

ONE SPINE · TWO LOOPS · THREE ORIGINS

The rail-memory spine links three differentiated origins through walkable, testable and continuously operated civic interfaces

SPINE

Rail memory + Open Walk

TWO LOOPS

West validation / East civic

ORIGINS

Zhongzhiyuan / AI Origin /
Dazhongsi

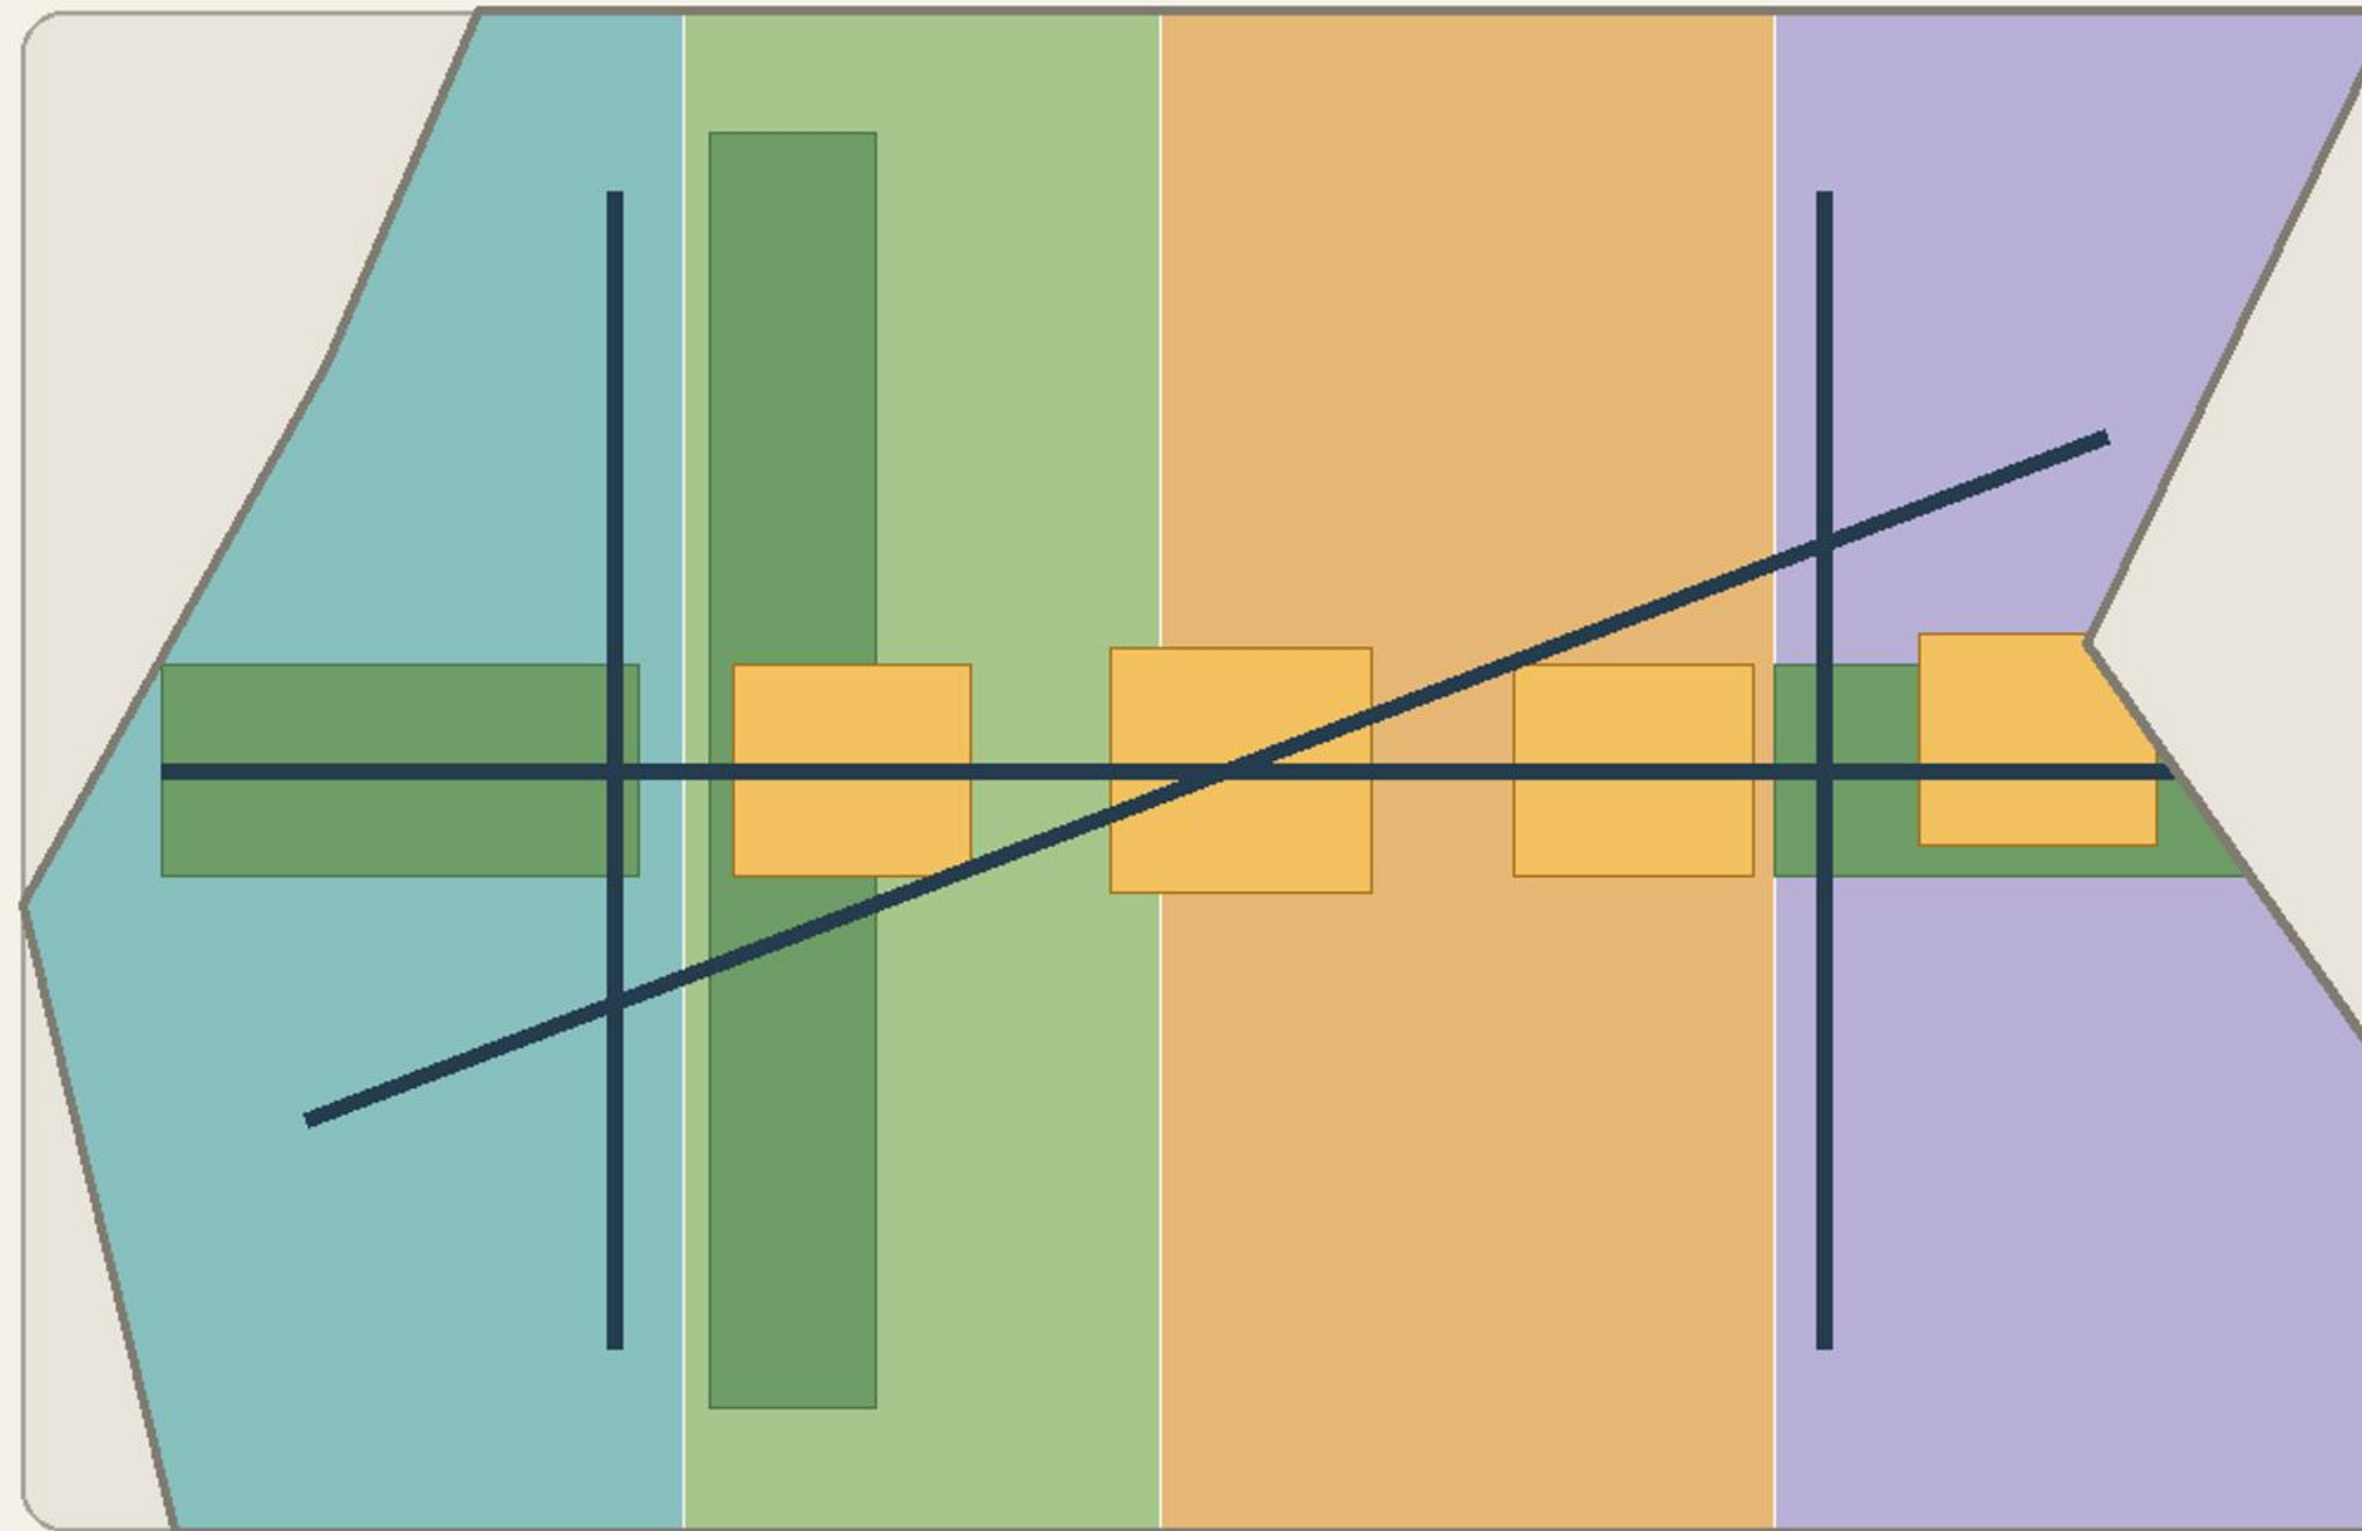

CIVIC INTERFACES

Issue Plaza / Merge Forum /
Commit Garden

Data: submission GeoJSON. Boundary is provisional, not an official planning redline.

THREE ORIGINS, ONE COMMONS

Zhongzhiyuan validates the stack; AI Origin converts research and talent; Dazhongsi hosts terminals, global exchange and urban living labs

SPINE

Rail memory + Open Walk

TWO LOOPS

West validation / East civic

FROM DESIGN JUDGEMENT TO RECOMPUTABLE EVIDENCE

Metrics derive from GeoJSON with provisional-boundary warnings; scenarios and governance are managed through lists and stage gates

Data: submission GeoJSON. Boundary is provisional, not an official planning redline.
