概念示意 | 参与者临时模型数据, 非权威数据 | Concept diagram based on provisional geometry; participant provisional model data, not authoritative data.
临时概念边界 | 非官方红线 | 官方数据发布后复算 | PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15

provisional ■■ · ■■■■■ · ■■■■■■■■■■

Three-Areas-Two-Wings, Three Positionings and Five Functions Framework (concept mapping; not an officially authorized caliber)

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published | 临时概念边界、非官方红线、官方数据发布后复算

Three-Node Concept Index and Design Task Diagram (differentiated participation landmarks)

PAR-JZ participation loop (concept): raise issue → verify evidence → share & publish → feedback; the three nodes cycle continuously

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published | 临时概念边界、非官方红线、官方数据发布后复算

AI Innovation Ecosystem Map (concept: actors, flows and open interfaces)

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute 当 official data is published | 临时概念边界、非官方红线、官方数据发布后复算

■ AI ■■■■■ ×6■■■■■

$$10^5 \cdot 10^3 = 10^8$$

PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published | ■■■■■■

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published | 临时概念边界、非官方红线、官方数据发布后复算

Slow Mobility and Blue-Green Network Concept Analysis (participation routes and accessibility)

PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published |

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published | 临时概念边界、非官方红线、官方数据发布后复算

Core Metric Evidence Chain (recomputable caliber; not conclusive values)

geometry layer → formula recompute → reduced-precision display (provisional)

Metric	Formula / data source (confidence)	Displayed value (reduced precision)	Recompute trigger
site_area_sqm	polygon area (provisional boundary, EPSG:4548) conf: medium	about 11.4 km² (11,412,825 m²)	recompute on official geometry
green_ratio	green_space_area / site_area conf: low	0.11 (about 11%)	recompute on green-line data
public_space_ratio	public_space_area / site_area conf: low	0.0032 (about 0.3%)	recompute on land-use data
Issue response rate	issues answered / issues raised (process observation) conf: low	no hard target	annual review
Feedback handling rate	opinions answered / opinions received (process) conf: low	no hard target	annual review
Share compliance rate	compliant shares / all shares (human-reviewed sample) conf: low	no hard target	annual review

All displayed values are reduced-precision concept calibers (participant provisional model data, not authoritative). Ratio and count metrics never share one axis; this diagram shows the evidence chain, not a value comparison.

Participant provisional model data, not authoritative data. Concept diagram based on provisional geometry; official redlines are not represented.
PROVISIONAL: concept boundary only, not an official redline; recompute when official data is published | 临时概念边界、非官方红线、官方数据发布后复算
