

Jing-Zhang Temporal Stitch

9 Suture Nodes x 3 Temporal Clocks x 4-Layer AI

- 1. Knowledge Permeation - university/community knowledge interface
- 2. Tidal Weave - commuter flow temporal allocation
- 3. Innovation Incubation - tech park/residential transition
- 4. Intergenerational Weave - school/elderly care shared space
- 5. Natural Permeation - ecological corridor/urban drainage coupling
- 6. Commercial Suture - street commerce/park vitality symbiosis
- 7. Memory Anchor - railway heritage in-situ display
- 8. Health Suture - medical/wellness/greenway connection
- 9. Data Suture - sensor network/citizen feedback integration

Three Key Areas Detailed Design

Zhongzhiyuan AI Acceleration Area (192.1 ha)

- Qinghe interface, industry exhibition, low-carbon innovation exchange
- Suture nodes: Knowledge Permeation, Tidal Weave

Beijing AI Origin Community (104.3 ha)

- Campus-park stitching, achievement release, talent community
- Suture nodes: Innovation Incubation, Intergenerational, Natural Permeation

Dazhongsi AI Industry Cluster (72.0 ha)

- Station integration, four-quadrant pedestrian connection, smart terminals
- Suture nodes: Commercial Suture, Memory Anchor
