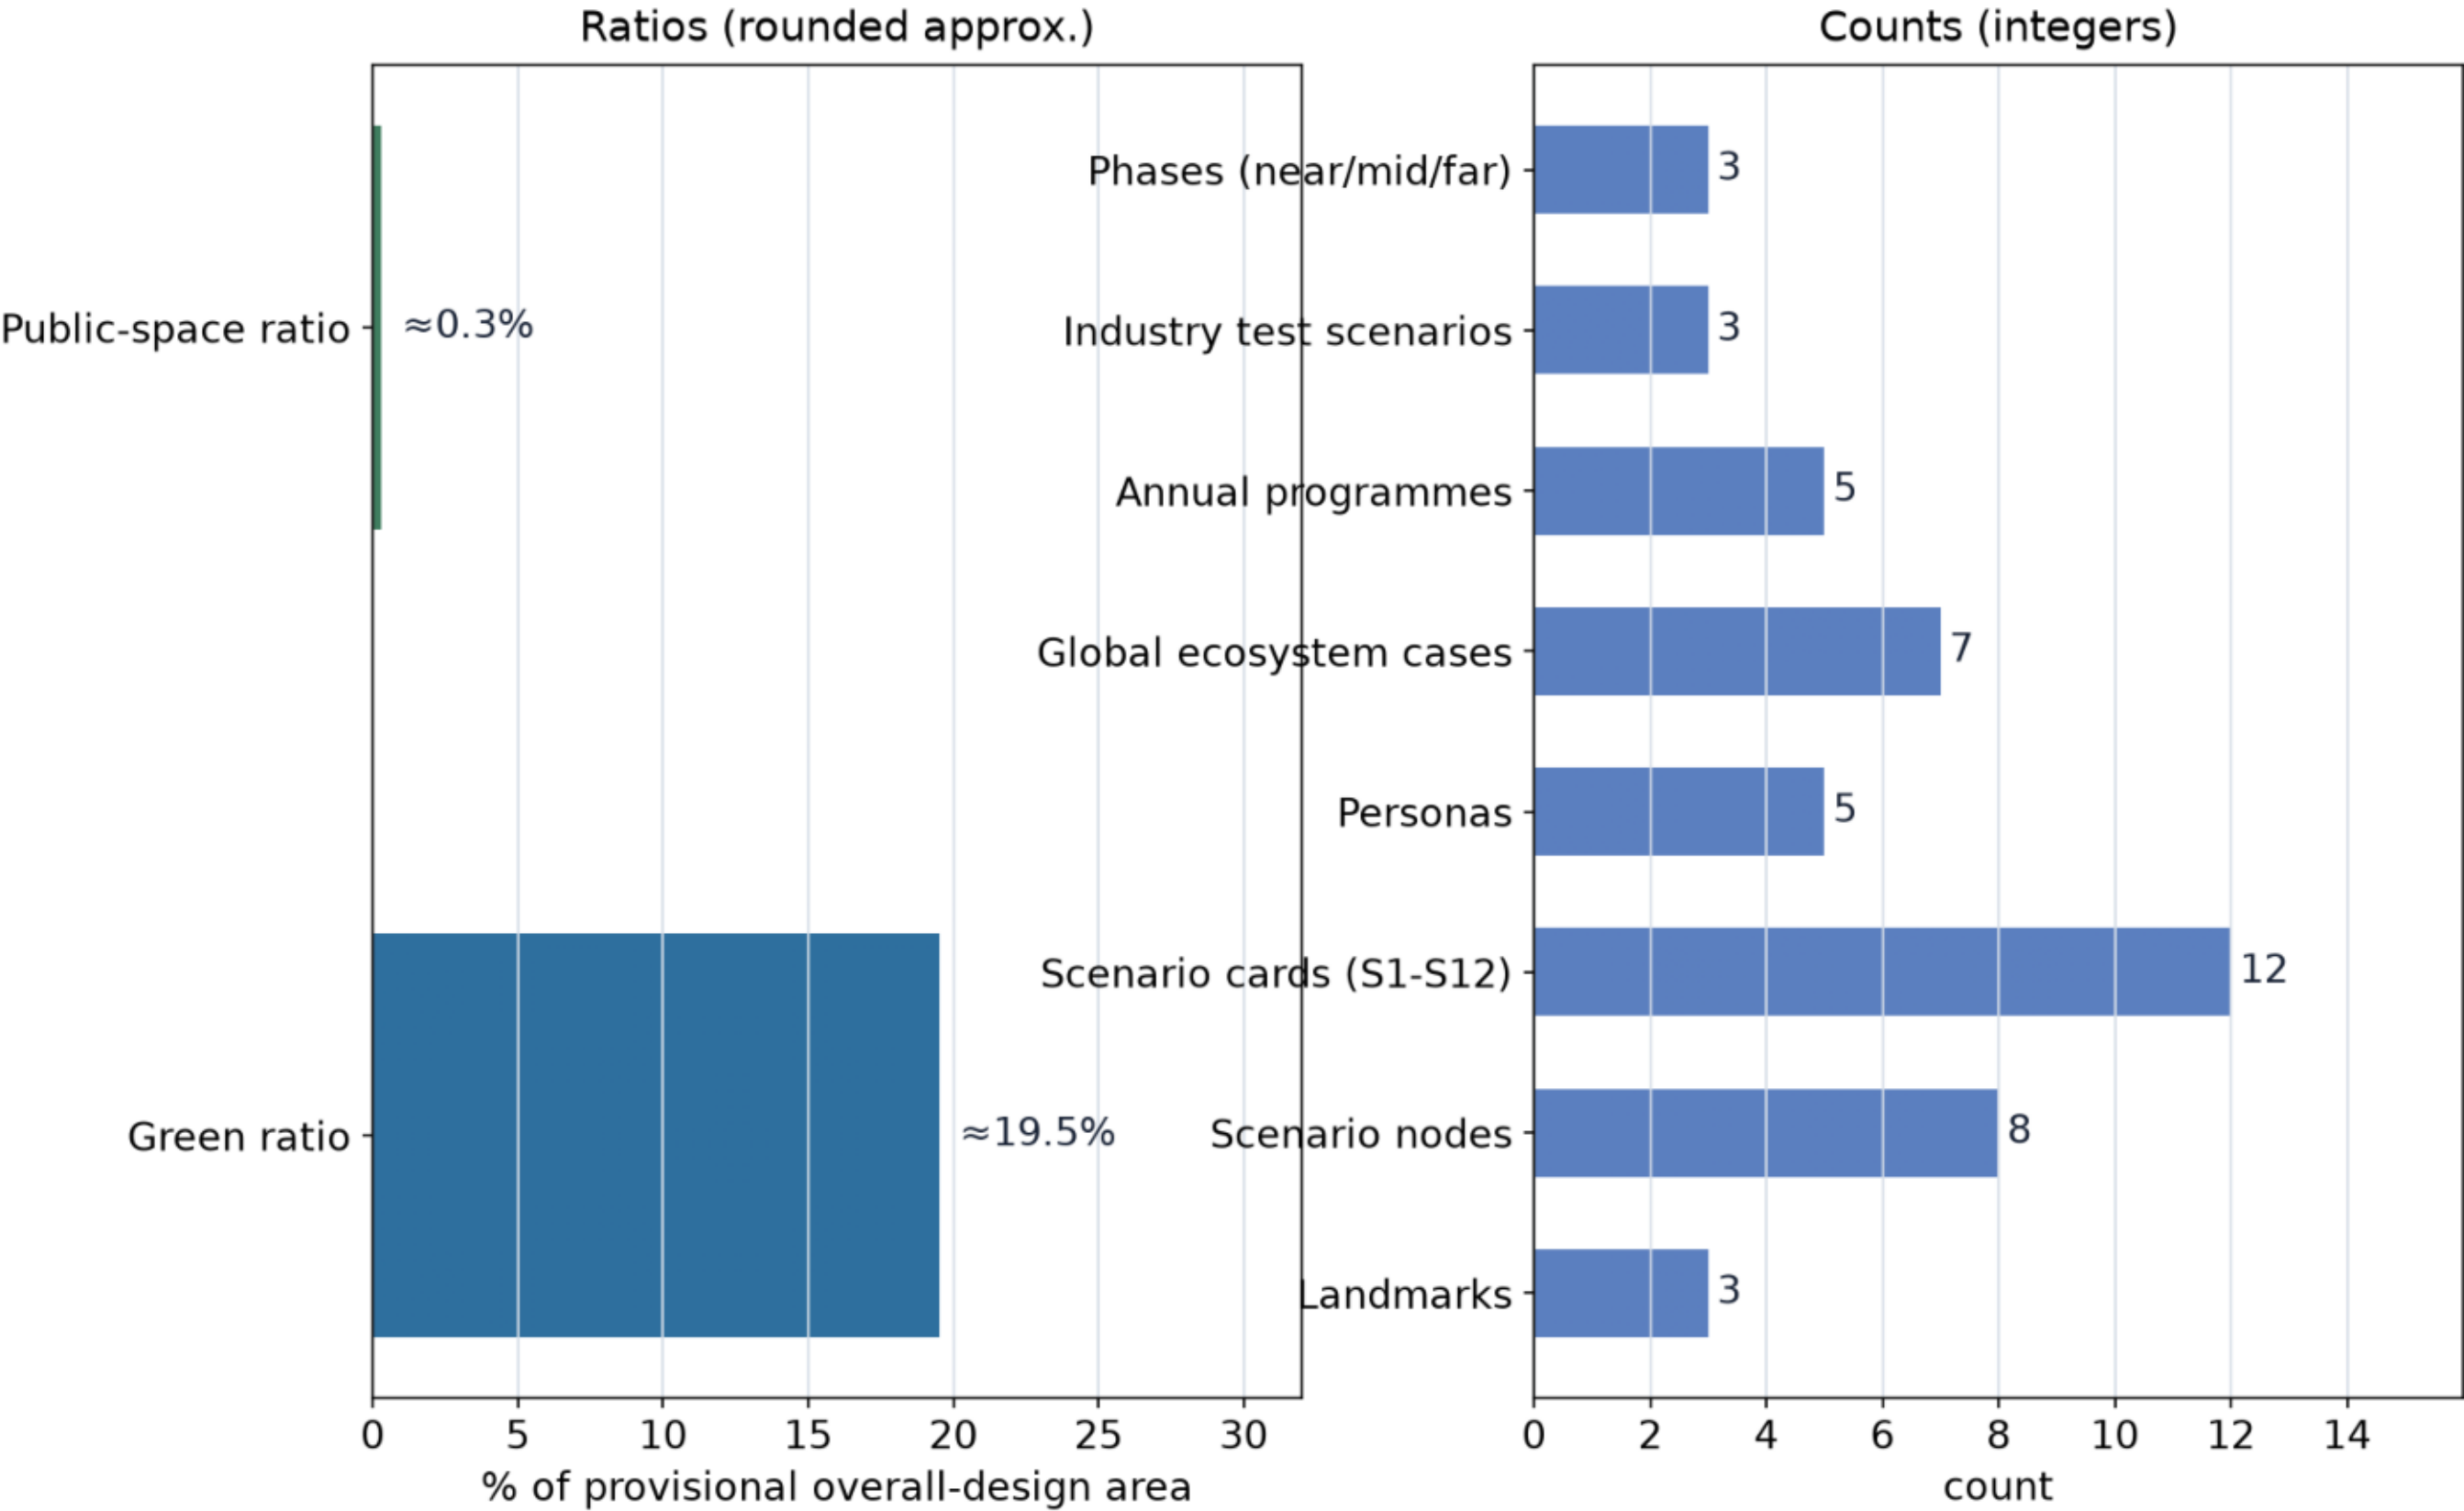

Basemap: package provisional geometry (EPSG:4548 recompute caliber)

Blue-green network and paths are concept organisation

Core Metric Evidence (metrics.json, provisional recompute)

