

PAR-JZ Participation Loop

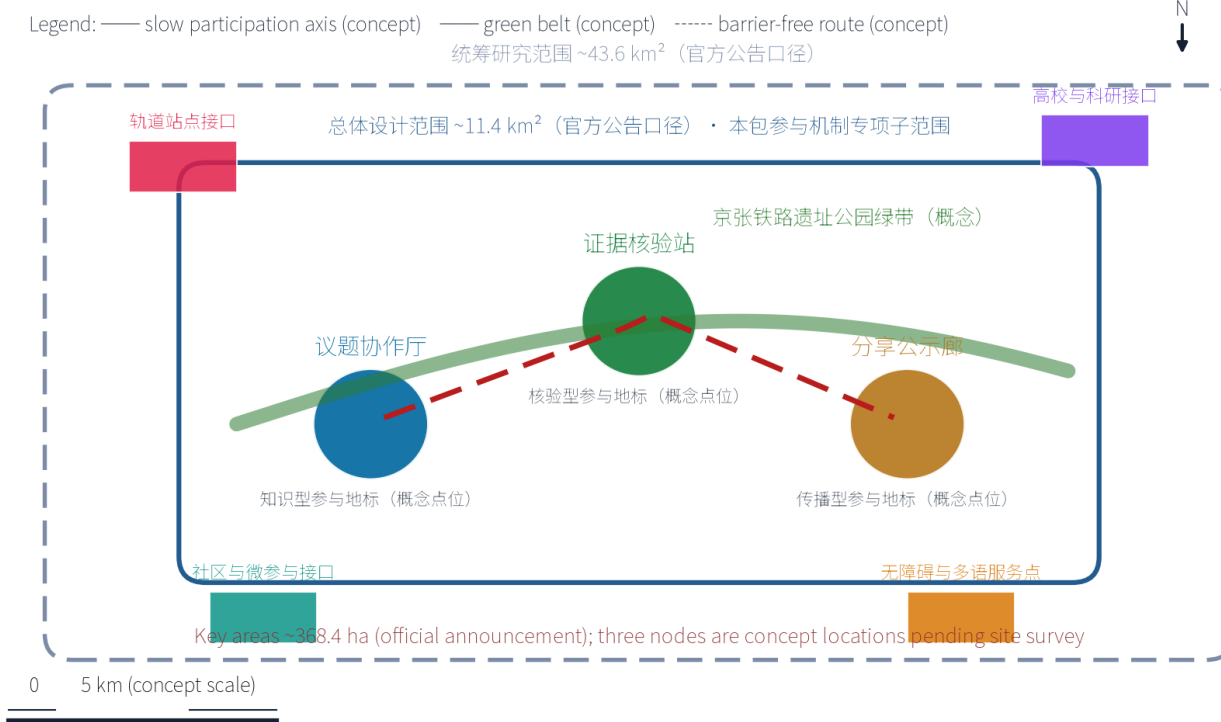

Public participation and continuous collaboration mechanism · Concept (provisional boundary, not an official redline; recompute after official data release)

Three-Areas-Two-Wings, Three Positionings and Five Functions Framework (concept mapping; not an officially authorized caliber)

