

CENTENNIAL JING-ZHANG AI BELT / OPEN URBAN DESIGN / 2026

PARALLAX JING-ZHANG

京张视差

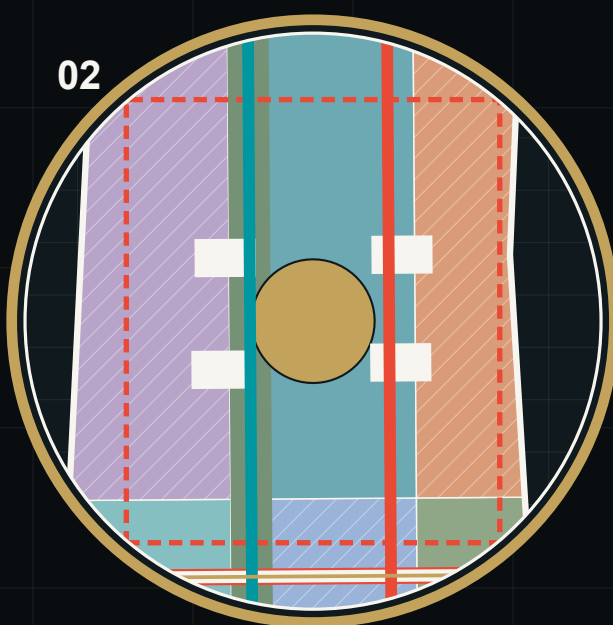

ONE CITY. MORE THAN ONE ANSWER.

Place model judgement beside lived experience, so the city can compare before it commits.

THREE YARDS, THREE SPATIAL GRAMMARS

The model line records system judgement; the lived line records bodily passage; windows let each correct the other.

