adopt · refer · reject · reuse

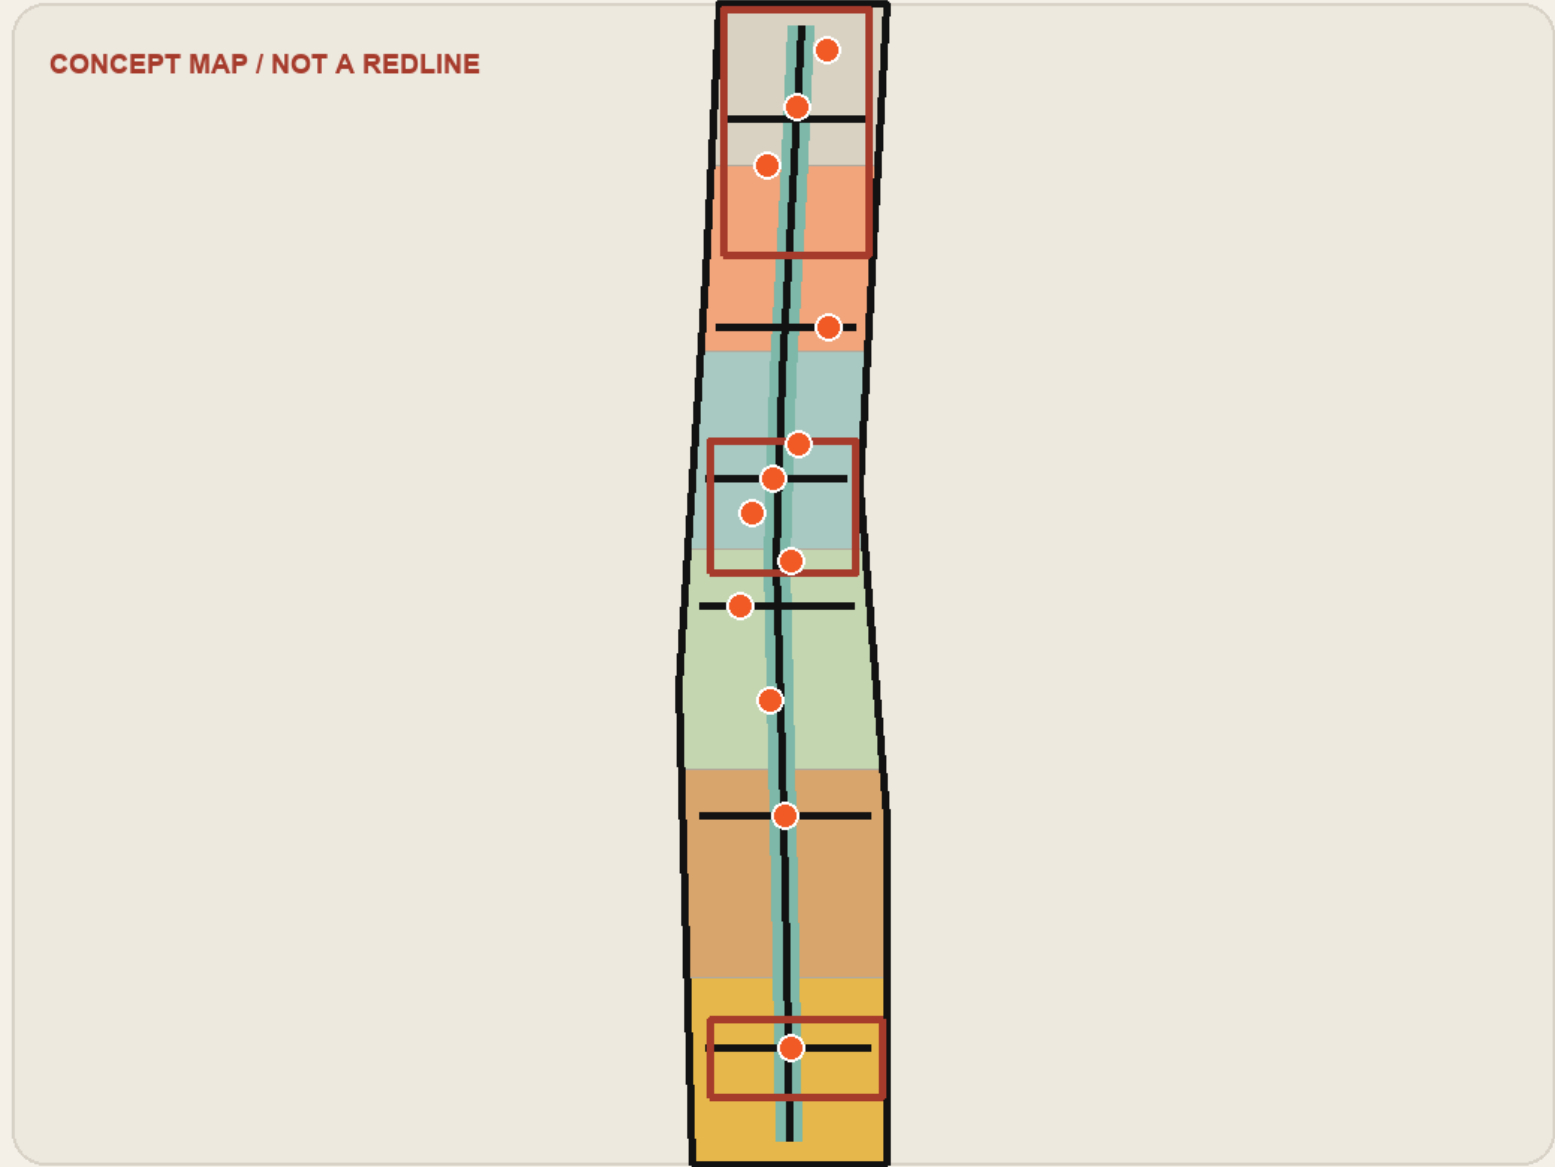

CORE PROPOSITION

The first city scene order matters more than the first urban agent.

SITE OVERVIEW

The park becomes a walk-in public intake spine; three stations own framing, testing and closure.