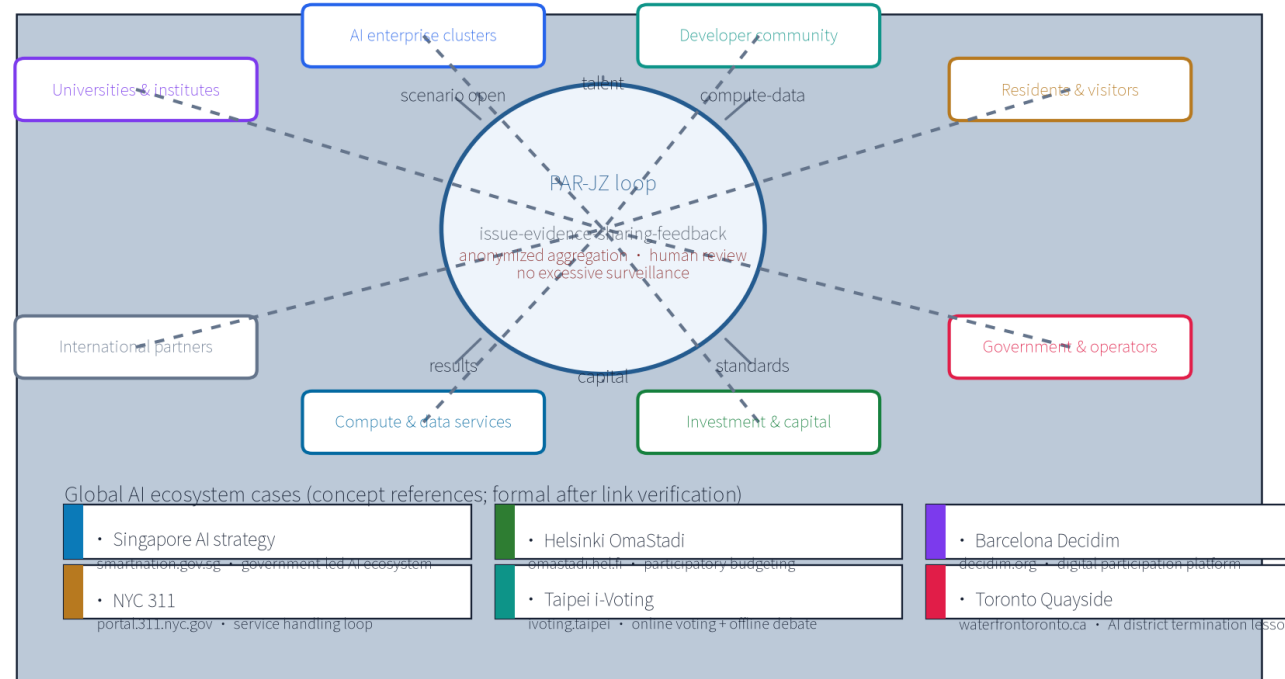

PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published 临时概念边界，非官方红线，官方数据发布后重算

Overall Design Area - Concept Overview (provisional geometry)

AI Innovation Ecosystem Map (concept: actors, flows and open interfaces)

PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published | 临时概念边界，非官方红线，官方数据发布后更新

Three positionings (culture/life/innovation belts) mapped to five functions (concept)

Three-areas-two-wings synergy interfaces: Beiwei community, Future Science City, Huairou Science City, econ-dev zone, Jing-Jin-Ji (concept)

Official three-tier scopes: ~43.6 km² / ~11.4 km² / ~368.4 ha (announcement caliber)

This package's sub-scope: participation mechanism inside the overall design area (provisional)

Public participation and continuous collaboration mechanism · Concept (provisional boundary, not an official redline; recompute after official data release)

Issue Trail	Evidence Solution	Sharing Gallery
knowledge landmark (concept)	verification landmark (concept)	communication landmark (concept)
issue collaboration hub	data registration + cross-check	publication + social sharing
- public issue intake + issue workflow - evidence checklist + replies - issue clustering AI desk	- provenance registration + dedup - cross-verification + unvetted flag - reproducibility AI desk	- reproducible links + status - sharing rules + human review - honor display + email honor board
interfaces (concept)	interfaces (concept)	interfaces (concept)
- rail station	- heritage park	- visitors & culture
- university	- professional teams	- barrier-free access
neighborhood mini-participation	multilingual service	- develop community
Status: submitted / reviewed / selected / implemented	Status: submitted / reviewed / selected / implemented	Status: submitted / reviewed / selected / implemented

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published 临时概念边界，非官方红线，官方数据发布后复算

[illegible]

All displayed values are reduced-precision concept calibers (participant, provisional model data, not authoritative). Ratio and count metrics never share one axis; this diagram shows the evidence chain, not a value comparison.

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published 临时概念边界，非官方红线，官方数据发布后重新计算

Conceptual land-use structure (single caliber): eight classes summing to 100%; recompute after official release

6 global AI ecosystem cases (concept), 10 scenario cards and 3 industry test protocols (see narrative)