02 PUBLIC PARALLAX FORUM

03 POST-ADOPTION MARKET

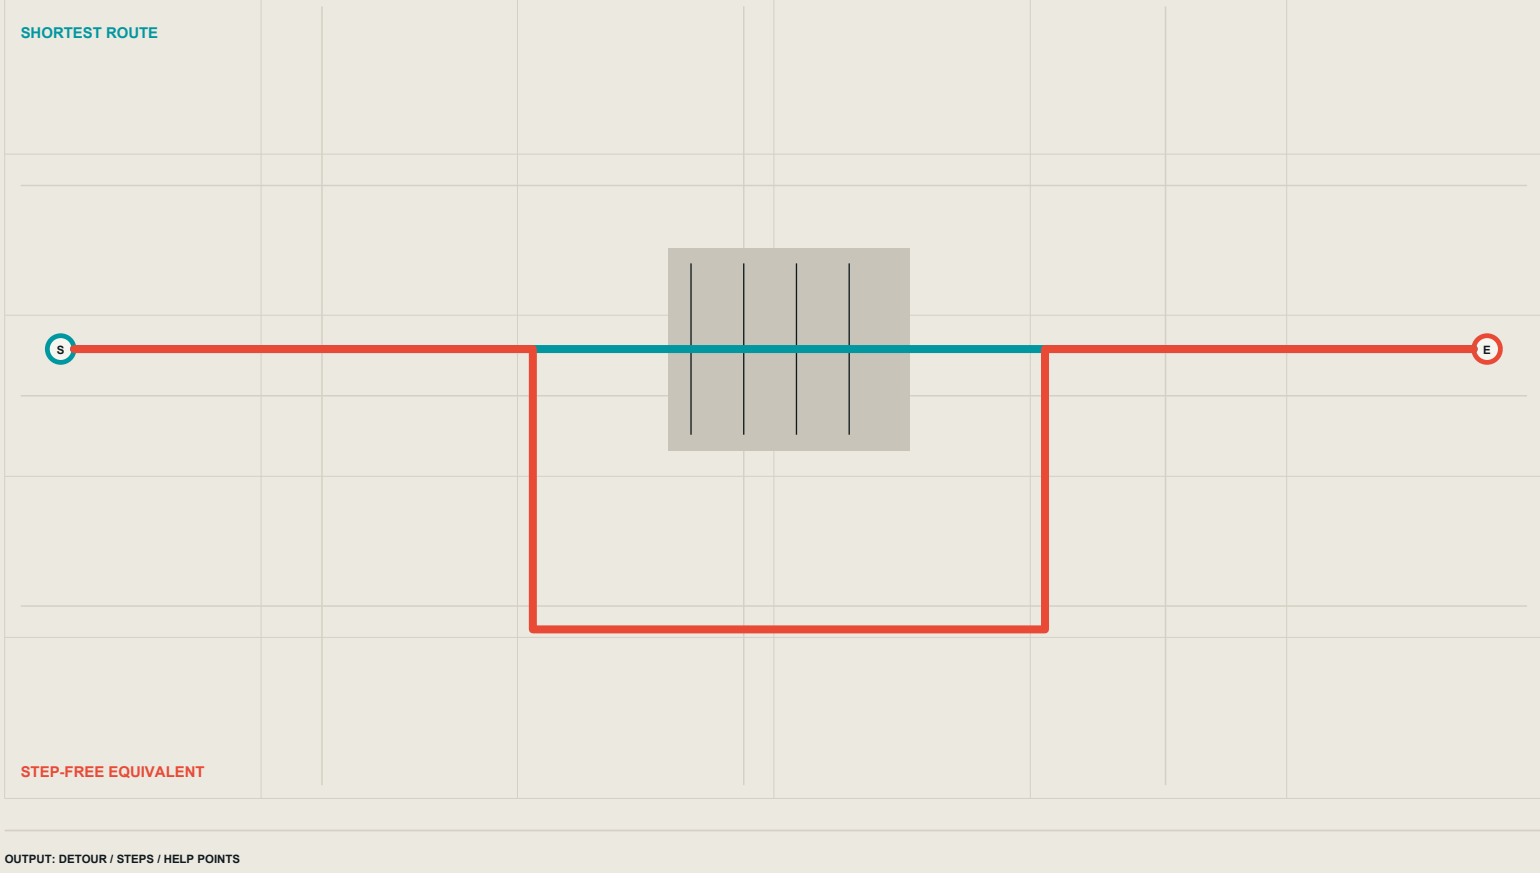

FIVE WINDOWS. FIVE DIFFERENT CHECKS.

One repeated symbol no longer stands in for difference: route, accountability, body, threshold and time each use a legible diagram.