Zhongzhiyuan / Answer

Controlled validation and takeover
- 02

AI Origin / Frame

Turn needs into qualified orders
- 03

Dazhongsi / Close

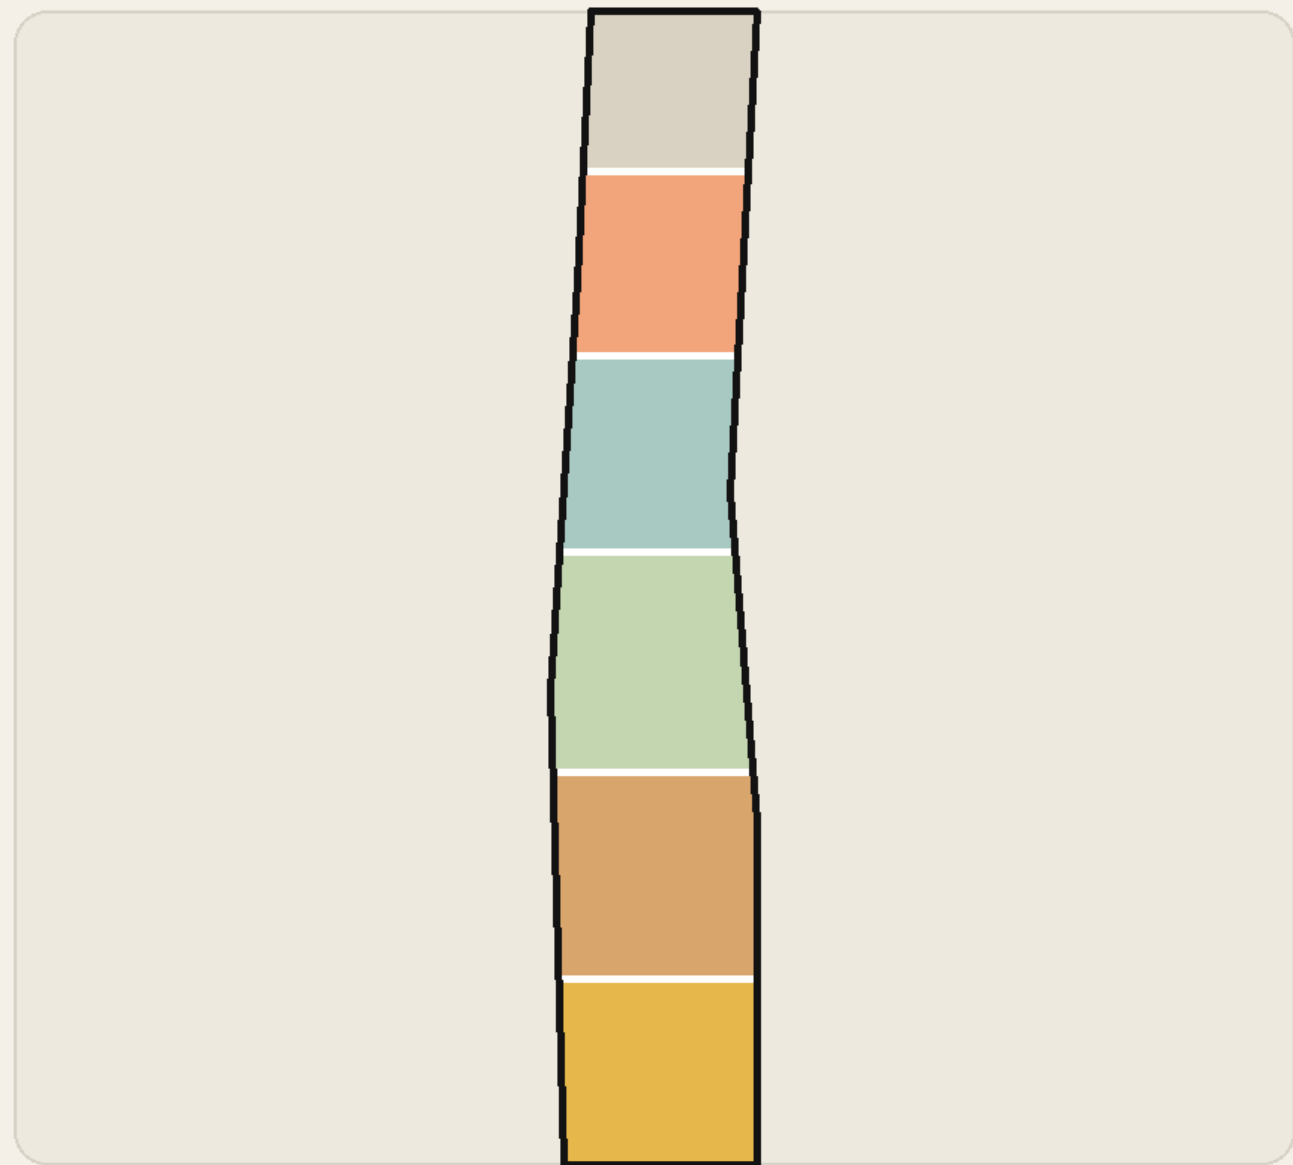

Adopt, refer, reject or retire
- Two Wings**

Xiaoyue River supplies lived problems; Zhongguancun supplies legal, IP, standards, finance and procurement services.

RELATIONSHIPS, NOT ZONING

Six shared-edge zones explain how urban space supports intake; CALL makes every order closable.

ONE ORDER, THREE FORMS OF WORK

Each provisional area receives a distinct responsibility, spatial interface and evidence gate.

TAKES THE CALL

01

ZHONGZHIYUAN / ANSWER

PROGRAM

Reproducibility bay · embodied-AI takeover drill · edge-AI offline test

EVIDENCE GATE

Gate: official polygon, safety operator, test SOP, withdrawal plan

02

AI ORIGIN / FRAME

PROGRAM

Problem-framing clinic · open-source first-user day · multilingual talent referral

