

JINGZHANG BEACON: Overall Concept

One spine (signal green belt) · Three beacons (verify/open/experience) · Two wings · Three-colour signal language

Boundary is provisional, discussion only [source:BOUNDARY-SOURCE]

Three Beacons: Verification (Amber) / Open Source (Green) / Experience (Red-Blue)

Zhongzhiyuan Verification Beacon AMBER

AI Origin Open-Source Beacon GREEN

Dazhongsi Experience Beacon RED•BLUE

Full-stack validation: Qinghe front - verification axis - research units
Three-tier gate: virtual eval -> lab -> street pilot
[data:geometry/key_areas.geojson#PROV-KEY-001]

Campus-adjacent open-source community: stitching axis - plaza - living
Open first, then commercialise: knowledge into the commons
[data:geometry/key_areas.geojson#PROV-KEY-002]

Native intelligent experience: station 4-quadrant - culture - commerce
Selectable, exitable, human review as the baseline
[data:geometry/key_areas.geojson#PROV-KEY-003]

Core Metric Recalculation and Three-Colour Signal Evidence Chain