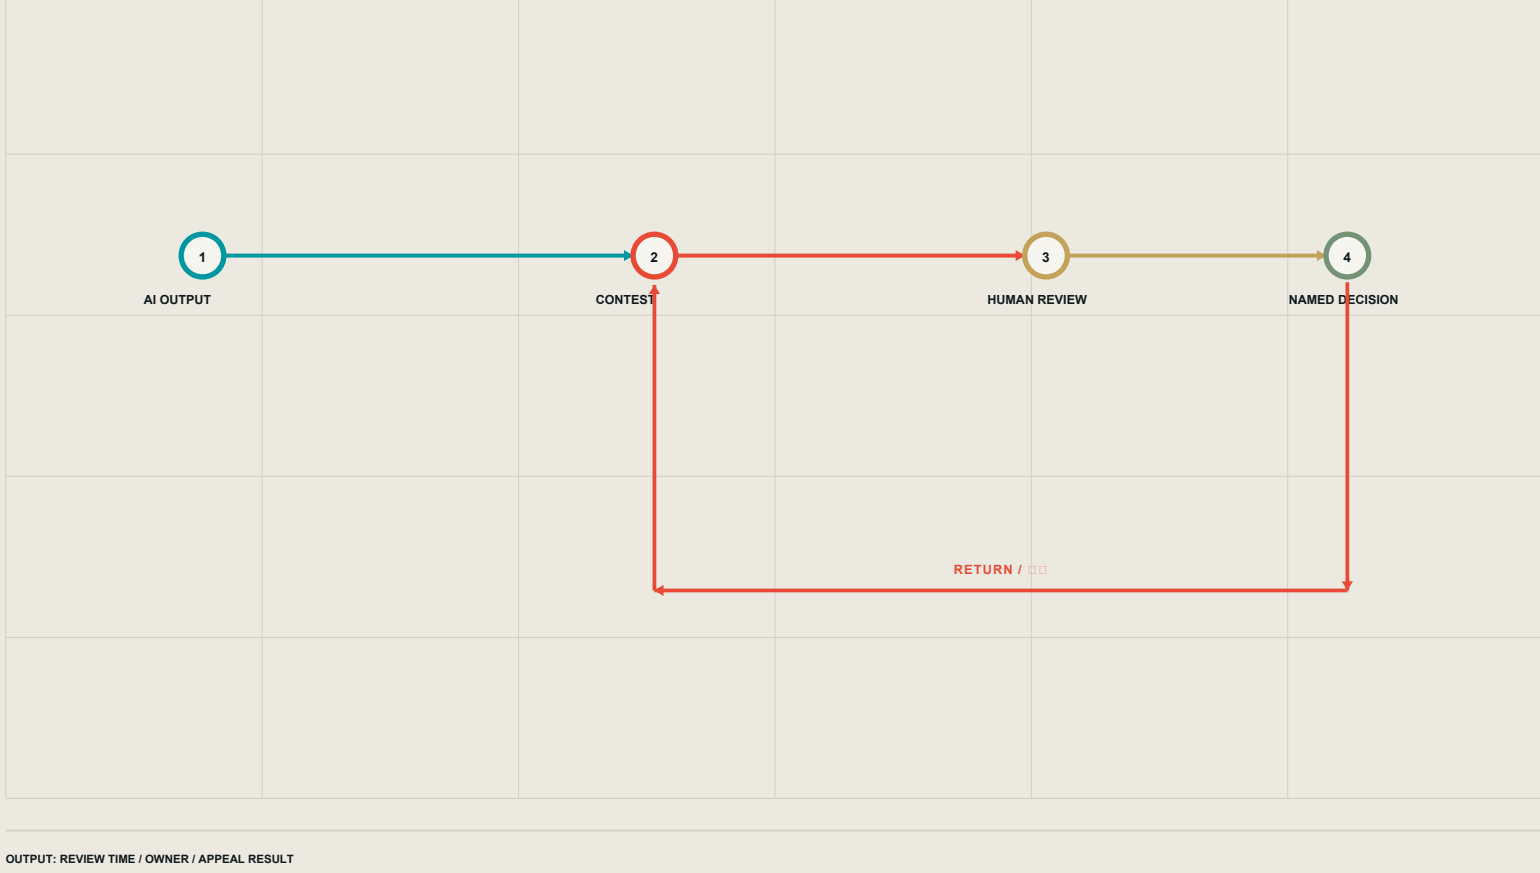

01 EQUIVALENT PATH

Can wheelchair users, cars and people without phones arrive equally?