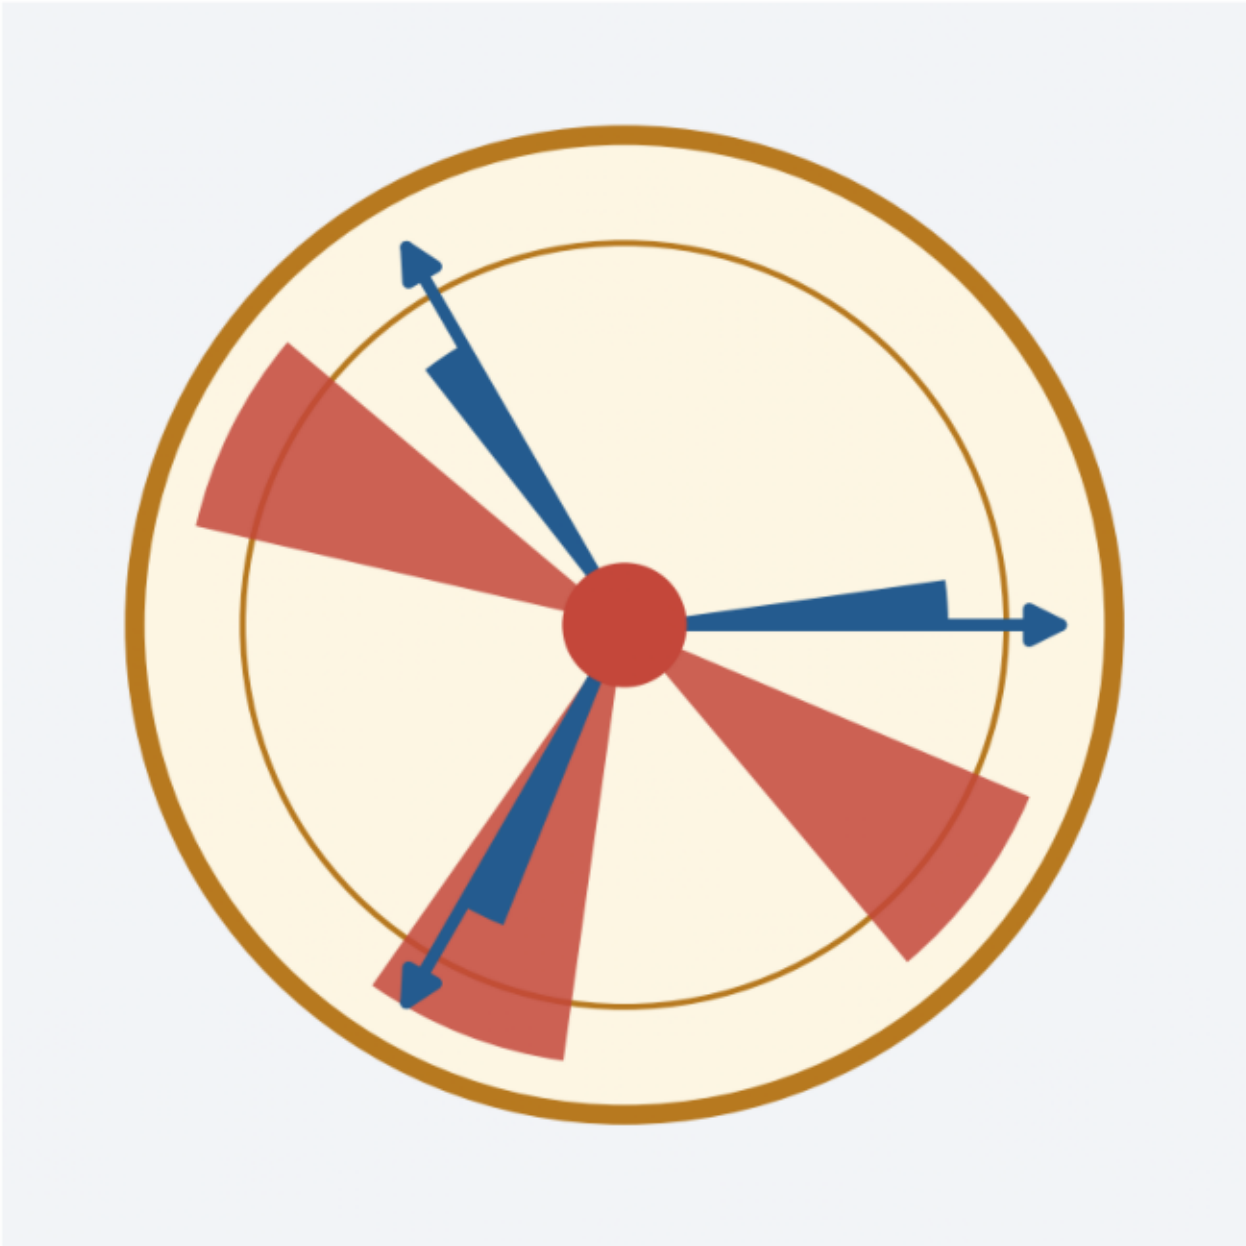

Source=metrics.json (provisional geometry) · confidence=low-medium · use=concept check · recompute=official boundary/control lines/ridership

Core Metric Evidence (provisional recompute)

Provisional concept - non-official - recompute after official data

Brand Logo & Visual Identity (concept, internal codename)

BellPivot AI Precinct

 Bell Bronze

 Pivot Blue

 Signal Red

Bell-wheel motif: bell ring + pivot hands + sound waves;
name and mark stay internal codenames until clearance

Provisional - non-official - recompute on official data

AI Industry Ecosystem Map (concept)

No node or link scale is presumed; data anonymized only, key decisions human-reviewed, no over-monitoring