EVIDENCE GATE

Gate: campus/park rights, IP, data and building conditions

03

DAZHONGSI / CLOSE

PROGRAM

Closure theatre · adoption desk · resident follow-up table · failure exhibition

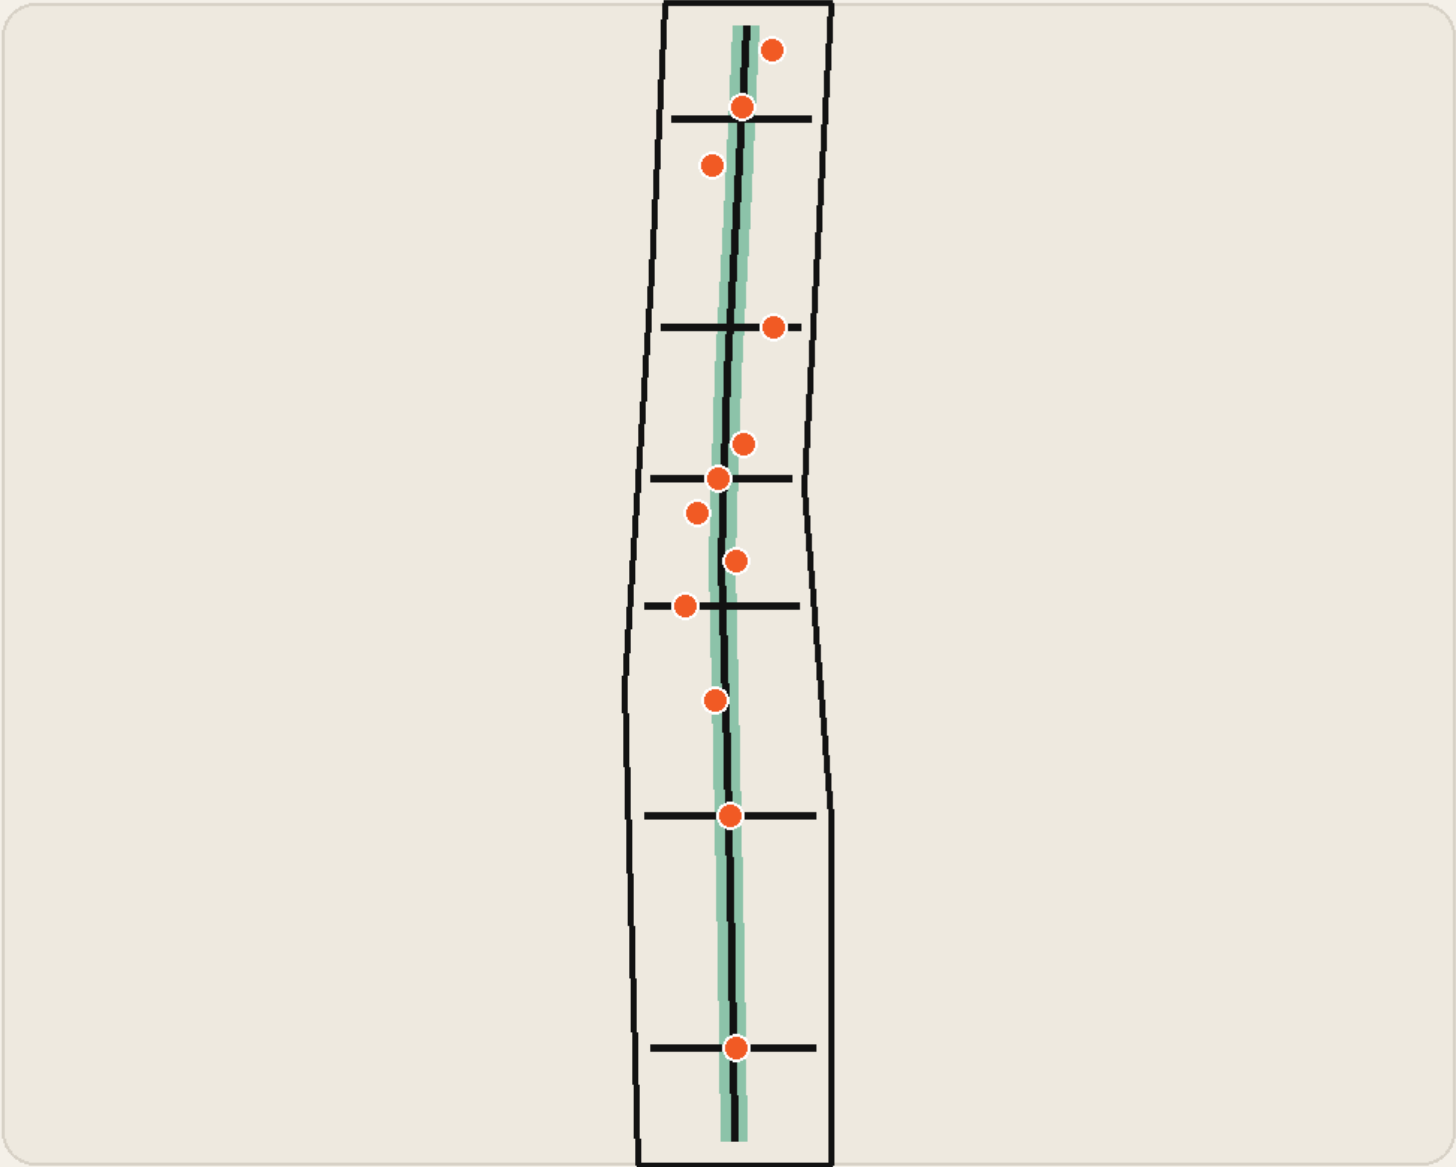

EVIDENCE GATE

Gate: official polygon, station/road/fire/ownership baseline

THE SYSTEM MUST STILL WORK WHEN TECH FAILS

One intake spine, six service seams and four equal access channels.