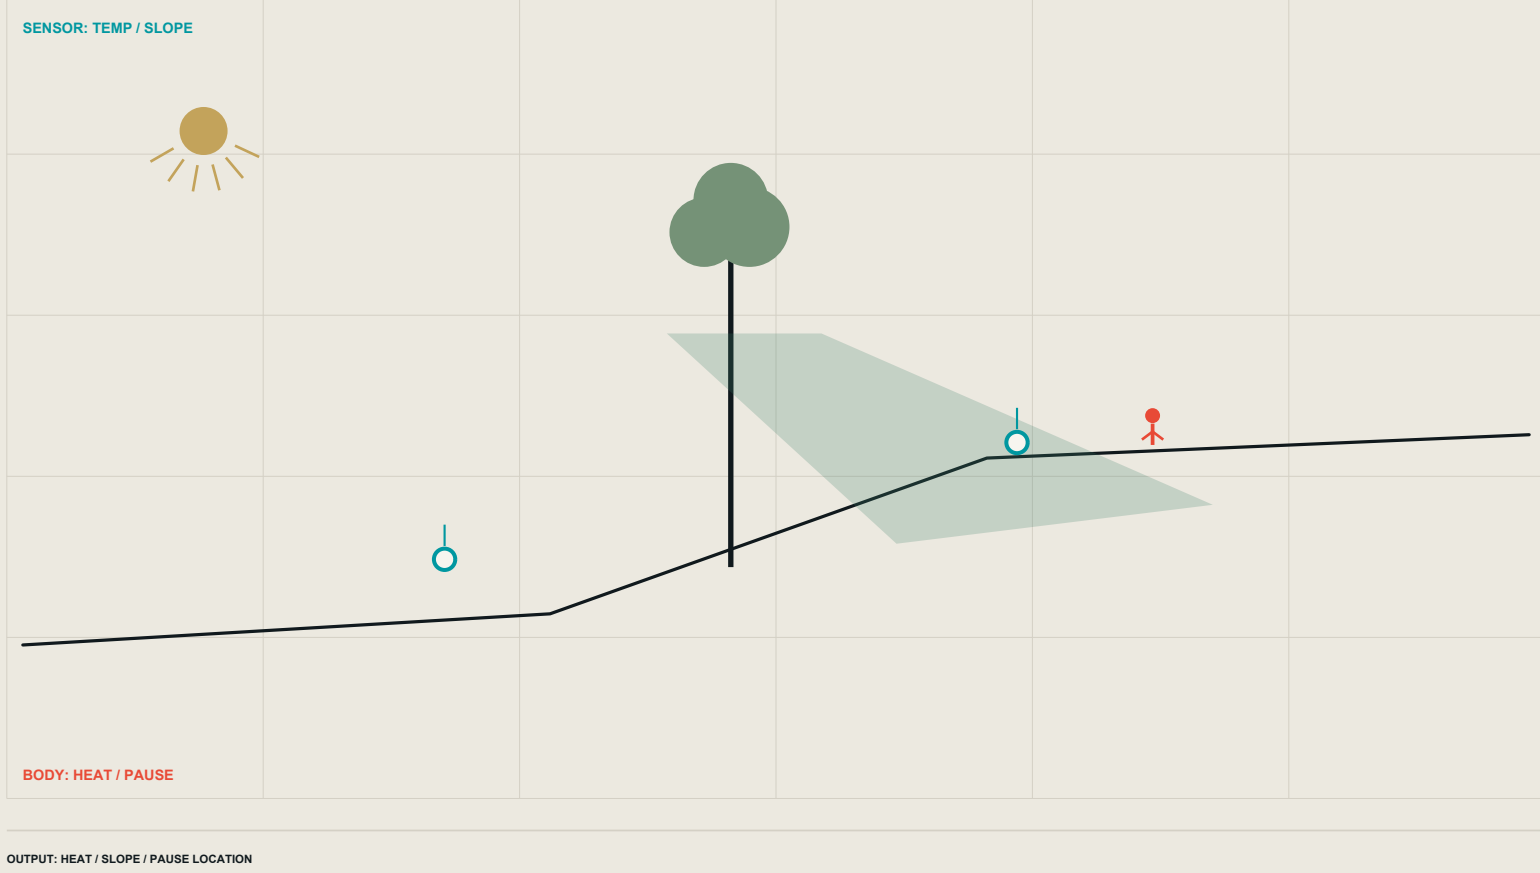

02 HUMAN REVIEW

Can a verified output reach a named person and return a decision?

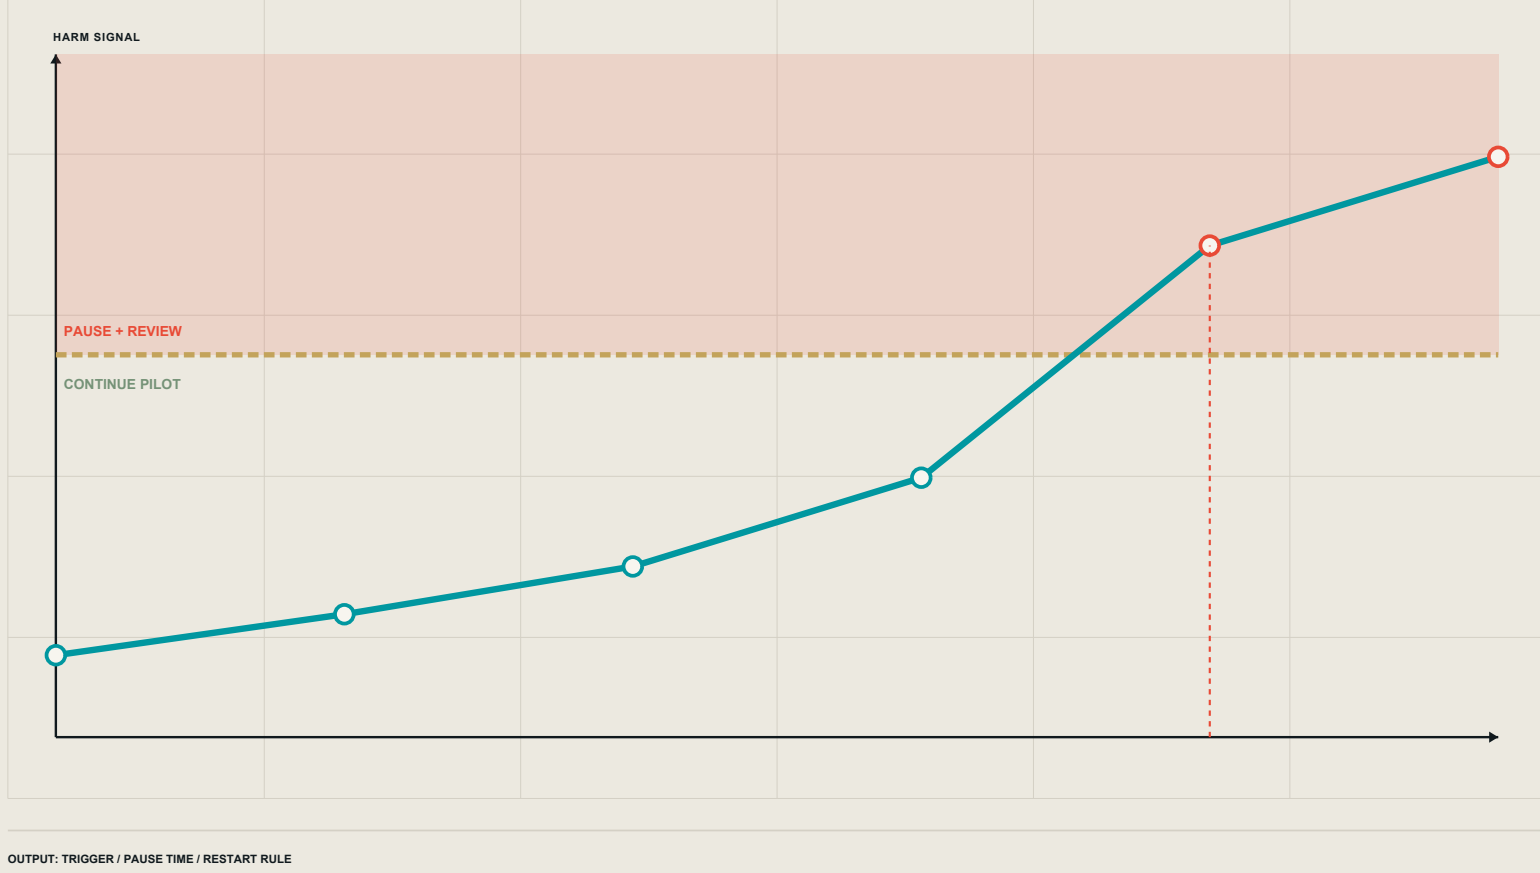

03 SHADE + SLOPE

Does sensor assessment agree with bodily heat and pass?

04 STOP TRIGGER

Which harm signal stops expression immediately?

05 POST-ADOPTION REVIEW

How far do long term outcomes diverge from launch promises?
